Application of San Diego Gas & Electric Company (U 902 E) for Approval of Its 2022 Electric Sales Forecast

Application 21-	-80-
-----------------	------

APPLICATION OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 E) FOR APPROVAL OF ITS 2022 ELECTRIC SALES FORECAST

REQUEST FOR EXPEDITED SCHEDULE

I. INTRODUCTION

Pursuant to Ordering Paragraphs ("OP") 1, 2, and 4 of decision ("D.") 21-07-010 in San Diego Gas & Electric Company's ("SDG&E") General Rate Case ("GRC") Phase 2 proceeding, the provisions of the settlement agreement addendum adopted thereby, and the California Public Utilities Commission's ("CPUC" or "Commission") Rules of Practice and Procedure, SDG&E respectfully submits this application for approval of its 2022 electric sales forecast ("Application").¹

As set forth in more detail below, SDG&E summarizes its Application and testimony for (1) approval of its proposed 2022 electric sales forecast ("2022 Electric Sales Forecast"), (2)

¹ See Application ("A.") 19-03-002, Joint Motion for Admission of Addendum to the Settlement Agreement of San Diego Gas & Electric Company (U 902 E), The Public Advocates Office, Utility Consumers' Action Network, Federal Executive Agencies, California Farm Bureau Federation, San Diego Airport Parking Company, Small Business Utility Advocates, Solar Energy Industries Association, Energy Producers and Users Coalition, California Large Energy Consumers Association, California City County Street Light Association, The Utility Reform Network, and The City Of San Diego (February 26, 2021) ("GRC Phase 2 Settlement Addendum") at Appendix, Section 2.2.1.2 ("Parties agree that SDG&E shall file a timely standalone application to update its sales forecast for 2022, with a request to update effective January 1, 2022, and SDG&E shall use the same 2022 sales forecast for its April 2021 application for approval of its 2022 Electric Procurement Revenue Requirement Forecasts and GHG-Related Forecasts ("ERRA Application"). Additionally, Parties agree that SDG&E's proposal to update its sales forecast through a separate application on an annual basis going forward, subsequent to its 2022 sales forecast application, should be adopted.") (emphasis in original).

authorization to file an annual, combined sales forecast and Energy Resource Recovery Account ("ERRA") forecast by June 15 of each calendar year, and (3) to use the system average percent change ("SAPC") methodology to implement all rate changes resulting from a change in commodity revenue requirement that occur when 2022 bundled sales are effective. SDG&E then provides the information necessary to comply with the statutory and procedural requirements associated with this Application, including justification for SDG&E's request for an expedited schedule at Attachment A. SDG&E respectfully requests that the Commission approve this Application no later than the December 16, 2021 meeting so that SDG&E can incorporate its approved 2022 Electric Sales Forecast into its annual electric consolidated advice letter for January 1, 2022 effective rates.

II. BACKGROUND

On or around February 26, 2021, a majority of the parties to SDG&E's GRC Phase 2 proceeding entered into the GRC Phase 2 Settlement Addendum in which they agreed that "SDG&E shall file a timely standalone application to update its sales forecast for 2022, with a request to update effective January 1, 2022" The last time SDG&E updated its sales forecast was January 1, 2019. Since the 2019 update, a number of factors have affected SDG&E's electric load and an updated electric sales forecast is warranted. Accordingly, pursuant to the provisions of the GRC Phase 2 Settlement Addendum, SDG&E is submitting this Application for authorization to implement its 2022 Electric Sales Forecast to more accurately reflect the cost of electric service for various customer classes and associated rate options.

_

² The settlement addendum entered into on February 26, 2021, is an addendum to a previous settlement agreement entered into on or around October 8, 2020. The addendum is referred to herein as the GRC Phase 2 Settlement Addendum for ease of reference. *See id.*

³ See D.18-11-035, Decision on San Diego Gas & Electric Company's 2019 Sales Forecast (issued December 7, 2018).

SDG&E further requests authorization to combine future annual sales forecast applications with its annual ERRA forecast application.

III. SUMMARY OF APPLICATION AND SUPPORTING TESTIMONY

In support of this Application, SDG&E provides the testimony of two witnesses. Each testimony is described in summary below:

A. Prepared Direct Testimony of Ken Schiermeyer

In testimony, Mr. Schiermeyer presents SDG&E's 2022 Electric Sales Forecast as set forth in the table below. SDG&E's 2022 Electric Sales Forecast is based on the California Energy Commission's ("CEC") latest adopted California Energy Demand forecast.

TABLE KS-1
Proposed 2022 ANNUAL ELECTRIC NET SALES (GWh)

Sector	Proposed 2022
Residential	5,245
Small Commercial	2,041
Med & Large Com/Ind	9,038
Agricultural	311
Lighting	83
Total	16,719

In his testimony, Mr. Schiermeyer also compares the proposed 2022 Electric Sales Forecast with the 2019 electric sales forecast approved in D.18-11-035, as set forth below.

TABLE KS-2 COMPARISON OF ANNUAL ELECTRIC NET SALES (GWh) – 2019 VERSUS 2022

Sector	Authorized	Proposed	Difference	% Difference
	2019	2022		
Residential	6,105	5,245	-860	-14.1%
Small Commercial	2,262	2,041	-221	-9.8%
Med & Large Com/Ind	9,441	9,038	-403	-4.3%
Agricultural	323	311	-12	-3.7%
Lighting	80	83	+3	+3.8%
Total	18,211	16,719	-1,492	-8.2%

Mr. Schiermeyer further testifies to the drivers affecting the 2022 electric sales forecast, including, significantly, load departure to (1) Community Choice Aggregators ("CCA") and (2) direct access ("DA") customers who purchase energy from Energy Service Providers instead of the utility. The loss of bundled customers (customers that receive both distribution and electric commodity service from SDG&E) to both CCAs and DA is a significant factor in the reduction of the proposed 2022 Electric Sales Forecast from previous years.

B. Prepared Direct Testimony of Hannah Campi

Based on the proposed 2022 Electric Sales Forecast, SDG&E witness Hannah Campi then presents the illustrative rate impacts that flow from the 2022 Electric Sales Forecast, as set forth below in Table HC-1.

Table HC-1: Illustrative Class Average Rate Impacts, 2022 Electric Sales Forecast

	(A) Present 6/1/2021 Rates	(B) Proposed Rates with 2022 Sales	(C) Rate Change	(D) Percentage Rate Change
Customer Class	(¢/kWh)	(¢/kWh)	(¢/kWh)	(%)
Residential	31.348	36.860	5.512	17.58%
Small Commercial	28.052	33.461	5.409	19.28%
Medium and Large C&I	25.540	30.834	5.294	20.73%
Agricultural	19.522	23.411	3.889	19.92%
Lighting	25.430	29.813	4.383	17.24%
System Total	27.502	32.711	5.209	18.94%

These rates are developed using the SAPC methodology agreed upon in SDG&E's GRC Phase 2 Settlement Addendum as approved in D.21-07-010.⁴ This approves SDG&E's use of SAPC when implementing rates in this application and in annual sales forecast applications hereafter. To prevent rate volatility, SDG&E further requests that SAPC be used in any application or rate change in which there is a change in commodity revenues and 2022 bundled sales are effective.

Ms. Campi further presents, for informational purposes, the combined impact of the 2022 Electric Sales Forecast and the 2022 ERRA Forecast in Table HC-2. SDG&E presents this information because the electric sales forecast and ERRA forecast are directly related. For example, as noted in the Scoping Memo issued in the 2022 ERRA Forecast proceeding, when the ERRA forecast is implemented into new rates, SDG&E hopes to initially use, and in any event, will eventually use, the sales forecast from this Application.⁵ This relationship is also recognized

⁴ GRC Phase 2 Settlement Addendum, Appendix at Section 2.2.1.1.

⁵ A.21-04-010, Scoping Memo and Ruling of Assigned Commissioner (July 15, 2021) at 3 (stating that when the ERRA forecast is implemented in rates it will use the sales forecast from this Application, if a

in the GRC Phase 2 Settlement Addendum, which states that "SDG&E shall file a timely standalone application to update its sales forecast for 2022 . . . and SDG&E shall use the same 2022 sales forecast for its April 2021 application for approval of its 2022 Electric Procurement Revenue Requirement Forecast . . ." Further, pursuant to the same provision, SDG&E is seeking for both the electric sales forecast rate change and ERRA forecast rate change to occur on the same date—January 1, 2022.

For purposes of clarity, the combined rates shown in Table HC-2 are illustrative only and not rates that SDG&E is proposing in this Application. Rather, SDG&E is seeking Commission approval of its 2022 Electric Sales Forecast only. However, SDG&E is providing the combined effect of the 2022 ERRA forecast, as provided in A.21-04-010, and the 2022 Electric Sales Forecast, as described herein, because (1) the two forecasts are related and will largely offset one another—*e.g.*, when electric sales decline, as is happening here, so does the need to purchase electricity to meet demand; (2) SDG&E is seeking authorization for a combined ERRA forecast and electric sales forecast application on a going-forward basis (see Section VI, *infra*); and 3) SDG&E is aware that a number of parties would like to see the applications consolidated. Accordingly, SDG&E is providing the consolidated information here for the Commission's review and for interested stakeholders.⁷

_

timely decision is available, or that rates will be adjusted when the sales forecast is available). *See also* A.21-04-010, Administrative Law Judge's E-mail Ruling 2022 Sales Forecast Work-Around (August 6, 2021) at 3 (directing SDG&E "to prepare for use in the November Up-date a sales forecast which includes an adjustment for its best estimate of departing load but is otherwise based on the extant 2021 sales forecast as initially filed.").

⁶ GRC Phase 2 Settlement Addendum, Appendix, Section 2.2.1.2 at 2.

⁷ See, e.g., A.21-04-010, San Diego Community Power and Clean Energy Alliance's Notice of Ex Parte Communication (July 29, 2021), Attachment A at slide 11 (stating that the filing parties "will immediately request consolidation of the standalone 2022 sales forecast application with the 2022 ERRA Forecast application" (emphasis omitted)); A.21-04-101, Comments of San Diego Community Power and Clean Energy Alliance on Scope of Issues (June 7, 2021) at 5 (arguing for consolidation of the ERRA

Table HC-2: Illustrative Purposes Only: Consolidated Class Average Rate Impacts

Customer Class	(A) Present 6/1/2021 Rates (¢/kWh)	(B) Illustrative Rates - Combined Impact of A.21-04-010 and 2022 Sales (¢/kWh) ⁸	(C) Rate Change (¢/kWh)	(D) Percentage Rate Change (%)
Residential	31.348	29.427	(1.921)	-6.13%
Small Commercial	28.052	27.619	(0.433)	-1.54%
Medium and Large C&I	25.540	23.855	(1.685)	-6.60%
Agricultural	19.522	18.530	(0.992)	-5.08%
Lighting	25.430	25.146	(0.284)	-1.12%
System Total	27.502	25.837	(1.665)	-6.05%

If this Application is approved, SDG&E will use the 2022 Electric Sales Forecast to update electric rates to more accurately reflect the cost of electric service for various customers and associated rate options.

IV. GUIDELINES FOR FUTURE FILINGS

Pursuant to OP 4 of D.21-07-010, SDG&E further requests that the Commission authorize SDG&E to file subsequent annual electric sales forecast applications combined with

_ F

Forecast proceeding and forthcoming sales forecast proceeding); *see also* A.21-04-010, Scoping Memo and Ruling of Assigned Commissioner (July 15, 2021) at 3 (stating that when the ERRA forecast is implemented in rates it will use the sales forecast from this Application, if a timely decision is available, or that rates will be adjusted when the sales forecast is available).

⁸ The illustrative rates presented in the column are those that flow from combining the requested changes in SDG&E's ERRA Forecast proceeding (A.21-04-010) and SDG&E's 2022 Electric Sales Forecast proceeding (this Application), while keeping constant all other rate components in the current effective rates. The illustrative rates in column B are not representative of any actual rates that SDG&E expects to be implemented for a number of reasons. For one, SDG&E expects other rate changes to be implemented in 2022. Further, the ERRA Forecast, as initially provided in A.21-04-010 will be updated in November. *See, e.g.,* A.21-04-010, Administrative Law Judge's E-Mail Ruling 2022 Sales Forecast Work-Around (August 6, 2021).

the annual ERRA forecast application provided that the Commission also authorize SDG&E to move its filing date for the ERRA forecast application from April 15 to June 15. SDG&E believes the two applications are significantly related such that they should be considered together on a going-forward basis.

SDG&E is seeking herein for Commission authorization to file an annual combined electric sales forecast and ERRA forecast application on or before June 15 of each year. Both Pacific Gas & Electric Company and Southern California Edison Company already update their sales forecasts annually within the ERRA forecast proceeding. However, SDG&E's electric sales forecast process is lengthy and time-consuming and includes an annual meet-and-confer effort with the CCA Parties, as well as other Load Serving Entities, which typically takes place in March of each year. As such, SDG&E needs until June 15, to develop the sales forecast and resulting rates from the meet-and-confer process and to prepare its ERRA forecast application in a timely and efficient manner. 10

V. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) - (c)

This Application is filed pursuant to California Public Utilities Code ("P.U. Code")

Sections 451, 454 and 491, the Commission's Rules of Practice and Procedure, OP 4 of D.12-07010, and the GRC Phase 2 Settlement Addendum.

In accordance with Rule 2.1 (a) - (c) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.

_

⁹ See, e.g., D.18-01-009 and D.20-12-035.

¹⁰ If the Commission declines to authorize the requested filing date pursuant to this Application, SDG&E intends to submit a Petition for Modification of D.13-09-003 to move the ERRA forecast application filing date from April 15th to June 15th of each year for purposes of accommodating the sales forecast timing.

1. Rule 2.1 (a) - Legal Name

SDG&E is a corporation organized and existing under the laws of the State of California. SDG&E is engaged in the business of providing electric service in a portion of Orange County and electric and gas service in San Diego County. SDG&E's principal place of business is 8330 Century Park Court, San Diego, California 92123. SDG&E's attorney in this matter is Rebecca D. Hansson.

2. Rule 2.1 (b) - Correspondence

Correspondence or communications regarding this Application should be addressed to:

Todd Schavrien 8330 Century Park Court, CP32F San Diego, CA 92123-1530 858/503-5164 phone tschavrien@sdge.com

with copies to:

Rebecca D. Hansson San Diego Gas & Electric Company 8330 Century Park Court, CP32D San Diego, CA 92123-1530 858/654-8278 phone rhansson@sdge.com

3. Rule 2.1 (c)

a. Proposed Category of Proceeding

In accordance with Rule 7.1, SDG&E requests that this Application be categorized as ratesetting.

b. Issues to be Considered and Relevant Safety Considerations

The issue to be considered in this proceeding is whether SDG&E's proposal to implement its 2022 Electric Sales Forecast is reasonable and should be approved. With respect

to relevant safety considerations, SDG&E does not believe that the approval of SDG&E's proposals will have a safety impact.

c. Need for Hearings

SDG&E does not believe that evidentiary hearings should be necessary. SDG&E has provided ample supporting testimony, analysis and documentation that provide the Commission with a sufficient record upon which to grant the requested relief.

d. Proposed Schedule (Expedited)

SDG&E is seeking an expedited schedule in this proceeding. SDG&E believes it is in the best interest of rate payers that the 2022 Electric Sales Forecast be implemented by January 1, 2022. Pursuant to Rule 2.9(b), SDG&E has included, at Attachment A hereto, specific facts regarding the need to implement the 2022 Electric Sales Forecast and associated rate change to avoid ratepayer harm. Further, SDG&E is required, pursuant to the terms of the GRC Phase 2 Settlement Addendum, to seek implementation of its 2022 Electric Sales Forecast by January 1, 2022. Accordingly, in order to implement the rate change by that date, SDG&E will need Commission approval by the December 16, 2021 meeting, at the latest. Accordingly, SDG&E proposes the following expedited schedule.

-

B. Rule 2.2 – Articles of Incorporation

A copy of SDG&E's Restated Articles of Incorporation as last amended, presently in effect and certified by the California Secretary of State was filed with the Commission on September 10, 2014, in connection with SDG&E's Application ("A.") 14-09-008 and is incorporated herein by reference.

C. Rule 2.9 – Request for Expedited Schedule

In accordance with Rule 2.9(b), SD&E has included with this Application a Request for Expedited Schedule at Attachment A.

¹² Per Commission Rule 2.6(a), the projected deadline for responses and protests is 30 days after the filing of the Application. However, because an expedited schedule is being requested here, the proposed date represents 10 days following filing of the Application.

11

D. Rule 3.2 (a) - (d) - Authority to Change Rates

In accordance with Rule 3.2 (a) - (d) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.¹³

1. Rule 3.2 (a) (1) – Balance Sheet

SDG&E's balance sheet and income statement for the three-month period ending March 31, 2021, and SDG&E's financial statement from December 31, 2020, are included with this Application as Attachment B.

2. Rule 3.2 (a) (2) – Statement of Effective Rates

A statement of all of SDG&E's presently effective electric and gas rates can be viewed electronically on SDG&E's website. Attachment C to this Application provides the table of contents from SDG&E's electric tariffs on file with the Commission.

3. Rule 3.2 (a) (3) - Statement of Proposed Rate Change

Attachment D shows SDG&E's proposed electric rates increases by customer class. This Application does not seek any increase in revenue.

4. Rule 3.2 (a) (4) – Description of Property and Equipment

SDG&E is in the business of generating, transmitting and distributing electric energy to San Diego County and part of Orange County. SDG&E also purchases, transmits and distributes natural gas to customers in San Diego County. SDG&E has electric transmission, distribution and service lines in San Diego, Orange and Imperial Counties. This includes a composite 92% ownership in the 500,000 volt Southwest Powerlink, including substations and transmission lines, which run through San Diego and Imperial Counties to the Palo Verde substation in Arizona. This also includes full ownership of the 500,000 volt Sunrise Powerlink, including

-

¹³ Note that Rule 3.2 (a)(9) is not applicable to this Application.

substations and transmission lines, which run through San Diego and Imperial Counties to the Imperial Valley substation. Gas facilities consist of the Moreno gas compressor station in Riverside County and the Rainbow compressor station located in San Diego County. The gas is transmitted through high and low-pressure distribution mains and service lines.

Applicant's original cost of utility plant, together with the related reserves for depreciation and amortization for the three-month period ending March 31, 2021, is shown on the Statement of Cost of Property and Depreciation Reserve Applicable Thereto attached as Attachment E.

5. Rule 3.2 (a) (5) and (6) – Summary of Earnings

A summary of SDG&E's earnings (for the total utility operations of the company) for the three-month period ending March 31, 2021, is included as Attachment F to this Application.

6. Rule 3.2 (a) (7) – Statement re Tax Depreciation

For financial statement purposes, depreciation of utility plant has been computed on a straight-line remaining life basis, at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SDG&E generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, "flow through accounting" has been adopted for such properties. For tax property additions in years 1981 through 1986, SDG&E has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SDG&E has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

7. Rule 3.2 (a) (8) – Proxy Statement

A copy of the most recent proxy statement sent to all shareholders of SDG&E's parent company, Sempra Energy, dated March 26, 2021, was mailed to the Commission on April 13, 2021, and is incorporated herein by reference.

8. Rule 3.2 (a) (10) – Statement re Pass Through to Customers

This Application proposes no change in SDG&E's overall revenue requirement.

However, as noted in Attachment D, the overall impact of the SDG&E's proposals in this proceeding is an increase in rates.

9. Rule 3.2 (b) – Notice to State, Cities and Counties

In compliance with Rule 3.2 (b) of the Commission's Rules of Practice and Procedure, SDG&E will, within twenty days after the filing this Application, mail a notice to the State of California and to the cities and counties in its service territory and to all those persons listed in Attachment G to this Application.

10. Rule 3.2 (c) – Newspaper Publication

In compliance with Rule 3.2 (c) of the Commission's Rules of Practice and Procedure, SDG&E will, within twenty days after the filing of this Application, publish in newspapers of general circulation in each county in its service territory notice of this Application.

11. Rule 3.2 (d) – Bill Insert Notice

In compliance with Rule 3.2 (d) of the Commission's Rules of Practice and Procedure, SDG&E will, within 45 days after the filing of this Application, provide notice of this Application to all of its customers along with the regular bills sent to those customers that will generally describe the proposed rate changes addressed in this Application.

14

VI. MEET-AND-CONFER ACTIVITIES

D.19-06-026 adopted "[a] meet-and-confer requirement whereby: (a) A meeting between load-serving entities (LSEs) that anticipate load migration shall occur reasonably in advance of the filing deadline for initial year ahead forecasts, and (b) In each LSE's initial year ahead forecast filing, each LSE shall describe the dates of meetings with other LSEs to discuss load migration, any agreements, and any continued areas of disagreement." ¹⁴

SDG&E held a meet-and-confer meeting regarding load forecasting on March 16, 2021. SDG&E invited numerous entities to participate in the March 16th meet-and-confer meeting. Attendees to the meeting included representatives for San Diego Community Power and Clean Energy Alliance. The items addressed at the meet-and-confer meeting included: (1) an overview of the meet-and-confer requirement; (2) an overview of SDG&E's load forecast process for departing load; (3) an overview of regulatory proceedings and schedules; (4) an overview of load data to support regulatory filings; and (5) a discussion of future load forecast cycles. The parties continue to exchange information regarding load forecasting through a collaborative effort. The parties have reached agreement on the process by which the non-IOU LSEs are to provide forecast data to SDG&E as well as the templates to be used to submit their data. There have not been any specific areas of disagreement at this point. Information provided by the non-IOU LSEs to SDG&E include monthly energy sales, peak demand and customer forecast data.

VII. SERVICE

This is a new Application. No service list has been established for this proceeding.

Accordingly, SDG&E will serve this Application, including its appendices, accompanying prepared direct testimony, and related exhibits, on parties to the service list for SDG&E's GRC

-

¹⁴ D.19-06-026, OP 14 at 63.

Phase 2 proceeding (A.10-07-009/ A.19-03-002). SDG&E will send via overnight mail two hard

copies to Chief Administrative Law Judge (ALJ) Anne E. Simon.

VIII. CONCLUSION

For all the foregoing reasons, SDG&E requests that the Commission:

1. Adopt SDG&E's 2022 Electric Sales Forecast as set forth in this Application and

associated testimony;

2. Authorize SDG&E to implement rates using the SAPC methodology for any rate change

in which there is a change in commodity revenues and bundled 2022 sales are effective

3. Authorize SDG&E to file an annual, combined ERRA forecast and sales forecast

application;

4. Authorize SDG&E to file an annual, combined ERRA forecast and sales forecast

application by June 15 of each calendar year; and

5. Grant such other and further relief as the Commission finds to be just and reasonable.

DATED at San Diego, California, this 13th day of August, 2021.

Respectfully Submitted,

OFFICER VERIFICATION

Scott B. Crider declares the following:

I am an officer of San Diego Gas & Electric Company and am authorized to make this

verification on behalf of San Diego Gas & Electric Company. I am informed and believe that the

matters stated in the foregoing APPLICATION OF SAN DIEGO GAS & ELECTRIC

COMPANY (U 902 E) FOR APPROVAL OF ITS 2022 ELECTRIC SALES FORECAST

and **REQUEST FOR EXPEDITED SCHEDULE** are true to my own knowledge, except as to

matters which are therein stated on information and belief, and as to those matters, I believe them

to be true.

I declare under penalty of perjury under the laws of the State of California that the

foregoing is true and correct.

Executed on August 13, 2021, at San Diego, California.

/s/ Scott B. Crider

Scott B. Crider

San Diego Gas & Electric Company

Vice President – Customer Services

ATTACHMENT A

REQUEST FOR EXPEDITED SCHEDULE

Pursuant to Rule 2.9 of the Commission's Rules of Practice and Procedure, SDG&E respectfully requests that this 2022 Sales Forecast Application be considered by the Commission on an expedited basis to avoid potential financial harm to ratepayers and ensure they are sent accurate price signals through SDG&E's rates. SDG&E's current rates are based on a 2019 sales forecast. Pursuant to the recent GRC Phase 2 decision, the 2021 sales forecast will be implemented in rates no sooner than November 1, 2021. SDG&E is seeking for the 2022 Electric Sales Forecast to be implemented on January 1, 2022, such that the most recent sales forecast is used to determine bundled customer rates. Without use of the most recent sales forecast (the 2022 Electric Sales Forecast discussed *infra* at Table KS-1), customers will see significantly lower rates on January 1, 2022 (assuming implementation of the 2022 ERRA Forecast which is on schedule for implementation at the start of 2022), than they would if the 2022 Electric Sales Forecast is implemented at the same time as the 2022 ERRA Forecast.

_

¹⁵ See D.18-11-035, Decision on San Diego Gas & Electric Company's 2019 Sales Forecast (issued December 7, 2018).

¹⁶ D.21-07-010, OP 2 at 88 (adopting the settlement at A.19-03-002, Joint Motion for Admission of Addendum to the Settlement Agreement of San Diego Gas & Electric Company (U 902 E), The Public Advocates Office, Utility Consumers' Action Network, Federal Executive Agencies, California Farm Bureau Federation, San Diego Airport Parking Company, Small Business Utility Advocates, Solar Energy Industries Association, Energy Producers and Users Coalition, California Large Energy Consumers Association, California City County Street Light Association, The Utility Reform Network, and The City Of San Diego (February 26, 2021) at Appendix, Section 2.2.1.1).

¹⁷ Compare Table HC-1 with Table HC-2, supra at Application, Section III.B. (showing that, when implemented together, the significant increase in rates expected from the 2022 Electric Sales Forecast, will be offset by the 2022 ERRA Forecast in A.21-04-010). Thus, without the 2022 Electric Sales Forecast, rates will necessarily be lower. Note, however, that SDG&E will provide a partial update to rates to account for departing load pursuant to a recent order in the ERRA Forecast proceeding. See A.21-04-010, Administrative Law Judge's E-mail Ruling 2022 Sales Forecast Work-Around (August 6, 2021) at 3 (directing SDG&E "to prepare for use in the November Up-date a sales forecast which includes an adjustment for its best estimate of departing load but is otherwise based on the extant 2021 sales forecast as initially filed.").

Because the two are related, this mismatch in timing will result in a significant rate increase when the 2022 Sales Forecast is eventually implemented. Lower rates followed by a rate spike are not beneficial for SDG&E's bundled customers because they send confusing price signals and can cause bill volatility. More moderate rate changes allow customers to more accurately budget for their energy consumption and change their behavior appropriately based on their rate schedule.

Accordingly, for the reasons stated above and in the Application, SDG&E respectfully requests that the proposed expedited schedule outlined in Section V of this Application be approved for purposes of seeking implementation of SDG&E's 2022 Electric Sales Forecast on January 1, 2022.

⁻

¹⁸ This is consistent with rate design principle #6, as adopted in R.12-06, that states that rates should be stable and understandable and provide customer choice. *See* D.15-07-006 at 28.

ATTACHMENT D STATEMENT OF PROPOSED ELECTRIC RATE CHANGES

ILLUSTRATIVE IMPACT ON ELECTRIC RATES AND BILLS

The chart shown below illustrates the change in electric rates that would result from CPUC approval of this application if implemented using current rates.

If SDG&E's rate request is approved by the CPUC, the 2022 Electric Sales Forecast will be used to update electric rates to more accurately reflect the cost of electric service for various customer classes and associated rate schedules. Although the application proposes no change to SDG&E's overall revenue, adoption of the 2022 Sales Forecast may result in rate increases for certain electric customers. In 2022, SDG&E's overall electric sales (16,719 GWh) are expected to decline by 8% when compared to currently adopted electric sales (18,210 GWh). Due to the decline in electric sales, SDG&E is requesting to increase rates to recover the previously approved revenue.

The table below presents the illustrative rate impacts that flow from the sales forecast. The projected rate increase is illustrative and likely to change prior to inclusion in SDG&E's 2022 rates.

SAN DIEGO GAS & ELECTRIC COMPANY'S ILLUSTRATIVE CLASS AVERAGE RATE INCREASE (TOTAL RATES INCLUDE UDC¹ AND COMMODITY²)

Customer Class	Class Average Rates Effective 06/01/2021 (¢/kWh)	Class Average Rates With 2022 Sales (¢/kWh)	Total Rate Increase (¢/kWh)	Percentage Rate Increase (%)
Residential	31.348	36.860	5.512	17.58%
Small Commercial	28.052	33.461	5.409	19.28%
Medium and Large C&I ³	25.540	30.834	5.294	20.73%
Agricultural	19.522	23.411	3.889	19.92%
Lighting	25.430	29.813	4.383	17.24%
System Total	27.502	32.711	5.209	18.94%

¹ UDC rates include California Wildfire Fund. Wildfire Fund replaced DWR-BC on 10/1/2020.

² Commodity rates include DWR Power Charge credit.

³ C&I stands for Commercial and Industrial.
