Order Instituting Rulemaking to Oversee the
Resource Adequacy Program, Consider
Program Reforms and Refinements, and
Establish Forward Resource Adequacy

Rulemaking 25-10-003

**MOTION FOR PARTY STATUS OF THE SANTA CLARITA VALLEY WATER
AGENCY**

Pursuant to Rules 11.1 and 1.4(a)(4) of the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, the Santa Clarita Valley Water Agency (“SCV Water”) hereby respectfully submits this motion requesting party status in this proceeding, Rulemaking (R.) 25-10-003.

I. Description of the Santa Clarita Valley Water Agency

SCV Water is a full-service regional water agency located in the Santa Clarita Valley created on January 1, 2018 by Senate Bill 634. SCV Water provides water service to more than 75,000 business and residential customers. At its formation, local water suppliers combined into one integrated, regional water provider. SCV Water has a nearly 200 square mile service area with land adjacent to major California energy infrastructure in Kings and Kern Counties that can be developed to meet California’s Greenhouse Gas (“GHG”) reduction and reliability objectives.

II. Statement of Interest in The Proceeding

SCV Water is a large integrated water provider responsible for delivering reliable, safe, and affordable water supplies to customers in the Santa Clarita Valley. SCV Water’s operations depend on electric power for groundwater pumping, water treatment, system operations, and

reliability investments. SCV Water works with energy infrastructure developers to build transmission interconnected renewable energy projects that are critical to the Commission's Integrated Resource Planning ("IRP") greenhouse gas reduction and reliability objectives. SCV Water's properties in the renewable rich Kings and Kern Counties can host over 1,100 MW of solar and energy storage facilities. Because the CPUC's resource adequacy program decisions fundamentally impact the value of the renewable projects developed on its land and therefore the value of its property, SCV Water has a direct and substantial interest in the outcomes from this rulemaking.

SCV Water intends to submit comments and participate in workshops and other discussions and activities involving program reforms and refinements, including those impacting resource adequacy eligibility of renewable energy.

III. Notice

SCV Water requests that all correspondence concerning this proceeding be served on the following representative:

Stephen Cole
Assistant General Manager
SCV Water
26501 Summit Circle
Santa Clarita, California 91350
661-705-7915
scole@scvwa.org

IV. Conclusion

SCV Water's participation in this proceeding will not prejudice any party and will not delay the schedule or broaden the scope of the issues in the proceeding. For the forestated reasons, SCV Water respectfully requests that the Commission grant this Motion for Party Status in this proceeding.

May 27, 2026

Respectfully submitted,

Stephen Cole
