BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Create a
Consistent Regulatory Framework for the
Guidance, Planning, and Evaluation of
Integrated Distributed Energy Resources

Rulemaking 14-10-003
(Filed October 2, 2014)

**ADMINISTRATIVE LAW JUDGE'S RULING
NOTICING JUNE 13, 2016 WORKSHOP**

As further described below, this Ruling notices a June 13, 2016 workshop in this proceeding to be held in the Commission's Auditorium.

On April 4, 2016, the assigned Commissioner in this proceeding introduced a proposed interim regulatory structure and process to pilot the effect of incentives on utility sourcing of distributive energy resources. The assigned Commissioner expressed an intention to harmonize a utility's financial objectives with the Commission's desire to foster the cost-effective deployment of distributive energy resources. The Ruling introducing this proposal requested party comment on all aspects of the proposal as well as responses to specific questions. The Ruling also noted that a workshop would be scheduled following the submission of comments.

Hence, this Ruling notices a workshop, facilitated by the Commission's Energy Division staff, to be held on June 13, 2016, in the Commission's Auditorium at 505 Van Ness Avenue, San Francisco, California, beginning at 9:30 a.m. The workshop will include presentations by the author of the "value engine" papers and by the utilities.

The objectives of the workshop include: 1) educating stakeholders on the "value engine" aspects of the utility incentive proposal; 2) understanding the utilities' perspectives; and 3) determining next steps.

The workshop will include discussion of issues before the Commission in the proceeding listed above. Further, one or more Commissioners, advisors or Administrative Law Judges may attend the workshop. Hence, the Workshop will be noticed on the Commission's Daily Calendar to inform the public that one or more decision makers may be present at the workshop.

Additional information, including an agenda, will be provided through the Commission's Energy Division prior to the workshop. Questions should be e-mailed to Energy Division staff member, Natalie Guishar, at natalie.guishar@cpuc.ca.gov.

IT IS RULED that a workshop will be held on June 13, 2016 in the Commission's Auditorium at 505 Van Ness Avenue, San Francisco, CA 94102 beginning at 9:30 a.m.

Dated May 18, 2016, at San Francisco, California.
