BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of San Diego Gas & Electric Company (U 902 M) for Authority to Implement the Customer Information System Replacement Program

Application 17-04______(Filed April 28, 2017)

APPLICATION OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M) FOR AUTHORITY TO IMPLEMENT THE CUSTOMER INFORMATION SYSTEM REPLACEMENT PROGRAM

I. INTRODUCTION

Pursuant to California Public Utilities Code Sections 451,¹ 454 and 701 and Rule 2.1 of the Rules of Practice and Procedure of the California Public Utilities Commission ("Commission"), San Diego Gas & Electric Company ("SDG&E") hereby files this application ("Application") for authority to establish and implement the Customer Information System ("CIS") replacement program ("CIS Replacement Program") and to establish a balancing account to recover in rates the costs associated with the program.²

SDG&E's legacy CIS, and its related subsystems, is a twenty-year-old software and hardware system that supports SDG&E's critical business processes and customer engagement functions, including: billing and payment; credit and collection; meter data; service orders; customer care; outages; rates and programs; and customer information. SDG&E urgently needs to replace its outdated CIS with a new, modernized CIS platform that will enable SDG&E to

Section 451 provides, in pertinent part: "Every public utility shall furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities, including telephone facilities, as defined in Section 54.1 of the Civil Code, as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

In a concurrently filed motion, SDG&E is also requesting a Customer Information System Memorandum Account to record CIS costs expended prior to a Commission decision regarding the Application.

implement increasingly complex California regulatory requirements, and keep pace with the rapidly changing energy industry and evolving service demands of customers.

Taking action now to modernize SDG&E's CIS will transform the way the company does business and elevate the service and support customers receive in this changing environment for decades to come. The new CIS will support, *inter alia*, California's policy goals related to improved customer choice, deployment of advanced technologies and increased reliance on distributed energy resources. Replacement of key business and billing processes with the proposed CIS solution will provide a multitude of benefits, including enabling SDG&E to more effectively implement new customer programs and rate options, and providing customers with a significantly improved service experience. For example, the new CIS will allow for a more customer-centric way of doing business by moving all customer data to one consolidated location, thereby breaking down the data silos and improving the ability of various business units to efficiently assist customers through different channels of communication. The new system also offers greater configurability and flexibility; many system changes will be possible without the need for IT programming. This makes implementing mandated changes quicker and more cost-effective.

SDG&E forecasts that implementation of its proposed CIS Replacement Program will require a one-time expenditure of \$253.6 million to implement. The total cost of ownership, including implementation costs, ongoing support costs for the 15-year asset life, loaders and escalation equate to a total revenue requirement of \$996.6 million. Because SDG&E's need for the new CIS is pressing, SDG&E respectfully requests that the Commission approve the instant Application no later than March 2018, so that SDG&E can achieve implementation of the new CIS system by 2021.

II. BACKGROUND AND SUMMARY OF REQUEST

As discussed in detail in the accompanying testimony, SDG&E's legacy CIS was implemented in 1997 and was designed to handle monthly meter reads and apply comparatively simple rate calculations. In 1997, and until smart meters were implemented, small business and residential customers had one data point per month for billing purposes. With today's more complex rates requiring interval data, a residential customer has over 720 data points per month and a business customer has over 2,880 data points per month.

Customer expectations have also changed dramatically since the legacy CIS was put in service. The technology supporting the legacy CIS was developed prior to the advent of online services – the technology was built to support face-to-face customer interactions and calls into SDG&E's Customer Call Center. The legacy CIS was not designed for today's digital times, with customers expecting access to a multitude of real-time digital (*e.g.*, online, chat, mobile, social media) and self-service options, as well as more personalized services based on individual communication preferences. Customer expectations have also evolved in response to the growing number of rate programs and options available to them. Customers now actively seek information about their energy usage and how they can save on their energy bills.

Thus, over the past two decades, while customer expectations, industry changes and regulatory initiatives have resulted in positive growth in new and technologically-advanced programs and energy services, the legacy CIS has been considerably strained to adapt to these requirements it simply was not designed to serve. To meet each new change, SDG&E has needed to either (1) customize its legacy CIS; or (2) add specialized subsystems for the incremental required functionality. For instance, within the past ten years, SDG&E has made significant customizations to its legacy CIS system to support state policies such as the implementation of Advanced Metering Infrastructure ("AMI"), Net Energy Metering ("NEM")

and successor tariffs, Dynamic Pricing and Residential Rate Reform. While SDG&E is confident that the customer bills issued to date are accurate, the process of continual customization and addition of subsystems over the past 20 years has resulted in a decentralized, highly complex and increasingly unstable CIS architecture.

In light of these challenges, in 2015, SDG&E retained a third party expert, Ernst and Young Consulting ("EY"), to evaluate the current state of the legacy CIS and related subsystems, and to provide a recommended strategy for either maintaining, extending or replacing the legacy CIS and related subsystems. EY undertook a nine-month study with the objective of developing a comprehensive assessment for a future-state CIS, along with related applications, that would enable SDG&E to keep pace with the current and future business and technology needs. At the conclusion of the nine-month project, EY recommended replacement of the legacy CIS and related subsystems with a modern technology platform. Moving forward on this recommendation, in 2016, SDG&E performed an internal risk analysis and took preparatory steps to file this Application to replace the legacy CIS and related subsystems.

The need for replacement of the legacy CIS and related subsystems has become urgent; an unprecedented number of new rates and changes to existing rate structures implemented over the past 28 months has significantly and detrimentally impacted the performance of SDG&E's legacy CIS. While SDG&E has historically made 4 to 5 of these significant changes to its legacy CIS per year, more than 30 significant changes will be made between 2016 and 2019. SDG&E's legacy CIS has become less stable and less reliable due, in part, to technology obsolescence, the aforementioned rapid deployment of increasingly complex rates and other regulatory requirements, and an exponential increase in the amount of data processing required by the system since the legacy CIS was deployed in 1997. Also contributing to the instability is the

number and complexity of integrations between the legacy CIS and subsystems that have been added over two decades as the energy market, regulatory requirements and customer-utility relationship have transformed.

These stresses on the legacy CIS have negatively impacted the service quality experienced by SDG&E's customers while increasing costs for ratepayers. For instance, in 2016, SDG&E began experiencing challenges with the legacy CIS and related subsystems following the deployment of several billing changes over a short period. Some customer bills could not be processed in a timely manner due to system problems, resulting in an increase in the number of delayed bills from an average of about 3,000 to approximately 40,000 at peak.

Contributing to this challenge, mainframe processing issues requiring manual Information Technology ("IT") resolution have increased 600% since the end of 2015. Further, SDG&E's MyAccount online customer portal, which is also proposed to be replaced as part of this Application, has been partially or completely unavailable for approximately 600 hours in 2016 and 2017 alone. This lack of system reliability and the subsequent impact on customers clearly demonstrates the need to move expeditiously on replacement of the legacy CIS and related subsystems.

Thus, what was initially perceived to be a near-term need, based on the EY study, has now become an urgent and immediate need due to the recent challenges experienced with the legacy CIS and related subsystems. It was not implementation of any one statutory requirement that exposed the weaknesses of SDG&E's current billing system; rather it was the cumulative effect of implementing multiple, complex billing system changes simultaneously. Indeed, implementation of a new billing system is directly tied to implementation of the various statutory

requirements detailed in Chapter 2 – it is essentially the "next step" of the Commission's implementation of the relevant statutory provisions.

In any event, it is abundantly clear that the legacy CIS does not have the long-term capabilities to meet the increasingly complex requirements demanded from customer programs and rates that will be implemented in future years. SDG&E needs a modernized CIS system that can easily adapt to such complex changes and allow SDG&E to quickly implement regulatory mandates in the most effective and cost efficient way possible while aspiring to provide the excellent service customers deserve.

The proposed replacement CIS will provide just that. It will modernize critical business processes, while reducing costs and decreasing system failure risks. It will also unlock new potential in customer engagement and advance innovations that support of the State's policy initiatives. The major benefits of the new CIS will include:

- Quality and efficiency of customer interactions
- Relevance of offerings and delivery of better customer experiences
- More flexible service options
- Customer access to data, information, and analysis for decision making
- Timely and accurate billing
- Improved system reliability
- Increased speed to market
- Single, 360-degree view of the customer
- Standardization and optimization of future business practices and processes

 Ability to effectively incorporate new customer- and grid-side technologies

When the new CIS is fully implemented, approximately 75% of SDG&E's existing outdated customer services application portfolio will be replaced and integrated into a more streamlined and efficient system.

III. BRIEF DESCRIPTION OF SUPPORTING TESTIMONY

In support of this Application, SDG&E includes the direct testimony of the following witnesses, organized by chapter as shown:

- <u>Chapter 1</u>: (Scott Crider) provides an overview of SDG&E's urgent need and policy support for replacing the legacy CIS with the proposed new CIS.
- <u>Chapter 2</u>: (Charlie Snyder and Christopher Swartz) provide an overview of the legacy CIS and the supporting subsystems, and describe the limitations and challenges of these current systems that demand a near-term solution.
- <u>Chapter 3</u>: (Charlie Snyder) describes SDG&E's selection approach and alternatives considered before choosing the proposed CIS, the proposed CIS vendor solution, and the proposed implementation schedule.
- <u>Chapter 4</u>: (Laura Atkinson) provides a comprehensive breakdown of the CIS replacement program costs and benefits.
- <u>Chapter 5</u>: (Christopher Swartz) describes the impacts, timelines, costs, and resourcing for the CIS replacement program as they relate to SDG&E's Customer Service Operations and Information business units.

- <u>Chapter 6</u>: (Daniel Linder) describes the impacts, timelines, costs, and resourcing for the CIS replacement program as they relate to SDG&E's Information Technology business units.
- <u>Chapter 7</u>: (Michael Woodruff/James Vanderhye Jr.) describe the revenue requirement methodology and resulting total proposed revenue requirement for the new CIS.
- <u>Chapter 8</u>: (Lisa Browy/Marjorie Schmidt-Pines) present both the electric and the gas rate and bill impacts associated with the CIS Replacement Program; and
- <u>Chapter 9</u>: (Norma Jasso) describes SDG&E's proposal to establish a two-way interest bearing balancing account to record revenue and costs associated with the new CIS.

IV. RELIEF REQUESTED

SDG&E respectfully requests that, in accordance with the proposed schedule, the Commission issue a decision finding that:

- 1. SDG&E needs to implement the CIS Replacement Program as soon as possible so that it can adequately meet regulatory requirements, customer expectations, and business needs;
 - 2. The proposed cost of the CIS Replacement Program is just and reasonable;
 - 3. Full cost recovery in rates, as requested by SDG&E, should be granted;
 - 4. Such other relief as is necessary and proper.

V. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) - (c)

In accordance with Rule 2.1 (a) - (c) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.

1. **Rule 2.1 (a) – Legal Name**

SDG&E is a corporation organized and existing under the laws of the State of California. SDG&E is engaged in the business of providing electric service in a portion of Orange County and electric and gas service in San Diego County. SDG&E's principal place of business is 8330 Century Park Court, San Diego, California 92123.

2. Rule 2.1 (b) – Correspondence

Correspondence or communications regarding this Application should be addressed to:

William Fuller
Regulatory Case Manager
San Diego Gas & Electric Company
8330 Century Park Court, CP32D
San Diego, California 92123
Telephone: (858) 654-1885
Facsimile: (858) 654-1788
WFuller@semprautilities.com

with a copy to:

Ellen N. Adler Attorney for: San Diego Gas & Electric Company 8330 Century Park Court, CP32D San Diego, California 92123 Telephone: (858) 654-0220 Facsimile: (619) 699-5027

Facsimile: (619) 699-5027 EAdler@semprautilities.com

3. Rule 2.1 (c)

a. Proposed Category of Proceeding

In accordance with Rule 7.1, SDG&E requests that this Application be categorized as ratesetting. Because SDG&E proposes to recover the costs incurred for the CIS Replacement Program from its ratepayers, the costs will result in an increase of SDG&E's rates.

b. Need for Hearings

SDG&E believes that approval of this Application may require hearings. SDG&E sets forth below a schedule that includes hearings, in the event hearings are deemed necessary.

c. Issues to be Considered

The issues to be considered are described in this Application and the accompanying testimony and exhibits. Regarding safety considerations, based on current information, SDG&E's proposal will not result in any adverse safety impacts on the facilities or operations of SDG&E.

d. Proposed Schedule

| ACTION | DATE |
|---|-----------------------|
| Application filed | April 28, 2017 |
| Motion for Approval of Customer Information | April 28, 2017 |
| System Memorandum Account filed | |
| Response to Motion for Approval of | May 15, 2017 |

| Reply to Responses/Protests | June 9, 2017 |
| Prehearing Conference (if necessary) | June 19, 2017 |
| Scoping Memo Issued | June 29, 2017 |
| Intervenor Testimony | July 31, 2017 |
| Rebuttal Testimony | August 28, 2017 |
| Evidentiary Hearings | September 13-15, 2017 |
| Opening Briefs | October 6, 2017 |
| Reply Briefs | October 27, 2017 |
| Proposed Decision | November 22, 2017 |
| Comments on Proposed Decision | December 13, 2017 |
| Reply Comments on Proposed Decision | December 29, 2017 |
| Commission Decision Adopted | January 22, 2018 |

B. Rule 2.2 – Articles of Incorporation

A copy of SDG&E's Restated Articles of Incorporation as last amended, presently in effect and certified by the California Secretary of State, was filed with the Commission on September 10, 2014 in connection with SDG&E's Application No. 14-09-008, and is incorporated herein by reference.

C. Rule 3.2(a) – (d) – Authority to Increase Rates

In accordance with Rule 3.2(a) - (d) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.

1. Rule 3.2(a)(1) – balance sheet

SDG&E's financial statement, balance sheet and income statement for the twelve-month period ending December 31, 2016 are included with this Application as Appendix A.

2. Rule 3.2(a)(2) – statement of effective rates

A statement of all of SDG&E's presently effective electric and gas rates can be viewed electronically on SDG&E's website. Appendix B to this Application provides the table of contents from SDG&E's electric tariffs on file with the Commission. Appendix C to this Application provides the table of contents from SDG&E's gas tariffs on file with the Commission.

3. Rule 3.2(a)(3) – statement of proposed increases

A statement of proposed rate increases is attached as Appendix D. The percentage of electric increase in revenue from the proposed rate structure is less than one percent. The percentage of gas increase in revenue from the proposed rate structure is less than three percent.

4. Rule 3.2(a)(4) – description of property and equipment

SDG&E is in the business of generating, transmitting and distributing electric energy to San Diego County and part of Orange County. SDG&E also purchases, transmits and distributes

11

natural gas to customers in San Diego County. SDG&E has electric transmission, distribution and service lines in San Diego, Orange and Imperial Counties. This includes a composite 92% ownership in the 500,000 volt Southwest Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Palo Verde substation in Arizona. This also includes full ownership of the 500,000-volt Sunrise Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Imperial Valley substation. Gas facilities consist of the Moreno gas compressor station in Riverside County and the Rainbow compressor station located in San Diego County. The gas is transmitted through high and low-pressure distribution mains and service lines.

Applicant's original cost of utility plant, together with the related reserves for depreciation and amortization for the twelve-month period ending December 31, 2016, is shown on the statement of Original Cost and Depreciation Reserve attached as Appendix E.

5. Rule 3.2(a)(5) and (6) – summary of earnings

A summary of SDG&E's earnings (for the total utility operations for the company) for the twelve-month period ending December 31, 2016, is included as Appendix F to this Application.

6. Rule 3.2(a)(7) – statement re tax depreciation

For financial statement purposes, depreciation of utility plant has been computed on a straight-line remaining life basis, at rates based on the estimated useful lives of plan properties. For federal income tax accrual purposes, SDG&E generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, "flow through accounting" has been adopted for such properties. For tax property additions in years 1981 through 1986,

SDG&E has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SDG&E has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

7. Rule 3.2(a)(8) – proxy statement

A copy of the most recent proxy statement sent to all shareholders of SDG&E's parent company, Sempra Energy, dated March 24, 2017, was mailed to the Commission on April 10, 2017, and is incorporated herein by reference.

8. Rule 3.2(a)(10) – statement re pass through to customers

The rate changes that SDG&E seeks in this Application reflect estimated costs to SDG&E, and SDG&E proposes to pass through to customers only costs that SDG&E incurs for the proposed Customer Information System Replacement Program.

9. Rule 3.2(b) – notice to state, cities and counties

In compliance with Rule 3.2(b) of the Commission's Rules of Practice and Procedure, SDG&E will, within twenty days after the filing this Application, mail a notice to the State of California and to the cities and counties in its service territory and to all those persons listed in Appendix G to this Application.

10. Rule 3.2(c) – newspaper publication

In compliance with Rule 3.2(c) of the Commission's Rules of Practice and Procedure, SDG&E, within twenty days after the filing of this Application, will post in its offices and publish in newspapers of general circulation in each county in its service territory notice of this Application.

13

11. Rule 3.2(d) – bill insert notice

In compliance with Rule 3.2(d) of the Commission's Rules of Practice and Procedure, SDG&E, within 45 days of the filing of this Application, will provide notice of this Application to all of its customers along with the regular bills sent to those customers that will generally describe the proposed revenue requirement changes addressed in this Application.

VI. SERVICE

This is a new application. No service list has been established. Accordingly, SDG&E will serve the public versions of this Application, testimony and related exhibits on parties to the service list for A.14-11-003 (SDG&E's last General Rate Case) and General Order 96-B. Hard copies will be sent by overnight mail to the Assigned Commissioner and Assigned Administrative Law Judge ("ALJ") and Chief Administrative Law Judge Karen Clopton.

VII. CONCLUSION

WHEREFORE, SDG&E requests that the Commission grant SDG&E's Application as described herein.

Respectfully submitted this 28th day of April 2017.

APPENDIX D

Statement of Proposed Rate Increases

The Tables below presents illustrative class average electric and gas rate impacts (i.e. rate increase) associated with the proposals and related revenue requirements proposed in this Application. Further details regarding the proposed rate designs and revenue requirements can be found in the direct testimony of Lisa Browy and Marjorie Schimidt-Pines (Chapter 8) and direct testimony of Michael Woodruff (Chapter 9).

Illustrative Class Average Electric Rate Impacts

| Customer Class | Class Average Rates Effective 3/1/2017 | 2021 Class Average Rates Reflecting Proposed Revenue Increase Included in this Application (¢ / kWh) | Total Rate Increase (¢ / kWh) | Percentage Rate Increase (%) |
|---------------------|--|--|-------------------------------------|---------------------------------|
| Residential | 24.990 | 25.058 | 0.068 | 0.27% |
| Small Commercial | 23.928 | 23.994 | 0.066 | 0.28% |
| Medium & Large C&I* | 19.850 | 19.882 | 0.032 | 0.16% |
| Agriculture | 17.735 | 17.775 | 0.040 | 0.23% |
| Lighting | 19.917 | 19.935 | 0.036 | 0.18% |
| System Total | 22.122 | 22.171 | 0.049 | 0.22% |

^{*}C&I stands for Commercial and Industrial.

Illustrative Class Average Gas Rate Impacts

| Customer Class | Annual ¢/Therm | Percentage Rate Increase (%) |
|---|-------------------|---------------------------------|
| Residential | 0.03 ¢/Therm | 2.9% |
| Commercial | 0.63 ¢/Therm | 1.7% |
| Natural Gas Vehicles | 0.03 ¢/Therm | 0.2% |
| Large Industrial (distribution level service) | 0.31 ¢/Therm | 3.3% |
| Large Industrial (transmission level service) | 0.004 ¢/Therm | 0.2% |
| System Total | 0.84 ¢/Therm | 2.6% |
