Subject: R.17-06-026 (PCIA): Email ruling requesting comments on ERRA timing proposal

Parties to R.17-06-026:

Please comment on the attached proposal by the Commission's Energy Division regarding the timeline for issuing Market Price Benchmark calculations used in the annual ERRR Forecast proceedings to calculate the PCIA. Please provide comments by June 15, 2021 and reply comments by June 22, 2021.

Please note that Energy Division will host a workshop in early June to discuss the proposal.

In particular, please address the following issues.

1. Please comment on Energy Division's proposal to shift the date to issue the Market Price Benchmark, including any possible implications that would result from this date change.
2. The accuracy of the forecasted adders for the first year of this timing change could be reduced to some extent because market data for September will not be included in the MPB until the following year. Please comment on whether this concern should override the benefits of moving up the benchmark calculation, or whether the true up process negates this concern.

The Commission's Docket Office shall file this ruling.

Stephanie Wang

Administrative Law Judge

California Public Utilities Commission
