May 2, 2022

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of SAN DIEGO GAS & ELECTRIC COMPANY (U 902-E) Requesting Approval and Funding of its Demand Response Portfolio for Bridge Year 2023 and Program Years 2024-2027

Application 22-05-xxx (Filed May 2, 2022)

APPLICATION OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902-E) REQUESTING APPROVAL OF ITS DEMAND RESPONSE PORTFOLIO FOR BRIDGE YEAR 2023 AND PROGRAM YEARS 2024-2027

REQUEST FOR EXPEDITED SCHEDULE - RULE 2.9

Pursuant to Article 2 and Rule 3.2 of the Commission's Rules of Practice and Procedure, Decision (D.) 17-12-003,¹ and Executive Director Rachel Peterson's letter approving extension dated September 30, 2021,² San Diego Gas & Electric Company (SDG&E) hereby submits this application requesting approval and funding of its Demand Response (DR) portfolio for (1) Bridge Year 2023 and (2) Program Years 2024-2027. As detailed below, SDG&E is proposing that this application be bifurcated into two separate phases: (1) *Phase One* to approve its request for funding for the Bridge Year 2023 on an expedited basis to ensure that a decision is issued by the end of this year, and (2) *Phase Two* to approve its request for funding for Program Years 2024-2027. Pursuant to Rule 2.9, SDG&E includes as **Attachment G** its *Request for Expedited Schedule*, which sets forth the specific facts that constitute the need to resolve Phase One of this proceeding in an expeditious manner to avoid ratepayer harm.

¹ D.17-12-003 Decision Adopting Demand Response Activities and Budgets for 2018 Through 2022, Ordering Paragraph (OP) 61.

² RE: Joint Request of the Investor-Owned Utilities to Extend the Deadline for Submission of 2023-2027 Demand Response Portfolio Applications from November 1, 2021 to May 2, 2022 (September 30, 2021), at p. 2.

I. INTRODUCTION

The basis for SDG&E's application is described below, along with a description of the testimony supporting the application served contemporaneously herewith. This testimony provides the detail supporting SDG&E's request for funding, both for the Bridge Year 2023 and the Program Years 2024-2027. For the Commission's convenience and to facilitate an expedited review and approval of SDG&E's request for 2023 bridge funding (Phase One), SDG&E is serving two sets of testimony per witness; all testimony pertaining to SDG&E's request for 2023 bridge funding is labelled "A" (*e.g.*, Chapter 1A, 2A, 3A, etc.), and all testimony pertaining to SDG&E's request for funding for Program Years 2024-2027 is labelled "B" (*e.g.*, Chapter 1B, 2B, 3B, etc.).

A. Summary of Funding Requests

1. Bridge Year 2023

SDG&E's total funding request in this application for the Bridge Year 2023 is \$15,798 million, as summarized in the following table:

	2023
\$ Millions	\$15,798

Total Budget Request for Bridge Year 2023

SDG&E's request for bridge funding in 2023 is a request for an extension of SDG&E's previously approved 2022 DR budget as the company is not proposing any new programs or pilots in 2023. The approval of DR funds for 2023 as a bridge year is critical as SDG&E continues to implement and manage the revisions to the Emergency Load Reduction Program (ELRP) and other DR programs that were approved in the Summer Reliability OIR Phase 2 (D.21-12-015). The prepared direct testimony of Kenneth Pitsko Chapter 6A details the

proposed budget for Bridge Year 2023 for SDG&E's DR portfolio under the authorized funding categories, plus program cost recovery, fund-shifts and reporting.

2. **Program Years 2024-2027**

SDG&E's total funding request in this application for the Program Years 2024-2027 is \$156,584 million, as summarized in the following table:

	2024	2025	2026	2027	TOTAL
\$ Millions	\$22,847	\$23,340	\$56,576	\$53,820	\$156,584

Total Budget Request for Program Years 2024-2027

The prepared direct testimony of Kenneth Pitsko Chapter 6B details the proposed budget for Program Years 2024 through 2027 for SDG&E's DR portfolio under the authorized funding categories, plus program cost recovery, fund-shifts and reporting.

B. Background and Guiding Principles for SDG&E's DR Portfolio

This application proposes to enable SDG&E to continue to provide its customers with innovative DR programs that offer customers options that fit their homes and businesses. Since SDG&E serves all of San Diego County and a portion of southern Orange County, SDG&E is in a unique position to provide these innovative offerings that work toward the State's climate goals as well as the company's focus on a stronger more integrated and reliable grid of the future.

As SDG&E transitions DR into a new vision for the future, the company's proposals focus on building on an established foundation of the past. SDG&E proposes to sunset several programs that are outdated or no longer cost effective and do not fit SDG&E's customer base. SDG&E will also be requesting Commission approval to retire older programs that have either reached the end of the installed equipment's life cycle or that customers do not see the value nor want to participate in. Additionally, to help move to a more innovative DR of the future concept, SDG&E is proposing new pilots like the Energy Storage, Vehicle Grid Integration (VGI) and Virtual Power Plant (VPP) pilots, which will not only be informative but will help the company design and launch future innovative DR programs that will position DR for the future and allow SDG&E to be a better source to grid reliability using new technology.

In addition, SDG&E is requesting modifications to its existing DR programs to be less brand specific by moving to more technology neutral models in order to allow customers to choose their own technology (as outlined in the proposed Smart Energy Program (SEP)), which will allow a larger selection of smart devices other than thermostats to participate. SDG&E believes that the move to more technology neutral models will encourage more customers to participate over time, including residential customers.

C. Portfolio Cost-Effectiveness

Based on the cost-effectiveness protocols established by the Commission, SDG&E's DR portfolio achieves a cost-effectiveness score of 0.2 for the Bridge Year 2023 and 0.2 for the Program Years 2024-2027. SDG&E acknowledges that these numbers do not rise to the Commission's and SDG&E's desired level of cost effectiveness envisioned for DR programs. However, SDG&E's DR portfolio cost effectiveness reflects the reality that DR is in a transition phase, meaning that DR programs of the past need to be revamped to become more innovative and focus on the utilization of new technology to help fit into the grid of the future.

For this application, SDG&E has adjusted its DR programs budget to allocate funding with an increased focus on recruiting new customers and aggregators to help grow its programs and pilots to increase cost-effectiveness. In addition, SDG&E is making a major transition to move DR from older established but non-effective programs to newer programs like the Capacity Bidding Program (CPB) Elect and the Smart Thermostat Program that were approved in the

4

Summer Reliability OIR Phase II.³ SDG&E is also seeking to replace older CBP, Technology Incentive, Technology Deployment, and AC Saver options. SDG&E is also proposing new innovative pilots that are evaluating electric vehicles, batteries, VPP's and other ideas to move us towards our goal of DR programs of the future. SDG&E requests that the Commission consider its cost effectiveness in light of this massive transition to DR of the future.

Unfortunately, unlike other utilities in the State, SDG&E's DR programs cannot be reliant on large industrial or manufacturing customers who can shut down or shed load at their commercial or industrial sites. Instead, SDG&E's programs must focus on the predominant customer classes that make up the majority of its service area, such as small and medium commercial and light industrial customers and its residential customer base.

SDG&E plans to continue to capitalize on advancements in technology and information systems to be able to open its programs to more customers and hopefully more participation to increase cost effectiveness. An example is building and upgrading its information technology (IT) systems to be able to signal, manage and settle virtual power plants, electric vehicles, and other distributed energy resources that are or will be integrated into our distribution system that can help support the grid. This capability necessarily comes with an increase in IT and other costs. Although, these innovations may result in higher IT costs now, and SDG&E is spreading these costs across our existing programs, these costs are crucial to future efforts. SDG&E plans on continuing to enhance necessary IT systems to support its portfolio efforts as these upgrades and implementations will allow SDG&E to target DR to certain locations. This capability is only going to grow as technology, marketing strategies, and adaption of new devices allows the company to become more granular data on distribution operations.

³ D.21-12-015.

In addition, a major contributor to the lowering of SDG&E's cost-effectiveness regarding Supply Side DR programs⁴ is the updated avoided capacity benefits in the Avoided Cost Calculator (ACC). The new values are lower than the avoided capacity benefits used in the 2018 through 2022 program cycle, and they drop to \$70 and \$54 kW/year in 2026 and 2027 respectively. While SDG&E is not questioning the accuracy of those calculations, SDG&E notes that the new values have made DR less valuable and potentially less desirable or competitive. While it is important not to offer unnecessary DR programs, SDG&E asserts its proposed programs still play a role in providing system reliability for the near future.

D. Supporting Testimony

SDG&E is contemporaneously serving with this application, the following prepared direct testimony:

- Chapter 1A and 1B E Bradford Mantz: Description of DR programs, modifications, and pilots that are the subject of SDG&E's funding requests.
- Chapter 2A and 2B L. Ellen Kutzler: Information Technology budget.
- Chapter 3A and 3B April Bernhardt: Marketing, Education and Outreach.
- Chapter 4A and 4B Lizette Garcia-Rodriguez: Ex-post and ex-ante load impacts of SDG&E's DR programs.
- Chapter 5A and 5B Brenda Gettig: Cost-effectiveness analysis.

⁴ "Supply Side" demand response programs are those bid into the California Independent System Operator (CAISO) markets as a "supply" resource.

Chapter 6A and 6B – Kenneth Pitsko: Proposed budgets for 2023 and
 2024-2027 DR portfolio, program cost recovery, fund-shifts and reporting.

II. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) - (c)

In accordance with Rule 2.1 (a) - (c) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.

1. Rule 2.1 (a) - Legal Name

SDG&E is a corporation organized and existing under the laws of the State of California. SDG&E is engaged in the business of providing electric service in a portion of Orange County and electric and gas service in San Diego County. SDG&E's principal place of business is 8330 Century Park Court, San Diego, California 92123. SDG&E's attorney in this matter is Roger A. Cerda.

2. Rule 2.1 (b) - Correspondence

Correspondence or communications, including any data requests, regarding this Application should be addressed to:

> Todd Schavrien Regulatory Case Administrator San Diego Gas & Electric Company 8330 Century Park Court, CP32F San Diego, California 92123 Telephone: (858) 503-5164 Facsimile: (858) 654-1788 Email: tshavrien@sdge.com

> Roger A. Cerda San Diego Gas & Electric Company 8330 Century Park Court, CP32D San Diego, CA 92123 Telephone: (858) 654-1781 Facsimile: (619) 699-5027 Email: rcerda@sdge.com

with copies to:

3. Rule 2.1 (c)

a. Proposed Category of Proceeding

In accordance with Rule 7.1, SDG&E requests that this application be categorized as ratesetting because SDG&E proposes to recover the costs described in this application from its ratepayers and the costs will therefore influence SDG&E's rates.

b. Need for Hearings

SDG&E does not believe that approval of this application will require evidentiary hearings. SDG&E has provided ample supporting testimony, analysis and documentation that provide the Commission with a sufficient record upon which to grant the relief requested. However, to the extent that evidentiary hearings may be required, SDG&E requests that any schedule set forth by the Commission include a procedural mechanism by which the parties can specifically identify material issues of fact in dispute that warrant an evidentiary hearing. Similarly, pursuant to Rule 2.6 (b), any protest that requests evidentiary hearings "must state the facts the protestant would present at an evidentiary hearing to support its request for whole or partial denial of the application."

c. Issues to be Considered

The issues to be considered in Phase One of this application are as follows:

1. Whether the Commission should approve SDG&E's request for bridge funding for 2023 to allow it to continue to provide its DR programs in 2023.

The issues to be considered in Phase Two of this application are as follows:

- 1. Whether the Commission should approve SDG&E's DR programs for program years 2024 through 2027.
- 2. Whether SDG&E's proposed changes to its DR programs and activities, including pilot recommendations, are reasonable and should be adopted.
- 3. Whether SDG&E's proposed DR programs and portfolios are cost-effective pursuant to the 2016 DR Cost Effectiveness Protocols.

4. Whether SDG&E's requested budgets to implement the proposed DR programs and the associated cost and rate recovery requests (including continued fund shifting flexibility) are reasonable and should be approved.

SDG&E does not believe there are any issues related to safety considerations that need to

be considered in this application.

d. Proposed Schedule

SDG&E proposes the following schedules for Phase One and Phase Two of this

proceeding:

ACTION	DATE
Application filed	May 2, 2022
Protest to Application	June 1, 2022
Reply to Protests	June 13, 2022
Prehearing / Status Conference	June 17, 2022
Scoping Memo	June 22, 2022

INITIAL STEPS – PHASE ONE AND TWO COMBINED

REMAINING PHASE ONE PROPOSED SCHEDULE

ACTION	DATE
Intervenor Testimony	July 1, 2022
Rebuttal Testimony	July 20, 2022
Meet and Confer deadline (Rule 13.9) Parties inform the ALJ whether hearings are necessary and identify the specific disputed issues of material fact, witness lists and cross-examination estimates.	July 27, 2022
Evidentiary Hearing and Discovery Cutoff	TBD (If hearing deemed necessary)
Concurrent Opening Briefs	August 12, 2022
Concurrent Reply Briefs	August 24, 2022
Proposed Decision	September 23, 2022
Opening Comments	October 13, 2022

Reply Comments	October 18, 2022
Final Decision	November 3, 2022

REMAINING PHASE TWO PROPOSED SCHEDULE

ACTION	DATE
Status Conference Following Completion of Phase 1	January 10, 2023
Workshop period	January 16 – March 25, 2023
Intervenor Testimony	February 10, 2023
Rebuttal Testimony	March 31, 2023
Meet and Confer deadline (Rule 13.9) Parties inform the ALJ whether hearings are necessary and identify the specific disputed issues of material fact, witness lists and cross-examination estimates.	April 14, 2023
Discovery Cutoff	April 21, 2023
Evidentiary hearings (if necessary)	TBD
Concurrent Opening Briefs	May 26, 2023
Concurrent Reply Briefs	June 23, 2023
Proposed Decision	August 28, 2023
Opening Comments on Proposed Decision	September 18, 2023
Reply Comments on Proposed Decision	September 25, 2023
Final Decision	October 2023

e. Rule 2.2 – Articles of Incorporation

A copy of SDG&E's Restated Articles of Incorporation as last amended, presently in effect and certified by the California Secretary of State, was previously filed with the Commission on September 10, 2014 in connection with SDG&E Application 14-09-008 and is incorporated herein by reference.

f. Rule 3.2 – Authority to Change Rates

In accordance with Rule 3.2 (a) - (d) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.⁵

1. Rule **3.2** (a) (1) – Balance Sheet

SDG&E's financial statement, balance sheet and income statement for the nine-month period ending September 30, 2021 are included with this Application as **Attachment A**.

2. Rule 3.2 (a) (2) – Statement of Effective Rates

A statement of all of SDG&E's presently effective electric rates can be viewed electronically on SDG&E's website. Attachment B to this Application provides the current table of contents from SDG&E's electric tariffs on file with the Commission.

3. Rule 3.2 (a) (3) – Statement of Proposed Rate Change

A statement of proposed rate changes is attached as Attachment C.

4. Rule 3.2 (a) (4) – Description of Property and Equipment

SDG&E is in the business of generating, transmitting and distributing electric energy to San Diego County and part of Orange County. SDG&E also purchases, transmits and distributes natural gas to customers in San Diego County. SDG&E has electric transmission, distribution and service lines in San Diego, Orange and Imperial Counties. This includes a composite 92% ownership in the 500 kV Southwest Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Palo Verde substation in Arizona. This also includes full ownership of the 500 kV Sunrise Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Imperial Valley substation. Gas facilities consist of the Moreno gas compressor station in Riverside County and

⁵ Note Rule 3.2(a)(9) is not applicable to SDG&E.

the Rainbow compressor station located in San Diego County. The gas is transmitted through high and low-pressure distribution mains and service lines.

Applicant's original cost of utility plant, together with the related reserves for depreciation and amortization nine-month period ending September 30, 2021 is shown on the Statement of Original Cost and Depreciation Reserves included in **Attachment D**.

5. Rule 3.2 (a) (5) and (6) – Summary of Earnings

A summary of SDG&E's earnings (for the total utility operations for the company) for nine-month period ending September 30, 2021 is included as **Attachment E** to this Application.

6. Rule 3.2 (a) (7) – Statement Regarding Tax Depreciation

For financial statement purposes, depreciation of utility plant has been computed on a straight-line remaining life basis, at rates based on the estimated useful lives of plan properties. For federal income tax accrual purposes, SDG&E generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, "flow through accounting" has been adopted for such properties. For tax property additions in years 1981 through 1986, SDG&E has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SDG&E has computed its tax depreciation using the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

7. Rule 3.2 (a) (8) – Proxy Statement

A copy of the most recent proxy statement sent to all shareholders of SDG&E's parent company, Sempra Energy, dated March 29, 2022, was mailed to the Commission on April 13, 2022, and is incorporated herein by reference.

12

8. Rule 3.2 (a) (10) – Statement re Pass Through to Customers

The rate increases reflected in this application pass through to customers only increased costs to SDG&E for the services or commodities furnished by it.

9. Rule 3.2 (b) – Notice to State, Cities and Counties

In compliance with Rule 3.2 (b) of the Commission's Rules of Practice and Procedure, SDG&E will, within twenty days after the filing this application, mail a notice to the State of California and to the cities and counties in its service territory and to all those persons listed in **Attachment F** to this Application.

10. Rule 3.2 (c) – Newspaper Publication

In compliance with Rule 3.2 (c) of the Commission's Rules of Practice and Procedure, SDG&E will, within twenty days after the filing of this application, publish in newspapers of general circulation in each county in its service territory notice of this application.

11. Rule 3.2 (d) – Bill Insert Notice

In compliance with Rule 3.2 (d) of the Commission's Rules of Practice and Procedure, SDG&E will, within 45 days after the filing of this Application, provide notice of this Application to all of its customers along with the regular bills sent to those customers that will generally describe the proposed rate changes addressed in this application.

III. SERVICE

This is a new application. No service list has been established. Accordingly, SDG&E will serve this application, testimony and related exhibits on parties to the service list for the following proceedings: (1) Order Instituting Rulemaking to Enhance the Role of Demand Response in Meeting the State's Resource Planning Needs and Operational Requirements (R.13-09-011); (2) Application of Pacific Gas and Electric Company for Approval of Demand Response Programs, Pilots and Budget for Program Years 2018-2022 (A.17-01-012, et al.

13

consolidated); and (3) Order Instituting Rulemaking to Establish Policies, Processes, and Rules to Ensure Reliable Electric Service in California in the Event of an Extreme Weather Event in 2021 (R.20-11-003). Electronic copies will also be served on Chief ALJ Anne Simon. Pursuant to the Commission's COVID-19 Temporary Filing and Service Protocol for Formal Proceedings, paper copies of e-filed documents will not be mailed to the Administrative Law Judges or to parties on the service lists.

IV. CONCLUSION

SDG&E is pleased to make these Demand Response program, pilots and studies proposals, which support both the goals of California as well as SDG&E to create a cleaner environment and transition DR for the future. SDG&E looks forward to the Commission's review and collaboration in moving DR forward in the future, to meet grid and reliability needs in the most cost-effective manner, and to give customers choices. SDG&E respectfully requests that the Commission grant SDG&E's application as described herein and the testimony served concurrently herewith.

Respectfully submitted,

Roger A. Cerda Roger A. Cerda 8330 Century Park Court, CP32D San Diego, CA 92123-1530 Telephone: (858) 654-1781 Facsimile: (619) 699-5027 Email: rcerda@sdge.com Attorney for: SAN DIEGO GAS & ELECTRIC COMPANY

STATEMENT OF PROPOSED RATE INCREASES

SAN DIEGO GAS & ELECTRIC COMPANY'S NOTICE OF RATE INCREASE FOR DEMAND RESPONSE PROGRAMS APPLICATION NO. A.22-05-XXX

On May 2, 2022, San Diego Gas & Electric Company (SDG&E[®]) filed its application requesting approval for an overall increase in rates for funding of the 2023-2027 Demand Response (DR) portfolio (A.22-05-XXX) with the California Public Utilities Commission (CPUC). If approved, these programs would be implemented over a five-year program cycle of 2023-2027. SDG&E is requesting the authority to spend up to \$172.3 million during the 2023-2027 program cycle to design and implement a portfolio of DR programs.¹ SDG&E is also requesting the funds spent, up to the maximum approved by the CPUC, be recorded to existing regulatory accounts and recovered annually in electric distribution rates starting January 1, 2023.

Demand Response programs motivate electric customers through financial incentives to reduce their electric usage during high-demand periods and/or shift electric usage to other periods when electric demand is lower. Reducing peak electric loads helps improve reliability of the electric system and helps keep costs down by limiting the need to purchase electricity when prices spike.

The current and illustrative electric rates based on SDG&E's forecasted budget for years 2023-2027 are noted in the tables below. SDG&E's forecasted budget is \$15.8 million in 2023, \$22.8 million in 2024, \$23.3 million in 2025, \$56.6 million in 2026 and \$53.8 million in 2027. The tables below present the incremental impact of SDG&E's forecasted budget for years 2023-2027 compared to current effective rates for proposed 2023 and year-over-year impacts thereafter.²

REQUEST FOR EXPEDITED SCHEDULE – RULE 2.9

REQUEST FOR EXPEDITED SCHEDULE – RULE 2.9

SDG&E respectfully requests that Phase One of this Demand Respond (DR) funding application be considered by the Commission on an expedited basis as it is necessary to resolve this financial matter expeditiously to avoid ratepayer harm. Phase One of the application is limited to SDG&E's request for 2023 bridge funding that would allow SDG&E to continue to provide the same DR programs to its customers in 2023 – funding that would otherwise end in 2022. SDG&E's request for bridge funding in 2023 is not expected to be controversial, but rather, it is simply a request for an extension of SDG&E's previously approved 2022 DR budget. The approval of DR funds for 2023 as a bridge year is critical as SDG&E continues to implement and manage the revisions to the Emergency Load Reduction Program and other DR programs that were approved in the Summer Reliability OIR Phase 2 (D.21-12-015). Ceasing all existing DR programs due to a lack of funding will not only cause ratepayer harm but will also undermine the State and CPUC's goals to promote DR programs and create a cleaner environment.

In addition, granting SDG&E's requestion for expedited treatment is consistent with CPUC Executive Director Rachel Peterson's September 30, 2021 approval of the deadline for the utilities to submit their DR funding applications, which indicated that "the Utilities will request interim demand response program funding for 2023, also referred to as 'Bridge Funding,' *on an accelerated schedule in the Applications*."¹ SDG&E's request for expedited treatment has therefore already been considered by Commission staff and deemed appropriate.

¹ RE: Joint Request of the Investor-Owned Utilities to Extend the Deadline for Submission of 2023-2027 Demand Response Portfolio Applications from November 1, 2021 to May 2, 2022 (September 30, 2021), at p. 2 (emphasis added).
