**ATTACHMENT A**

**Pacific Gas and Electric Company  
Community Wildfire Safety Program – Regional Working Groups  
(Second Quarter, 2025)  
Meeting Summary**

**Overview**

From June 25-27, Pacific Gas and Electric Company (PG&E) hosted their second quarter Community Wildfire Safety Program (CWSP) 2025 Regional Working Group (RWG) meetings. These meetings are provided for stakeholders in PG&E's five regions as a forum to relay feedback to PG&E representatives and learn about wildfire safety updates in their communities.

Invitees included stakeholders and representatives from tribal and local governments, small multi-jurisdictional electric utilities, communications and water service providers, Access and Functional Needs (AFN) organizations, community-based organizations (CBO), agencies (e.g., members of local Independent Living Centers) and California Public Utilities Commission (CPUC) staff. Participants were encouraged to ask questions and provide feedback during the meetings.

**Requirements Addressed**

RWG meetings are required by the Wildfire OII Settlement/Decision<sup>1</sup>, which directs utilities to gather feedback on their wildfire safety activities, including issues raised by local governments via working sessions. The meetings also provide an opportunity to status previously identified action items. Per CPUC Public Safety Power Shutoff (PSPS) Phase 1 Decision<sup>2</sup>, during the second quarter meetings, PG&E gathered feedback on de-energization protocols and processes.

**Facilitation and Participation**

The second quarter meetings were held virtually on Microsoft Teams and moderated by PG&E's Regional Senior Managers with support from Local Government Affairs representatives, Tribal Liaison staff, and Public Safety Specialists from each respective region. Additionally, program leads joined to discuss PG&E's coordination with Tribal partners as well as our data portals available to Agency partners.

PG&E's regions consist of the Central Valley, North Valley and Sierra, North Coast, South Bay and Central Coast and Bay Area. The Microsoft Teams platform provides attendees with the option to ask questions and provide feedback both verbally and through the chat feature. Action items were recorded and will be addressed, as necessary.

The table below provides a summary of each meeting's attendance.

<sup>1</sup> D. 20-05-019

<sup>2</sup> D. 19-05-042

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires.

Region	Date and Time	Number of Attendees
Bay Area	June 27, 10:00 a.m.	22
Central Valley	June 25, 10:00 a.m.	36
North Valley and Sierra	June 25, 1:30 p.m.	19
North Coast	June 27, 1:30 p.m.	19
South Bay and Central Coast	June 26, 1:30 p.m.	14

### **Conclusion and Continued Engagement**

Feedback gathered during these meetings helps identify local solutions to help reduce wildfire risk and the impact of wildfire safety outages. PG&E will continue to leverage information gathered during and after each meeting through live polling and post-meeting surveys to inform future meeting topics and structure. The third quarter RWG meetings will be held between September 24-26. Ahead of the third quarter meetings, PG&E will continue to engage with key stakeholders from each region through ongoing outreach and engagement.

Follow-up items, meeting participant lists and notes are in the meeting summary forms located in the Appendix, below.

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires.

FEEDBACK	
Topic	Summary
<b>Wildfire Season Outlook</b>	No comments or questions were raised.
<b>Community Wildfire Safety Program</b>	No comments or questions were raised.
<b>Coordination with Tribal Partners</b>	S. Gamez complimented the support PG&E has provided to Tribal communities and inquired how non-federally recognized Tribes are supported. PG&E addressed the question during the meeting.
<b>PG&amp;E's Data Portals</b>	No comments or questions were raised.
<b>Open Discussion and Q&amp;A</b>	A. McDonald noted that San Joaquin County experienced outages that occurred concurrently with the PSPS and asked for more information on the additional outage. PG&E responded that they experienced a localized grid event that resulted in customers being de-energized.

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires.
