BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Adnan Ghanem, dba Eazy Way Transit for Authority to operate as an on-call, door-to-door, Passenger Stage Corporation between various points in the Counties of Alameda, Contra Costa, Marin, Napa, San Joaquin, Santa Clara, Solano and Sonoma, and the International Airports located in San Francisco, Oakland, and San Jose; and to establish a Zone of Rate Freedom.

Application 10-10-014
(Filed October 19, 2010)

D E C I S I O N

Summary

This decision grants the application of Adnan Ghanem (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as supplemented by correspondence dated November 5, 2010, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, Contra Costa, Marin, Napa, San Francisco, San Joaquin, San Mateo, Santa Clara, Solano, and Sonoma Counties, on the one hand, San Francisco (SFO), Oakland (OAK), and San Jose (SJC)

International Airports, on the other hand.¹ Applicant states that there has been an increase in airline traffic at Bay Area airports, including an expansion in the number of flights operated by Southwest Airlines. This has created a greater need for airport ground transportation services. Increases in airport parking fees have added to the demand.

Applicant has five years' experience as a driver of commercial passenger vehicles. Operations will be conducted initially with one 7-passenger van. Attached to the application as Exhibit E is Applicant's financial statement as of October 14, 2010, that discloses assets of \$23,950, liabilities of \$3,800, and net worth of \$20,150.

The proposed fares, as described in Exhibit A of the application, range between \$23 (San Bruno - SFO) and \$180 (Calistoga - SJC). Applicant requests authority to establish a ZORF of \$20 above and below the proposed fares. The minimum fare will be \$15. Applicant will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on October 21, 2010. Applicant requests a waiver from the provisions of Rule 3.3(b) of the Commission's Rules of Practice and Procedure which require

¹ San Mateo County is included in the body of the application, but Applicant failed to list it in the application caption. Applicant listed San Francisco County, but it was inadvertently omitted from the caption at the time of initial filing of the application with the Commission's Docket Office.

that a copy of the application be served on each public transit agency in the service area and a notice of the application be sent to all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant mailed a notice of the application to 66 cities and the transportation planning agency in the service area. He believes the Commission's Daily Calendar provides adequate notice to parties that may have an interest in the application. We shall exercise the discretion accorded to us by Rule 1.2 and grant the waiver requested by Applicant because he will be providing on-call service, not scheduled service, and service on all of the governmental entities required by Rule 3.3(b) would be burdensome.

In Resolution ALJ 176-3263, dated October 28, 2010, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3263.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. The application requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, Contra Costa, Marin, Napa, San Francisco, San Joaquin, San Mateo, Santa Clara, Solano, and Sonoma Counties, on the one hand, and SFO, OAK, and SJC, on the other hand.
2. Public convenience and necessity requires the proposed service.

3. Applicant requests authority to establish a ZORF of \$20 above and below the proposed fares described in Exhibit A of the application. The minimum fare will be \$15.

4. Applicant will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.

5. Applicant requests a waiver of the notice requirements of Rule 3.3(b) of the Rules of Practice and Procedure as he has served a notice of the application to 66 cities and the transportation planning agency in the service area.

6. No protest to the application has been filed.

7. A public hearing is not necessary.

8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application should be granted.

2. The request to waive the notice requirements of Rule 3.3(b) should be granted.

3. The request for a ZORF should be granted.

4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

5. Since the matter is uncontested, the decision should be effective on the date it is signed.
