12/6/05	A05-05-006	Pacific Gas and Electric Company, for authority to establish its authorized rate of return on common equity for electric utility generation and distribution operations and gas distribution for test year 2006.
	A05-05-011	Southern California Edison Company, for authorized capital structure, rate of return on common equity, embedded cost of debt and preferred stock, and overall rate of return for utility operations for 2006.
	A05-05-012	San Diego Gas & Electric Company, for authority to increase its authorized return on common equity, adjust its authorized capital structure, adjust its authorized embedded costs of debt and preferred stock, increase its overall rate of return, and revise its electric distribution and gas rates accordingly, and for related substantive and procedural relief.

**Summary:** On December 5, 2005, Lad Lorenz, , Vice President of Regulatory Affairs – San Francisco, for San Diego Gas & Electric Company (SDG&E), met with Rami Kahlon, advisor to Pres. Peevey, in San Francisco. Written material (attached to the notice) was used. Lorenz discussed the proposed decision of ALJ Galvin and urged further consideration of SDG&E's proposal to increase its equity percentage from 49 percent to 51 percent. Lorenz explained that such a change is warranted by the record and would appropriately reflect the impact of debt equivalence on SDG&E's financial condition. Further, Lorenz pointed out that a change to a 51 percent ratio would reverse the trend of a widening disparity in equity returns between SDG&E and the other two investor-owned utilities.
