(Filed January 16, 2020)

U 39 G

PACIFIC GAS AND ELECTRIC COMPANY'S (U 39 G) COMPLIANCE FILING IN RESPONSE TO DECISION 22-12-021 (DECISION ADOPTING GAS INFRASTRUCTURE GENERAL ORDER), ORDERING PARAGRAPH 6

Pacific Gas and Electric Company (PG&E) respectfully provides its response in compliance with Ordering Paragraph 6 of the California Public Utilities Commission's (Commission) Decision 22-12-021 (Decision Adopting Gas Infrastructure General Order), issued on December 8, 2022, which requires as follows:

6. Within 60 days of issuance of this decision, each respondent gas utility shall file and serve a list of proposed gas infrastructure projects that have a scheduled in-service date occurring before January 1, 2024 that have a cost exceeding \$75 million or where (1) the project is located within 1,000 feet of a sensitive receptor; and (2) operation of the completed project by the gas corporation requires a permit from the relevant local air quality district for: (a) an increase in levels of a toxic air contaminant, defined as an increase exceeding de minimis levels or, where relevant, allowable limits set by the local air quality district; or (b) an increase in levels of a criteria air pollutant, if the area is listed as a serious, severe, or extreme non-attainment area for that pollutant. Each respondent gas utility shall include in this list, clearly indicated, projects for which an application for approval has been submitted to an air quality management district for compliance with an environmental rule prior to the effective date of General Order 177, and shall provide, for each project listed, the information identified in Section V(C)(2) of General Order 177.

PG&E conducted a review of its planned gas infrastructure projects that have a scheduled in-service date occurring before January 1, 2024 and did not identify any projects that meet the criteria specified in Ordering Paragraph 6.

Respectfully Submitted,

By: /s/ Jonathan D. Pendleton
