# PART I: PROCEDURAL ISSUES (to be completed by Intervenor except where indicated)

A. Brief description of Decision:	Decision 20-08-045 approves SCE's Charge Ready 2 (CR2)
	program with modifications. The Decision authorizes \$436
	million in funding to support approximately 37,800 electric
	vehicle charge ports in Southern California Edison
	Company's service territory. The \$436 million comprises
	approximately \$417.5 million for charging infrastructure,
	\$14.5 million for marketing, education and outreach, and
	\$4.3 million for an evaluation of the Charge Ready 2

infrastructure and market education programs. The resulting number of ports includes Level 1, Level 2, and direct current
fast chargers.

# B. Intervenor must satisfy intervenor compensation requirements set forth in Pub. Util. Code §§ 1801-1812¹:

	Intervenor	CPUC Verification

-

<sup>&</sup>lt;sup>1</sup> All statutory references are to California Public Utilities Code unless indicated otherwise.

### C. Additional Comments on Part I: (use line reference # as appropriate)

#	Intervenor's Comment(s)	CPUC Discussion
1.	TURN did not receive an affirmative ruling on its Notice of Intent in this proceeding. As explained in the Commission's Intervenor Compensation guide, "normally, an ALJ Ruling need not be issued unless: (a) the NOI has requested a finding of "significant financial hardship" under § 1802(g); (b) the NOI is deficient; or (c) the ALJ desires to provide guidance on specific issues of the NOI." (page 12) Since none of these factors apply to the NOI submitted in this proceeding, there was no need for an ALJ ruling in response to TURN's NOI.	

# PART II: SUBSTANTIAL CONTRIBUTION (to be completed by Intervenor except where indicated)

A. Did the Intervenor substantially contribute to the final decision (see § 1802(j), § 1803(a), 1803.1(a) and D.98-04-059): (For each contribution, support with specific reference to the record.)

	Intervenor's Claimed Contribution(s)	Specific References to Intervenor's Claimed Contribution(s)	CPUC Discussion
-	1. Program Size & Budget		
	SCE originally proposed a very large		
	program to support up to 52,000 charging	- Ex. TURN-01, Direct	
	ports at a cost of \$760 million. TURN was	Testimony of Eric	
	successful in convincing the Commission	Borden, November 30,	
	to significantly scale back this proposal	2018, pp. 39-41.	
	and decrease the per-port costs, ultimately

	- D.20-08-045, p. 120,	
	FOF 33.	
5. Disadvantaged Community EV		
Charger Deployments	- Ex. TURN-01, Direct	
For the Make-Ready Expansion component of	Testimony of Eric	
the CR2 program, TURN recommended the	Borden, November 30,	
Commission adopt a target of 50% of	2018, p. 41.	
charging ports deployed in disadvantaged	, , <u>, , , , , , , , , , , , , , , , , </u>	
communities (DACs) which was greater than	- TURN Opening Brief,	
the 30% target proposed by SCE. The	p. 27.	
	ρ. 27.	
Commission agreed with TURN that a higher	D 20 09 045 - 91 9-	
DAC commitment was necessary and directed	- D.20-08-045, p. 81 & p.	
SCE to deploy 50% of the make-ready ports	122, FOF 48.	
at DAC sites.		
	- TURN Opening Brief,	
In order to ensure DAC residents received	p. 27.	
some of the benefits of the program and in		
light of TURN's analysis of the pilot, TURN	- D.20-08-045, p. 81,	
recommended that SCE deploy at least 15%	"Because the Phase 1	
of the make-ready expansion ports at multi-	Pilot struggled to reach	
unit dwellings (MUDs) in DACs. The	MUD goals, we	
Commission agreed with TURN's proposal	additionally adopt	
	TURN's recommendation	
and adopted a minimum requirement of 15%		
of ports deployed at MUDs in DACs.	that at least 15 percent of	

	the Males Deader	
	the Make-Ready Expansion charge ports to	
	be deployed at MUDs in DACs."	
6. Utility Ownership of Charging	DACS.	
Infrastructure	- Ex. TURN-01, Direct	
As part of the Charge Ready 2 application,	Testimony of Eric Borden, November 30,	
SCE proposed the "Own and Operate"	2018, pp. 35-36.	
program under which SCE would own and operate charging stations at MUDs and		
government sites. SCE proposed to cap the	- D.20-08-045, p. 124,	
program at 4,230 charging ports. Based on TURN's analysis of the pilot results, TURN	COL 5. "Consistent with TURN's recommended	
recommended that the Own and Operate	cap on the Own and	
program be limited to MUDs in	Operate program, SCE	
disadvantaged communities and be capped at 2,500 charging ports. The Commission	should cap participation for its approved utility-	
adopted TURN's proposal which reduced the	ownership model at an	
cost of the program.	estimated 2,500 charge ports in the Make-Ready	
	Expansion program."	
7. Data Collection & Reporting		
TURN raised the issue that the programs	- TURN Opening Brief,	
should gather data on the impact of charging infrastructure installations on EV adoption	pp. 38-39.	
and proposed that drivers at MUDs and	- Ex. TURN-01, Direct	
workplaces utilizing charging infrastructure be surveyed regarding the impact of the	Testimony of Eric Borden, November 30,	
charging infrastructure on their decision to	2018, p. 44.	
purchase or lease an EV. TURN recommended a neutral third-party be hired to		
collect data regarding the impact of the	- D.20-08-045, p. 112-	
program on EV adoption. The Commission agreed and directed SCE to survey drivers and	113. "Consistent with TURN's	
to hire a neutral third-party to conduct the	recommendation, SCE	
surveys.	should conduct a competitive solicitation	
	to select a neutral third-	
	party evaluator"	
8. New Construction Rebate Program		
Modifications	- Ex. TURN-01, Direct Testimony of Eric	
	resultiony of Effe	

TURN supported the concept of SCE's new construction rebate program but it's analysis of pilot costs indicated a lower rebate amount was more appropriate. The Commission agreed and adopted TURN's proposed rebate amount of \$3,500 per port.	Borden, November 30, 2018, p. 34.  - TURN Opening Brief at 6.  - D.20-08-045, p. 71 & p. 128, FOF 5.	
9. Cost Allocation SCE proposed to recover program costs through distribution rates. Cal Advocates and TURN recommended CR2 program costs be allocated to customer classes on equal cents per kilowatt-hour basis and recovered from all customers via the public purpose program rates at a non-bypassable charge. The Commission partially agreed with TURN and Cal Advocates and revised the PD to adopt cost recovery for the CR2 programs through distribution rates and allocated to customer classes on an equal cents per kWh basis "to ensure that costs and benefits are shared equitably by all customers."	- TURN Opening Brief at 28.  TURN Opening Comments on PD, pp. 4-5.  - D.20-08-045, p. 107 & p. 116.	
Infrastructure in Addition to Charging Station  TURN analyzed the impact to ratepayers of capitalizing behind-the-meter (BTM) costs vs. expensing the costs and found that over time the costs were more than double. This analysis informed TURN's recommendation to expense BTM costs. While the Commission did not adopt this recommendation, it did note the additional costs to ratepayers and in order to partially mitigate it, the Commission directed SCE to provide site hosts with the option to own, operate, and maintain the BTM infrastructure at their site. The Commission also adopted a target of 15% of all make-ready expansion sites utilizing the BTM site-host ownership option.	- Ex. TURN-01, Direct Testimony of Eric Borden, November 30, 2018, pp. 31-33. - TURN Opening Brief at 29. - D.20-08-045, pp. 58-59	

### B. Duplication of Effort (§ 1801.3(f) and § 1802.5):

	Intervenor's Assertion	<b>CPUC Discussion</b>
a. Was the Public Advocate's Office of the Public Utilities Commission (Cal Advocates) a party to the proceeding? <sup>2</sup>	Yes	
b. Were there other parties to the proceeding with positions similar to yours?	Yes	
c. If so, provide name of other parties:		
National Diversity Coalition (NDC)		
d. Intervenor's claim of non-duplication:		
TURN coordinated with Cal Advocates throughout the proceeding, including conferring on issue positions and schedule. TURN also coordinated with NDC regarding the issues of minimizing costs and maximizing benefits and proposals to promote EV adoption in DACs. As a general matter, TURN either offered unique positions in this proceeding, or, where our positions overlapped with Cal Advocates or other intervenors, unique analysis in support or opposition of those positions.		
As is apparent from the multiple entries coded as "Coord" in the time sheets, TURN engaged in multiple meetings and discussions with other parties in order to minimize duplication, allocate issues, and coordinate strategies. TURN took reasonable steps to keep any duplication to a minimum, and to ensure that when it did happen, our work served to complement and assist the showings of the other parties. TURN coordinated with Cal Advocates on cross examination issues in order to avoid duplication.		
The Commission should find that TURN's participation was efficiently coordinated with the participation of Cal Advocates and other intervenors so as to avoid undue duplication and to ensure that to the extent duplication occurred, it served to supplement, complement, or contribute to the showing of the other intervenor. And consistent with such a finding, the Commission should determine that all of TURN's work is compensable consistent with the conditions set forth in Section 1802.5.		

### C. Additional Comments on Part II: (use line reference # or letter as appropriate)

-

<sup>&</sup>lt;sup>2</sup> The Office of Ratepayer Advocates was renamed the Public Advocate's Office of the Public Utilities Commission pursuant to Senate Bill No. 854, which the Governor approved on June 27, 2018.

#	Intervenor's Comment	CPUC Discussion
1.	The page references to D.20-08-045 included in Part II refer to the Microsoft Word version of the document found on the Docket Card for this proceeding on the Commission's website.	

# PART III: REASONABLENESS OF REQUESTED COMPENSATION (to be completed by Intervenor except where indicated)

### A. General Claim of Reasonableness (§ 1801 and § 1806):

<b>CPUC Discussion</b>

likely to provide substantial benefits, albeit some benefits may be hard to quantify in dollars.

#### b. Reasonableness of hours claimed:

In this request TURN seeks compensation for approximately 437 hours of expert witness time and 360 hours of attorney time. This amount of resources was warranted and reasonable in light of a number of factors:

- 1) the scale and cost of SCE's proposed Charge Ready 2 program of over \$760 million;
- 2) SCE's proposal was comprised of three infrastructure programs, each with an unique structure that required analysis and evaluation and one comprehensive marketing, education, and outreach (ME&O) portfolio with four subprograms that each required separate analysis and evaluation;
- 3) the policy significance of creating a well-designed and sustainable transportation electrification (TE) program to support the Governor's ambitious TE adoption goals;
- 4) the robustness of the evidentiary record in this proceeding (including 5 days of evidentiary hearings in which TURN played an active role) and the large number of parties involved;
- 5) the necessity to ensure that the program would provide valuable data to inform future TE programs and investments; and
- 6) the wide breath of issues addressed in this proceeding and that fact that TURN filed three separate exhibits of testimony, an opening brief, and reply brief and opening and reply comments on the proposed decision. TURN also participated in the workshop related to this application and made a presentation regarding its analysis of pilot data.

TURN primarily devoted the resources of one staff attorney and TURN's in-house energy analyst, who served as an expert witness to this proceeding in order to address key issues related to the deployment of TE infrastructure including, the light duty electric vehicle market, EV technology, cost forecasting and program design. TURN's energy analyst also conducted comprehensive analysis of the pilot results to inform TURN's recommendations and was assisted by TURN's Energy Analyst Intern. TURN also hired an outside consultant to provide expert testimony on SCE's marketing, education, and outreach proposals (ME&O). In the following subsections, TURN describes the responsibilities of the different staff members and expert witness and explains the reasonableness of the hours and effort devoted to this proceeding.

TURN excludes from this request work done by Elise Torres after the issuance of D.20-08-045, related to researching and drafting a response to

EPUC's Application for Rehearing (AFR). TURN may seek compensation for these hours when the Commission addresses the AFR.

#### **Attorney Time**

#### Elise Torres

Ms. Torres was TURN's primary attorney in this proceeding and represented TURN in a week of evidentiary hearings, at settlement meetings, and took the lead on drafting the majority of TURN's pleadings, including the opening and reply brief and opening and reply comments on the PD. Ms. Torres assisted TURN's experts with discovery, developing TURN's positions, and reviewed and edited their testimonies and rebuttal testimony. Ms. Torres also represented TURN in the workshop and in ex parte meetings with Commissioner advisors. Ms. Torres devoted approximately 350 hours to this proceeding.

#### Marcel Hawiger

Mr. Hawiger assisted TURN's energy analyst with discovery while Ms. Torres was out on parental leave at the beginning of June 2018. As a practitioner with over 20 years of utility ratemaking experience Mr. Hawiger also provided advice to Ms. Torres and Mr. Borden regarding TURN's analysis of costs and benefits from the program and regarding the procedure for a motion to strike extra-record evidence. 3 hours of Mr. Hawiger's time is in included in this request.

Consultation with other TURN Attorneys on Limited Issues
Ms. Torres also benefitted from occasional input from TURN General
Counsel Robert Finkelstein on cost recovery issues. Two hours of Mr.
Finkelstein's time is included in this request.

Ms. Morsony represented TURN at the prehearing conference for this proceeding as Ms. Torres was unavailable. 3 hours of Ms. Morsony's time is included in this request.

#### **Expert Witness Time**

#### Eric Borden

TURN's in-house energy analyst, Mr. Eric Borden, conducted the majority of TURN's analyses in this case. Mr. Borden reviewed and analyzed SCE's application and extensive data collected during the pilot program. Mr. Borden addressed numerous issues related to the number of charging stations needed in SCE's service territory, ratepayer risks due to technology risks and stranded costs, air quality and GHG reduction benefits of TE, the potential downward pressure on rates from the program, and proposed a modified program for each component of the CR2 portfolio, each with a size and design intended to improve potential TE adoption while better minimizing the risks of stranded costs. Mr. Borden testified in evidentiary hearings for approximately 2 hours. Mr. Borden also assisted

Ms. Torres with preparations for cross examination and with the briefs. He represented TURN at the workshop and made a presentation regarding pilot analysis and represented TURN in ex parte meetings with Commissioner advisors. Mr. Borden devoted approximately 360 hours to this proceeding.

#### Barbara Alexander

Barbara Alexander provided 35 hours of assistance to TURN evaluating SCE's proposed ME&O programs. Ms. Alexander did significant analysis of SCE's proposals and existing EV education campaigns in California. Ms. Alexander drafted and sponsored testimony, Exhibit TURN-02. In response to criticisms from parties, led by TURN, the Commission rejected SCE's broad EV awareness campaign which saved ratepayers over \$28 million.

#### Caroline Palmer

Ms. Palmer joined TURN as Energy Analyst intern in May 2018. Ms. Palmer assisted with this proceeding by conducting research regarding EV charging needs and analyzing state and federal resources. Ms. Palmer also assisted Mr. Borden with analyzing charger utilization data from the pilot program which informed many of TURN's recommendations. Ms. Palmer drafted a section of TURN's protest to the application addressing lessons learned from pilot data. Ms. Palmer devoted 43 hours to this proceeding.

### **Legal Support Staff**

### Stephen Green, TURN Legal Assistant

TURN includes in this request 12.5 hours spent by TURN Legal Assistant Stephen Green in 2018 and 2019 to assist Ms. Torres and Mr. Borden in a paralegal capacity. As TURN's timesheets reflect, Mr. Green helped review data and compile information to inform TURN's advocacy, and he also assisted in the preparation of TURN's testimony. Mr. Green also assisted with discovery management.

# Coordination among staff and presence of multiple TURN attorneys or experts at meetings:

A relatively small percentage of hours reflect internal and external meetings involving two or more of TURN's staff members. The Commission should recognize such meetings do not reflect internal duplication, but rather are essential to effective and efficient coverage of a large litigation case that involves multiple programs and issues.

There are a limited number of hours devoted to internal planning meetings. Such meetings are essential to the effective development and implementation of TURN's strategy in these cases. Strategy planning meetings with multiple staff are essential, as each staff member contributes

particular knowledge and expertise to develop complex case strategy that require a certain amount of "group-think."

#### **Compensation Related Hours**

TURN is also seeking compensation for 12.25 hours devoted to compensation related matters, primarily 11.5 hours associated with the preparation of this request by Ms. Torres. TURN assigned the task to Ms. Torres despite her relatively high hourly rate because of her in-depth familiarity with the proceeding and her experience with compensation requests ensured that the request could be prepared in a relatively small number of hours and a lower total cost, even at the relatively high hourly rate. Due to the fact that this compensation request address a significant Commission decision and work related to a plethora of issues, the amount of time dedicated to preparing this compensation request is reasonable.

### c. Allocation of hours by issue:

Code	Description	Allocation of Time
	Expert witness time spent reviewing SCE's	
	workpapers and testimony for reasonableness	
	and developing proposals to reduce costs.

<sup>\*</sup>We remind all intervenors that Commission staff may audit the records and books of the intervenors to the extent necessary to verify the basis for the award (§1804(d)). Intervenors must make and retain adequate accounting and other documentation to support all claims for intervenor compensation. Intervenor's records should identify specific issues for which it seeks compensation, the actual time spent by each employee or consultant, the applicable hourly rates, fees paid to consultants and any other costs for which compensation was claimed. The records pertaining to an award of compensation shall be retained for at least three years from the date of the final decision making the award.

<sup>\*\*</sup>Travel and Reasonable Claim preparation time are typically compensated at  $\frac{1}{2}$  of preparer's normal hourly rate

C	2020 Hourly Rate for Elise Torres
Comment 1	TURN requests that the Commission adopt an hourly rate for Ms. Torres' work in 2020 that reflects both the general COLA for 2020 adopted in Resolution ALJ-387, 2.55%, and the second 5% step increase in the 5-7 year experience tier, limited to the maximum rate for that tier. TURN calculates Ms. Torres' 2020 rate by increasing her adopted rate for 2019 (\$340), by the 2020 COLA of 2.55%, plus the second 5% step increase, which results in a rate of \$360.
Comment 2	2018 & 2019 Hourly Rate for Barbara Alexander
	TURN requests that the Commission adopt an hourly rate of \$170 for Ms. Alexander's work in both 2018 and 2019. This is the rate Ms. Alexander charged TURN for her work in this proceeding.
	In D.19-02-017, the Commission adopted an hourly rate of \$155 for Ms. Alexander's work in 2016. An increase to \$170 for 2018 is supported by the Commission's hourly rate framework. Adjusting Ms. Alexander's 2016 rate of \$155 by the by the 2017 COLA (2.14%), the 2018 COLA (2.30%), and the first 5% step increase in the 13+ year experience tier yields a 2018 rate of \$170. See Res. ALJ-345, Res. ALJ-352.
	TURN notes that the requested rate of \$170 is lower than the bottom level of both the 7-12 year and 13+ years of experience tiers adopted in Resolution ALJ-352, despite the fact that Ms. Alexander has over 20 years of experience.
Comment 3	Hourly Rate for Caroline Palmer, TURN Energy Analyst Intern – 2018
	TURN requests an hourly rate of \$150 for Caroline Palmer in 2018, when Ms. Palmer was an Energy Analyst intern at TURN. This is the lowest rate for experts with 0-6 years of experience in 2018. <i>See</i> Res. ALJ-387, Table 2 (showing hourly rate ranges for each year from 2014-2020). The Commission has not previously adopted an hourly rate for Ms. Palmer.
	Ms. Palmer joined TURN for a summer internship while completing a Master of Public Policy degree at the Goldman School of Public Policy at UC Berkeley, with a concentration in Energy Policy. Ms. Palmer assisted TURN with quantitative analysis of raw utility data related to EV charger utilization rates and cost drivers, as well as quantitative and qualitative analysis of clean energy policies, regulations, and rate design issues.
	Prior to her internship at TURN, Ms. Palmer was a consultant for the Public Advocates Office (then called the Office of Ratepayer Advocates) in the spring of 2018 and analyzed large utility datasets to inform policymaking related to disconnections. Ms. Palmer also held various positions related to clean energy policy between 2013 and 2017, after receiving a Bachelor of Science in Foreign Service degree from Georgetown University in 2013, with a concentration in

	Energy and Environment. She was a clean energy intern for the Greater Boston
	Metropolitan Area Planning Council; a Fulbright scholar researching renewable
	energy policymaking in the context of Greece's severe economic crisis; an
	analyst at a clean energy consulting firm in Boston; and the recipient of a Global
	Research Fellowship from the Circumnavigators Club Foundation to pursue
	original research in Africa, Europe, and Asia benchmarking best practices in
	renewable energy policy development. Her resume at the time she applied for
	her TURN internship is attached as Attachment 6.
	her retriving is attached as retachient of
	TURN submits that a rate of \$150, the lowest rate in the expert category for
	persons with 0-6 years of experience, is reasonable in light of Ms. Palmer's
	directly-relevant work and academic experience. While Ms. Palmer was a
	graduate student at the time she worked at TURN, she possessed a level of
	, 1
	subject matter expertise and analytical skills akin to an expert consultant in the
	early part of their career.
Comment 4	2020 Hourly Rate for Eric Borden
	TUDN requests that the Commission adopt an hourly rate for Mr. Dorden's week
	TURN requests that the Commission adopt an hourly rate for Mr. Borden's work
	in 2020 that reflects the general COLA for 2020 adopted in Resolution ALJ-387,
	2.55%. TURN calculates Mr. Borden's 2020 rate by increasing his adopted rate
	for 2019 (\$215) by the 2020 COLA of 2.55%, which results in a rate of \$220.
	1 (+) by the 2020 002120120070, which is a late of \$1200.

## Mary Caroline Palmer (Caroline)

carolinepalmer@berkeley.edu | (617) 417-5888

#### **EDUCATION**

University of California, Berkeley, Goldman School of Public Policy, Berkeley, CA, Expected 2019

Master of Public Policy. *Concentration*: Energy and Environment. *GPA*: 3.9

Courses: Renewable Energy Policy, Environmental Law, Energy & Enviro. Economics, Data Analysis & Visualization.

Georgetown University, School of Foreign Service, Washington, DC, 2013

Bachelor of Science in Foreign Service. Cum Laude.

Major: Science, Technology, and International Affairs. Concentration: Energy and Environment.

#### PROFESSIONAL EXPERIENCE

#### CA Public Utilities Commission, Office of Ratepayer Advocates, San Francisco, CA

Consultant. February 2018 – Present

Compile and analyze utility data to inform policy around reducing low-income energy service disconnections.

**UC Berkeley Goldman School of Public Policy** – "Energy Regulation and Public Policy", Berkeley, CA *Teaching Assistant*. January 2018 – Present

Clarify and reinforce course material for 45 students, encompassing energy regulatory policy, economics, and law.

**Berkeley Energy & Resources Collaborative** – Innovative, interdisciplinary campus energy club, Berkeley, CA *Co-President*. December 2017 – Present

Provide vision and implement strategy for 1,000-member, student-run energy and environmental organization. Manage 28-person Executive and Leadership Teams. Oversee annual \$80,000 fundraising efforts.

**Metropolitan Area Planning Council** – Regional planning agency for Greater Boston, Boston, MA *Clean Energy Intern*. February – July 2017

Provided technical assistance to Massachusetts local governments on renewable energy policy and energy planning. Authored white paper on clean heating and cooling technologies, policies, and opportunities for municipalities. Informed cities and towns of the capacity-cost benefits of reducing power consumption during the summer electric peak and maintained a notification program helping them to do so.

#### Fulbright U.S. Student Program, Athens, Greece

Fulbright Research Fellow. September 2015 – June 2016

Designed and conducted original, independent research on renewable energy policy-making in the context of Greece's severe economic crisis. Interviewed academics, regulators, ministry officials, businesses, and NGOs to become versed in Greek energy policy. Examined how electricity market liberalization will affect Greece's clean energy development. Presented findings at the Hellenic Association for Energy Economics conference in Athens.

**Meister Consultants Group, Inc.** – International renewable energy consulting firm, Boston, MA *Analyst.* June 2014 – June 2015. *Research Intern.* January – March 2014

- Authored fact sheet on solar PV glare near airports as part of the U.S. Dept. of Energy's SunShot Initiative.
- Identified and interviewed over 15 solar PV installers in Caribbean islands to establish the range of PV installation costs in the region. Built accompanying database of Caribbean net metering and feed-in tariff policy characteristics. Published original data and written interpretations via Greentech Media.
- Coordinated outreach and communications for the NY-Sun PV Trainers Network, a three-year, multi-million-dollar solar program under Governor Cuomo's NY-Sun Initiative.

#### Circumnavigators Club Foundation, Africa, Europe, and Asia

Global Research Fellow. May – August 2013

Awarded grants to pursue original, independent research on renewable energy policy. Traveled solo to Ghana, Germany, Denmark, Indonesia, Philippines, and Japan to benchmark the motivating and enabling factors for clean energy policy development. Identified and interviewed policy makers and stakeholders. Developed a theoretical framework for analyzing findings and produced a written paper and oral presentation of results.

**MA Clean Energy Center** – State agency dedicated to clean energy industry development, Boston, MA *Solar Fellow.* July – August 2012

#### SKILLS, EXTRA-CURRICULAR, AND INTERESTS

Microsoft Word, Excel, Powerpoint, Outlook. Spanish (proficient). Hiking, rock climbing, playing squash.
