Subject: RE: A.25-11-006: Email Ruling Granting Party Status to Crockett Cogeneration LLC

To the Service List of A.25-11-006:

Apologies, I missed an auto correct in the email ruling here. It is corrected below.

This email ruling grants Crockett Cogeneration, LLC (Crockett) party status in Application (A.) 25-11-006, Pacific Gas and Electric Company's (PG&E) 2027 Gas Cost Allocation and Rate Design Proceeding.

On May 5, 2026, Crockett requested party status under California Public Utilities Commission Rules of Practice and Procedure (Rule) 1.4(a)(4).

Crockett states that its 240-Megawatt combined cycle natural gas fired cogeneration facility began operations in 1995, and that its output has historically been contracted to PG&E to provide resource adequacy in the Crockett, California region.

Crockett states that it will be directly impacted by the outcome of this proceeding, because it may impact the costs associated with providing the grid-reliability related services it currently offers to PG&E's service territory and the broader California Independent System Operator's market.

Therefore, IT IS RULED that Crockett's request for party status in A.25-11-006 is granted, pursuant to Rule 1.4(b).

The Docket Office shall formally file this email ruling.
