

Decision 02-08-055 August 22, 2002

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Stonebridge Communications, Inc.  
for a Certificate of Public Convenience and  
Necessity To Provide Resold Local Exchange  
Services in the State of California.

Application 01-08-025  
(Filed August 21, 2001)

**O P I N I O N**

**I. Summary**

Stonebridge Communications, Inc. (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to resell local exchange telecommunications services as a competitive local carrier (CLC).<sup>1</sup> By this decision, we grant the requested authority subject to the terms and conditions set forth below.

**II. Background**

In prior decisions, we authorized the provision of competitive local exchange service within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), Roseville Telephone Company (RTC) and Citizens Telecommunications Company of California, Inc. (CTC).

---

<sup>1</sup> A CLC is a common carrier that is issued a CPCN to provide local exchange telecommunications service for a geographic area specified by such carrier.

Applicant, a Minnesota corporation, requests authority to resell local exchange services within Pacific's service territory. Its principal place of business is located at 1711 West County Road B, Suite 330N, Roseville, Minnesota 55113.

### **III. Financial Qualifications**

To be granted a CPCN for authority to resell local exchange service, an applicant must demonstrate that it has \$25,000 cash or cash equivalent to meet the firm's start-up expenses. The applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by other telecommunications carriers in order to provide service in California.<sup>2</sup> Applicant provided a bank statement that demonstrates that it meets the financial requirements.

### **IV. Technical Qualifications**

To be granted a CPCN for authority to provide local exchange service, an applicant must make a reasonable showing of technical expertise in telecommunications or a related business. Applicant supplied biographical information on its management that demonstrates that it has sufficient expertise and training to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with a telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal

<sup>2</sup> The financial standards for certification to operate as a CLC are set forth in D.95-12-056, Appendix C, Rule 4.B.

Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

#### **V. Tariffs**

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A to this decision. In its compliance tariff filing, Applicant is directed to correct these deficiencies as a condition of our granting approval of its tariffs.

#### **VI. California Environmental Quality Act (CEQA)**

The CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since Applicant states that it will not be constructing any facilities for the purpose of providing local exchange services, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Applicant must file for additional authority, and submit to any necessary CEQA review, before it can construct facilities.

#### **VII. Categorization and Need for Hearings**

In Resolution ALJ 176-3070 dated September 6, 2001, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

### **VIII. Comments on Draft Decision**

This is an uncontested matter in which the decision grants the requested relief. Therefore, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **IX. Conclusion**

We conclude that the application conforms to our rules for certification as a CLC. Accordingly, we shall grant Applicant a CPCN to resell local exchange service in Pacific's service territory subject to compliance with the terms and conditions set forth herein.

### **Findings of Fact**

1. A notice of the filing of the application appeared in the Daily Calendar on August 24, 2001.
2. There were no protests to this application.
3. A hearing is not required.
4. In prior decisions, the Commission authorized competition in providing local exchange telecommunications services within the service territories of Pacific, Verizon, RTC and CTC.
5. Applicant has a minimum of \$25,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.
6. Applicant has sufficient additional cash or cash-equivalent to cover any deposits that may be required by other telecommunications carriers in order to provide the proposed service.
7. Applicant's management possesses sufficient experience and knowledge to provide local exchange services to the public.
8. As part of its application, Applicant submitted a draft of its initial tariff that contained the deficiencies identified in Attachment A to this decision.

Except for these deficiencies, Applicant's draft tariffs complied with the Commission's requirements.

9. Applicant does not propose to construct any facilities in order to provide the proposed service.

10. Public disclosure of the financial information filed under seal would place Applicant at an unfair business disadvantage.

### **Conclusions of Law**

1. Applicant has the financial ability to provide the proposed service.

2. Applicant has made a reasonable showing of technical expertise in, or related to, telecommunications.

3. Public convenience and necessity require the competitive local exchange services to be offered by Applicant, subject to the terms and conditions set forth herein.

4. The application should be granted to the extent set forth below.

5. Applicant, once granted a CPCN, should be subject to the applicable Commission rules, decisions, General Orders and statutes that pertain to California public utilities.

6. Applicant's initial tariff filing should correct the deficiencies noted in its draft tariffs as indicated in Attachment A to this decision.

7. Since Applicant does not propose to construct any facilities, it can be seen with certainty that granting it authority to resell local exchange services will not have a significant adverse effect upon the environment.

8. Because of the public interest in competitive local exchange services, the following order should be effective immediately.
