Cody Schilke

Chief Executive Officer at Wiretap Telecom
Miami, Florida, United States

Summary

Thank you for taking a look at my profile. Here's some summary information about my experiences.

I am a senior level executive thought leader and strategist with demonstrated abilities ranging from managing large IT departments to implementing Dev-Ops, Agile, and Waterfall methodologies. Additionally, I have many years of experience with mentoring technologists and designing and implementing large ERP systems.

With years of experience in the craft of communications, I have been effective in building strong internal partnerships with departments ranging from call center staff to C-Level executives.

Experience

Wiretap Telecom

13 years 6 months

Chief Executive Officer

December 2012 - Present (13 years 6 months)

Miami, FL

Vice President Sales Operations

December 2019 - June 2020 (7 months)

CIO

December 2012 - December 2019 (7 years 1 month)

Responsible for planning and implementing enterprise systems and initiatives. This includes all aspects of the ERP space as well as PBX hosting and trunking readiness, business continuity, disaster planning, internal and external portals, continuous integration, replication, software development, as well as IT security and process controls.

CEO

December 2012 - December 2019 (7 years 1 month)

a la mode, inc.

VP of Development

August 2015 - March 2018 (2 years 8 months)

Oklahoma City, Oklahoma Area

Feed The Children

Vice President - Information Technology

December 2009 - August 2013 (3 years 9 months)

Responsible for all infrastructure and software development staff. Executive responsibilities included software procurement, software development, global infrastructure management, budgeting, forecasting, and IT strategy.

Developed and implemented IT Policies and procedures which led to the unification of two disparate technology departments.

Implemented workflow methodologies for both software and infrastructure staff.

Regained trust in the user community by strengthening communication and implementing an IT workflow process which led to increased IT accountability as well as a more proactive and positive IT culture.

Responsible for software development, continuous integration, hyper-care, project management, and business intelligence staff. Developed new internal systems and made information more accessible to the user community by leveraging modern software stacks and by creating ETL processes to provide greater visibility to legacy information.
