11/30/04            R04-04-003            Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

**Summary:** On November 29, 2004, Bruce C. Foster, Vice President, Regulatory Affairs of Southern California Edison Company (SCE), met with Julie Fitch, advisor to Pres. Peevey, in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, Colin E. Cushnie, Director, Regulatory Affairs of SCE, and Roy Kuga, William Manheim, Ray Williams, and Erik Jacobson, Pacific Gas and Electric Company (PG&E). Written material (attached to the notice) was used. SCE representatives expressed general support for ALJ Brow's proposed decision (PD). However, SCE requested that the PD be modified to explicitly permit CPCN applications for certain utility projects. SCE requested that the PD be modified to state that stranded costs incurred as the result of utility commitments that benefit all customers be assessed to all customers, and not just departing bundled load. SCE expressed concern that the PD's adoption of a carbon adder could unnecessarily add costs to SCE's bundled customers without any associated benefits. SCE requested that the Commission clarify what is meant by the requirement that utilities procure the maximum feasible amount of renewable energy. SCE also requested to change the requirement that pre-approval be sought for all contracts with terms of three years or greater. Finally, SCE agreed with PG&E that the PD should be modified to reflect a 30% debt equivalence factor.
