Application of San Diego Gas & Electric Company (U902M) for Authority to Establish Its Authorized Cost of Capital for Utility Operations for 2023 and to Reset the Annual Cost of Capital Mechanism.

A.25-03-____
(Filed March 20, 2025)

**TEST YEAR 2023 COST OF CAPITAL APPLICATION OF
SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M)**

I. INTRODUCTION

In accordance with the California Public Utilities Commission’s (“Commission” or “CPUC”) Rules of Practice and Procedure, and Commission decision (“D.”) 24-10-008, San Diego Gas & Electric Company (“SDG&E” or “Company”) respectfully submits this Application to establish its authorized Cost of Capital (“COC”) for Test Year (“TY”) 2026, and to reset the Cost of Capital Mechanism (“CCM”) for January 1, 2026 through December 31, 2028. SDG&E seeks authority to revise its rates accordingly.

This Application applies to SDG&E’s electric distribution, gas distribution and gas transmission businesses, together with the electric generation and the electric and natural gas procurement functions.¹ SDG&E proposes a Return on Equity (“ROE”) of 11.25%, a capital structure ratio of 54% common equity and 46% long term debt, and an overall rate of return (“ROR”) of 8.21%. These proposals are consistent with financial modeling and capital market data demonstrating that the cost of equity for utilities, and SDG&E in particular, has increased with the rise in interest rates. And they are reflective of SDG&E’s above-average risks—particularly given the acute concern of investors and credit rating agencies regarding the

¹ The return on SDG&E’s electric transmission assets is not included in the scope of this Application since that return is regulated by the Federal Energy Regulatory Commission (“FERC”).

durability of the Assembly Bill (“AB”) 1054 wildfire fund following the January 2025 Eaton Fire and the “regulatory uncertainty” facing SDG&E that has led Moody’s to opine that SDG&E is “weakly positioned” at its current credit rating.² SDG&E’s proposals here will help counteract those risks and buttress SDG&E’s credit ratings, supporting lower borrowing costs for customers.³

II. SDG&E’S COST OF CAPITAL PROPOSALS REFLECT MODELING, THE CURRENT HIGH-INTEREST RATE ENVIRONMENT, AND SDG&E’S ABOVE-AVERAGE RISKS

For 2026, SDG&E proposes the following cost of capital.

Table 1 – Proposed 2026 Authorized Cost of Capital

Component	Capital Ratio	Cost	Weighted Cost
Long-Term Debt	46.00%	4.62%	2.13%
Preferred Stock	0.00%	6.22%	0.00%
Common Equity	54.00%	11.25%	6.08%
ROR	100%	N/A	8.21%

The Company’s currently authorized cost of capital, as set in D.22-12-031 (“2023 CoC Phase 1 Decision” and last modified in D.24-10-008 (the “2023 CoC Phase 2 Decision”), is shown below.

Table 2 – Currently Authorized Cost of Capital

Component	Capital Ratio	Cost	Weighted Cost
Long-Term Debt	45.25%	4.34%	1.96%

² Moody’s, San Diego Gas & Electric Company Credit Opinion (Mar. 10, 2025) at 2 (“Moody’s March 2025”).

³ *Id.* at 5, 7 (noting that SDG&E’s above-average authorized ROEs have been credit supportive).

Component	Capital Ratio	Cost	Weighted Cost
Preferred Stock	2.75%	6.22%	0.17%
Common Equity	52.00%	10.23%	5.32%
ROR	100%	N/A	7.45%

If adopted, SDG&E’s proposals will increase the Company’s currently authorized rate of return by 0.76%, which will result in an estimated \$96.45 million revenue requirement increase.⁴ SDG&E has included the relevant affordability metrics required by D22-08-023 as Attachment G.

A. SDG&E’s Proposal is Consistent with the Cost of Capital Legal Standards

To invest in the wires, poles, pipelines and substations needed to deliver clean, safe, and reliable electricity and/or natural gas to customers, SDG&E raises funds by either issuing debt or selling equity. Both methods have costs. The company pays interest to debt creditors on borrowed funds. Or it pays a portion of its profits or dividends to equity investors, *i.e.*, shareholders. These costs are known as the cost of capital.

Capital markets are competitive. Investors will only choose to invest with SDG&E to fund critical projects for wildfire mitigation, grid modernization for electrification, and other critical safety and reliability programs for gas and electric operations if SDG&E presents a reasonable return on those investments relative to the Company’s risks. As the Commission recently reiterated, the “legal standard for setting the fair rate of return has been established by the United States Supreme Court in the *Bluefield* and *Hope* cases.”⁵ The Commission continued

⁴ SDG&E’s revenue requirement impact is illustrative and will be updated as a result of the final outcome of this proceeding. In addition to the cost of capital components, the revenue requirement calculation reflects the adjustment associated with the equity rate base exclusion for wildfire mitigation capital expenditures required by AB 1054, as adopted by the Commission in Resolution E-5071.

⁵ D.24-10-008 at 30 (citing *Federal Power Com. v. Hope Natural Gas Co.*, 320 U.S. 591, 601 (1944); *Bluefield Co. v. Pub. Serv. Comm’n*, 262 U.S. 679, 692 (1923)).

that the return must be set at a level that is comparable to the return for other businesses with corresponding risks.⁶ As the Commission added, the “issue of affordability as it relates to the cost of capital is subsumed under the *Hope* and *Bluefield* standards. Consideration of affordability beyond the *Hope* and *Bluefield* standards risk undermining them.”⁷

If ROE is set too low it harms both ratepayers and shareholders, as investors will invest in other companies that have the same return with lower risk profiles⁸—preventing adequate investments in needed areas like wildfire mitigation, gas pipeline safety programs, or grid modernization. And it can lead to increased financial leverage and/or credit rating downgrades, raising costs for customers.⁹ As the Commission has recognized, a strong investment grade credit rating—which is based on the soundness of the Company as an investment—benefits both the utility and ratepayers.¹⁰

The riskier that SDGE is considered as an investment, the more expensive it is for the Company to raise capital—because it must compensate bond and stockholders for that increased risk—through higher interest rates, a higher return on equity or, most likely, both.¹¹ Ratepayers

⁶ D.24-10-008 at 30.

⁷ *Id.*

⁸ Prepared Direct Testimony of Joshua C. Nowak - Return on Equity on Behalf of SDG&E (March 20, 2025) (“Ex. SDG&E-03 (Nowak)”) at JCN-16 – JCN-20; *see* D.22-12-031 at 15 (the Commission “attempt[s] to set the (ROE) at a level of return commensurate with market returns on investments having corresponding risks and adequate to enable a utility to attract investors,” ensuring a return that is “reasonably sufficient to ensure confidence in the financial soundness of the utility, and adequate, under efficient management, to maintain and support its credit and to enable it to raise the money necessary for the proper discharge of its public duties.”).

⁹ *See* D.22-12-031 at 15 (finding that ROR must be set at a level to “maintain and support” a utility’s credit rating).

¹⁰ D.12-12-034 at 7-8.

¹¹ *See* D.03-12-035 at 42 (“the cost of investment grade debt is considerably less . . . the lower cost of a utility’s debt translates into lower rates, all else being equal.” (citation omitted)).

ultimately bear these costs. For example, the fact that SDG&E's credit ratings remain at least two notches below the A rating that SDG&E possessed through 2018 through no fault of its own but instead stemming from the perceived increased risk environment in California results in higher costs for both SDG&E and its customers.

B. SDG&E's Capital Structure Proposal Better Reflects SDG&E's Actual Capital Structure and Counterbalances SDG&E's Increased Financial Risks

Maritza Mekitarian's direct testimony supports SDG&E's proposed capital structure of 54 percent common equity, 46 percent long-term debt, and zero percent preferred stock.¹² SDG&E's proposal better aligns SDG&E's authorized capital structure with its five-year average actual capital structure of 54.90 percent common equity, 45.10 percent long-term debt, and zero percent preferred equity.¹³ By having an actual capital structure with a higher common equity ratio than its authorized one, SDG&E's investors are buttressing the Company's credit ratings—providing a benefit to ratepayers through lower borrowing costs—without receiving a return on their investment. If SDG&E reduced its actual common equity ratio to its currently authorized one it could harm the Company's credit ratings, potentially resulting in higher borrowing costs for ratepayers.¹⁴ Moody's has stated that a “downgrade of SDG&E's ratings is possible if the company generates weaker credit metrics in the aftermath of the implementation of the 2024 GRC such that its ratio of CFO pre-WC to debt falls below 20%.”¹⁵

¹² Prepared Direct Testimony of Maritza Mekitarian – Capital Structure, Embedded Cost of Debt, and Preferred Equity on Behalf of SDG&E (March 20, 2025) (“Ex. SDG&E-02 (Mekitarian)”) at MM-5; Ex. SDG&E-03 (Nowak) at JCN-58 – JCN-58.

¹³ See D.12-12-034 at 11 (setting SDG&E's capital structure to reflect its actual capital structure).

¹⁴ See Ex. SDG&E-02 (Mekitarian) at MM-9 – MM-10 (credit rating agencies assess SDG&E financial risks based upon the Company's actual capital structure).

¹⁵ Moody's March 2025 at 3.

SDG&E's proposed capital structure also reasonably removes the fictitious preferred equity layer from the Company's authorized capital structure that lacks any relationship to SDG&E's actual management of the Company. Preferred stock is no longer an advantageous method for a utility operating company to raise capital. SDG&E has not issued preferred stock since 1993, redeemed all outstanding shares of preferred stock in 2013, and does not plan to issue this type of financing.¹⁶

SDG&E's proposed capital structure thus better rewards the Company for the judicious management of its capital structure by moving SDG&E's authorized capital structure closer to its actual one—instead of continuing with a fictitious authorized capital structure that includes preferred equity that the Company does not have. The proposal would validate SDG&E's prudent business decision to maintain a higher actual equity ratio to manage the Company's above average risks from operating in California; helping counterbalance the fact that SDG&E's credit ratings remain at least two notches below the A rating that SDG&E held prior to 2019 from all three credit rating agencies due to the Company's unique, above average risks. Indeed, the stability provided by SDG&E's proposed capital structure is more important now than ever—in the face of credit rating agency concerns resulting from the durability of the wildfire fund following this winter's wildfires, the resulting equity market sell-off, and SDG&E's increased regulatory and financial uncertainty.¹⁷ And it would be consistent with prior Commission precedent that based SDG&E's authorized capital structure on its actual one.¹⁸

¹⁶ Ex. SDG&E-02 (Mekitarian) at MM-9.

¹⁷ Prepared Direct Testimony of Valerie A. Bille – Policy Overview on Behalf of SDG&E (March 20, 2025) (“Ex. SDG&E-01 (Bille)”) at VAB-21 – VAB-22.

¹⁸ See, e.g., D.12-12-034 at 11.

The proposal also provides a prudent counter to help SDG&E manage increased financial risks. As Moody’s recently stated, SDG&E is “weakly positioned” at its current A3 credit rating due to “considerable uncertainty regarding the utility’s 2025-2027 cash flow” resulting from SDG&E’s 2024 GRC Decision, SDG&E’s outstanding track 2 and 3 requests to address deferred recovery of wildfire mitigation investments, and the elimination and/or reduction of two-way balancing accounts.¹⁹ As discussed in testimony, SDG&E is having to finance costs subject to cost recovery—including those in balancing and memorandum accounts—for longer terms, with more expensive long-term financing.²⁰ SDG&E’s proposed capital structure would help counterbalance those regulatory lag risks, potentially supporting further upgrades to SDG&E’s credit ratings (and thus lower borrowing costs).

C. SDG&E’S ROE Should be Set at 11.25 Percent to Reflect SDG&E’s Cost of Equity and Above Average Risks

Mr. Nowak provides SDG&E ROE proposal of 11.25 percent. Mr. Nowak’s recommendation is eminently supportable—given Mr. Nowak quantitative analysis showing an ROE range of 10.50-11.50 percent, the current high-interest rate environment, the increase in authorized ROEs nationwide, and the above-average risks that SDG&E faces relative to the proxy group as detailed both here and Mr. Nowak’s testimony—in particular, as noted, the extreme wildfire liability risk that SDG&E faces that has further increased following the Eaton Fire along with SDG&E’s increased cost-recovery uncertainty.

¹⁹ Moody’s March 2025 at 1, 2.

²⁰ Moody’s, San Diego Gas & Electric Co. Credit Opinion (Dec. 4, 2023) at 6-7 (finding that the “material deterioration in [SDG&E’s] financial metrics during 2023 is largely attributable to the drag on its cash flow from the net unrecovered regulatory assets and growing debt to finance its funding requirements.”).

1. Mr. Nowak Analysis Shows an ROE Range of 10.50-11.50 Percent

To determine a reasonable return on equity for SDG&E, Mr. Nowak applied the results of three ROE-models (Discounted Cash Flow (“DCF”), Capital Asset Pricing Model (“CAPM”), and Bond Yield Plus Risk Premium (“Risk Premium”) to a proxy group of 26 investment-grade, dividend-paying electric and/or combined electric and gas utilities to establish a just and reasonable ROE range.²¹ He found a reasonable range for the proxy group to be 10.50-11.50 percent. As Mr. Nowak noted, interest rates have dramatically increased and remain high over the past several years in response to the Federal Reserve’s focus on record high inflation following the COVID-19 pandemic.

Although the Federal Reserve has reduced the federal funds rate from a high of 5.25 percent to 5.50 percent in August 2024 (the highest level in the last 20 years) to its current target of 4.25 percent to 4.50 percent, the Federal Reserve maintained that rate level at its January 2025 meeting and remains concerned about “elevated inflation.”²² As Mr. Nowak noted, the last time that interest rates were at these levels, the Commission authorized SDG&E an 11.10 percent ROE.²³ Indeed, as S&P’s Regulatory Research Associates (“RRA”) has found, the average authorized ROE by state regulatory commissions has likewise continued to increase in response to elevated interest rates.²⁴ Specifically, the average authorized ROE for electric utilities was

²¹ Ex. SDG&E-03 (Nowak) at JCN-3 – JCN-4.

²² *Id.* at JCN-14 – JCN-16.

²³ *Id.* at 5 (citing D.07-12-049).

²⁴ RRA, Major energy rate case decisions in the US January-December 2024 (Feb. 4, 2025) at 4 (“In 2024, the average authorized returns for electric and gas utilities rose moderately compared to 2024, driven by a higher interest-rate environment.”).

9.74 percent in 2024 compared to 9.60 percent in 2023—and has increased by over 30 basis points since 2021.²⁵

2. SDG&E’s Above Average Risks Justify an ROE in the Upper Half of the Zone of Reasonableness

Mr. Nowak then considered SDG&E’s risk profile—as described both by Mr. Nowak and in the testimony of Valerie Bille—to develop an ROE recommendation within that range. Mr. Nowak concluded that SDG&E’s above-average risk compared to other regulated utilities outside of California—principally with regards to wildfire and wildfire liability risk—supports an ROE in the top half of the just and reasonable range. Mr. Nowak thus recommended an ROE of 11.25 percent.

a. SDG&E faces unique and significant wildfire and wildfire liability risk

SDG&E is considered a “leader in wildfire prevention.”²⁶ Nevertheless, California electric utilities face unique risks related to catastrophic wildfires in California from a combination of the higher risk of wildfires in the state and the threat of massive uninsured and unrecoverable losses for California investor-owned utilities due to California’s application of “inverse condemnation” to utility-caused wildfires. This legal doctrine makes a California electric utility strictly liable for any wildfire resulting from the utility’s equipment, regardless of fault.

²⁵ *Id.*; RRA, Major energy rate case decisions in the US January-September 2023 (November 1, 2023) at 1; *cf.* D.22-12-031 at 32-33 (citing nationwide state commission authorized ROE averages for 2021 and 2022 and “recogniz[ing] that since the 2020 Test Year Decision, there has been a continued downward trend for the authorization of ROE for peer utilities in the United States, representing a downward trend of 20-30 basis points.”).

²⁶ S&P Global Ratings, San Diego Gas & Elec. Co. (June 26, 2024) at 2.

Regarding the former, as S&P states, “California wildfires have been increasing in intensity and frequency, occurring in all seasons, and spreading into more densely populated areas, resulting in more structural and infrastructure damage than in the past.”²⁷ As the credit rating’s agency recently added, “[e]nvironmental factors are a negative consideration in our credit rating analysis of SDG&E, reflecting *above-average* physical risk compared with peers because of wildfires in California, which may also experience drought-like conditions.”²⁸ And S&P has likewise noted that SDG&E faces a “high threat of wildfires in its service territory relative to utility peers across North America.”²⁹

According to Cal Fire, seventeen of the State’s twenty most destructive wildfires in recorded history have been subsequent to 2007—including the Eaton and Palisades fires in January 2025, which are already the second and third most destructive.³⁰ As credit rating agencies note, the increased duration of wildfire season and the higher frequency of wildfire-prone conditions has increased the opportunities for a utility’s equipment to be involved in an ignition, expanding the risks both for the utility bearing costs and/or not obtaining cost recovery.³¹ The Federal Energy Management Agency last fall ranked San Diego County as the

²⁷ S&P Global Ratings, Credit Risks Associated with Wildfires Are Increasing for California Public Finance Entities (Feb. 20, 2025) at 1, available at <https://www.spglobal.com/ratings/en/research/articles/250220-credit-risks-associated-with-wildfires-are-increasing-for-california-public-finance-entities-13421042>.

²⁹ S&P, Sempra Outlook Revised to Negative, Ratings Affirmed; Southern California Gas Downgraded, Outlook Stable (Jan. 9, 2025) at 2 (“S&P Jan. 9, 2025”).

³⁰ See Cal Fire, Statistics, available at <https://www.fire.ca.gov/our-impact/statistics>.

³¹ Moody’s Investor Services, San Diego Gas & Elec. Co. Credit Opinion (Dec. 4, 2023) (“Moody’s Dec. 2023”) at 1, 7.

most at-risk California county for wildfires.³² And the CPUC has classified 57% of SDG&E's service territory as being in a High Fire Threat District.³³

This enhanced wildfire threat is exacerbated by inverse condemnation, which, as noted, makes California electric utilities strictly liable for liability damages if their facilities were a contributing cause to the wildfire, even if the utility was not negligent.³⁴ SDG&E has not experienced a catastrophic wildfire in its service territory since 2007. S&P found that SDG&E “has developed a 17-year track record of not causing a significant wildfire (in part due to its robust wildfire mitigation practices).”³⁵

Nevertheless, the combination of high wildfire risk and the significant costs associated with that risk have resulted in SDG&E's credit ratings in 2018-2019 being reduced two notches below the A-credit rating that SDG&E had in 2018 from all three credit rating agencies following significant wildfires in the state in 2018-2019 and Pacific Gas and Electric Company

³² See FEMA, National Risk Index, available at <https://hazards.fema.gov/nri/report/viewer?dataLOD=Counties&dataIDs=C06073,C06065,C06025,C06071,C06079,C06029,C06111,C06083,C06037,C06059,C06107,C06031,C06053,C06019,C06027,C06039,C06085,C06001,C06013,C06087#SectionRiskIndex>; see also ABC 10 News San Diego, FEMA ranking shows San Diego County tops list of most at risk for Wildfires in Southern California, available at <https://www.10news.com/news/local-news/fema-ranking-shows-san-diego-county-tops-list-of-most-at-risk-for-wildfires-in-southern-california#:~:text=FEMAranks%20San%20Diego%20County,to%20date%20with%20possible%20evacuations>.

³³ See also Moody's March 2025 at 8 (“According to SDG&E's 2023-2025 base wildfire plan, about 64% of its service territory is within High Fire Threat Districts subject to conditions with an increased potential for wildfires.”).

³⁴ S&P Feb. 11, 2025 at 1; accord Moody's Dec. 2025 at 8 (Under inverse condemnation, “utilities are strictly liable for damages from fires ignited by their equipment, regardless of fault or how reasonably they acted.”).

³⁵ S&P Feb. 11, 2025 at 1; accord S&P, Jan. 9, 2025 at 2 (“In addition, we expect SDG&E to remain a global leader in wildfire prevention and mitigation given the high threat of wildfires in its service territory relative to utility peers across North America.”).

(“PG&E”) on January 29, 2019 filing for Chapter 11 bankruptcy protection based, at least in part, on risk and potential liability from wildfires in California.³⁶

AB 1054 was signed into law on July 12, 2019. As Moody’s states, there are three primary sources of wildfire liability risk reduction from that legislation: (1) it creates liquidity through the creation of a \$21 billion wildfire fund that a utility can immediately use to pay claims and then reimburse the fund later if there are any disallowances should the utility be deemed imprudent; (2) it caps the amount that the utility would have to reimburse the fund at 20% of the equity portion of the utility’s rate base; and (3) it revises the prudence standard that applies at the Commission if the utility has a valid state safety certification.³⁷

Although AB 1054’s establishment of a wildfire fund with a cap on expenses meaningfully reduces risks, it does not eliminate them. This is reflected in the fact that, while Moody’s raised SDG&E’s credit rating one notch in 2021, SDG&E’s credit ratings remain at least two notches lower from all three credit rating agencies even after AB 1054’s passage. As Moody’s states, exposure to wildfire risk continues to “temper[] SDG&E’s credit quality,”³⁸ even after AB 1054’s passage, resulting from the “combination of (i) severe wind events; (ii) growing housing developments in fire-prone areas; and (iii) the California courts’ application of the inverse condemnation doctrine, which heightens the utilities’ risk exposure to property

³⁶ See PG&E Corporation, PG&E Files for Reorganization Under Chapter 11 (January 29, 2019), available at <https://investor.pgecorp.com/news-events/press-releases/press-release-details/2019/PGE-Files-for-Reorganization-Under-Chapter-11/default.aspx>.

³⁷ Moody’s March 2025 at 8; Moody’s Dec. 2023 at 7-8.

³⁸ Moody’s Dec. 2023 at 1.

damage.”³⁹ Investor analysts likewise continue to discount Sempra’s stock due to SDG&E’s wildfire risk.⁴⁰

In addition, as discussed further in the testimony of Mr. Nowak, the wildfire fund has no replenishment mechanism.⁴¹ If the fund’s claim paying capability is exhausted, “the majority of the credit supportive elements, including the liability cap, will terminate.”⁴² This concern regarding the wildfire fund’s durability (and with it, the liability cap)—and the resulting increase in risk as viewed by credit rating agencies and equity investors—has become increasingly acute following the January 2025 wildfires.

On February 3, 2025, S&P placed Southern California Edison Company (“SCE”) on negative watch, stating that, it “reflect[s] the potential that the California wildfire fund could materially deplete given the significant number and value of structures that have been damaged or destroyed (over 10,000) due to the Eaton fire, and the possibility that SCE’s equipment may be linked to the fire.”⁴³ As Moody’s stated, the “fires illustrate California’s increasing exposure to physical climate risks and will exacerbate strains on the state’s property insurance market.”⁴⁴ The concern about the fund’s facing a “material draw down” is putting pressure on SDG&E’s

³⁹ *Id.* at 8.

⁴⁰ Ex. SDG&E-01 (Bille) at VAB-12 – VAB-13.

⁴¹ *See also* S&P Feb. 11, 2025 at 1.

⁴² Moody’s March 2025 at 9.

⁴³ S&P, Edison International and Subsidiary SoCalEdison Outlooks Revised to Negative from Stable on Potential Risk for Wildfire Fund Depletion (Feb. 3, 2025) at 1-2.

⁴⁴ Moody’s, LA wildfires pose biggest challenges for utilities, local governments and insurers at 1 (Jan. 17, 2025).

equity and credit ratings despite there not being a significant wildfire in SDG&E's service territory.⁴⁵

As Mr. Nowak details, this has led to a swift stock market response. Edison International ("EIX"), PG&E, and Sempra experienced stock price declines of 35, 20, and five percent respectively between December 9, 2024 and February 10, 2025; despite an overall increase in the S&P Utilities 500 index over that same period.⁴⁶ Although, as Mr. Nowak discusses, concerns about Edison's role in the Eaton fire could reflect some of the decline in EIX's stock, PG&E and SDG&E do not face any liability concerns and yet have likewise experienced significant dips, reflecting overall wildfire liability worries in California. And as Mr. Nowak details, given that less than half of Sempra's assets are associated with SDG&E, the EIX and PG&E decline better represent the increased concern that investors have regarding the ongoing risks to California utilities such as SDG&E.⁴⁷

b. Credit Rating Agencies and Equity Analysts Also View SDG&E as Facing Increased Regulatory and Other Risks

The concern about the wildfire fund's durability (or lack thereof) has amplified overall investor concerns about the risk environment for utilities in California. As Guggenheim recently stated:

We have been nervous around the CA construct, in general: As we have highlighted in our '25 outlook, the recent decisions, cost of capital changes, and the governor's executive order on rates led to the optics of CPUC goal-seeking for outcomes. In other words, rather than support prospective spending and accelerated risk mitigation (including faster undergrounding program), the state appeared to have a specific customer rate inflation in mind and the spending

⁴⁵ S&P Feb. 11, 2025 at 1; *see* Moody's March 2025 at 3 ("Negative momentum on [SDG&E's] rating is also possible if SDG&E's wildfire risk exposure unexpectedly increases or the state's wildfire fund is materially depleted.").

⁴⁶ Ex. SDG&E-03 (Nowark) at JCN-48 – JCN-50.

⁴⁷ *Id.* at JCN-50.

approvals needed to fit within that box. We have seen delays on undergrounding plan implementation, reduction of wildfire mitigation recovery, reductions to PCG GRC capex, changing escalation factors, changing the cost of capital mechanism, etc.⁴⁸

Moody’s likewise views SDG&E as facing a credit challenge compared to utilities outside California from the “[e]levated political risk and public scrutiny in California amid demanding public policy goals.”⁴⁹ Specifically, Moody’s stated that SDG&E’s final 2024 general rate case (“GRC”) decision has “introduced some regulatory uncertainty” regarding SDG&E’s “2025-2027 cash flow” from regulatory lag due to deferred recovery of wildfire mitigation expenditures, the deferral of cost recovery to other proceedings, and the reduction in use of two-way balancing accounts that leaves SDG&E “[w]eakly positioned at the A3 [credit] rating level.”⁵⁰

SDG&E also faces numerous public policy goal challenges, including decarbonization goals that are as aggressive, if not more aggressive, than any in the country. And SDG&E must handle challenges from extremely high solar rooftop adoption in its service territory. This heavy rooftop solar adoption presents risks—given the Company’s current system design and volumetric based rate structure—and puts SDG&E in a challenging position both in terms of reliability and in terms of affordability pressures placed upon the remaining non-rooftop solar customers. SDG&E’s request for an ROE in the upper midpoint of the zone of just and reasonable ROEs is thus amply justified by the Company’s above-average risks.

III. RELIEF REQUESTED

SDG&E respectfully requests that the Commission take the following actions:

1. Adopt the proposed Test Year 2026 comprehensive Cost of Capital structure, which yields an updated Rate of Return of 8.21%;
2. Adopt an authorized capital structure with the following ratios: Long-Term Debt of 46.00%; Preferred Equity of 0%; and Common Equity of 54.00%;
3. Adopt an authorized ROE of 11.25%;
4. Adopt the embedded cost calculations for Long-Term Debt;
5. Authorize a new three-year cost of capital cycle using the Cost of Capital Mechanism, combined with SDG&E's right to file an application in applicable circumstances as provided for in D.08-05-035; and

Pursuant to Rule 2.1, the relief being sought is summarized above and is further described in the testimony, preliminarily identified as follows:

- Exhibit SDG&E-01, entitled Policy Overview
- Exhibit SDG&E-02, entitled Capital Structure
- Exhibit SDG&E-03, entitled Return on Equity

IV. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) – (c)

This application is made pursuant to Sections 451, 454, 489, 491, 701, 728, and 729 of the California Public Utilities Code, the Commission's Rules of Practice and Procedure, and relevant decisions, orders, and resolutions of the Commission, including D.24-10-008. In accordance with Rule 2.1 (a) – (c) of the Commission's Rules of Practice and Procedure, SDG&E provides the following information.

1. Rule 2.1 (a) - Legal Name

SDG&E is a corporation organized and existing under the laws of the State of California. SDG&E is engaged in the business of providing electric service in a portion of Orange County

and electric and gas service in San Diego County. SDG&E's principal place of business is 8330 Century Park Court, San Diego, California 92123.

2. Rule 2.1 (b) - Correspondence

Correspondence or communications regarding this Application should be addressed to:

Will Fuller
2026 Cost of Capital Program Manager
San Diego Gas & Electric Company
8330 Century Park Court
San Diego, CA 92123
Email: wfuller@sdge.com

with copies to:

Ross R. Fulton
Attorney for
San Diego Gas & Electric Company
8330 Century Park Court
San Diego, CA 92123
Telephone: (619) 372-7529
Email: rfulton@sdge.com

3. Rule 2.1 (c)

a. Proposed Category of Proceeding

SDG&E proposes that this Application be categorized as ratesetting under Rule 1.3(e), since SDG&E proposes to establish new rates based on proposed changes to its ROR reflecting adjustments to capital costs.

b. Need for Hearings

Although SDG&E does not believe that evidentiary hearings are necessary to address questions of material fact pertaining to its request, it includes hearing dates in the proposed procedural schedule below should the Commission determine that hearings are necessary.

i. Issues to be Considered and Relevant Safety Considerations

The primary issues to be considered in this application include:

- The appropriate capital structure;
- The appropriate cost of Long-Term Debt;
- The appropriate cost of Common Equity; and
- The appropriateness of establishing a new three-year cost of capital cycle using the current Cost of Capital Mechanism, combined with SDG&E's right to file an application as provided in D.08-05-035.

With respect to relevant safety considerations, SDG&E does not expect there to be specific safety-related issues or considerations that will need to be addressed by the Commission in this proceeding.

ii. Proposed Schedule

SDG&E proposes the following schedule for this application:

Activity	Date
Application Filed	March 20, 2025
Protests and Responses Due	April 3, 2025
Reply to Protests / Responses Due	April 8, 2025
Prehearing Conference	As soon as permitted
Public Advocates/Intervenor Testimony	June 5, 2025
Rebuttal Testimony	June 30, 2025
Evidentiary Hearings (if necessary)	July 14, 2025
Opening Briefs	July 31, 2025
Reply Briefs	August 15, 2025
Late-Filed Exhibit (cost of debt)	September 14, 2025
Proposed Decision	November 2025
Final Decision	December 2025

B. Articles of Incorporation

A certified copy of SDG&E's Restated Articles of Incorporation, as last amended, presently in effect and certified by the California Secretary of State, was previously filed with the Commission on September 10, 2014, in connection with SDG&E's Application 14-09-008, and is incorporated herein by reference.

C. Rule 3.2 (a) – (d)⁵¹

SDG&E provides the following information consistent with Rule 3.2 (a) – (d).

1. Rule 3.2 (a) (1) – Balance Sheet

SDG&E's most recent financial statement, balance sheet, and income statement are included with this Application as Attachment A.

2. Rule 3.2 (a) (2) – Statement of Effective Rates

A statement of all of SDG&E's presently effective electric rates can be viewed on SDG&E's website. A copy is attached hereto as Attachment B.

3. Rule 3.2 (a) (3) – Statement of Proposed Rates

SDG&E's Statement of Proposed Rates is attached as Attachment C.

4. Rule 3.2 (a) (4) – Description of Property and Equipment

SDG&E is in the business of generating, transmitting and distributing electric energy to San Diego County and part of Orange County. SDG&E also purchases, transmits and distributes natural gas to customers in San Diego County. SDG&E has electric transmission, distribution and service lines in San Diego, Orange and Imperial Counties. This includes a composite 92% ownership in the 500 kV Southwest Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Palo Verde substation in Arizona. This also includes full ownership of the 500 kV Sunrise Powerlink including substations and transmission lines, which run through San Diego and Imperial Counties to the Imperial Valley substation. Gas facilities consist of the Moreno gas compressor station in Riverside County and the Rainbow station located in San Diego County. The gas is transmitted through high and low-pressure distribution mains and service lines.

⁵¹ Rule 3.2(a) (9) is not applicable to this Application.

Applicant's original cost of utility plant, together with the related reserves for depreciation and amortization is shown on the Statement of Original Cost and Depreciation Reserve is attached as Attachment D.

5. Rule 3.2 (a) (5) and (6) – Summary of Earnings

A summary of SDG&E's earnings (for the total utility operations for the company) is included as Attachment E to this Application.

6. Rule 3.2 (a) (7) – Statement re Tax Depreciation

For financial statement purposes, depreciation of utility plant has been computed on a straight-line remaining life basis, at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SDG&E generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-fixing purposes, "flow through accounting" has been adopted for such properties. For tax property additions in years 1981 through 1986, SDG&E has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SDG&E has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981 and the Tax Reform Act of 1986.

7. Rule 3.2 (a) (8) – Proxy Statement

A copy of the most recent proxy statement sent to all shareholders of SDG&E's parent company, Sempra Energy, dated March 25, 2024, was mailed to the Commission on April 15, 2024, and is incorporated by reference.

8. Rule 3.2 (a) (10) – Statement Re Pass Through to Customers

This application both reallocates costs among customer classes as well as passes through to customers of SDG&E the costs for the services provided as authorized by the Commission.

9. Rule 3.2(b) - (d) – Service and Notice

SDG&E is serving this application and testimony on all parties to A.22-04-008, *et al.* Within 20 days of filing, SDG&E will mail notice of this application to the State of California and to cities and counties served by SDG&E in its service territory and to all those persons listed in Attachment F to this Application and will post the notice in their offices and publish the notice in newspapers of general circulation in each county in their service territories.

V. CONCLUSION

SDG&E requests that the Commission grant SDG&E's Application.

Respectfully submitted,

/s/ Ross R. Fulton

Revised Cal. P.U.C. Sheet No. 27766-G
Canceling Revised Cal. P.U.C. Sheet No. 27754-G

TABLE OF CONTENTS

Sheet 1

The following sheets contain all the effective rates and rules affecting rates, service and information relating thereto, in effect on the date indicated herein.

Cal. P.U.C. Sheet No.

TITLE PAGE..... 12805-G

TABLE OF CONTENTS..... 27766, 27656, 27767, 27756, 27867-G
26881, 26885, 27688, 26883, 26884-G

PRELIMINARY STATEMENT

I. General Information..... 7270, 19259-G

II. Statement of Rates..... 11981, 27757, 27744, 27630, 27631, 16688-G

III. Cost Allocation and Revenue Requirement..... 20597, 23749, 24446, 24447, 14249, 7281-G

IV. Balancing Accounts..... 7489, 14250, 14251, 14252, 7493, 7494-G

Description/Listing of Accounts..... 15671, 25935-G

Curtailment Penalty Funds Account (CPFA)..... 20599-G

California Alternate Rates for Energy (CARE)

Balancing Account..... 15681, 15682-G

Gas Energy Efficiency Balancing Account (GEEBA)..... 19260, 19261-G

Rewards & Penalties Balancing Account (RPBA).... 19262, 19510-G

Pension Balancing Account (PBA)..... 22923, 17754-G

Post-Retirement Benefits Other Than Pensions

Balancing Account (PBOPBA)..... 22924, 17755-G

Core Fixed Cost Account (CFCA)..... 27632, 27633, 24449, 24615, 24616-G

Noncore Fixed Cost Account (NFCA)..... 27634, 20603, 19269-G

Post-2005 Gas Energy Efficiency Balancing

Account (PGEEBA)..... 18442, 18443-G

Post-2005 Gas Low Income Energy Efficiency

Balancing Account (PGLIEEBA)..... 15710, 15711-G

Integrated Transmission Balancing Account (ITBA)..... 27635, 24618-G

Advanced Metering Infrastructure Account (AMIBA)..... 16271, 17757, 16273-G

Hazardous Substance Cleanup Cost Acct (HSCCA)... 15741, 15742, 17651, 15744, 15745, 15746-G

15747, 19270, 15749, 15750, 15751-G

Distribution Integrity Management Program

Balancing Account (DIPMBA)..... 17172-G

On-Bill Financing Balancing Account (OBFBA)..... 18444-G

Post-2011 Distribution Integrity Management Program

Balancing Account (P-11 DIMPBA)..... 19974-G

Transmission Integrity Management Program

Balancing Account (TIMPBA)..... 19975-G

New Environmental Regulatory Balancing Account

(NERBA)..... 21026, 21027-G

Master Meter Balancing Account (MMBA)..... 21026-G, 21027-G

Safety Enhancement Capital Cost Balancing Account

(SECCBA)..... 22098-G

Safety Enhancement Expense Balancing Account

(SEEBA)..... 22099-G

Greenhouse Gas Balancing Account (GHGBA)..... 25835, 25974, 25975, 25976-G

Smart Meter Opt-Out Balancing Account (SMOBA).... 21113, 21114-G

Low Carbon Fuel Standard Balancing Account (LCFSBA)..... 21124-G

Biomethane Cost Incentive Program Balancing Account

(BCIPBA)..... 22429-G

San Diego Gas and Electric
2026 COST OF CAPITAL APPLICATION

ATTACHMENT G
GAS AFFORDABILITY METRICS

Summary: The AR20 impacts of SDG&E's proposal for its most disadvantaged customers who are not enrolled in any low income programs are in the range of 0.93% to 3.05%. For households earning minimum wage at the City of San Diego level, the gas essential use bill increase equates to a reduction of 3 minutes of work per month. At the California statewide minimum wage level, the gas essential use bill increase equates to a reduction of 2 minutes of work per month. For households earning the California statewide minimum wage for fast food workers, the gas essential use bill increase equates to a reduction of 1 minutes of work per month. These results do not include low income program discounts for customers who are eligible and enrolled (such as CARE).

	Incremental Change in Affordability Ratio for 20th Percentile Households (AR20)	Incremental Change in Time for Households Earning Minimum Wage (HM)			Incremental Change in AR20 in Areas of Affordability Concern
		City of San Diego	CA Statewide	CA Statewide - Fast Food Workers	
Lowest - Highest Affordability Impact by Climate Zone	Non-CARE	Non-CARE			Non-CARE
	0.0% to 0.1%	-.05 hours or -3 minutes	-.03 hours or -2 minutes	-.02 hours or -1 minutes	0.4% to 0.5%

Notes

1) Current City of San Diego minimum wage is \$17.25/hour. For 2026, SDG&E forecasted the minimum wage to increase to \$18.00/hour based on the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W). Source: <https://www.sandiego.gov/compliance/labor-standards-enforcement/minimum-wage>

2) Current California Statewide minimum wage at \$16.50/hour. For 2026, SDG&E forecasted the minimum wage to increase to \$17.08/hour based on the California Labor Code section 1182.12, where minimum wage to increase by the lesser of 3.5% or the 12-month period from July to June percentage change in the CPI-W. Source: https://www.dir.ca.gov/dlse/minimum_wage.htm

3) Other variations available for healthcare worker minimum wage not included in analysis. Source: <https://www.dir.ca.gov/dlse/Health-Care-Worker-Minimum-Wage-FAQ.htm>

4) Current California Statewide minimum wage for Fast Food Workers at \$20.00/hour. For 2026, SDG&E forecasted the minimum wage to increase to \$20.70/hour based on the California Labor Code section 1182.12, where minimum wage to increase by the lesser of 3.5% or the 12-month period from July to June percentage change in the CPI-W.
