**BEFORE THE PUBLIC UTILITIES COMMISSION  
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking to Oversee the  
Resource Adequacy Program, Consider  
Program Refinements, and Establish Forward  
Resource Adequacy Procurement Obligations.

Rulemaking 19-11-009  
(Filed November 7, 2019)

**AMERICAN CLEAN POWER - CALIFORNIA  
(FORMERLY THE AMERICAN WIND ENERGY ASSOCIATION OF CALIFORNIA)  
NOTICE OF CHANGE OF NAME**

In accordance with Rule 1.9(f) of the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, and effective immediately, the American Clean Power - California (“ACP-California”) (formerly the “American Wind Energy Association of California”, or “AWEA-California”) hereby advises all parties to the above captioned proceeding of this notice of name change.

For purposes of clarity, in January of 2021, the American Wind Energy Association will merge with a new organization to become the American Clean Power Association. The American Clean Power Association works to champion policies that will transform the U.S. power grid to a low-cost, reliable, and renewable power system. As a result of this merger, AWEA’s California affiliate, AWEA-California, will become American Clean Power - California (“ACP-California”), and will continue to represent companies that develop, own, and operate utility-scale wind, solar, storage, offshore wind, and transmission assets.

ACP-California requests that the Commission’s Process Office update the service list (R.19-11-009) to reflect this name as the identified Party of Service of Process. All correspondence, pleadings, notices, orders and other communications in this proceeding should reflect the following:
