

Decision 10-04-013 April 8, 2010

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of NSRT Enterprises, dba Napa Airporter, for authority to operate as a passenger stage corporation between points in Napa, Solano, Sonoma and Yolo Counties and the San Francisco, Oakland and Sacramento International Airports and to Establish a Zone of Rate Freedom.

Application 10-01-023
(Filed January 20, 2010)

D E C I S I O N

Summary

This decision grants the application of NSRT Enterprises (Applicant), a corporation, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

Discussion

The application requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Napa, Solano, Sonoma, and Yolo Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and Sacramento (SMF) International Airports, on the other hand. Applicant states that passenger traffic at the three involved airports has been steadily increasing from year to year, as have the requests for local airport transportation. Passengers are utilizing door-to-door shuttle services instead of their own vehicles to avoid the inconveniences of driving to and from the airports,

including traffic congestion, difficulty finding parking, and high parking fees. Applicant indicates its proposed service will meet the public's transportation needs and help to alleviate the problems associated with large numbers of people traveling to and from airports in private automobiles.

Applicant advises it has the ability to conduct a PSC operation. Its managers have been employed by passenger carriers in the San Francisco area for ten years as drivers, dispatchers and managers. Applicant believes the knowledge and experience the managers gained through this employment will enable Applicant to serve the traveling public as an airport shuttle operator.

Applicant will commence operations with one van and one sedan. Additional vehicles will be acquired as needed to meet the public's service requirements. Exhibit F of the application is a balance sheet for the company's owner, Sikander Kaur, that discloses assets of \$356,000, liabilities of \$236,000, and net worth of \$120,000. Applicant is a new corporation, and the funds needed to start the service will be advanced by Kaur.

The proposed fares, as shown in Exhibit D of the application, range between \$55 (Benicia - OAK) and \$180 (Knights Landing (Yolo County) - OAK). Applicant requests authority to establish a ZORF of \$25 above and below the proposed fares. It will compete with other PSCs, taxicabs, charter limousine and sedan services, and private automobiles in its service area. This competitive environment should result in Applicant pricing its services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on February 10, 2010. Rule 3.3(b) of the Commission's Rules of Practice and Procedure requires service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or

unloaded. Applicant served a notice to the involved airports and counties, 18 cities, and the transportation planning agency in the service area. Applicant requests a waiver from the provisions of Rule 3.3(b) as a precaution in the event it inadvertently failed to send a notice to any party that should have been served under the rule. It states that all parties that have an interest in Commission proceedings have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 1.2 and grant the waiver requested by Applicant. We routinely grant such waivers when an applicant for PSC authority will be providing on-call service, not scheduled service.

In Resolution ALJ 176-3249 dated February 25, 2010, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3249.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Napa, Solano, Sonoma, and Yolo Counties, on the one hand, and SFO, OAK, and SMF, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$25 above and below the proposed fares shown in Exhibit D of the application.

4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, and private automobiles in its operations. The ZORF is fair and reasonable.

5. Applicant requests a waiver of the notice requirements of Rule 3.3(b) of the Rules of Practice and Procedure as it has served a notice to the involved airports and counties, 18 cities, and the transportation planning agency in the service area.

6. No protest to the application has been filed.

7. A public hearing is not necessary.

8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application should be granted.

2. The request to waive the notice requirements of Rule 3.3(b) should be granted.

3. The request for a ZORF should be granted.

4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

5. Since the matter is uncontested, the decision should be effective on the date it is signed.
