Brandon Burchard

Entrepreneur & Telecom Strategist | Enabling Companies to Unlock Growth Through Smarter Communications

Clarkston, Michigan, United States

Summary

I help business leaders simplify and modernize their communications so they can focus on growth — not technology headaches.

With 20+ years of experience across telecommunications, IT services, and cloud solutions, I've seen firsthand how the right strategy can transform a business. My career has taken me from sales engineering and channel management to entrepreneurship and leadership, and along the way I've learned one consistent truth: technology should serve people, not the other way around.

Today, I use that perspective to guide businesses through an ever-changing digital landscape — from cloud and unified communications to AI-driven voice solutions. My approach is always centered on outcomes: creating systems that improve customer experience, increase efficiency, and give companies a competitive edge.

What I'm passionate about:

Helping businesses future-proof their communications

Building high-performing teams grounded in trust and accountability

Exploring how AI and automation can create human-centered customer experiences

Sharing insights and lessons learned with peers, partners, and future leaders

When I'm not working with clients, you'll find me mentoring my team, speaking about digital leadership, or hosting community events that bring people together.
