BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to
Consider Strategies and Guidance
for Climate Change Adaptation.

Rulemaking 18-04-019

**ADMINISTRATIVE LAW JUDGE'S RULING
DENYING MOTION FOR EXTENSION REQUEST AND
MODIFYING COMMENT SCHEDULE**

On Friday, July 17, 2026, Southern California Edison (SCE) served by email a motion requesting an extension to the deadlines set forth in the July 10, 2026, Assigned Commissioner's Ruling Entering Staff Proposal and Working Group Report into the Record and Requesting Comment (Ruling), from July 30, 2026 to August 14, 2026 for opening comments and from August 10, 2026 to August 24, 2026 for reply comments (SCE's Request) (Attachment 1). SCE states that preparing a response to this ruling requires more time to prepare thorough and well-considered comments due to the complexity and potential impacts of the Staff Proposal on Community Engagement and Adaptive Capacity.

In its request, SCE noted that it asked for feedback from the parties to the proceeding and had received support for the extension request from San Diego Gas & Electric, Pacific Gas & Electric Company, and Southern California Gas Company. SCE noted that no party expressed opposition to the extension request.

We have carefully considered SCE's motion and the parties' support. We do not grant SCE's request for a two-week extension but do grant a one-week extension for opening comments until August 6, 2026. We extend the reply comment deadline to August 13, 2026

IT IS RULED that:

1. Southern California Edison's motion for an extension of the opening comment period and reply period, is denied.
2. The deadline for opening comments on the July 10, 2026, Assigned Commissioner's Ruling Entering Staff Proposal and Working Group Report into the Record and Requesting Comment is modified to August 6, 2026.
3. The deadline for reply comments on the July 10, 2026, Assigned Commissioner's Ruling Entering Staff Proposal and Working Group Report into the Record and Requesting Comment is modified to August 13, 2026.

Dated July 20, 2026, at San Francisco, California.
