BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of IPC Systems, Inc. For a Certificate of Public Convenience and Necessity to Operate as a Non-Dominant Interexchange Carrier

Application 25-09-002

ADMINISTRATIVE LAW JUDGE'S RULING DIRECTING FILING OF ADDITIONAL INFORMATION

This ruling directs IPC Systems, Inc. (IPC) to file and serve a response by March 13, 2026.

1. Background

On September 11 2025, IPC Systems, Inc. filed Application (A.) 25-09-002, a request for a Certificate of Public Convenience and Necessity to provide switchless reseller/non-facilities-based interexchange services throughout California.

2. Discussion

I require additional information in order to review this Application, including the following:

1. Does IPC own or manage any of the facilities used (e.g., lines) to connect its customers' premises and facilitate dedicated point-to-point transmission of voice and data between these premises?
 - a. Are any of these facilities located in California?
 - b. Are any of these facilities available for lease by other telephone corporations?
2. For the existing IPC customers please answer questions A and B:

- a. Are any of the customer premises located within California?
 - b. Are any of the customer premises located outside California?
3. Does IPC resell point-to-point private line services in California from another telephone corporation? If yes, please list the names of the telephone corporations and the type of resold service.
4. Does IPC use and/or lease facilities and/or services of telephone corporations in California for the provision of its point-to-point private line services in California? (e.g., Special Access, Digital Signal/Optical Carrier, and Intrastate/Interstate Private line services.) If yes, please respond to a and b.
 - a. Does this require entering into agreements or contracts (e.g., interconnection agreements, or reseller agreements) with telephone corporations?
 - b. What type(s) of facilities and/or services are used and/or leased?
5. For the provision of IPC private line services in California:
 - a. Does it issue and assign 10-digit phone number(s) for its customers.
 - b. Does IPC customers have the ability to dial 911 for emergency services.

By March 13, 2026, IPC shall provide the additional information as directed herein. IPC shall begin the answer to each question with "Yes" or "No." IPC may provide further explanation to its answer as needed. If further guidance is needed in order to answer these questions, IPC may request a status
