**APPLICATION OF SEQUOIA WIRELESS, LLC FOR A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY TO
PROVIDE RESOLD AND LIMITED FACILITIES BASED LOCAL EXCHANGE AND INTEREXCHANGE
TELECOMMUNICATIONS SERVICES WITHIN THE STATE OF CALIFORNIA**

Pursuant to the California Public Utilities Code and the Rules of Practice and Procedure (the "Rules") of the California Public Utilities Commission (the "Commission"), SEQUOIA WIRELESS, LLC ("Sequoia Wireless" or the "Applicant") hereby submits this application for a Certificate of Public Convenience and Necessity seeking authority to operate as a resold and limited facilities based local exchange and interexchange carrier throughout the state of California to the full extent allowed by the Commission (the "Application"). Pursuant to Articles 2 and 3 of the Rules, in support of this Application, Sequoia Wireless provides the enclosed information.

Sincerely,

A handwritten signature in black ink, appearing to read "Indran", written over a horizontal line.

R Indran C Nelson, MBA
CEO AND PRODUCT ARCHITECT
SEQUOIA WIRELESS, LLC

**Requirements for CPCN Application Pursuant to P.U. Code §1001 and
CPUC Rules of Practice and Procedure**

Applications must be signed under penalty of perjury.
(Pursuant to D.13-05-035, Attachment A)

1. Identification of Applicant [Rule 2.1(a)]

The applicant must provide its exact legal name and the location of the principal place of business, and as applicant is a corporation, the State under the laws of which such applicant was created or organized.

Sequoia Wireless, LLC
dba Sequoia Wireless

Principal Place of Business:

29034 Westbourne Ct
Hayward, CA 94544-6345

Organized on February 4, 2023, as a
California Limited Liability Company
Governed by the laws of the State of California

Former fictitious business names:

Join ACP; Join LifeLine; Join LifeLine Wireless

2. Correspondence or Communications [Rule 2.1(b)]

The applicant must provide the name, title, address, telephone number, facsimile transmission number, and the e-mail address of the person to whom correspondence or communications in regard to the application are to be addressed. Notices, orders and other papers may be served upon the person so named, and such service shall be deemed to be service upon applicant.

Communications in regard to the application are to be addressed:

R Indran C Nelson, MBA
CEO and Product Architect
29034 Westbourne Ct
Hayward, CA 94544-6345
+1 510-342-6503 (cell)
indy@sequoiawireless.com

Registered Agent for service of process:

Registered Agents Inc.
1401 21ST Street Suite R
Sacramento, CA 95811

3. Description of Services to be Provided [Rule 3.1(e)]

The applicant must clearly describe its operation including but not limited to identifying the authority that it is seeking. The applicant should clearly identify the type of service it proposes to provide. It could be any of the following combination of service types: Resold or Limited Facilities-Based Local Exchange or Interexchange service. The applicant should provide information regarding the service areas it plans to provide service to and the method by which it plans to provide the service.

Sequoia Wireless is seeking authority to operate as a competitive local exchange and interexchange carrier in order to provide resale and limited facilities-based competitive local exchange service in the service territories of Pacific Bell Telephone Company d/b/a AT&T California (AT&T California), Frontier California Inc. (Frontier California), Citizens Telecommunications Company of California, Inc. d/b/a Frontier Communications of California (Frontier Communications), and Consolidated Communications of California Company (Consolidated Communications, formerly SureWest Telephone), and resold interexchange services throughout California.

Sequoia Wireless will construct the interconnect side of a modern IP telephone central office in each LATA where service is to be provided. These facilities will consist of an IP media gateway to translate TDM formatted, SS7, or MF signaled trunks to SIP signaled IP-based call traffic, in addition to the physical hardware to terminate and connect any T1, T3, or OC-X circuits that will be obtained from interconnection partners (Add-drop mux, DSX bay). This equipment will be installed alongside battery backup and monitoring systems to ensure high availability and reliability. These systems will feed into an IP-based soft switch to provide customers with dial tone and call routing services. Finally, a 4G/5G core network and IMS core will be deployed to handle device-side connectivity from end-user devices and other carriers' mobile core networks. This equipment will terminate IP format connections from the end user's mobile handsets.

This equipment will be used to provide local exchange telephone service to Sequoia Wireless's cellular subscribers by utilizing T-Mobile's network, which is obtained through a connection with PWG as the local loop part of the connection. Subscriber's devices' IMS network parameters will either point directly to Sequoia's IMS core network for voice services or pass through T-Mobile/PWG's P-CSCF before reaching Sequoia's S-CSCF, which will provide voice services. In this arrangement, the underlying MNO's network will only transport the voice sessions from users' phones to Sequoia's network, which will provide the voice-grade network services.

Once end-user traffic reaches Sequoia's facilities, Sequoia will provide all aspects of voice access to the PSTN and own the number of blocks from which Sequoia's customers will be supplied. Inbound voice traffic will travel to Sequoia's main switch, which will be routed directly to the end-user's device based on phone number. Critically, Sequoia will maintain the LERG records and interconnection with the local and feature group D tandems and carriers. Likewise, Sequoia will receive outbound calls from customer devices and route them to the appropriate trunk. Sequoia will additionally perform TDM-to-IP and SS7-to-IP conversion required to interconnect its 5G network core with the PSTN.

Sequoia Wireless will provide customers with "telephonic connection to, and a unique telephone number on," the company switching network that enables customers to "receive calls from other stations on the public switched telephone network". Sequoia Wireless is not seeking Full Facilities-Based CPCN and is not required to comply with Proponent's Environmental Assessment (PEA) and California Environmental Quality Act (CEQA) Rule 2.4 of the Commission's Rules of Practice and Procedure.

4. Articles of Organization & Certificate of Qualification to Transact Business in California [Rule 2.2]

All applicants other than natural persons shall submit with their applications a copy of the entity's organizing documents and evidence of the applicant's qualification to transact business in California. The applicant must provide a copy of its Certificate of Good Standing Status certified by the Secretary of State of California as an attachment to its application.

Copies of the organizing documents for Sequoia Wireless are under Attachment C.

Evidence of Sequoia Wireless qualification to transact business in California is shown under Attachment C, which provides a copy of its Certificate of Good Standing Status certified by the Secretary of State of California.

5. Description of Proposed Construction [Rule 3.1(a)]

The applicant must provide a full description of the proposed construction or extension, and the manner in which the same will be constructed.

Sequoia Wireless is an applicant seeking authority as a Limited Facilities-Based provider and that it does not intend to construct any facilities. The installation of telecommunications facilities will occur in existing conduit or other structures and thus would not result in material adverse impacts. It can be seen with certainty that there is no possibility that the project would have a significant adverse effect on the environment and thus the project is exempt from CEQA review; *See* D.08-04-018 and D.99-10-025.

Pursuant to 14 CCR §15301, applicant attests that as there is no intention to construct any facilities, with the project occurring in existing facilities, and thus the project involved are classified under a Class 1 Exemption to exempt from CEQA and for which neither an EIR nor a Negative Declaration is required.

6. California Environmental Quality Act (CEQA) Compliance [Rule 2.4]

Pursuant to CEQA and Commission Rule 2.4, the Commission examines projects to determine any potential environmental impacts in order that adverse effects are avoided, and environmental quality is restored or enhanced to the fullest extent possible under CEQA. In Rule 2.4(b), the Commission recognizes that the Secretary for Resources has exempted certain classes of projects from CEQA.

Sequoia Wireless is an applicant seeking authority as a Limited Facilities-Based provider and that it does not intend to construct any facilities. The installation of telecommunications facilities will occur in existing conduit or other structures and thus would not result in material adverse impacts. It can be seen with certainty that there is no possibility that the project would have a significant adverse effect on the environment and thus the project is exempt from CEQA review; See D.08-04-018 and D.99-10-025.

Pursuant to 14 CCR §15301, applicant attests that as there is no intention to construct any facilities, with the project occurring in existing facilities, and thus the project involved are classified under a Class 1 Exemption to exempt from CEQA and for which neither an EIR nor a Negative Declaration is required.

7. Names of Competitors and Names of Counties [Rule 3.1(b)]

The applicant must provide the names and addresses of all utilities, corporations, persons or other entities, whether publicly or privately operated, with which the proposed construction is likely to compete, and of the cities or counties within which service will be rendered in the exercise of the requested certificate. The application shall contain a certification that a copy of the application has been served upon or mailed to each such person named.

Sequoia Wireless is requesting to be granted limited facilities-based authority and will not construct any facilities other than equipment to be installed in existing buildings or structures with proposed constructions described above expected not to compete. Service is requested to be rendered in service territories of Pacific Bell Telephone Company d/b/a AT&T California (AT&T California), Frontier California Inc. (Frontier California), Citizens Telecommunications Company of California, Inc. d/b/ a Frontier Communications of California (Frontier Communications), and Consolidated Communications of California Company (Consolidated Communications, formerly SureWest Telephone) throughout California.

Pursuant to D.97-06-107, issued in Commission proceeding R.94-02-003/I.94-02-004, CLCs are no longer required to comply with Rule 18(b) and General Order 96-A, subsections (G)(1) and (2). Thus, the applicant is not required to mail its application to all potential competitors and counties. However, Sequoia Wireless, LLC will provide a copy of its Application upon request to potential competitors and counties.

8. Areas of Service (Maps) [Rule 3.1(c)]

The applicant must clearly describe and provide a map of the service territories it proposes to serve. It should also identify the entities currently providing service in the area pursuant to D.95-12-056, Appendix C, Rule 4.E. The map should be included as an attachment to the application.

Service is requested to be rendered in service territories of Pacific Bell Telephone Company d/b/a AT&T California (AT&T California), Frontier California Inc. (Frontier California), Citizens Telecommunications Company of California, Inc. d/b/ a Frontier Communications of California (Frontier Communications), and Consolidated Communications of California Company (Consolidated Communications, formerly SureWest Telephone) throughout California. Attachment J provides a copy of the proposed service area.

9. Identification of Required Franchises, Health and Safety Permits [Rule 3.1(d)]

The Applicant must provide a statement identifying the franchises and such health and safety permits as the appropriate public authorities have required or may require for the proposed construction or extension.

As an applicant seeking authority as a Limited Facilities-Based carrier, Sequoia Wireless hereby states that no franchises or health and safety permits have been required, nor are any anticipated to be required by any public authority for the proposed construction or extension of facilities. The Applicant's planned operations and infrastructure expansions will utilize existing infrastructure and public utility pathways, negating the need for new franchise agreements or additional permits.

Sequoia Wireless will continue to monitor for any regulatory changes or additional requirements that may arise but affirms that, to the best of its knowledge and under current regulations, the project meets all necessary compliance standards without additional franchise or permit obligations.

10. Facts Showing Public Convenience and Necessity [Rule 3.1(e)]

The applicant must demonstrate that granting its application will benefit the public interest.

Granting this Application aligns with the California Public Utilities Commission's (CPUC) findings that competition in the telecommunications industry serves the public interest. Previous decisions—D.95-07-054, D.95-12-056, and D.96-02-072—highlighted the benefits of competitive local exchange and intraLATA services, including technological innovation, service improvements, and economic growth. In keeping with these precedents, granting this Application will provide public interest benefits as follows:

1. **Expansion of Technologically Advanced Telecommunications Services:** Approval will enable the applicant to extend access to state-of-the-art telecommunications solutions throughout California, thereby advancing connectivity and digital inclusivity across California.
2. **Promotion of Innovation:** Increased competition will foster technological innovation by encouraging providers to continuously enhance service quality, reliability, and security.
3. **Lower Rates and Enhanced Service Options:** Competition inherently drives down prices, resulting in more affordable services for consumers. Users will also benefit from a broader selection of service packages tailored to meet diverse needs.

In light of these factors, granting this Application will directly benefit the public by enhancing telecommunications service options, affordability, and accessibility throughout the State.

11. Estimated Cost of Construction, Annual Fixed and Operating Costs and Economic Feasibility [Rule 3.1(f)]

The applicant must provide a statement detailing the estimated cost of the proposed construction or extension and the estimated annual costs, both fixed and operating associated therewith. In the case of a utility which has not yet commenced service, or which has been rendering service for less than twelve months, the applicant shall file as a part of the application supporting statements or exhibits showing that the proposed construction is in the public interest and whether it is economically feasible.

The estimated cost of the proposed construction is estimated to be \$25,000 to \$35,000 with ongoing operating costs estimated to be around \$5,000 to \$7,000. Sequoia Wireless plans to integrate with the wireless side of the business, giving a built-in customer base.

Furthermore, we would apply for an ETC designation to qualify for federal USF Lifeline funds, which if approved, would allow access to \$9.25/customer of LifeLine per month. This revenue source is significant, as more revenue would allow more resources to be available.

.

12. Financial Statements and Ability to Finance [Rule 3.1(g) and 2.3]

In order to be granted a CPCN, an applicant seeking authority to provide limited- facilities-based and resold local exchange and interexchange services must demonstrate that it has a minimum of \$100,000 cash or cash equivalent to meet the firm's start-up expenses. The applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers and/or interexchange carriers in order to provide the proposed service. The applicant must provide statements or exhibits showing the financial ability of the applicant to render the proposed service together with information regarding the manner in which applicant proposes to finance the cost of the proposed construction or extension.

Applicant demonstrates that it is financially capable of rendering its proposed service through the following:

1. Available balance of **\$112,132** in Sequoia Wireless Business Checking Account. Included under Attachment H is the bank statement for the month of October 2024 reflecting this available balance as of the last day of the bank statement (October 30, 2024).
2. Since inception, Sequoia Wireless has spent **\$187,132** on operating expenses and capital expenses that include our start-up expenses. As we have already incurred the vast majority of start-up expenses, the available balance of **\$112,132** coupled with our launch in December 2024 as a California LifeLine Service Provider demonstrates sufficient additional resources to cover all deposits required by local exchange carriers and/or interexchange carriers in order to provide the proposed service.
3. Included in Attachment G is a Profit and Loss statement for Sequoia Wireless from inception on February 4, 2023, to October 31, 2024. While this statement was not required, we felt it necessary to provide a complete financial picture. The following are key highlights:
 - a. From January 1 through October 31, Sequoia Wireless resulted with **\$22,282** in Gross Profit.
 - b. In the previous month, we experienced our first profitable month with **\$3,890** in net profit.
 - c. Sales this year through October 31 have totaled **\$79,464**.
 - d. Since inception, we have incurred direct costs of **\$164,033**.
4. Included in Attachment K is an unaudited Balance Sheet for Sequoia Wireless as of October 31, 2024.
 - a. Current assets were **\$211,895** with current liabilities amounting to **\$100,992**. Current assets are in excess of current liabilities by **\$110,903**.
 - b. Total Equity stood at **\$90,778** with Paid-in Capital to date amounting to **\$347,996** and Retained Earnings totaling **(\$257,219)**.
 - c. Applicant will be able to maintain sufficient liquidity for its first year of operations.
5. As a supplement to the unaudited Balance Sheet for Sequoia Wireless, we included a complete list of Inventory, Supplies, Assets with a total cost of **\$90,511**.

13. Proposed Rates [Rule 3.1(h)]

The applicant must provide a statement of its proposed rates to be charged for service to be rendered. If the application proposes any increase in rates, it shall comply with Rule 3.2(a).

Applicant's proposed services will be offered on a non-discriminatory basis. Applicant requests a waiver of filing a local exchange tariff describing its services, rates and terms and conditions but rather on a de-tariffed basis. Applicant intends to offer its services at rates that are competitive with the rates of the incumbent local exchange carriers in California. Applicant will provide information regarding its rates, terms and conditions of service on its website at www.sequoiawireless.com. Applicant's contracts with customers will be consistent with the consumer protection rules established in D.98-08-031 and contain all applicable commission fees and surcharges.

14. General Order 104-A Statement [Rule 3.1(i)]

The applicant must provide a statement corresponding to the statement required by Section 2 of General Order No. 104-A, as to all known matters which both (a) are designated by said section for inclusion in the annual report but occurred or were proposed subsequent to the period covered by the last previous annual report filed by the applicant and (b) are, or will be, connected with the construction or extension proposed in the application; or, if no such matters are known to have so occurred or are then known to be proposed, a statement to that effect; provided, that an applicant whose capital stock, or that of its parent company, is listed on a "national securities exchange," as defined in the Securities Exchange Act of 1934 (15 U.S.C. 78(a) et seq.), in lieu of the statement required by this rule shall include in the application a copy of the latest proxy statement sent to stockholders by it or its parent company if not previously filed with the Commission, provided, further, that an applicant whose capital stock, or that of its parent company, is registered with the Securities and Exchange Commission (SEC) pursuant to the provisions of Section 12(g) of said Securities Exchange Act of 1934, in lieu of the statement required by this rule shall include in the application a copy of the latest proxy statement sent to stockholders by it or its parent company containing the information required by the rules of the SEC if not previously filed with the Commission.

Sequoia Wireless was exempt from filing an annual report in 2023. No known matters, as outlined in Section 2 of General Order No. 104-A, have occurred or been proposed subsequent to the period covered by the last annual report filed, which would impact or be associated with the project proposed in this application.

Additionally, Sequoia Wireless is wholly owned by R Indran C Nelson (100%), is not owned by a parent company, and confirms that its capital stock is not listed on a national securities exchange, nor is it registered with the Securities and Exchange Commission (SEC) under Section 12(g) of the Securities Exchange Act of 1934. Therefore, no proxy statement or other SEC-related documents are required to be submitted with this application.

This statement fulfills the requirements of Section 2 of General Order No. 104-A.

15. Estimated Customer Base [Rule 3.1(j)]

The applicant must provide the estimated number of customers and their requirements for the first and fifth years in the future.

Sequoia Wireless estimates the total number of newly activated residential customers throughout the first year (2025) as 7,784. We further estimate that less churn, our residential customers count at the end of the first year to be 6,528 Subscribers.

Sequoia Wireless estimates the total number of newly activated residential customers throughout the fifth year (2029) as 57,231. We further estimate that less churn, our active residential customers count at the end of the fifth year to be 67,392 Subscribers.

16. Technical and Managerial Competence [D.95-12-056, Appendix C, D. 13-05-035, Rule. 4.A]

The applicant seeking authority to provide local exchange and/or interexchange service must demonstrate that it has the technical and managerial qualifications necessary to provide the proposed services in its service territory. The applicant should provide the following information, but not limited to: the applicant's key management and technical personnel, resumes and biographies of the key management and technical person that reflects that the applicant possesses significant technical and managerial expertise for operating a telecommunications company, consistent with the Commission's requirements.

Applicant has technical and managerial qualifications necessary to provide the proposed services in its service territory. Attachment B is the biography for Applicant's key management and technical personnel, reflecting that the applicant possesses significant technical and managerial expertise for operating a telecommunications company, consistent with the CPUC's requirements. Applicant has been serving customers since January 2024. In August, we were authorized as a California LifeLine Service Provider, which we are one of only 15 authorized in the state to offer Wireless services to those eligible for LifeLine in California. We also have a backend of technical expertise from Telgoo5 and PWG to consult as needed. Patrick Hardy has been in the telecom industry for over 18 years in positions ranging from regulatory compliance to owning and managing various telecommunications companies and has the proven qualifications in Wireless Facilities Infrastructure.

17. Managerial Competence [D.95-12-056, Appendix C, D. 13-05-035, Rule. 4.A]

Neither applicant, any of its affiliates, officers, directors, partners, agents, or owners (directly or indirectly) of more than 10% of applicant, or anyone acting in a management capacity for applicant: (a) held one of these positions with a company that filed for bankruptcy; (b) been personally found liable, or held one of these positions with a company that has been found liable, for fraud, dishonesty, failure to disclose, or misrepresentations to consumers or others; (c) been convicted of a felony; (d) been (to his/her knowledge) the subject of a criminal referral by judge or public agency; (e) had a telecommunications license or operating authority denied, suspended, revoked, or limited in any jurisdiction; (f) personally entered into a settlement, or held one of these positions with a company that has entered into settlement of criminal or civil claims involving violations of sections 17000 et seq., 17200 et seq., or 17500 et seq. of the California Business & Professions Code, or of any other statute, regulation, or decisional law relating to fraud, dishonesty, failure to disclose, or misrepresentations to consumers or others; or (g) been found to have violated any statute, law, or rule pertaining to public utilities or other regulated industries; or (h) entered into any settlement agreements or made any voluntary payments or agreed to any other type of monetary forfeitures in resolution of any action by any regulatory body, agency, or attorney general.

Above is signed in a sworn affidavit, with a copy included under Attachment F.

To the best of applicant's knowledge, neither applicant, any affiliate, officer, director, partner, nor owner of more than 10% of applicant, or any person acting in such capacity whether or not formally appointed, is being or has been investigated by the FCC or any law enforcement or regulatory agency for failure to comply with any law, rule or order.

The above statement is True. The signature below certifies this to be true to the best of knowledge.

Signed: R Indran C Nelson, CEO and Product Architect, 11/1/24

18. Request for Exemptions (To be included only if applicant requests treatment as an NDIEC)

The applicant may request that, in connection with its authorization as a CLEC, it be accorded the same streamlined regulatory treatment previously accorded to other CLECs as a non-dominant interexchange carrier as set forth in D.96-02-075 and as adopted by NDIECs.

The Applicant, Sequoia Wireless, hereby submits this request for exemptions in connection with its application for authorization as a Competitive Local Exchange Carrier (CLEC). The Applicant seeks to be accorded the same streamlined regulatory treatment previously accorded to other CLECs as a Non-Dominant Interexchange Carrier (NDIEC), as outlined in Decision D.96-02-075. Sequoia Wireless intends to provide competitive telecommunications services in California, which will enhance service availability and options for consumers. In alignment with this goal, the Applicant requests the following exemptions:

Sequoia Wireless seeks exemption from the provisions of PU Code Sections 816-830 (pertaining to the issuance of stocks and securities) and PU Code Section 851 (pertaining to the transfer or encumbrance of utility assets when such transfer or encumbrance is for the purpose of securing debt). The Commission has previously concluded that NDIECs should be exempt from the provisions and requirements of PU Code Sections 816-830 and 851 (insofar as these sections pertain to the issuance of securities and transfer or encumbrance of utility property for purposes of securing debt) in D.85-07-081, D.85-11-044 and D.86-08-057, as confirmed by D.90-09-032. This exemption was extended to CLCs in D.96-02-072, Ordering Paragraph 18.

Sequoia Wireless seeks exemption from any requirement to maintain its books and records in accordance with the Uniform System of Accounts specified in Title 47 I.E. Part 32 consistent with D.99-02-038, which relieved CLCs that are not part of an incumbent local exchange carrier (ILEC) corporate entity from the requirement to keep their books of account in conformance with the Uniform System of Accounts.

19. Request authority for intra-LATA and inter-LATA

Applicant can also request in its CLC application authority for intra-LATA and inter-LATA toll authority with the CLC application at no extra cost.

Sequoia Wireless included our request in the form of a letter found under Attachment H, which is our request for Intra-LATA and Inter-LATA Toll Authority.

20. Tariffs

The applicant must attach a copy of its draft tariff that describes all the services and sample rates that it intends to offer. In order to draft a tariff that complies with the CPUC's requirement, the following documents are important to obtain and review before drafting. Applicant may request for exemption from tariff requirements pursuant to GO 96-B Telco Industry Rule 5.

Applicant respectfully requests waiver from filing tariffs describing its services, rates and terms and conditions, but rather operate on a de-tariffed basis. We respectfully request that the CPUC grant Sequoia Wireless an exemption from tariff filing requirements under Requirement 19, pursuant to Telco Industry Rule 5. We believe this exemption aligns with regulatory goals and upholds consumer protection without the need for tariff filings.

21. Continuous Performance Bond Requirement (D.13-05-035)

D.13-05-035 requires new and existing CPCN holders to submit a continuous performance bond in the amount of \$25,000 issued by a corporate surety company authorized to transact surety business in California with the Commission listed as an obligee on the bond.

Sequoia Wireless as submitted to the CPUC a continuous performance bond in the amount of \$25,000 issued by a corporate surety company authorized to transact surety business in California with the Commission listed as an obligee on the bond. A copy of the bond is included under Attachment I.

22. SB 960 Compliance – Scoping Memorandum Information (Rule 2.1(c))

In accordance with the Commission's Rules, Applicant provides the following information:

- a. Proposed Category: Although this application does not affect rates, Applicant proposes that the Commission classify this proceeding as ratesetting in accordance with Rule 7.1(e)(2), as it does not clearly fit into any of the categories defined in Rule 1.3(a) (adjudicatory), (d) (quasi-legislative), or (e) (ratesetting).
- b. Need for hearing: No hearings are necessary for the Commission to act on Applicant's request as it is non-controversial and does not raise any material issues of fact.
- c. Issues to be considered: Whether Applicant is qualified to provide competitive local exchange and interexchange services in California.
- d. Proposed Schedule: Applicant proposes the following schedule: Application Filed: November 1, 2024
Protests due: 30 days after appearance of Application on Commission Daily Calendar Final Decision Adopted: 60 days after submission.

23. Application Fee and CEQA Fee

A filing fee payable to CPUC must be enclosed with all applications requesting facilities-based authority.

Attachment A

SWORN AFFIDAVIT

SWORN AFFIDAVIT
(Pursuant to D.13-05-035, Attachment B)

Name of Applicant/Company Sequoia Wireless, LLC

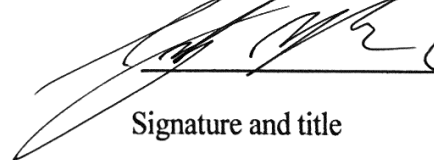

My name is R Indran C Nelson. I am CEO and Product Architect (title) of Sequoia Wireless, LLC (Applicant). My personal knowledge of the facts stated herein has been derived from my employment with Sequoia Wireless, LLC (Applicant).

I affirm that Sequoia Wireless, LLC [Name of Applicant]:

- agrees to comply with all federal and state statutes, rules, and regulations, (state whether **application is for a Certificate of Public Convenience and Necessity (CPCN)**, Transfer, Merger, etc) and state contractual rules and regulations, if granted the request as stated in this application; and
- Certifies [if Applicant is seeking a CPCN] that all answers to the attached Application for CPCN are true and correct;
- In the event Applicant's request for a CPCN or Wireless Identification Registration is granted, Applicant agrees to post a continuous bond (i.e., there is no termination date on the bond) performance bond equivalent to in the amount of \$25,000 for the first year of operation or 10% of intrastate revenue (for subsequent years), issued by a corporate surety company authorized to transact surety business in California, and with the Commission listed as the obligee on the bond. Further, I will provide a copy of the executed performance bond to the Director of the Communications Division with the written notification to the Commission of acceptance of operating authority.

I affirm and declare under penalty of perjury under the laws of the State of California, including Rule 1.1 of the California Public Utilities Commission's Rules of Practice and Procedure, that, to the best of my knowledge, all of the statements and representations made in this Application are true and correct.

Application is for a CPCN

RESUME OF LEADERSHIP

BIOGRAPHIES

R Indran C Nelson, MBA (Indy Nelson); CEO and Product Architect. Based in the San Francisco Bay Area, Indy has 6+ years working in high-tech Product Management and 10+ years of experience covering product strategy, product development, product roadmap, go-to-market, and software development. He is an expert at cross-functional team leadership with a background in analytics, cloud computing, enterprise-wide strategic initiatives, data science, e-commerce, and enterprise architecture. Upon graduating from the University of California Berkeley-Haas School of Business, he embarked on a post-graduate experience, successfully visiting 203 sovereign countries and breaking seven world records. In the fall of 2018, Indy joined the team of a newly formed Master Agent who had just established a relationship with an ETC. Indy devised inventory control system, trained street team managers, and conducted audits. His work helped to establish network of 46 LifeLine Agents.

Craig Bailey; Sales Director. Craig holds a Bachelors in Economics from the University of California Berkeley. Craig has 5 years of sales and marketing experience. He was instrumental in our launch in Jan 2024, personally enrolling the bulk of our ACP Subscribers prior to the freeze. Craig is committed to upholding ethics and instilling a culture of compliance in our company. He is passionate about creating a world in which being connected to the internet is an opportunity that everyone can utilize and enjoy. In his free time, he enjoys playing racquetball.

Patrick Hardy; Wireless Facilities Infrastructure. Patrick Hardy has been in telecommunications industry for over 18 years in positions ranging from regulatory compliance to owning and managing various telecommunications companies.

Muhammad Sheharyar; Data Engineering Director. Resume in Attachment I. As a Data Engineering expert specializing in the telecom industry, I possess a deep understanding of Call Detail Records (CDRs), Number Portability, and enterprise unified data architecture. My expertise lies in designing and developing high-performance, scalable data warehouses on Snowflake, optimized for strategic insights derived from telecom data. I have a proven track record in building and managing robust ETL pipelines using tools like Riverty and Databricks, streamlining data ingestion from diverse sources including SFTP and FTP servers. To enhance processing efficiency and infrastructure scalability, I have implemented scalable solutions through automated FTP workflows and serverless APIs on Microsoft Azure. I am committed to end-to-end data pipeline engineering, ensuring seamless data flow to empower comprehensive analysis and data-driven decision-making.

Gary Dittmore; Advisory Board Member. Gary is a Senior Program Manager with 19+ years of high-tech engineering experience. Gary began his career at NASA in mission control by leading an operations team in real-time flight activities and mission planning. During his twelve years with the agency, he rose the ranks to become the International Space Station (ISS) Orbit Operations Chief Engineer, directing complex multidisciplinary problems on ISS. From aerospace to software, he landed a Senior Technical Program Manager at Adobe for five years, where he led a large-scale data project of \$100+ million in planned savings, managed multiple vendor teams, and helped to identify and reduce risk through innovative ideas across the company. He holds an MBA from Brigham Young University and a Master of Engineering in Systems Engineering from Stevens Institute of Technology. He is currently a Senior Program Manager at Nvidia in the autonomous vehicles space.

Henry Culver, Ph.D. Advisory Board Member. Dr. Culver holds a Doctorate in Computer Science from Colorado Technical University with 25+ years of developing and implementing information technology experience. Henry began his career in the United States Army, Special Forces, where he served for twenty years, rising to Major (Ret.). From military to information technology, his professional experience includes senior technical leadership for Business Intelligence projects at Randstad Technologies, solution design for cloud and big data projects at Merkle, and consulting on projects at Adobe, Charles Schwab, and Oracle. Henry has specialized in an array of areas including AWS, System Architecture Framework TOGAF and DoDAF, UML, Oracle, Linux, MapR Hadoop, Networking, Talend, Python, R language, Data Science, and is a Google Cloud Certified - Professional Data Engineer. He also trains cadets at the United States Air Force Academy.

INDY NELSON, MBA

CEO and Product Architect

Hayward, CA 94544 | 510-342-6503 | indy@sequoiawireless.com | [linkedin.com/in/indynelson](https://www.linkedin.com/in/indynelson) | indynelson.com

Certified Product Manager with 10+ years of product management experience covering product strategy, product development, product roadmap, go-to-market, and software development. Expert at cross-functional team leadership with background in analytics, cloud computing, enterprise-wide strategic initiatives, data science, e-commerce, and enterprise architecture.

PROFESSIONAL EXPERIENCE

CEO and Product Architect, Sequoia Wireless - Hayward, CA 02/2023 - Present

- Founded MVNO focused on enrolling underserved communities with ACP, a no-cost program, funded by taxpayers.
- Received authority from the CPUC as a California-only LifeLine Wireless Service provider.
- Maintained engagement as funding member of National LifeLine Association NaLA, joined fly-in to lobby Congress for ACP funding, and spoke at 2024 NaLA Conference as a panelist.

Senior Product Manager, Merkle - San Francisco, CA 09/2021 – 09/2024

- Developed SQL-based rule engine to identify 57% of customers as terminated and purge from 15 petabytes of managed data.
- Managed requirements elicitation from 3.8K business terms and 3.4K files to devise thirty rules for SQL-based rule engine.
- Performed data analytics using Power BI and Tableau to identify 3.2K data anomalies from customer records.
- Reengineered enterprise customer lineage with 39% greater accuracy, linking 4.7K unmapped accounts to parent companies.
- Normalized legacy siloed information into enterprise view from 1.3M booking records and 860 attributes from 5 source systems.

Product Manager, Adobe - San Jose, CA 04/2021 - 09/2021

- Implemented renewals automation for enterprise subscription business, which generated \$3.2B in annual recurring revenue.
- Supported planning and delivery of run-the-business requirements for internal audience of 990 enterprise sales reps.
- Wrote 44 Adobe Wiki Pages on the E2E of TARP, which the team has found value in citing.
- Simplified At Risk process in Salesforce by joining requests to reduce time spent by 20% in \$250M annual attrition workflow.

Product Management Consultant, A&B Success - Norwalk, CA 10/2018 - 03/2020

- Assessed 350+ SaaS Apps and engineered system architecture diagram to run data flows within integrated cloud-hosted solution.
- Devised inventory control system to reduce product theft by 20% and overhauled RMA system to increase gross margin by 9%.
- Trained managers in leadership, nurtured individual development plans, conducted performance reviews, and coached feedback.
- Resolved disputes from 46-person sales team and coached three regional sales managers on problem-solving frameworks.
- Established value propositions based on market research to increase customer wins, resulting in annual revenue lift of \$1.3M.

Product Manager, Odyssey 196 - Berkeley, CA 03/2016 - 09/2018

- Prearranged 442 nights of accommodations in 225 locations, booked 302 flights on 126 airlines, and self-funded \$106K trip.
- Researched entry requirements, gathered visa documents, submitted paperwork, and received 85 disparate visas.
- Identified 145 geopolitical conflicts from market research, assessed threats, identified risk factors, classified type and severity, instigated substitutes, accurately planned risk responses, and prioritized contingent response strategies for high-level objectives.
- Traveled to 196 countries to break the youngest and fastest world records, validated through 9.4K pages of documentation.

Technical Product Manager, Leverage - Berkeley, CA 01/2015 - 09/2015

- Functioned as product architect to conduct user research, translate feedback into features using voice of the customer method, formulated preliminary algorithms, and designed architectural requirements for SaaS lighting retrofit application driven by ML.
- Prepared data license agreement, formed Scrum team of eight, facilitated ideation, managed feature prioritization, owned product backlog refinement, and translated user wants and values to the Scrum team.
- Formed Agile team of eight, facilitated product ideation, owned product backlog, and established product roadmap.
- Pitched SaaS lighting retrofit application individually to 404 manufactures during trade show, influencing 359 to commit.

Software Product Manager, Ledxchange - Boca Raton, FL 09/2014 - 08/2015

- Produced product vision, devised go-to-market strategy, owned product backlog, and managed stakeholder expectations.
- Documented user stories, specifications, and product features into well-prioritized product backlog with continual refinement.
- Drove product design, led prototype development, and built three product lines for e-commerce website serving B2B and B2C.
- Headed UX/UI design phase to sketch wireframes, create mockups, and develop three product lines for e-commerce website.
- Led Agile development team of five to build lamp finder web app with 100K SKU database and received provisional patent.

Founder and CEO, Chairmen of the Board, LED Alternative Energy - Berkeley, CA 08/2013 - 09/2014

- Built financial model to calculate LED lighting payback period with 27% greater accuracy than industry standard models.
- Recruited software development team of nine, implemented Scrum methodology, and negotiated timelines with lead engineer.
- Formalized MoU with lighting distributor to streamline distribution and secured \$500K inventory for e-commerce website.
- Raised \$32K angel-seed investment, joined incubator, and built proprietary software that led to acquisition by Ledxchange.

Patrick Hardy

Patrick Hardy has been in telecommunications industry for over 18 years in positions ranging from regulatory compliance to owning and managing various telecommunications companies.

2024 – Present – Wireless Facilities Infrastructure – Sequoia Wireless, LLC

2023 – Present – Owner of Your Local Phone Company LLC

Your Local Phone Company is a facilities-based CLEC providing local and internet services in Western Kentucky.

2018 – Present – CEO/Owner of Essex Distribution LLC

Essex Distribution provides sales and marketing to prepaid wireless carriers and for lifeline carriers through dedicated street teams and through company owned stores.

2019 – 2023 – Manager/Consultant Excess Telecom

Provided ongoing operational consulting services for Excess Telecom growing the company from zero to over 2 million subscribers.

2015 2016 – Owner Windward Wireless LLC

Windward Wireless was a facilities based wireless data provider serving Antigo WI with 3G internet service. The company was acquired by Redwire Broadband in 2016.

2018 – 2023 Owner Metro Communications LLC

Metro Communications was a facilities-based CLEC providing data transport services. The company was acquired by 321 Communications in 2023.

Muhammad Sheharyar

sheharyar@sequoiawireless.com

EXPERIENCE

Sequoia Wireless

Data Engineering Director

Aug 24- Present

- Designed and developed robust databases using Snowflake, ensuring high performance and scalability for data warehousing needs.
- Built and implemented ETL pipelines with Riverty and Databricks, streamlining data ingestion from SFTP and FTP servers.
- Created a scalable FTP server with automated workflows triggered by specific events, optimizing file reception and processing.
- Deployed serverless APIs on Microsoft Azure using Azure Functions and Logic Apps to enhance scalability and reduce infrastructure overhead.
- Engineered end-to-end data pipelines, ensuring seamless data flow from source to destination and enabling further data processing and analysis.

Viltco Technologies Inc.

Data Engineer

July 20- Sep 24

- Developed and deployed full-stack applications, managing both frontend and backend components to ensure a seamless user experience.
- Engineered scalable solutions for web applications, optimizing performance and stability across deployment environments.
- Built and maintained robust data pipelines to support application functionalities and integrate data seamlessly across systems.
- Led deployment efforts for applications, implementing CI/CD pipelines to streamline updates and ensure rapid, reliable releases.

Systems Limited

Trainee Software Engineer

July 19 - Sep 19

- Developed interactive and user-friendly web applications using React.js, implementing modern UI components and leveraging state management libraries.
- Collaborated with cross-functional teams to seamlessly integrate front-end components with backend APIs, enabling efficient data flow and real-time updates.

SKILLS

Languages: **Advanced:** JavaScript, C/C++ **Proficient:** Python, HTML, CSS, SQL

Frameworks & Libraries: **Frontend:** ReactJS, Bootstrap, jQuery **Backend:** ExpressJS, Node.js

Data & Machine Learning: Pandas, TensorFlow, PyTorch, Scikit-Learn

Databases: **SQL-Based:** MySQL, PostgreSQL, SQL Server **NoSQL:** MongoDB, Redis

Cloud & DevOps: **Cloud Platforms:** Microsoft Azure (Azure Functions, Azure Data Factory, Logic Apps)

Tools & Packages: **Office Productivity:** MS Office (Excel, PowerPoint, Word) **Version Control:** Git

EDUCATION

National University of Science and Technology, NUST

Bachelor of Science in Computer Science, BSCS.

University of California, Berkeley | GPA 3.2 | Berkeley, CA

August 2013 - May 2017

B.A. Economics

Centennial High School | GPA 4.4 | Bakersfield, CA

August 2009 - May 2013

High School Diploma

Professional Experience

Sales Director

December 2023 - Present

Sequoia Wireless LLC | Hayward, CA

- Spearheaded sales and outreach strategy to enroll 130 new users in the Affordable Connectivity Program (ACP), exceeding monthly targets and driving increased accessibility to essential services.
- Led successful launch of ACP across tribal lands in Palm Springs, CA building relationships with local leaders and organizations to ensure seamless implementation and sustained growth.
- Developed targeted marketing campaigns to engage underserved communities, resulting in a strong engagement rate and strengthening Sequoia Wireless's presence in the region.
- Coordinated with cross-functional teams to streamline onboarding processes, enhancing user experience and ensuring compliance with regulatory standards.
- Utilized data-driven insights to refine outreach strategies, boosting enrollment rates and improving service quality for new and existing users.

Signature Collection Coordinator

January 2019 - December 2023

Bailey's Tax Preparation LLC | Bakersfield, CA

- Developed and executed strategies for effective signature collection in high-traffic areas
- Organized and guided street team members to gather signatures for ballot initiatives
- Engaged with community members to raise awareness about proposed measures
- Maintained accurate records of signatures and ensured compliance with legal requirements and administered

Student Lead Food Service Worker | Berkeley, CA

October 2016 - May 2017

CalDining | Berkeley, CA

- Delegated, operated, and communicated with front of house, custodial staff, and kitchen staff for a dining hall that serves up to 900 students each brunch and dinner shift
- Coordinated a staff of 5-15 students per shift by managing breaks through shift changes and meal breaks and delegating duties to maximize efficiency
- Ensured student staff is maintaining dining hall according to SOPs and health code standards

Event Supervisor

January 2014 - May 2017

Cal Athletics Event Management | Berkeley, CA

- Lead a team of employees to set up, manage, and maintain Cal Athletic events; including, but not limited to, Cal Football games in Memorial Stadium and Cal Basketball games in Haas Pavilion
- Communicated with multiple departments to ensure a safe, friendly and fun environment during all events
- Cal Athletic Team Liaison for Visiting Team, Coaches and/or NCAA Officials

Operations Manager

April 2011 - July 2017

SnoShack LLC | Bakersfield, CA

- Displayed exemplary leadership qualities that allowed me to become the first operations manager for this local, small business
- Managed day-to-day operational and supply needs for six temporary units across Bakersfield by managing the inventory process and ensuring communication with all members of staff and promptly handling any issues on a day-to-day basis
- Ensured staff was maintaining each location according to local health code standards

IN CASE OF ERRORS OR QUESTIONS ABOUT YOUR ELECTRONIC FUNDS TRANSFERS:

Call us at 1-866-564-2262 or write us at the address on the front of this statement immediately if you think your statement or receipt is incorrect or if you need more information about a transfer listed on the statement or receipt.

For personal accounts only: We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared. Be prepared to give us the following information:

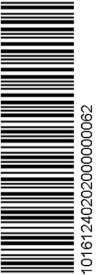

- Your name and account number;
- A description of the error or the transaction you are unsure about, and why you think it is an error or want more information; and
- The amount of the suspected error.

We will investigate your complaint and will correct any error promptly. If we take more than 10 business days (or 20 business days for new accounts) to do this, we will credit your account for the amount you think is in error so that you will have use of the money during the time it takes us to complete our investigation.

For business accounts, see your deposit account agreement or other applicable agreements that govern your account for details.

IN CASE OF ERRORS OR QUESTIONS ABOUT NON-ELECTRONIC FUNDS TRANSFERS: Contact us immediately if your statement is incorrect or if you need more information about any non-electronic funds transfers on this statement. For more details, see your deposit account agreement or other applicable agreements that govern your account.

**REQUEST FOR INTRA-LATA
AND INTER-LATA TOLL AUTHORITY**

November 1, 2024

Subject: Request for Intra-LATA and Inter-LATA Toll Authority

As part of our ongoing efforts to enhance our service offerings and meet the needs of our customers, Sequoia Wireless hereby requests the inclusion of intra-LATA and inter-LATA toll authority in our CLC application, submitted herein.

We believe that obtaining this authority will enable us to provide comprehensive toll services both within and between LATAs, thus improving our capabilities and fostering greater competition in the telecommunications market.

We would like to emphasize that this request is made at no additional cost, as permitted by the regulatory guidelines.

We are committed to complying with all necessary requirements and appreciate your consideration of our request.

Thank you for your attention to this matter. Should you require any further information or documentation to support our request, please do not hesitate to contact me at 510-342-6503 or indy@sequoiawireless.com.

Sincerely,

R Indran C Nelson, MBA
CEO AND PRODUCT ARCHITECT
SEQUOIA WIRELESS, LLC

SURETY BOND

Telephone Corporation Surety Bond

Bond No. SU 7110073-0000

That We, Sequoia Wireless, LLC (hereinafter called Principal) of CA, as principal, and Arch Insurance Company

(hereinafter called Surety) of Missouri, a corporation duly organized under the laws of California, as surety, are bound to the Public Utilities Commission (hereinafter called Obligee or CPUC), as Obligee, in accordance with the provisions of the CPUC Decision 13-05-035, issued June 3, 2013, in Rulemaking 11-11-006, in the full amount of Twenty-Five Thousand Dollars (\$25,000.00) for the payment of which we, the said Principal and the said Surety, bind ourselves, our representatives, successors and assigns, each jointly and severally, firmly and unequivocally, by these presents.

WHEREAS, the Principal is licensed by the Obligee as a Telephone Corporation under the provisions of the California Public Utilities Code and;

WHEREAS, the Principal is required to post a performance bond pursuant to CPUC Decision 13-05-035 for the full and prompt payment of any monetary sanction (i.e. fines, fees, surcharges, taxes, penalties, and restitution) imposed against the Principal, its representatives, successors or assigns, in any CPUC enforcement proceeding brought under the California Public Utilities Code and CPUC Decisions applicable to Telephone Corporations.

NOW, THEREFORE, if the Principal shall fully comply with the requirements of the California Public Utilities Code and CPUC Decisions applicable to Telephone Corporations, the above obligation shall be void; otherwise to be continuous and remain in full force and effect. This bond shall become effective on the 31st day of March, 2024 and shall be continuous. Regardless of the number of years this bond may remain in force, the liability of the Surety shall not be cumulative, and the aggregate liability of the Surety for any and all claims, suits, or actions under this bond shall not exceed twenty five thousand dollars (\$25,000.00).

The Surety may cancel this bond by giving thirty (30) days written notice of such cancellation to the CPUC and the Principal by certified mail, it being understood that the Surety shall not be relieved of the liability that may have accrued under this bond prior to the date of cancellation. The Principal must secure a replacement performance bond before the expiration of cancelled performance bond and provide written notice to the CPUC of proof of the replacement performance bond.

The Principal shall provide written notice to the Surety of any attempt by the Principal to transfer or encumber utility property pursuant to the California Public Utilities Code, Article 6, sections 851, *et. Seq.*

Signed, Sealed and Dated this 1st day of April, 2024.

CPNI STATEMENT

**STATEMENT EXPLAINING HOW THE COMPANY'S OPERATING PROCEDURES
ENSURE COMPLIANCE WITH THE FCC'S CPNI RULES****I. Customer Proprietary Network Information ("CPNI")**

CPNI is defined in Section 222(f) of the Communications Act as (A) information that relates to the quantity, technical configuration, type, destination, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship; and (B) information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier (except that CPNI does not include subscriber list information).

Generally, CPNI includes personal information regarding a consumer's use of his or her telecommunications services. CPNI encompasses information such as: (a) the telephone numbers called by a consumer; (b) the length of a consumer's phone calls, and (c) the telecommunications and information services purchased by a consumer.

II. Use of CPNI is Restricted

The Company recognizes that CPNI includes information that is personal and individually identifiable, and that privacy concerns have led Congress and the FCC to impose restrictions upon its use and disclosure, and upon the provision of access to it by individuals or entities inside and outside the Company.

The Company has designated a CPNI Compliance Officer who is responsible for: (1) communicating with the Company's attorneys and/or consultants regarding CPNI responsibilities, requirements and restrictions; (2) supervising the training of Company employees and agents who use or have access to CPNI; and (3) receiving, reviewing and resolving any questions or issues arising within the Company regarding use, disclosure, or provision of access to CPNI.

Company employees and agents that may deal with CPNI have been informed that there are substantial federal restrictions upon CPNI use, distribution and access. In order to be authorized to use or access the Company's CPNI, employees and agents must receive training with respect to the requirements of Section 222 of the Communications Act and the FCC's CPNI Rules (Subpart U of Part 64 of the FCC Rules).

III. Permissible Uses of CPNI

Company employees and agents are strictly prohibited from using CPNI, and from providing CPNI to individuals or entities inside or outside the Company, except as follows:

1. The Company may, after receiving an appropriate request from a customer, disclose or provide the customer's CPNI to any person or entity designated by the customer. Any and all such customer requests: (1) must be made in writing; (2) must include the customer's correct billing name and address and telephone number; (3) must specify exactly what type or types of CPNI must be disclosed or provided; (4) must specify the time period for which the CPNI must be disclosed or provided; and (5) must be signed by the customer.

2. In the absence of an appropriate written request from the customer, the Company may provide the customer's phone records or other CPNI to a law enforcement agency only in response to a warrant or subpoena that specifies the particular CPNI to be furnished.
3. The Company and its authorized employees may use, disclose or permit access to CPNI to provide services necessary to, or used in, the provision of the telecommunications service from which the CPNI is derived.
 - a. The FCC has noted the publishing of directories as an example of this permitted use.
 - b. The FCC has indicated that telecommunications carriers may use, disclose or permit access to CPNI, without customer approval, to provide inside wiring installation, maintenance, and repair services.
 - c. The FCC has stated that local exchange carriers and commercial mobile radio service providers may use CPNI, without customer approval, to market "adjunct-to-basic" services such as speed dialing, computer-provided directory assistance, call monitoring, call tracing, call blocking, call return, repeat dialing, call tracking, call waiting, caller ID, call forwarding, and certain Centrex features.
 - d. Any other use, disclosure or provision of CPNI under this "necessary to or used in the provision of" category must be expressly approved in writing by the Company's CPNI Compliance Officer.
4. The Company, its authorized employees and its billing agent may use CPNI to initiate, render, bill and collect for telecommunications services.
5. The Company may use CPNI to protect the Company's rights or property, and to protect users and other carriers from fraudulent, abusive or illegal use of (or subscription to) the telecommunications service from which the CPNI is derived.
6. When an existing customer calls the Company to inquire about or order new, additional or modified services (in-bound marketing), the Company may use the customer's CPNI to assist the customer for the duration of the customer's call if the Company provides the customer with the oral notice required by Sections 64.2008(c) and 64.2008(f) of the FCC's Rules.
7. The Company has adopted a policy that it does not and will not use, disclose, or permit access to CPNI in connection with Company-initiated marketing of services to which a customer does not already subscribe from the Company (out-bound marketing).

IV. CPNI Compliance Officer

In addition to the specific matters required to be reviewed and approved by the Company's CPNI Compliance Officer, employees and agents are strongly encouraged to bring any and all other questions, issues or uncertainties regarding the use, disclosure, or access to CPNI to the attention of the Company's CPNI Compliance Officer for appropriate investigation, review and guidance. The extent to which a particular employee or agent brought a CPNI matter to the attention of the CPNI Compliance Officer and received appropriate guidance is a material consideration in any disciplinary action brought against the employee or agent for impermissible use, disclosure or access to CPNI.

V. Disciplinary Procedures

The Company has informed its employees and agents that it considers compliance with the Communications Act and FCC Rules regarding the use, disclosure, and access to CPNI to be very important.

Violation by Company employees or agents of such CPNI requirements will lead to disciplinary action (including remedial training, reprimands, unfavorable performance reviews, probation, and termination), depending upon the circumstances of the violation (including the severity of the violation, whether the violation was a first time or repeat violation, whether appropriate guidance was sought or received from the CPNI Compliance Officer, and the extent to which the violation was or was not deliberate or malicious).
