## I. BACKGROUND

---

On December 19, 2018, the California Public Utilities Commission opened Public Safety Power Shutoff (PSPS) Order Instituting Rulemaking (R.)18-12-005 (OIR) to examine the rules that allow electric utilities, under the Commission's jurisdiction, to de-energize power lines in case of dangerous conditions that threaten life or property in California. On June 4, 2019, the Commission issued Decision (D.)19-05-042 (PSPS OIR Phase 1 Decision), which established the PSPS Guidelines, building on directives established in Resolution ESRB-8. On June 5, 2020, the Commission issued D.20-05-051 (PSPS OIR Phase 2 Decision) adopting updated and additional PSPS guidelines.

The PSPS OIR Phase 2 Decision required SCE to convene, at least quarterly, regionalized working groups providing the opportunity for participation from small multi-jurisdictional electric utilities, community choice aggregators, publicly owned electric utilities, communications and water service providers, CPUC staff, tribal and local government entities, Public Safety Partners, and representatives of people/communities with access and functional needs (AFN) and vulnerable communities. These working groups provide a forum to share lessons learned between the impacted communities and the electric investor-owned utilities. Components of the de-energization protocols that could be addressed by the Working Groups include the provision of Community Resource Centers (CRCs), communication strategies, information sharing, identification of critical facilities, strategies for supporting AFN people/communities, and contingency plans. SCE is required to report back to the CPUC on the Working Group progress on a quarterly basis.

In addition, the PSPS OIR Phase 2 Decision required SCE to establish an Advisory Board to provide advisory functions regarding de-energization, consisting of Public Safety Partners, communications and water service providers, local and tribal government officials, business groups, non-profit organizations, representatives of AFN people/communities, and academic organizations. SCE is working with this territory-wide Advisory Board to discuss best practices for de-energization issues and safety, community preparedness, regional coordination, and the optimal use of existing and emerging technologies. SCE is also required to report back to the CPUC on the Advisory Board progress on a quarterly basis.

To comply with the guidelines provided by the Commission in D.20-05-051, SCE formed the PSPS Regional Working Groups and a service area-wide Advisory Board immediately following the issuance of the decision on June 5, 2020.

On February 12, 2021, SCE submitted its PSPS Corrective Action Plan to the CPUC. In SCE's PSPS Corrective Action Plan, SCE will leverage the Working Groups and Advisory Board to review progress and identify further corrective actions to update the PSPS protocols and procedures.

On June 29, 2021, the Commission issued D.21-06-034 (PSPS OIR Phase 3 Decision) adopting updated and additional PSPS guidelines. The Commission noted that "Each electric investor-owned utility must file and serve its quarterly regional working group reports in R.18-12-005 or its successor proceeding."

This is the Q4 2025 progress report on SCE's Advisory Board and Working Groups as required by the Commission.

## II. ADVISORY BOARD

---

SCE developed an approach for establishing a wildfire safety community Advisory Board that emulates the approach implemented by San Diego Gas & Electric Company. SCE's Advisory Board addresses service area-wide de-energization and wildfire issues, providing hands-on, direct involvement and advisory functions on various aspects of PSPS de-energizations. SCE has established an Advisory Board for the entire SCE service area, with meetings scheduled quarterly.

SCE invited key stakeholders to represent the SCE communities on the Advisory Board as directed by the Commission. The PSPS Advisory Board was created during the third quarter of 2020, and the first Advisory Board meeting was held on October 20, 2020.

The schedule of the 2025 Advisory board meetings is shown in the table below:

Table 1

Q1 2025	Q2 2025	Q3 2025	Q4 2025
Tuesday, March 18 1:00 pm	Thursday, June 19 1:00 pm	Tuesday, August 26 1:00 pm	Thursday, December 11 1:00 pm

2026 Advisory Board meetings are tentatively scheduled as follows:

- March 17<sup>th</sup> at 1pm
- June 23<sup>rd</sup> at 1pm
- August 18<sup>th</sup> at 1pm
- December 10<sup>th</sup> at 1pm

### 1. ADVISORY BOARD MEMBERS

SCE reached out to the following organizations, as directed in the PSPS OIR Phase 2 Decision, to request participation in the Advisory Board:

- Public Safety Partners
- Communications and water service providers
- Tribal and local government entities
- Business groups
- Nonprofit organizations
- Representatives of people/communities with AFN and vulnerable communities
- Academic organizations

### 2. ADVISORY BOARD MEETING AGENDA AND MINUTES

The Q4 2025 Advisory Board meeting was held Thursday, December 11, 2025. Stakeholders required by Phase 2 Decision were invited; the list of invited organizations is provided in Appendix C. The meeting was hosted by SCE's Advisory Board Member, Thomas Brady.

The following topics were discussed during this meeting:

- Safety and meeting logistics
- Weather and wildfire outlook
- 2025 PSPS season update
- AFN update
- External (in-event) briefings
- Outage webpage update
- Roundtable and closing remarks, including the tentative schedule for 2026.

The presentation for the Advisory Board meeting is included in Appendix B.

All speakers encouraged feedback and questions from the attendees, and five questions were responded to during the meeting, along with further follow-up (see Table 2 below).

Table 2

	<b>Participant Questions/Comments</b>	<b>SCE Responses</b>	<b>Action Items</b>
1	Daniel Cohen, Calleguas Municipal Water District asked if circuit names could be added to grid hardening map.	SCE explained that while this is not in the short-term plan, it is an enhancement being contemplated for future upgrades.	Circuit names will be considered for future updates to the map.
2	JD Saucedo of Santa Barbara County posted a question asking if Lessons Learned from January 2025 events are publicly available.	SCE explained that these are incorporated in the Post-Event Reports, which were made publicly available.	The link to the Post Event Reports was posted in the meeting chat <a href="#">Misc - Documents - PSPS Reports to the CPUC - All Documents</a>
3	JD Saucedo posted a question asking whether the 2026 AFN Plan was publicly available.	SCE explained that it will be publicly available as soon as it is filed and approved.	The link to the AFN Plans on the CPUC website was posted in the meeting chat. <a href="#">AFN Support for PSPS Annual Plans</a>
4	JD Saucedo posted a request that "SCE considers sending an email out to local governments in your service area announcing that the AFN Plan is published with a link to access it."	SCE thanked JD for the feedback in the meeting chat.	On December 19 <sup>th</sup> , Jennifer Ocampo, Access and Functional Needs Senior Advisor, sent Saucedo an email advising that a link to the AFN Plan is incorporated in the annual LPA newsletter, which is distributed to local and tribal governments.
5	Lisa Cox of Inyo County posted a question: "How can we customize the amount and types of alerts we get, and ultimately reduced? I get dozens of emails, robocalls, texts, etc. and its causing notification fatigue and has caused me to ignore my phone when I need to be paying attention to it."	SCE advised that while most notifications are required by the CPUC, customers can adjust preferences on how they receive those notifications, and recommended that commercial customers use email for notifications so they can filter the notifications on their end. SCE also addressed a follow-up question, on how to adjust preferences.	The link to notification preferences was posted in the meeting chat. <a href="#">Managing Alerts &amp; Preferences   Help Center   SCE</a>

### III. WORKING GROUPS

During the third quarter of 2020, SCE established three Working Groups to include representation from various key stakeholders as directed by the Commission. SCE formed three distinct regionalized Working Groups that collectively represent the entire SCE service area. The counties in SCE's service area are represented in alignment with Cal OES defined regions.

SCE held its Q4 2025 Working Group meetings on December 9, 2025, at 9 a.m. and 1 p.m. Region V and VI were combined for the 1 p.m. occurrence. The schedule of the 2025 Working Group meetings is shown in the table below:

Table 3

Working Group	Q1 2025	Q2 2025	Q3 2025	Q4 2025
Central Region (Region V)	March 13, 2025	June 4, 2025	August 21, 2025	December 9, 2025
LA Metro & Coastal Region (Region I)	March 13, 2025	June 4, 2025	August 21, 2025	December 9, 2025
Inland Empire & Northern Region (Region VI)	March 13, 2025	June 4, 2025	August 21, 2025	December 9, 2025

2026 Working Group meetings are tentatively scheduled as follows:

- March 12<sup>th</sup> at 9am & 1:30pm
- June 18<sup>th</sup> at 9am & 1pm
- August 13<sup>th</sup> at 9am & 1pm
- December 8th at 9am & 1:30pm

#### 1. WORKING GROUP MEMBERS

SCE currently has representation from the following stakeholders for each of the three regional Working Groups:

- Small multi-jurisdictional electric utilities
- Community Choice Aggregators (CCAs)
- Publicly owned electric utilities
- Communications and water service providers
- Tribal and local government entities
- Public Safety Partners
- Representatives of people/communities with AFN and vulnerable communities
- Transmission-Impacted Publicly Owned Utilities
- Electric Cooperatives
- Commission staff
- Cal OES representatives
- Others (e.g., Healthcare facilities)

The list of invited organizations is provided in Appendix D of this document.

## 2. WORKING GROUP MEETING(S) AGENDA AND MINUTES

SCE's Q4 2025 Working Groups meetings were hosted remotely via Microsoft Teams. The agenda included:

- Weather & Wildfire Season Outlook
- PSPS Update
- SCE Fire Management Overview
- 2026 AFN Plan & Customer Programs Update
- SCE System Reliability Overview
- Wildfire Investments Update
- Roundtable and Q&A
- Closing Remarks

The presentation for the Working Groups meetings is included in Appendix A of this document.

**LA Metro & Coastal Region** - The LA Metro & Coastal Region Working Group meeting was held on December 9, 2025 at 9:00 a.m. The table below lists key discussion items and responses that SCE provided during this meeting.

Table 4

	Participant Questions/Comments	SCE Responses	Action Items
1	(Pre-submitted) Janet Lonneker from Anaheim Public Utilities asked if there are opportunities to jointly underground electric lines in High Fire Threat Areas. Additionally, in the meeting, Lonneker asked for a contact to incorporate SCE's fire mitigation programs for the 500kV SCE line that runs through Anaheim into the Anaheim Public Utilities Wildfire Mitigation Plan for 2026.	SCE confirmed we could provide her with an SCE representative she could connect with to address both her requests. (For both questions, her first access point would be her Government Relations Manager)	On 12/23 , Senior Advisor Shruti Amin provided Lonneker with the name of her government relations manager, via email.
2	(Pre-submitted/In-Meeting) Eileen Connors, Simi Valley Emergency Services Manager asked how SCE decides where to deploy their CRCs during PSPS and mentioned that one of the centers for Simi Valley was moved from the Senior Center to a hotel, which was inconvenient for seniors to get to. Connors also expressed interest in incorporating SCE's response into the Simi Valley wildfire mitigation plan for 2026.	SCE provided a direct response during the Roundtable portion of the meeting. SCE confirmed several factors are considered when CRCs are set up including CPUC requirements for hours of operation, ADA access requirements, location to best serve the community, and facility availability. In some instances, SCE must change locations due to facility availability, or weather or safety concerns.	N/A
3	(Pre-submitted) Kristin Miller from City of Simi Valley asked if "Financial assistance for	SCE addressed this comment in the presentation, in the section <i>"Mitigating Impacts of PSPS."</i>	N/A

	vulnerable residents” could be addressed as a topic in this or a future meeting.		
4	(Pre-submitted) Chris Pena from City of Yorba Linda Emergency Management asked if SCE could expand on our storm declaration and how cities are grouped into named districts or a future meeting.	<i>Not addressed in this meeting as the question did not relate to PSPS.</i>	N/A
5	(Pre-submitted) Shelby Chase from CPUC asked about non-PSPS programs and practices that have been updated since the January 2025 storms.	<i>Not addressed in this meeting as the question did not relate to PSPS.</i>	N/A
6	Kristin Miller from City of Simi Valley asked if we had an updated slide with the full data set for the notifications that included the January PSPS events.	SCE clarified that the full data from January is available in the post-event reports for the two January events. In addition, we will be including these events in any year-to-year data analysis after the end of the year.	The link to the post-event reports was provided in the meeting chat.

**Central Region and Inland Empire & Northern Region** - The Central Region and the Inland Empire & Northern Region Working Group meeting was held on December 9, 2025 at 1:30 pm.

The table below lists key discussion items and responses that SCE provided during this meeting.

Table 5

	<b>Participant Questions/Comments</b>	<b>SCE Responses</b>	<b>Action Items</b>
1	(Pre-submitted) David Davis from Fresno County Office of Emergency Management asked if “Improved communications for PSPS events” could be addressed as a topic in this or a future meeting.	SCE provided information to address this comment in two different areas of the Q4 presentation: “ <i>Types of Outages &amp; Notifications</i> ” as well as “ <i>PSPS Customer Communications</i> .”	N/A
2	(Pre-submitted) Justin Clifton, City Manager from Murrieta asked what investments are being made in energy reliability, generation and capacity?	SCE provided a link to SCE Capital Improvements Map during the presentation and additionally demonstrated how to look up capital investments in specific areas/cities and how to apply the layers for distribution and transmission.	N/A
3	(Pre-submitted) Katrina Slayton, Kern County General Services Chief Officer, asked about the coordination of CRCs during PSPS events.	The <i>2026 AFN Plan &amp; Customer Programs Update</i> presentation addressed this comment.	N/A

# VIRTUAL MEETING EMERGENCY PROTOCOL

Follow these steps when a virtual or hybrid meeting attendee is incapacitated.

## BEFORE THE MEETING STARTS - ASSIGN ROLES

- Who will call ESOC? **(626-815-5611)**
- Who will contact the leader?
- Who will stay on the call with the employee?
- Identify the location of employees who may be in transit or out in the field.

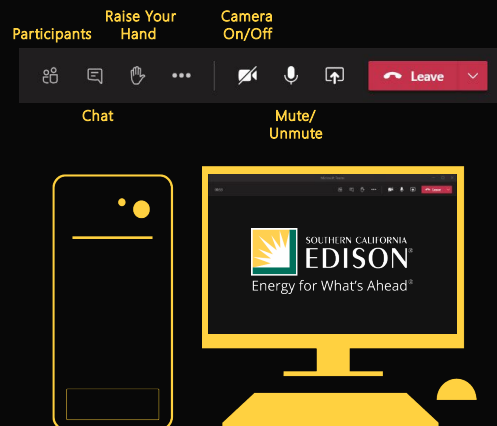

Edison Safety

If employee is a supplemental worker, ESOC will contact the vendor to provide known information; if unavailable, 911 will be contacted.

## HOUSEKEEPING

- Meeting will be **recorded**
- As required, **attendee names will be documented and may be disclosed to the CPUC or other government entities** requiring information related to this meeting
- Use the **Raise your hand** or **Chat** feature located on your screen if you have a question
- Turn on your **camera** if you feel comfortable when/if speaking
- You'll be announced when it's your time to ask your question; remember to mute/unmute yourself
- If you have any issues with using Teams, email us at [SCECSCustomerSupport@sce.com](mailto:SCECSCustomerSupport@sce.com)

Energy for What's Ahead®

3

## SAFETY MOMENT

Ground fault circuit interrupter outlets (GFCIs) are designed to protect against electric shock in kitchens, baths, and places where electricity can come into contact with water.

They shut off electricity when needed—and can help save lives. Talk to your electrician or handyman to learn more about installing these in your home.

Safety in the home – saves lives. When using a menorah or kinara, make sure to place the candles on a sturdy surface and in a location where it can't be easily bumped into or knocked over. Also, keep candles at least one foot away from anything that can burn and monitor them carefully. All candles should be blown out when leaving the room or going to sleep.

Energy for What's Ahead®

4

## MEETING AGENDA

TOPIC	PRESENTER	DURATION
Welcome & Safety	Jude Schneider	5 minutes
SCE Weather & Wildfire Outlook	Tom Rolinski	10 minutes
PSPS 2025 Season Update	Jude Schneider	15 minutes
SCE Fire Management Overview	Kyle Gordon/Brian Due	15 minutes
2026 AFN Plan & Customer Programs Update	Jennifer Ocampo	15 minutes
<b>Resiliency Workshop</b>		
SCE System Reliability Overview	Ruben Soto	15 minutes
Wildfire Investments Update	Haig Kartounian	10 minutes
Q&A	Rosa Perea/Jude	15 minutes
Closing Remarks	Rosa Perea/Jude	5 minutes

## 2025 WEATHER & WILDFIRE OUTLOOK

**Tom Rolinski**  
Fire Science Expert  
Meteorology

## 2025 WEATHER AND WILDFIRE FORECAST

### Weather, Fuels, & Fire Potential Highlights

- Long-range models predicted a dry winter, but current conditions suggest precipitation will be near or above normal, with the latter half of winter trending drier
- Temperatures are expected to be near to above normal for the next several months
- Santa Ana winds will become stronger and more frequent through January
- October rains and recent precipitation have led to new grass growth and greening, reducing fire risk
- Moisture content in live vegetation is rising, lowering fire spread rates and making ignitions easier to suppress
- Large fires are unlikely but not impossible, even during windy/dry periods
- PSPS events are not expected again until 2026

## PSPS SEASON UPDATE

### Jude Schneider

Senior Advisor  
Wildfire/PSPS Response  
Business Resiliency

## How PSPS Changed in 2025

	June-December 2024	May-November 2025
Number of events (excluding January 2025)	20	12
Customers notified	1,049,973	268,180
Average customers notified	52,498	22,348
Customers de-energized	136,612	24,316
Average customers de-energized	6,830	2,026
Events with no customers de-energized	9	1
Average days per activation	6	7

## OUTAGE TYPES

	Is it PSPS?	Is it Repair?	Is it Maintenance?
<b>Notifications</b>	First notification 1-3 days before planned shut off/ mentions <u>high winds</u> and <u>fire conditions</u>	First notification is typically up to 10 minutes after shutoff / lets customers know <u>SCE is responding</u>	First notification up to 10 days before shut off / mentions <u>need for repairs</u>
<b>Mandatory notifications?</b>	<b>YES</b> Emergency communications	<b>NO</b> Customers must sign up	<b>NO</b> Customers must sign up
<b>Average Length</b>	23 hours, but can be longer	Depends on complexity: often same day restoration	Typically, less than 5 hours

10

## SCE FIRE MANAGEMENT OVERVIEW

**Kyle Gordon**  
Fire Management Officer  
SCE Fire Management

**Brian Due**  
Fire Management Officer  
SCE Fire Management

## Fire Management

Kyle Gordon

Troy Whitman

Brian Due

## Fire Management

- Respond to Wildfires/Natural Disasters and embed within ICP as SCE AREP/Single point of contact.
- Provide real time wildfire threat assessment for grid operations and reliability
- Attend Evacuation / Repopulation / Cooperator meetings
- Coordinate electrical hazard response for first responders and public during incident.
- Provide mutual assistance to partnering Utilities.
- Present "**Electrical Safety for First Responders**" to appx. 1000 Firefighters and other first responders annually.

## 2026 AFN PLAN & CUSTOMER PROGRAMS UPDATE

**Jennifer Ocampo**

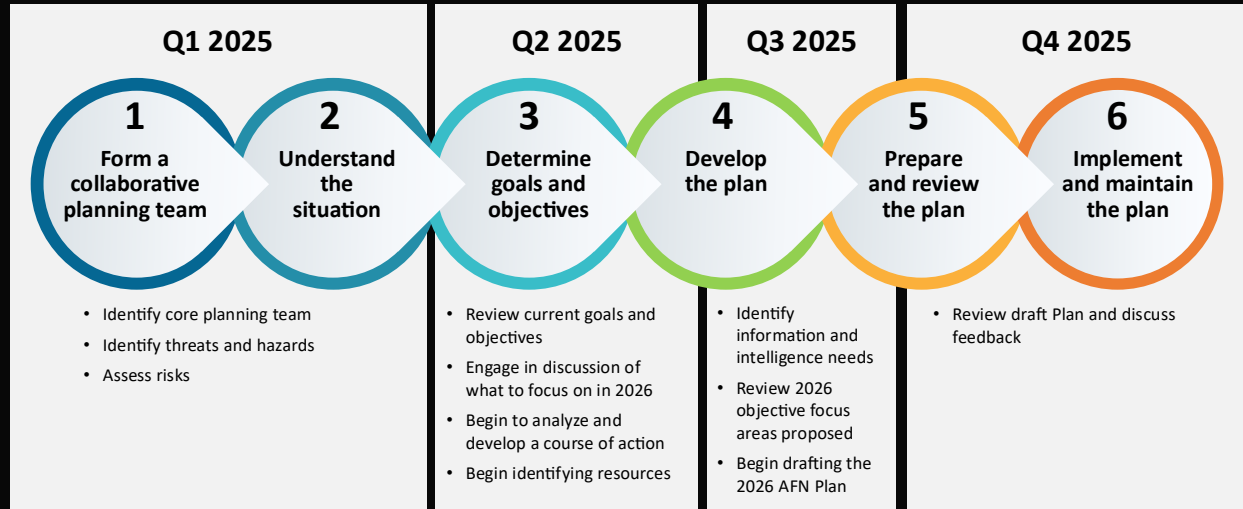

Senior Advisor  
Customer Support & Accessibility

# 2026 AFN PLAN PROCESS

Whole community input

## 2026 AFN Plan Key Objectives and Focus Areas

### Key Objective #1

- Increase awareness of IOU programs and services available before, during and after a PSPS.

### Key Objective #2

- Continue to identify individuals who are Electricity Dependent

### Key Objective #3

- Identify new enhancements to programs and resources needed to mitigate the impacts of PSPS

### Key Objective #4

- Coordinate and integrate resources with state, CBOs and the utilities to minimize duplication.

---

## MITIGATING IMPACTS OF PSPS – COMMUNITY CARE RESOURCES

### **101 Community Resource Centers** (9 are resilient)

provide water, snacks, thermal bags for medication, and access to charging stations for mobile devices and medical equipment

### **8 Community Crew Vehicles**

deployed to locations where we can't open an indoor center; provide similar services as Community Resource Centers

### **8 Resiliency Zone Sites**

powered by backup generator provided by SCE to operate even if the local power is down

17

---

## CUSTOMER BACK-UP BATTERY PROGRAMS

- **Critical Care Battery Backup Program** for customers on Medical Baseline Allowance
- **In-Event Battery Loan Program** for customers with medical devices or assistive technologies
- **\$200 / \$600 rebates** on qualifying portable generators
- **\$150 rebate** on portable power stations
- **Self-Generation Incentive Program (SGIP)** for energy storage and solar

18

## ADDITIONAL SUPPORT

### Access & Functional Needs (AFN) Resources

### Local Food Banks

### Community Based Organizations

2.1.1

19

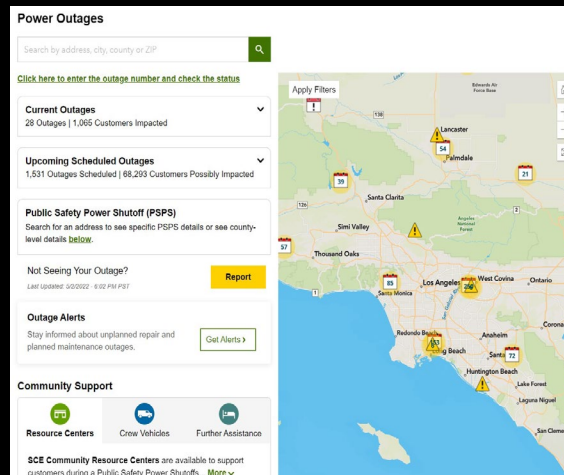

## PSPS CUSTOMER COMMUNICATIONS

### Notifications

- SCE provides PSPS notifications through various communication channels
  - SCE Account Holders (email, text, and voice call)
  - Address Level Alerts
- Non-customers can sign up at [scepsps.com](https://scepsps.com)

### SCE Outage Map

- Consolidated outage map that incorporates PSPS outages at [sce.com/outagemap](https://sce.com/outagemap)

20

## SCE System Reliability

### Ruben Soto

Senior Advisor  
System Planning & Engineering

## What is Reliability?

Simply put, reliability is -  
*Having dependable electricity when you need it*

Outages can be broken down by -

1. Maintenance outages (aka planned outages)
2. Repair outages (aka unplanned outages)
3. Public Safety Power Shutoff (aka PSPS)

**Public Safety Power Shutoff (PSPS):** An operational protocol that SCE implements under extreme weather conditions in order to minimize the threat of wildfires and keep communities safe from potentially dangerous situations.

## How Do We Measure System Reliability?

<b>SAIDI</b> <i>System Average Interruption Duration Index</i>	$\frac{\text{Total minutes every SCE customer was without power due to sustained outages (CMI)}}{\text{Total number of customers}}$	<p>"What was the average amount of time that the system's power service experience unexpected interruptions in any given period?"</p>
<b>SAIFI</b> <i>System Average Interruption Frequency Index</i>	$\frac{\text{Number of sustained customer outages experienced by all SCE customers (CI)}}{\text{Total number of customers}}$	<p>"How many times on average did the system's power service have unexpected interruptions in any given period?"</p>
<b>MAIFI</b> <i>Momentary Average Interruption Frequency Index</i>	$\frac{\text{Number of momentary customer outages experienced by all SCE customers (MI)}}{\text{Total number of customers}}$	<p>"How many times will my power service be momentarily interrupted (<math>\leq 5</math> minutes) this year?"</p>

23

## 2022 – 2025 YTD November System Reliability History

# How Can I Get Reliability Information?

- Local Reliability Reports can be found at [Outage Reliability Reports-Outages & Safety-SCE](#)
- There are Reliability Presentations available for every city, county supervisorial district, and tribe in SCE's service area
- These reports are updated annually
- Reliability reports include the following information:
  - Listing and map of circuits serving that jurisdiction
  - Circuit reliability performance
  - Causes of repair outages on those circuits
  - Capital Improvement Plans on those circuits
  - Historical SAIDI/SAIFI for circuits

25

## Reliability Reports

- Each report will list all circuits that serve that jurisdiction as well as the number of customers on each of those circuits
- Provides reliability history for the current year and the prior 3 years
  - SAIDI
  - SAIFI
  - MAIFI

**Overview of Alhambra**  
There are 42 circuits that serve Alhambra

Note: The number of customers listed represents the total number of customers on each circuit (not the local jurisdiction)

Circuit Type	Customers	Circuit Type	Customers
ALHAMBRA(16KV)	2,086	FEDESTRAN(4KV)	993
ASTOR(16KV)	4,401	IGON(16KV)	379
BILTON(16KV)	3,900	SAHAN(16KV)	394
BRAUN(16KV)	2,248	SHOR(16KV)	1,029
BROOK(16KV)	872	ST CHARLES(16KV)	1,250

## Capital Improvement Map

The capital improvement map has transitioned to a virtual format via [SCE Capital Improvements](#) and can be accessed using the link provided or [sce.com/CapitalImprovements](https://sce.com/CapitalImprovements).

- The map highlighting capital improvement work being performed on the circuits (includes Transmission work, if applicable)
  - Pole replacement
  - Circuit rebuild
  - Electrical equipment replacement

29

## WILDFIRE INVESTMENTS UPDATE

**Haig Kartounian**  
Senior Advisor  
Local Public Affairs

30

## 2025 GRC A PPROVED INVESTMENTS

**Recent California Public Utilities Commission Decision authorized wildfire mitigation spending through 2028 - \$2.213 billion for two key mitigations**

- **Covered Conductor**

- SCE requested to install 1,250 miles of covered conductor
- Decision authorizes \$1.272 billion for 1,653 miles of covered conductor
- Adds to the 6,800+ miles of covered conductor, covering 70% of SCE's overhead distribution lines in HFRA's, previously completed

- **Targeted Undergrounding (TUG)**

- SCE requested \$4.232 billion to underground 685 miles of overhead lines
- Decision authorizes \$941 million for 212 miles of targeted undergrounding
- Additional covered conductor miles authorized to harden additional lines at a lower cost

In addition to grid hardening, the decision also authorizes more than 98% of SCE's requested funding for other activities to manage wildfire risk, including inspections and remediations, aerial suppression, enhanced situational awareness such as weather stations to track wind speeds and monitor the effects of adverse weather conditions on SCE's electrical assets.

## 2025 GRC A PPROVED INVESTMENTS

### **Continued Wildfire Mitigation Activities**

- **Quick Reaction Force**

- The decision authorizes \$35 million for use of the fleet of aerial assets to respond to wildfires across SCE's service territory.
- Provided 70-80% of all local, state and federal water/retardant used to fight January 2025 wildfires

- **Vegetation Management**

- Authorizes a budget of \$553.528 million to conduct vegetation management activities, which focus on reducing ignition risks when vegetation is near electrical facilities.

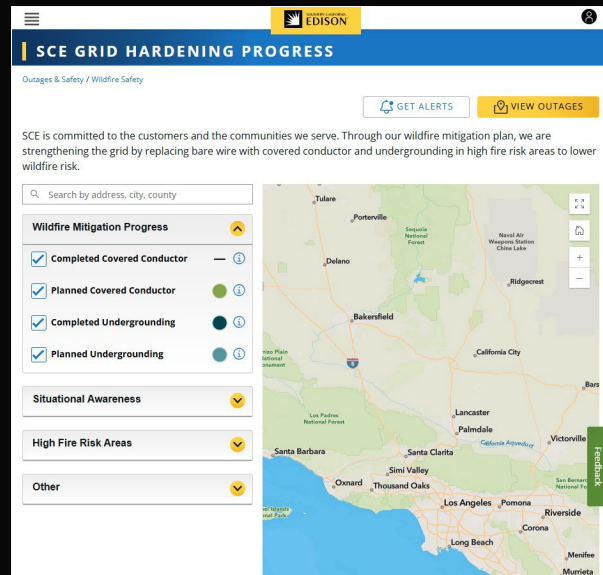

# GRID HARDENING PROGRESS

## NEW [Hardening Interactive Map](#)

- **Publicly Accessible** information on completed and pending grid hardening projects
- **Project Details** include covered conductor installations, undergrounding projects, weather stations and wildfire cameras.
- **Search by Address** to quickly find updates for your neighborhood
- **Quarterly Updates** will ensure information stays current

**Project completion dates are based on forecasts which are subject to change due to a variety of factors.**

## PUBLIC SAFETY POWER SHUTOFF (PSPS) ADVISORY BOARD MEETING

2025 Q4 Meeting –  
Thursday, December 11, 2025 – 1 pm

Energy for What's Ahead®

### HOUSEKEEPING

- Meeting will be **recorded**
- As required, **attendee names will be documented and may be disclosed to the CPUC or other government entities** requiring information related to this meeting
- Use the **Raise your hand** or **Chat** feature located on your screen if you have a question
- Turn on your **camera** if you feel comfortable when/if speaking
- You'll be announced when it's your time to ask your question; remember to mute/unmute yourself
- If you have any issues with using Teams, email us at [SCECEDCustomerSupport@sce.com](mailto:SCECEDCustomerSupport@sce.com)

# SAFETY NEAR DOWNED WIRES

Damage observed during January 2025 PSPS events

## On the ground

- **Secure the area.** Set up a perimeter of at least 100 feet
- **Stay clear of anything contacting downed power lines,** including fences, trees, phone lines, and the ground
- **Be extremely cautious when using water to fight nearby fires.** Do not use a stream of water—it can create a clear path for current

## On or near a vehicle

- **Do not enter or contact vehicles that may be energized.** Instruct drivers to move the vehicle away from the line if they can do so safely
- **If the vehicle cannot be safely moved, instruct occupants to stay put**
- **If occupants are in danger, instruct them to jump clear** without touching the vehicle and the ground at the same time.
- **If occupants are unable to safely exit the vehicle,** wait for emergency response teams and utility personnel

## WELCOME

**Tom Brady**

Principal Manager  
Wildfire/PSPS Response  
Business Resiliency

# MEETING AGENDA

TOPIC	PRESENTER
SCE Weather & Wildfire Outlook	Heather Kane
PSPS Season Update	Tom Brady/ Jude Schneider
AFN Update	Aurora Cantu
External Briefings	Christine Angulo
Outage Webpage Update	Frank Starke
Roundtable and Closing Remarks	Tom Brady

## 2025-2026 WEATHER & WILDFIRE OUTLOOK

**Heather Kane**

Fire Meteorologist  
Fire Science  
Business Resiliency

# 2025-2026 WEATHER AND WILDFIRE FORECAST

## Weather, Fuels, & Fire Potential Highlights

- Long-range models predicted a dry winter, but current conditions suggest precipitation will be near or above normal, with the latter half of winter trending drier
- Temperatures are expected to be near to above normal for the next several months
- Santa Ana winds will become stronger and more frequent through January
- October rains and recent precipitation have led to new grass growth and greening, reducing fire risk
- Moisture content in live vegetation is rising, lowering fire spread rates and making ignitions easier to suppress
- Large fires are unlikely but not impossible, even during windy/dry periods
- PSPS events are not expected again until 2026

6

## 2025 PSPS Season Update

Tom Brady / Jude Schneider

## How PSPS Changed in 2025

	May-December 2024	May-(December) 2025
Number of events (excluding January 2025)	20	12
Customers notified	1,049,973	268,180
Average customers notified	52,498	22,348
Customers de-energized	136,612	24,316
Average customers de-energized	6,830	2,026
Events with no customers de-energized	9	1
Average days per activation	6	7

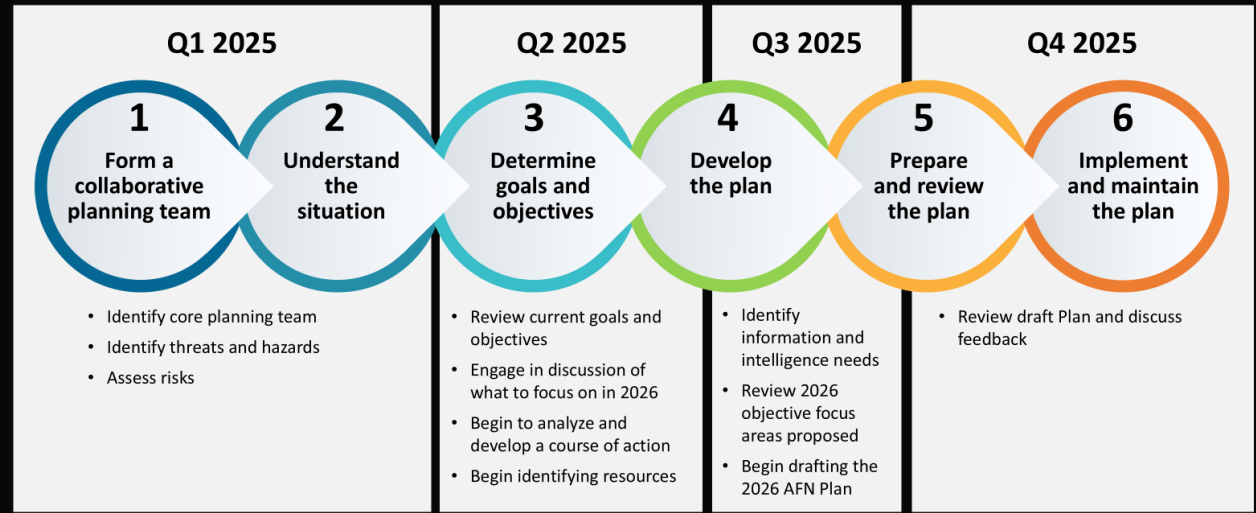

## AFN UPDATE

**AURORA CANTU**

SENIOR ADVISOR  
CUSTOMER EXPERIENCE

## 2026 AFN PLAN PROCESS

Whole community input

## 2026 AFN Plan Key Objectives and Focus Areas

### Key Objective #1

- Increase awareness of IOU programs and services available before, during and after a PSPS.

### Key Objective #2

- Continue to identify individuals who are Electricity Dependent

### Key Objective #3

- Identify new enhancements to programs and resources needed to mitigate the impacts of PSPS

### Key Objective #4

- Coordinate and integrate resources with state, CBOs and the utilities to minimize duplication.

## CUSTOMER BACK-UP BATTERY PROGRAMS

- **Critical Care Battery Backup Program** for customers on Medical Baseline Allowance
- **In-Event Battery Loan Program** for customers with medical devices or assistive technologies
- **\$200 / \$600 rebates** on qualifying portable generators
- **\$150 rebate** on portable power stations
- **Self-Generation Incentive Program (SGIP)** for energy storage and solar

12

## ADDITIONAL SUPPORT

**Access & Functional Needs (AFN)  
Resources**

**Local Food Banks**

**Community Based  
Organizations**

13

## PSPS BRIEFING UPDATE

### CHRISTINE ANGULO

SENIOR ADVISOR  
BUSINESS RESILIENCY

## PSPS External Briefings

Briefing Type	Daily time slot	Audience
Critical Infrastructure	4:00 pm	All impacted CF/CI customers; local governments also invited
CBOs	4:00 pm	CBOs, 211 agencies: led by SCE AFN team
Statewide Executive	4:30 pm	CALOES, CPUC, CALFIRE, OEIS, tribal nations
County	5:00 pm	Impacted counties; CBOs also invited

- Provide daily event overview for all events
  - Typically starting on first day of activation (if event starts before noon) or second day of activation (for events starting after noon)
- SME led for each area covered, with opportunity for follow-up questions
  - Emphasis tailored to audience interests
- Same deck is presented at each meeting; deck is accurate as of 3:00 pm and a pdf copy is emailed to participants at 3:30
  - More current data is on the Public Safety Partner Portal
- Presentation template is prescribed by CALOES

## PSPS Event 11.09.2025 Weather

### Current Weather Update

- Weak Santa Ana winds will continue through mid-day Monday.

### Weather Impacts

- Sustained winds: 25 to 35 mph
- Wind Gusts: 35 to 45 mph
- RH: 5 to 25% during peak daytime heating with poor overnight recoveries.
- FPI: 12-13
- High temperatures ranging from the mid 80s to mid 90s.

### Future PSPS Events:

- PSPS conditions are not currently expected beyond Monday.

## PSPS Event 11.09.2025 Fire Science

### Fuel moisture, recovery, ignition potential, etc.

- With the lack of precipitation and the warm weather during the past three weeks, the overall fire potential has increased across Southern California where green-up has been limited
- The dead vegetation will undergo rapid drying today and tomorrow, allowing for fires to propagate easily
- The living vegetation continues to be dry enough for fire to transition into this fuel class during the periods of concern
- Fast moving fires will be possible with long-range spotting if an ignition were to occur
- Fire size potential for this event is in the 1-5-thousand-acre range

## PSPS Event 11.09.2025 Operations Summary

Impacted	Current Details (List name for counties, list numbers for customers and circuits)	Delta # (+/-)	Number from Last Briefing
Counties in Event Scope	3 - Los Angeles, Riverside, San Bernardino	-1 (Ventura)	4 - Los Angeles, Riverside, San Bernardino, and Ventura
Customers in Scope	3584	-2895	6479
Medical Baseline Customers Remaining Scope	108	-73	181
Critical Care/Life Support Remaining Scope	41	-30	71
Customers De-energized	906	+906	0
Counties De-energized	1	+1	0
Customers Re-energized	0	-	0
Counties Re-energized	0	-	0

## PSPS Event 11.09.2025 Circuit Summary

Impacted	Counts	Delta # (+/-)	Number from Last Briefing
Distribution in Scope	7	-1	8
Distribution De-Energized	2	-	0
Distribution Re-Energized	0	-	0
Sub Transmission Scope	0	-	0
Sub Transmission De-Energized	0	-	0
Sub Transmission Re-Energized	0	-	0
Transmission Scope	0	-	0
Transmission De-Energized	0	-	0
Transmission Re-Energized	0	-	0

## What's New?

### Changes mandated by CPUC for late 2025 and 2026 season

- 2 decks:
  - Pre-de-energization/ post-(first) de-energization
- Impacted Schools summary broken out by county
- Offerings at Customer Resource Centers

## PSPS Event 11.09.2025 Schools Summary

County	Schools In-Scope	Schools De-Energized	Schools Re-Energized	Notification Type*
LOS ANGELES	0	0	0	Text, Email, and Voicemail
RIVERSIDE	0	0	0	Text, Email, and Voicemail
SAN BERNARDINO	5	0	0	Text, Email, and Voicemail
VENTURA	3	0	0	Text, Email, and Voicemail
Totals:	8	0	0	

\*We notify customers in their preference.

## PSPS Event 11.09.2025 Customer Resource Centers

County	Location	Customer Count	Operation Dates/Hours	Resources Provided
Los Angeles	Residence Inn 25320 Treble Rd. Stevenson Ranch, 93510	N/A	11/9/25 8AM to 4PM 11/10/25 8AM to 1PM	ADA compliant facility, tables, chairs, charging capabilities, wheelchair, privacy screen, resiliency kit, snacks, individual water bottles, ice vouchers
Riverside	Peris Senior Center 100 N D St. Peris, 92570	N/A	11/9/25 8AM to 7PM	ADA compliant facility, tables, chairs, charging capabilities, wheelchair, privacy screen, resiliency kit, snacks, individual water bottles, ice vouchers
San Bernardino	Jessie Turner Health & Fitness Community Center 15556 Summit Ave. Fontana, 92336	N/A	11/9/25 8AM to 10PM 11/10/25 8AM to 1PM	ADA compliant facility, tables, chairs, charging capabilities, wheelchair, privacy screen, resiliency kit, snacks, individual water bottles, ice vouchers
Ventura	Boys & Girls Club 2850 Lemon Dr. Simi Valley, 93063	N/A	11/9/25 8AM to 4PM	ADA compliant facility, tables, chairs, charging capabilities, wheelchair, privacy screen, resiliency kit, snacks, individual water bottles, ice vouchers

# SCE.COM OUTAGE UPDATE

**Frank Starke**  
SENIOR ADVISOR  
PRODUCT MANAGEMENT

## UPDATES TO PSPS CARDS

### New Power Shut Off Warning

- New warning message when power may be turned off within the next 1–4 hours.

### New Power Is Shut Off Tracker

- Redesigned to match repair/maintenance outage tracker.
- Card includes:
  - Shutoff start date/time
  - Estimated Restoration Time
  - Current Status (e.g., Power shut off, Crews are inspecting equipment, Power restored)

### Added PSPS Circuit Name

#### Direct access to:

[Weather and Fire Conditions](#)  
[PSPS Decision Making Guide](#)

 **Public Safety Power Shutoff (PSPS) (1)** 

**Power Shutoff Alert** [View Map](#)

Increased fire risk conditions are expected in this area from **6/12/2025 - 6:00 PM PST to 6/14/2025 - 12:00am PST**. Click to view [weather and fire conditions](#).

Be prepared for a PSPS during this time, although we may avoid shut-offs. [Learn about PSPS decision making](#).

Circuit Name: Burcham

Updated: 6/10/2025 - 5:30 PM PST

 **Public Safety Power Shutoff (PSPS) (1)** 

**Power Shutoff Warning** [View Map](#)

POWER IN THIS AREA IS LIKELY TO BE SHUT OFF IN THIS AREA IN THE NEXT 1 TO 4 HOURS. WARNING ISSUED AT: **6/12/2025 - 6:00 PM PST**. Click to view [weather and fire conditions](#).

Be prepared for a PSPS during this time, although timing could change due to weather conditions. We continue to work to avoid shut-offs. For more information, [learn about PSPS decision making](#).

Circuit Name: Burcham

Updated: 6/10/2025 - 5:30 PM PST

 **Public Safety Power Shutoff (PSPS) (1)** 

**Power is Shut Off** [View Map](#)

Fire conditions are expected to continue until **1/15/2025 - 9:00 PM PST**. Click to view [weather and fire conditions](#).

Start Time: **9/8/2024 - 6:11 PM PST**  
Estimated Restoration: **9/9/2024 - 2:11 AM PST**  
Status: **Crews are inspecting equipment**  
Circuit Name: Burcham

 Power shut off.

9/8/2024 - 7:00 PM PST

Completed

 Crews are inspecting equipment.

9/8/2024 - 11:00 PM PST

In progress

Inspection is expected to take up to 8 hours but may take longer if daylight is needed for safe inspections or if damage is found. Power may be turned on and shut off during inspection.

 Power restored.

Not started

[Learn about PSPS decision making](#).

Updated: 1/12/2025 - 5:30 PM PST [Hide Details](#)

# NEW GRID HARDENING PROGRESS MAP

## Interactive map with toggle layers for:

- Wildfire mitigation progress
- HD cameras, weather stations
- High-risk zones

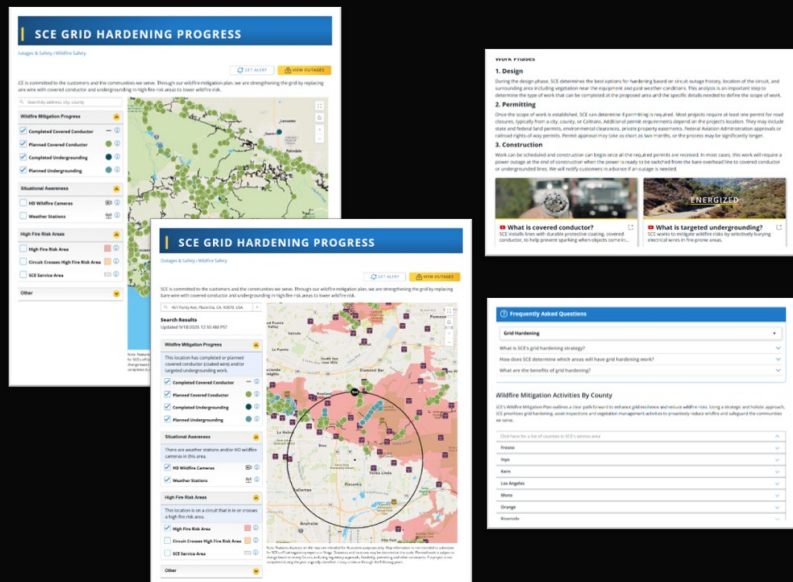

## Zooms to 5-mile radius around searched address:

- Grid hardening updates
- Cameras, weather stations
- Fire-risk areas

## Additional sections:

- FAQs and grid hardening report by county
- Work phases of planned projects
- Educational videos on covered conductor & undergrounding
