**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of El Paso Networks, LLC for a Certificate of Public Convenience and Necessity to Provide Limited Facilities-Based and Resold Local Exchange and Interexchange Telecommunications Services in California.

Application 01-01-027  
(Filed January 22, 2001)

**O P I N I O N**

**I. Summary**

El Paso Networks, LLC (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange and interexchange telecommunications services. By this decision, we grant the authority requested subject to the terms and conditions set forth below.

**II. Background**

By Decision (D.) 94-09-065 and prior decisions we authorized the provision of competitive interLATA and intraLATA interexchange services by carriers meeting specified criteria.<sup>1</sup>

---

<sup>1</sup> California is divided into 10 Local Access and Transport Areas (LATAs) of various sizes, each containing numerous local telephone exchanges. "InterLATA" describes services, revenues, and functions that relate to telecommunications originating in one LATA and terminating in another. "IntraLATA" describes services, revenues, and

*Footnote continued on next page*

In D.95-07-054 and D.95-12-056, we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell (Pacific) and Verizon California, Inc. (Verizon). Applicants who are granted authority to provide competitive local exchange service must comply with various rules, including: (1) the consumer protection rules set forth in Appendix B of D.95-07-054; (2) the rules for local exchange competition set forth in Appendix C of D.95-12-056; and (3) the customer notification and education rules adopted in D.96-04-049.

By D. 97-09-115, we extended coverage of our adopted rules for local exchange competition to the service territories of Roseville Telephone Company (RTC) and Citizens Telecommunications Company of California, Inc. (CTC).

### **III. Overview of Application**

Applicant, a Delaware limited liability company, filed its application on January 22, 2001. There were no protests to the application. Applicant seeks authority to provide limited facilities-based and resold interexchange service as a nondominant interexchange carrier (NDIEC), and local exchange service as a competitive local carrier (CLC) throughout Pacific, Verizon, RTC and CTC's service territories.

### **IV. Procedural Matters**

In Resolution ALJ 176-3057 dated February 8, 2001, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given

functions that relate to telecommunications originating and terminating within a single LATA.

these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

#### **V. Comments on Draft Decision**

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

#### **VI. Financial Qualifications of Applicant**

To be granted a CPCN, an applicant for authority to provide facilities-based and resold local exchange and/or interexchange services must demonstrate that it has a minimum of \$100,000 of cash or cash equivalent to meet the firm's start-up expenses.<sup>2</sup> An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.<sup>3</sup> Applicant provided a bank statement that demonstrates that it has sufficient cash to satisfy the financial requirement.

We find that Applicant has met our requirement that it possesses sufficient financial resources to fund its operations.

---

<sup>2</sup> The financial requirement for CLCs is contained in D.95-12-056, Appendix C. The financial requirement for NDIECs is contained in D.91-10-041.

<sup>3</sup> The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

## **VII. Technical Qualifications of Applicant**

Applicants for NDIEC and CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant submitted biographical information on its officers that demonstrates that it possesses sufficient experience and knowledge to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order regarding the provision of telecommunications services.

We find that Applicant is technically qualified to operate as a CLC and NDIEC.

## **VIII. Tariffs**

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment B to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval, its tariffs.

## **IX. California Environmental Quality Act (CEQA)**

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represents that it will not be constructing any facilities, other than equipment to be installed in existing

buildings or structures, for the purpose of providing interexchange or local exchange services. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct facilities other than equipment to be installed in existing buildings or structures.

#### **X. Request for Confidentiality**

Applicant requests by a motion filed March 5, 2001, that the financial information provided by letter dated March 2, 2001 be filed under seal. The financial information consists of a bank statement. Applicant represents that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.

#### **XI. Conclusion**

We conclude that the application conforms to our rules for authority to provide competitive local exchange and interexchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.

#### **Findings of Fact**

1. Notice of the application appeared in the Daily Calendar on January 23, 2001.
2. No protests have been filed.
3. A hearing is not required.
4. In prior decisions the Commission authorized competition in providing interexchange services for carriers meeting specified criteria.

5. In prior decisions the Commission authorized competition, by carriers meeting specified criteria, in providing local exchange telecommunications services within the service territories of Pacific, Verizon, RTC and CTC.

6. Applicant has a minimum of \$100,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.

7. Applicant has sufficient additional cash or cash equivalent to cover any deposits that may be required by other telecommunications carriers in order to provide the proposed service.

8. Applicant possesses sufficient experience and knowledge to provide telecommunications services.

9. As part of its application, Applicant submitted a draft of its initial tariff that contained the deficiencies identified in Attachment B to this decision. Except for those deficiencies, its draft tariffs complied with the Commission's requirements.

11. The transfer or encumbrance of property of nondominant carriers has been exempted from the requirements of Pub. Util. § 851 whenever such transfer or encumbrance serves to secure debt. (See D.85-11-044, D.97-01-015, and D.96-05-060.)

12. By D.97-06-017, all interexchange carriers and CLCs are no longer required to comply with General Order 96-A, subsections III.G(1) and (2), and Commission Rules of Practice and Procedure 18(b).
