		# of Targeted Customers	0			0		0						
		# of Non-targeted	0			0		4						

- Notes:**
- SoCalGas did not target customers during the reporting time frame.
 - Sections may not add up to the Enrolled amount due to dis-enrollments and other factors. The # of Applications section captures historical enrollments while the subsequent sections are current statuses, which would exclude dis-enrolled and other statuses.
 - The Enrolled, Ineligible, and Waitlisted totals may not add up to the Submitted Application totals as there are statuses other than the three listed on this report (pending review, etc.).
 - Online applications are not broken out between Customer and CSR, so all online applications are provided as "Website (Customer)."
 - PDF applications are assumed to have been mailed applications which were scanned, and so listed under "Mailed in Applications." There are no other sources attributed to PIPP enrollments in EECF other than "Online" and "PDF Application."
 - The data represents figures and statuses at the time of extract. As time progresses, statuses and other factors may change.
