The Commission's policy is to schedule hearings (meetings, workshops, etc.) in locations that are accessible to people with disabilities.

The CPUC encourages all Californians to participate in its meetings, hearings, workshops, and proceedings. We try to hold our public meetings only in places that are wheelchair accessible and which can accommodate specialized equipment and other services useful to people with disabilities. Please see the notice of the meeting you wish to attend for more specifics.

If you plan to attend and need specialized accommodations for a particular meeting that are not listed in the notice, request them from the Public Advisor's Office at least three business days in advance of the meeting. Contact the Public Advisor's Office by any one of the following:

The ALJ Division has prepared **Resolution ALJ-209** for the November 1, 2007 Commission Agenda. This resolution Affirming Citation FC-104 issued to Lincoln Limousine Services, Inc.

This Resolution resolves the appeal of Field Citation 104 (FC-104), issued to Lincoln Limousine Services Inc. by the Commission's Consumer Protection and Safety Division on May 10, 2007. FC-104 was issued with a fine in the amount of \$1,250 for limousine service operations after the expiration of Commission authority and failure by Lincoln Limousine to have its employees covered under workers' compensation insurance requirements, subject to the Department of Motor Vehicles' pull notice program, and enrolled in a mandatory drug testing program.

Any comments should be directed to ALJ Walwyn at cmw@cpuc.ca.gov

The ALJ Division has prepared **Resolution ALJ-208** for the November 1, 2007 Agenda. In this resolution, the Commission considers the appeal by Peak Communications, Inc. (Respondent) of Third-Party Verification Citation Forfeiture No. 102 issued by the Consumer Protection and Safety Division pursuant to Resolutions UEB-001. The Citation Forfeiture alleges that Respondent failed to comply with Public Utilities Code Section 2889.5.

Based on the evidentiary record, we find that Respondent failed to confirm that the customer wanted to switch carriers. As such, Citation Forfeiture No. 102 is affirmed.

Any comments should be directed to ALJ DeAngelis at rmd@cpuc.ca.gov

NOTICE OF ALL-PARTY MEETINGS (PU Code § 1701.3(c))**NONE**

NOTICE OF EX PARTE COMMUNICATIONS

Copies of tendered notices are available in the Central Files Office for review and/or reproduction under existing procedures, except that notices which are filed electronically can be viewed on the Commission's website. They are both available from the filing party who is under the obligation to provide copies of the notice without delay.

9/18/07 **R06-04-010** - Order Instituting Rulemaking to examine the Commission's post-2005 energy efficiency policies, programs, evaluation, measurement, and verification, and related issues.

Summary: On September 17, 2007 Tom Roberts of the Division of Ratepayer Advocates (DRA) participated in an all-party meeting with Cmmr. Simon in San Francisco. Also present were Cmmr. Grueneich; Jaclyn Marks, advisor to Cmmr. Simon; Marcel Hawiger from The Utility Reform Network; Mark Gaines from Southern California Gas Company and San Diego Gas and Electric Company; Tom Bottorff from Pacific Gas and Electric Company; Bruce Foster and Mike Hoover from Southern California Edison Company; and Audrey Chang from National Resources Defense Council. Commission staff and members of the public were also present. Written materials (attached to the notice) were used. Roberts explained that DRA supported the Commission's effort to align shareholder and ratepayer interests in energy efficiency activities, but believed that the Proposed Decision of Administrative Law Judge Gottstein sets incentives at a rate higher than necessary to align those interests. Roberts explained that DRA's proposed alternate mechanisms would better promote long-term energy efficiency goals and would align shareholder and ratepayer interests at lower costs to ratepayers.

9/20/07 **R04-04-003** - Order Instituting Rulemaking, to promote policy and program coordination and integration in electric utility resource planning;
R04-04-025 - Order Instituting Rulemaking, to Promote Consistency in Methodology and Input Assumptions in Commission Applications of Short-run and Long-run Avoided Costs, including Pricing for Qualifying Facilities.

Summary: On September 17, 2007 Beth Vaughan, Executive Director of the California Cogeneration Council (CCC) participated in a conference call with Andrew Schwartz, advisor to Pres. Peevey. R. Thomas Beach, consultant to the CCC; David Hermanson, a member of the CCC employed by Primary Energy; Jerry R. Bloom and Joseph M. Karp of Winston & Strawn, LLP, counsel for the CCC also participated in the conference call. CCC representatives stated that the Alternate Proposed Decision (Alternate PD) places too much weight on the NP-15 and SP-15 spot market prices and proposed they account for no more than one third of the SRAC formula, with the existing administrative values making up the difference. CCC representatives proposed that the Commission require the utilities to employ the updated time of use ("TOU") factors adopted by the Commission for energy efficiency and demand response programs. CCC representatives explained that Pacific Gas and Electric Company's (PG&E) City-gate prices should be used in PG&E'S new SRAC formula. The CCC representatives stated the 2007 MPR should serve as the basis for the combined cycle gas turbine fixed costs of the firm capacity price calculation.

Summary: On September 17, 2007, Michael Alcantar, counsel to the Cogeneration Association of California and Energy Producers and Users Coalition (jointly, CAC/EPUC) met with Cmmr. Grueneich in San Francisco. Also present was Theresa Cho, advisor to Cmmr. Grueneich. Written materials (attached to the notice) were used. Issues raised in CAC/EPUC's written comments were reviewed and discussed regarding the Alternate Proposed Decision. CAC/EPUC urged the adoption of positions taken by CAC/EPUC in formal comments.

Summary: On Monday, September 17, 2007 Bruce C. Foster, Senior Vice President of Southern California Edison Company (SCE), met with Robert Kinosian, advisor to Cmmr. Bohn in San Francisco. Also present was Michael Hoover, Director of Regulatory Affairs of SCE. Written materials (attached to the notice) were used. Foster explained that the energy payment formula in the Alternate Proposed Decision (Alternate) produces prices that exceed SCE's short-run avoided cost (SRAC) of energy. Foster stated that the firm capacity price is too high and explained that the \$157/kW-year MPR capacity price should be reduced by at least \$55/kW-year to account for savings gained from running in the energy market. The firm capacity price should also be reduced by an additional \$10/kW-year to account for the residual value associated with the MPR's 20-year annualization of a proxy unit that has a 30-year economic/operating life. The Alternate should be modified to limit the availability of standard offer contracts to QFs with a net capacity no greater than 20 MW.

Summary: On September 17, 2007, Michel Peter Florio, Senior Attorney for The Utility Reform Network (TURN), met with Theresa Cho, advisor to Cmmr. Grueneich, in San Francisco. Florio summarized TURN's major concerns with the Alternate Proposed Decision (APD) of Commissioner Grueneich. Florio stated that it would be difficult and speculative to forecast the energy profits that a proxy combined cycle plant would earn in the market over the ten-year period of the firm capacity contract adopted by the APD. Florio recommended that the Commission adopt a capacity payment structure for the firm contract that did not contain a deduction for such energy profits and likewise base the energy payment under the contract on a fixed heat rate equal to that of the proxy unit. Florio also stated that the factors cited in the APD as justifying a 50/50 average of a market-based heat rate have been declining.

R06-04-010 - Order Instituting Rulemaking to examine the Commission's post-2005 energy efficiency policies, programs, evaluation, measurement, and verification, and related issues.

Summary: On September 17, 2007 Marcel Hawiger, staff attorney with The Utility Reform Network (TURN), met with Jacklyn Marks and Marzia Zafar, advisor to Cmmr. Simon in two separate meetings in San Francisco. Also present during the meeting with Jacklyn Marks was Robert Mason, advisor to Cmmr. Simon. Hawiger summarized TURN's positions concerning shareholder incentives and stated that the 'supply-side comparability' model was inconsistent with the reality of utility capital spending and power purchase decisions, as utility capital spending would not be reduced due to energy efficiency since the utilities would likely reduce purchased power if demand was reduced. Hawiger explained TURN's position concerning the financial benefits to the utilities due to alternative uses of freed-up capital when supplyside projects are deferred due to energy efficiency. During the meeting with Zafar, Hawiger stated that the 'benefits' allocated to ratepayers consisted of avoided energy costs calculated by a model and do not consist of rebates or rate reductions.

Summary: On September 17, 2007 William H. Booth, counsel to the California Large Energy Consumers Association (CLECA) participated in an all party meeting with Cmmrs. Grueneich and Simon in San Francisco. Also present were representatives from Southern California Edison Company; Pacific Gas & Electric Company; San Diego Gas & Electric Company; Southern California Gas Company; the Department of Ratepayer Advocates (DRA); The Utility Reform Network (TURN); and the National Resources Defense Council. Booth stated that CLECA supports the positions of TURN and DRA on the question of the appropriate level of any incentives to be awarded utilities for their successful implementation of Commission directed energy efficiency activities and programs. Booth asked the commissioners to consider whether it is sound public policy to require ratepayers to both fund energy efficiency programs, at a rate of nearly \$1 billion per year, and also to fund incentives, or earnings/returns, to utilities for carrying out such programs. Booth argued that energy efficiency mandates from the Commission should be treated by the utilities in the same manner that the operation of their generation, transmission and distribution systems is handled.

Summary: On September 17, 2007 Mark Gaines, Director of Customer Programs, Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E) met with Stephen St. Marie, advisor to Cmmr. Bohn in San Francisco. Also present were Robert Kinoshian, advisor to Cmmr. Bohn and Joy Yamagata, Case Manager for SoCalGas and SDG&E. Written materials (attached to the notice) were used. Gaines explained that after-the-fact changes to evaluation metrics threaten predictability and timeliness of earnings, undermining the Commission's intent to provide meaningful incentives for energy efficiency investments.

Summary: On September 17, 2007, Audrey Chang, Staff Scientist at the Natural Resources Defense Council (NRDC) participated in an all-party meeting with Cmmrs. Grueneich and Simon in San Francisco. Also present Jacklyn Marks, advisor to Cmmr. Simon; Bruce Foster and Mike Hoover of Southern California Edison Company; Tom Bottorff of Pacific Gas and Electric Company; Mark Gaines of San Diego Gas & Electric Company and Southern California Gas Company; Tom Roberts of the Division of Ratepayer Advocates; Marcel Hawiger of The Utility Reform Network; Tom Eckhart for UCONS/National Association of Energy Service Companies; William Booth of the California Large Energy Consumers Association; and Rocky Bacchus for EP Incorporated. Also present were Commission staff and members of the public. Chang noted that Commission approval of the Proposed Decision (PD) would make energy efficiency the utilities' top priority resource. Chang discussed NRDC's view that the PD provides appropriate levels of rewards and penalties and noted that the risk/reward incentive mechanism will encourage the utilities to meet and exceed the Commission's goals. Chang expressed NRDC's view that the PD's proposed schedule and process for claims assessments may create uncertainty and thereby diminish the effectiveness of the incentive mechanism.

Summary: On September 19, 2007, Ralph Cavanagh, Co-Director of the Energy Program at the Natural Resources Defense Council (NRDC) had a telephone conversation with Cmmr. Grueneich and ALJ Gottstein regarding the potential need to revisit narrow aspects of earlier Commission decisions on evaluation of utilities' energy efficiency investments. Cavanagh noted the need to find the right balance to strike between so-called "free riders" and "free drivers" in terms of energy efficiency program results (representing the balance between over-claimed savings from measures that would have been installed with or without utility efforts, and under-claimed savings from long-term marketplace impacts that often extend well beyond the utility program participants).

Summary: On September 19, 2007 Devra Wang, Director of the California Energy Program at the Natural Resources Defense Council (NRDC), met with Cmmr. Bohn in San Francisco. Also present were Stephen St. Marie, advisor to Cmmr. Bohn; Robert Kinosian, advisor to Cmmr. Bohn; and Audrey Chang, Staff Scientist for NRDC. Written materials

(attached to the notice) were used. Chang noted that Commission approval of the Proposed Decision (PD) would make energy efficiency the utilities' top priority resource. Chang discussed NRDC's view that the PD strikes the right balance in providing a meaningful and reasonable opportunity for rewards, balanced by the potential for penalties. Chang noted that the risk/reward incentive mechanism will encourage the utilities to meet and exceed the Commission's goals, and provide significant net benefits to the utilities' customers. Chang also discussed the PD's proposed 85% threshold for earnings, as well as, the 65% threshold for penalties. Wang noted that the Commission should find the right balance between so-called "free riders" and "free drivers" in terms of energy efficiency program results in another phase of this proceeding.

R04-04-003 - Order Instituting Rulemaking, to promote policy and program coordination and integration in electric utility resource planning;

R04-04-025 - Order Instituting Rulemaking, to Promote Consistency in Methodology and Input Assumptions in Commission Applications of Short-run and Long-run Avoided Costs, including Pricing for Qualifying Facilities.

Summary: On September 18, 2007 Bruce C. Foster, Senior Vice President of Southern California Edison Company (SCE) met with Cmmr. Grueneich in San Francisco. Also present were Theresa Cho, advisor to Cmmr. Grueneich and Michael Hoover, Director of Regulatory Affairs of SCE. Written materials (attached to the notice) were used. Foster explained that the energy payment formula in the Alternate Proposed Decision (Alternate) produces prices that exceed SCE's short-run avoided cost (SRAC) of energy. Hoover stated that the firm capacity price in the Alternate is too high and exceeds SCE's avoided cost of capacity. Hoover explained that the \$157/kW-year MPR capacity price used in the Alternate should be reduced by at least \$55/kW-year to account for savings gained from running in the energy market. The firm capacity price should also be reduced by an additional \$10/kW-year. Hoover also stated that there is no need to require standard offer contracts, particularly for QFs because QFs have many options for selling their power, including utility all-source solicitations, renewables solicitations, bilateral contracts and other load-serving entities.

A06-12-022 – Southern California Edison Company, Regarding the distribution of SO2 allowance sale proceeds related to the suspended operation of Mohave Generating Station.

Summary: On September 19, 2007 Mr. Trujillo, Executive Director of the Division of Natural Resources of the Navajo Nation and Sarah Leeper of Steefel, Levitt & Weiss, counsel for the Navajo Nation met with Pres. Peevey; Jack Stoddard, advisor to Pres. Peevey; Mathew Deal, advisor to Pres. Peevey; Andy Campbell, advisor to Cmmr. Chong; Jacklyn Marks, advisor to Cmmr. Simon; and Robert Mason, advisor to Cmmr. Simon in three separate meetings in San Francisco. Trujillo discussed the use of the proceeds from the sale of Southern California Edison's existing share of the sulfur dioxide (SO2) credits at issue in the proceeding to remediate some of the harm caused by the shutdown of the Mohave Generating Plant (Mohave) to the Navajo Nation. Leeper urged Cmmr. Chong's office and Cmmr. Simon's office to support its proposal to use the proceeds from the sale of the SO2 credits as well as any future credits to develop a clean energy project that will remediate some of the harm caused by the shutdown of Mohave to the Navajo Nation. Leeper also discussed the need for the Navajo Nation to conduct its affairs as a sovereign nation and establish government-to-government relations between the Navajo Nation and the State of California.

A06-07-026 – Pacific Bell Telephone Company, for an order Exempting it from the requirements of Public Utilities Code Section 851.

Summary: On September 19, 2007 William Nusbaum, attorney for The Utility Reform Network (TURN) met with Robert Haga, advisor to Cmmr. Chong in San Francisco. Also present were Natalie Billingsley, supervisor for the Division of Ratepayer Advocates (DRA); Karin Hieta, staff analyst for DRA; and Sindy Yun, attorney for DRA. Written materials (attached to the notice) were used. DRA stated that it opposed AT&T's request for a blanket exemption for all transactions that fall under Public Utilities Code § 851. DRA and TURN recommended that the Commission review § 851

issues more comprehensively through a rulemaking.

A07-07-025 - Joint Application of Lodi Gas Storage, L.L.C. (U912G), Lodi Holdings, L.L.C., WHP Acquisition, L.L.C., WHP Acquisition II, L.L.C., Buckeye Gas Storage LLC, and Buckeye Partners, L.P., for Expedited Ex Parte Authorization to Transfer Control of Lodi Gas Storage, L.L.C., to Buckeye Gas Storage LLC through the Sale of the 100% Interest of Lodi Holdings, L.L.C. in Lodi Gas Storage, L.L.C., Pursuant to Public Utilities Code Section 854(a).

Summary: On September 20, 2007 James W. McTarnaghan of Duane Morris LLP, counsel for Lodi Gas Storage, met with Matthew Deal, advisor to Pres. Peevey in San Francisco. Also present was Barry F. McCarthy of McCarthy & Berlin LLP, counsel for Buckeye. McCarthy discussed the Protest of Division of Ratepayer Advocates ("DRA") filed on August 31, 2007 ("Protest") and the Joint Applicant's Response to the Protest ("Response") filed on September 10, 2007. McTarnaghan explained that the Protest was based on a misunderstanding by DRA concerning the ownership and control of Buckeye and related companies. McTarnaghan reiterated that, although Carlyle/Riverstone at one time had an ownership interest and control over Buckeye and related companies, Carlyle/Riverstone does not have any present or ongoing interest in any Buckeye-related companies and will not, directly or indirectly, own or otherwise control Lodi Gas Storage if the Joint Application is approved by the Commission. Mr. McTarnaghan and Mr. McCarthy stressed that timely processing for year-end approval of the Joint Application was critical to the Joint Application in order for the sale of Lodi Gas Storage to be completed and to allow the new owners of Lodi Gas Storage to manage the proposed expansion of Lodi Gas Storage pending before the Commission in a separate docket.

A07-07-011 – PacifiCorp (U901E), an Oregon company, for Approval of New Energy Efficiency Programs and other matters.

Summary: On September 26, 2007 Diana Lee of the Division of Ratepayer Advocates (DRA), Legal Division met with ALJ Bemserderfer in San Francisco. Lee explained that DRA supported an approach to PacifiCorp's energy efficiency activities that recognized the scale of PacifiCorp's California activities, but was concerned about the apparent high level of administrative costs proposed in its application and other issues that DRA raised in its protest. Lee pointed out that DRA would be meeting with PacifiCorp next week and would discuss issues related to the application at that time.

Summary: On September 28, 2007 Andrew Ulmer, Chief Counsel for the Division of Ratepayer Advocates (DRA) met with Mathew Deal, advisor to Pres. Peevey in San Francisco. Also present was Edward Moldavsky, attorney for DRA. DRA stated the Commission should move forward with a prehearing conference in A.07-07-025. DRA also stated that it intends to ensure that the Commission has all of the necessary information to determine whether or not the underlying transaction in A.07-07-025 meets the standard set forth in California Public Utilities Code § 854, including whether any conditions should attach to the proposed transaction. DRA noted that it has received assurances from the Joint Applicants that the underlying transaction would not result in a nexus between Wild Goose and Lodi, through the Carlyle/Riverstone entities. DRA noted that it is still awaiting data responses from the Joint Applicants to confirm this, as well as clarify other inquiries.
