**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking on California
Advanced Electric Rate Design

Rulemaking 26-04-009
(Filed April 9, 2026)

MOTION FOR PARTY STATUS OF MARIN CLEAN ENERGY

Pursuant to Rule 1.4 of the Rules of Practice and Procedure of the California Public Utilities Commission (“Commission”), Marin Clean Energy (“MCE”) respectfully moves for party status in the instant proceeding, *Order Instituting Rulemaking on California Advanced Electric Rate Design*.

I. INTEREST IN THIS PROCEEDING

MCE, California’s first community choice aggregator (“CCA”), is a not-for-profit public agency that began service in 2010 to offer renewable power at stable rates, reduce energy-related greenhouse gas emissions, and reinvest millions of dollars in community benefit programs. MCE provides electricity service and energy programs to more than 1.8 million people in 38 member communities in Contra Costa, Marin, Napa, and Solano Counties.

II. PLANNED PARTICIPATION IN THIS PROCEEDING

MCE has a substantial and material interest in this proceeding. This rulemaking will address foundational elements of electric rate design across customer classes, policy objectives, and statutory directives, including residential and non-residential rate design, marginal cost inputs, affordability concerns, demand flexibility, electrification, and the treatment of large new loads such as data centers. The proceeding will also address new legislative mandates from Senate Bill

(SB) 576 and Assembly Bill (AB) 2109. As an electricity service provider, these issues directly impact MCE and its customers. Rate designs and tariff structures considered in this proceeding may materially impact MCE as the default generation service providers for new load located within MCE's territory. Therefore, MCE has a strong interest in the proceeding's scope and intends to participate by contributing to the record from the perspective of a California community choice aggregator.

III. PARTY STATUS

For the reasons stated above, MCE respectfully requests party status in this proceeding.

All correspondence and communications should be directed to the following individuals:
