The CPUC will hold a public meeting, chaired by President Peevey, on the issue of climate change. The purpose of this meeting will be to move "beyond energy procurement" and to begin to identify best practices for all CPUC regulated companies (electric, natural gas, telecommunications, water, and transportation). Opportunities to reduce greenhouse gas emissions related to business operations include fleet vehicle efficiency, building efficiencies, and overall reduction of energy consumption. The U.S. is the world's largest greenhouse gas emitter and is responsible for approximately 25% of the world's emissions. California policymakers and businesses have the opportunity to proactively address this issue, to demonstrate effective leadership, and to make a significant contribution to emissions reduction. Invited presenters include representatives from the academic, research, business, insurance, shareholder activist, and state government organizations. Business and industry leaders will also be asked to respond to a recent CPUC summary paper on the subject. In addition, the IOUs should be prepared to present their current and anticipated efforts to address climate change. Information about the meeting, including a link to the discussion paper and the agenda are posted at www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting and can also be found on the CPUC's homepage at www.cpuc.ca.gov. All utilities are asked to RSVP to confirm their attendance and to discuss their presentations. To RSVP, and for further information, please contact Lainie Motamedi, CPUC Division of Strategic Planning, at (415) 703-1764 or lrn@cpuc.ca.gov.

NOTICE OF EX PARTE COMMUNICATIONS

Copies of tendered notices are available in the Central Files Office for review and/or reproduction under existing procedures. They are also available from the filing party who is under the obligation to provide copies of the notice without delay.

2/16/05	A04-01-009	Pacific Gas and Electric Company (U 39-M), for Authority to increase revenue requirements to recover the costs to replace Steam Generators in Units 1 and 2 of the Diablo Canyon Power Plant.
	A04-02-026	Southern California Edison Company, for authorization to replace San Onofre Nuclear Generating Station Unit Nos. 2 & 3 (SONGS 2 & 3) steam generators; establish ratemaking for cost recovery; and address other related steam generator replacement issues.

Summary: On February 11, 2005, Brian Cherry, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), had a telephone conversation with David Gamson, advisor to Cmmr. Brown. As a follow-up, a written material (attached to the notice) was provided. Cherry discussed the construction delays that would be caused by late vote on the interim decision. Cherry stated that any halt in construction contract progress would result in the project slipping at least one cycle, and the possibility that three California nuclear replacement projects would be done at the same time in 2009.
