Public Workshop Notice – Automated Data Exchange Workshop

June 6, 2007

9 am - noon

Pacific Energy Center

851 Howard Street

San Francisco

Pursuant to Ordering Paragraph 12 in D.06-07-027, Pacific Gas and Electric Company (PG&E) will hold a second workshop for all interested parties on June 6, 2007, to discuss PG&E's proposed 12-24 month delay in submitting an Automated Data Exchange (ADE) application. The filing would include PG&E's proposal for an ADE service that would allow parties, such as customers, energy consultants, and energy managers, to obtain, with customer permission, automated daily access to **SmartMeter™** gas and electric consumption data from multiple meters. The ADE service is separate from the Customer Web Presentment service that will provide customers access to their own data via the internet. Customer Web presentment is still scheduled to be rolled out concurrent with **SmartMeter™** system deployment.

Since the first workshop on March 8, PG&E conducted a market assessment which determined limited or insufficient interest in the ADE service at this time. PG&E would like to delay formulating the ADE proposal by 12-24 months when interval meters will be more widely installed and greater familiarity with such data is likely to exist. A 12-24 month delay will also allow for potential new technology developments to be considered in this proposal.

At this workshop, PG&E will present the results of the market assessment, alternatives to the ADE service, the advantages of delaying the ADE proposal and current cost estimates for providing ADE. Customers will be given an opportunity to comment on this proposed delay.

If you plan to attend the workshop, please RSVP to Stella Zahariudakis at 415.973.4208, or email her at SxZc@pge.com by May 30.
