**R04-04-003** - Order Instituting Rulemaking, to promote policy and program coordination and integration in electric utility resource planning;

**R04-04-025** - Order Instituting Rulemaking, to Promote Consistency in Methodology and Input Assumptions in Commission Applications of Short-run and Long-run Avoided Costs, including Pricing for Qualifying Facilities.

**Summary:** On June 15, 2007, Douglas Kerner, attorney for the Independent Energy Producers Association (IEP), met with Andrew Schwartz, advisor to Pres. Peevey in San Francisco. Also present was Steven K. Kelly, Policy Director for IEP. The representatives expressed concern over the many flaws in the Proposed Decision (PD) ranging from legal, technical, and implementation problems and the PD is technically flawed in a number of areas for failing to adequately and precisely explain how key price factors will be determined. The representatives also stated that the PD has numerous gaps or is silent on the implementation of its proposal, including issues such as development, timing of updates, potential for protest, and review of mechanisms that will need to be in place before any new methodology could be employed. The representatives also expressed concern that failure to address these issues prior to adoption of a final decision will lead to future disputes and protests.
