BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of San Diego City and Airport Transportation (PSG 14828) for a Certificate of Public Convenience and Necessity to operate as an on-call Passenger Stage Corporation between various points in the Cities and Counties of San Diego and Los Angeles; and to establish a Zone of Rate Freedom.

Application 07-12-002
(Filed December 10, 2007)

O P I N I O N

Summary

This decision grants the application of Alexander V. Norriss (Applicant), an individual¹, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF), pursuant to Pub. Util. Code § 454.2.

Discussion

The application, as amended by letter dated March 5, 2008, requests authority to operate as an on-call PSC to transport passengers and their baggage between San Diego International Airport (SAN), on the one hand, and points in

¹ Applicant is a sole proprietorship. The name "San Diego City and Airport Transportation" shown in the caption of the application is Applicant's fictitious business name.

San Diego County, Los Angeles International Airport (LAX), John Wayne Airport (SNA), and Ontario International Airport (ONT), on the other hand.

Applicant states that passenger traffic at SAN is increasing, and the growth is expected to continue for the foreseeable future due to planned airport expansion. With this growth has come congestion at passenger loading and unloading zones and shortages of available parking at peak travel times. Applicant believes his proposed shuttle service will help to alleviate these problems.

Applicant indicates that he has the knowledge and ability to operate a PSC service. He has held a charter-party carrier permit (TCP 14828-P) from the Commission since 2002. Additionally, he has been a City of San Diego-licensed cab driver for 10 years. Applicant currently has one 7-passenger van. His unaudited balance sheet discloses assets of \$172,000, liabilities of \$2,400, and net worth of \$169,600.

The proposed fares, as shown in Exhibit A of the application, range between \$12 (SAN - Old Town San Diego) and \$260 (SAN - LAX). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares. He will compete with other PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on December 12, 2007. Applicant requests a waiver from the provisions of Rule 3.3(b) of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant

served notice of the application to the affected airports, four county and city offices, and the public transit operators in the service area. Applicant states that all parties that have an interest in Commission proceedings have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 1.2 and grant the waiver requested by Applicant because he will be providing on-call service, not scheduled service, and parties that may have an interest in this proceeding have received a notice of the application or have access to the Daily Calendar.

In Resolution ALJ 176-3205 dated December 20, 2007, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3205.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

Assignment of Proceeding

Richard Clark is the assigned Examiner in this proceeding.

Findings of Fact

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between SAN, on the one hand, and points in San Diego County, LAX, SNA, and ONT, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares shown in Exhibit A of the application.

4. Applicant will compete with PSCs, taxicabs, charter limousines and sedans, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.

5. Applicant requests a waiver of the notice requirements of Rule 3.3(b) of the Rules of Practice and Procedure as he has served notice of the application to the affected airports, four county and city offices, and the public transit operators in the service area.

6. No protest to the application has been filed.

7. A public hearing is not necessary.

8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

Conclusions of Law

1. Public convenience and necessity has been demonstrated and the application should be granted.

2. The request to waive the notice requirements of Rule 3.3(b) should be granted.

3. The request for a ZORF should be granted.

4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

5. Since the matter is uncontested, the decision should be effective on the date it is signed.
