- 12/31/04 R02-06-001 Order Instituting Rulemaking on policies and practices for advanced metering, demand response, and dynamic pricing.

Summary: LATE FILED. On December 23, 2004, Steven Moss, Executive Director of San Francisco Community Power (SF Power), sent to ALJ Cooke comments, via email (copies attached to the notice). The comments related to Pacific Gas and Electric Company's (PG&E) 'Proposal Concerning Working Group 2 Programs and Related Issues'. SF Power noted that the utility does not provide sufficient details to fully comment on its proposal. SF Power noted that SF Power is currently implementing energy efficiency, demand-response, and renewable programs in the City. Moss indicated that it is unclear how PG&E is defining 'cooperative'. SF Power explained that there are conflicting state and federal statutes relating to what constitutes a cooperative structure, which makes it difficult for large number of parties to

participate in 'traditional' cooperative arrangements. Moss also stated that, by willfully ignoring SF Power's current activities, PG&E seems to be using this initiative both to obtain load shifts, and to disrupt the operations of an existing, community-based and the CPUC-funded entity. SF Power commented that, in this respect, it would seem as if PG&E should be required to follow similar 'affiliate' rules as those proposed for energy efficiency measures.
