BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Investigation pursuant to Senate Bill 380 to determine the feasibility of minimizing or eliminating the use of the Aliso Canyon natural gas storage facility located in the County of Los Angeles while still maintaining energy and electric reliability for the region.

Investigation 17-02-002

**ADMINISTRATIVE LAW JUDGE'S RULING ENTERING INTO RECORD
UPDATED SCENARIOS FRAMEWORK**

On January 4, 2019, the assigned Commissioner and Administrative Law Judge jointly issued the *Assigned Commissioner and Administrative Law Judge's Ruling Adopting Scenarios Framework and Closing Phase 1 of Investigation 17-02-002* (ruling). The Scenarios Framework, attached as Appendix 2 to the ruling, contained an Appendix B, *Summary of Comments and CPUC Staff Responses*. A formatting glitch resulted in a mismatch between comment summaries and staff responses. Accordingly, attached to this ruling, parties will find an updated Scenarios Framework containing a new Appendix B with responses correctly aligned. This updated Scenarios Framework shall replace the Scenarios Framework attached to the January 4, 2019 ruling. No substantive changes to the Scenarios Framework have been made.

IT IS SO RULED that an updated Scenarios Framework, attached to this ruling, shall replace the Scenarios Framework affixed as Appendix 2 to the January 4, 2019 *Assigned Commissioner and Administrative Law Judge's Ruling Adopting Scenarios Framework and Closing Phase 1 of Investigation 17-02-002*. The Scenarios Framework, entered into the record herein, contains an updated Appendix B that corrects formatting errors. No substantive changes have been made to the Scenarios Framework.

Dated January 14, 2019, at San Francisco, California.
