Subject: A2006012 Email Ruling Requesting Additional Information

To all Parties in A.20-06-012,

On June 30, 2021, Pacific Gas and Electric Company (PG&E) filed its General Rate Case (GRC) application for its Test Year 2023 period (A.21-06-021). The GRC application is required to incorporate and use as a basis PG&E's assessment of its safety risks conducted in this Risk Assessment and Mitigation Phase (RAMP) proceeding.

In order to properly assess whether key risks and proposed programs for mitigating these risks were incorporated into PG&E's current GRC application, PG&E is required to submit additional information presenting a road map that identifies where in its GRC testimonies the different RAMP risks were incorporated. The information shall be presented in tabular form and shall be due within 30 days from the date of this ruling.

It is so Ruled.

The Docket office shall formally file this ruling.
