ORDER CORRECTING ERRORS

In Decision (D.) 05-03-026, the Commission resolved outstanding issues in this proceeding relating to the adjustment, or “true-up,” of interim unbundled network elements (UNEs) rates to permanent rate levels for Pacific Bell Telephone Company (Pacific, d/b/a SBC California). The order found that true-up payments should be calculated based on a shared and common cost

“markup” of 21% for the true-up period of May 2002 through September 2004. In addition, the order found that the markup percentage should be revised to 19% on a prospective basis. (D.05-03-026, Ordering Paragraph 4.)

Appendices A and B of the order list the newly adopted UNE rates with a 19% markup. Appendix B of the order contains typographical errors in the column labeled “Current Rates.” The rates in that column should correspond to the rates set in Appendix C of D.04-09-063, but they do not match. Therefore, the rates in the Appendix B column labeled “Current Rates with 19% Mark-up” are also incorrect. This order corrects Appendix B so that the current rate column matches the rates in Appendix C of D.04-09-063, thereby also correcting the current rates with 19% mark-up adopted in the order. A corrected version of Appendix B of D.05-03-026 is attached to this order. Therefore, pursuant to Resolution A-4661,

IT IS ORDERED that Appendix B of Decision 05-03-026 is corrected as set forth herein.

This order is effective today.

Dated March 29, 2005, San Francisco, California.
