

Decision 04-10-010 October 7, 2004

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of Abbas T. Daryaei, dba American Shuttle, for passenger stage authority under § 1031, et. Seq., of the California Public Utilities (PU) Code, to transport passengers and baggage, on an on-call, door-to-door basis between points in Orange County California and John Wayne Airport (SNA), on the one hand, and to establish a Zone of Rate Freedom (ZORF) under § 454.2, et. Seq., of the PU Code, on the other hand.

Application 04-04-029
(Filed April 23, 2004)

O P I N I O N

Summary

This decision grants the application of Abbas T. Daryaei (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as amended by letter dated September 16, 2004, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Orange County and John Wayne Airport (SNA). Applicant desires to offer shared-ride services to the public as an alternative to taxicab, charter, or scheduled PSC services. He will market the service to the Middle

Eastern community in particular. Drivers will be bilingual. Applicant states that there is a need for the service because passenger traffic at SNA is increasing.

Applicant reports having over 10 years of experience as a driver and dispatcher for taxicab, limousine, and PSC operators. He will operate at the outset with a fleet of five 7-passenger vans. Additional equipment will be added as needed. Attached to the application as Exhibit D is Applicant's unaudited balance sheet as of April 15, 2004, that discloses assets of \$618,000, liabilities of \$314,000, and net worth of \$304,000.

The proposed one-way fares to and from SNA, as listed in Exhibit B of the application, range between \$18 (Balboa) and \$55 (Rancho Santa Margarita). Applicant requests authority to establish a ZORF of \$12 above and below the proposed fares of \$30 and under and \$20 above and below the proposed fares over \$30. Applicant will compete with other PSCs, taxicabs, limousines, buses, and automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on April 27, 2004. Applicant served a notice of the application on the involved cities, Orange County, SNA, and the affected transit agencies in the service area.

In Resolution ALJ 176-3133 dated May 6, 2004, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3133.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. The application, as amended, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Orange County and SNA.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$12 above and below the proposed fares of \$30 and under and \$20 above and below the proposed fares over \$30, shown in Exhibit B of the application. Applicant will compete with PSCs, taxicabs, limousines, buses, and automobiles in his operations. The ZORF is fair and reasonable.
4. No protest to the application has been filed.
5. A public hearing is not necessary.
6. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application should be granted.
2. The request for a ZORF should be granted.
3. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff

should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

4. Since the matter is uncontested, the decision should be effective on the date it is signed.

5. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
