OFFICER VERIFICATION FORM

I am an officer of the reporting corporation herein, and am authorized to make this verification on its behalf. The statements in the foregoing document are true of my own knowledge, except as to estimates or matters which are therein stated on information or belief, and as to those matters I believe them to be true. Estimates are for future quantities where circumstances beyond reasonable control prevent actual quantities from being precisely known, and such estimates are reported as such, made in good faith, and accurate to the degree available information allows. The spreadsheet format used to file this compliance report has not been altered from the version issued or approved by Energy Division.

I declare under penalty of perjury that the foregoing is true and correct.

Final Compliance Period 4 Narrative Reporting Requirement

Narrative Reporting Element for

Pomona Choice Energy's (POCE) Final RPS Compliance Report

for Compliance Period 4

Pursuant to Public Utilities Code Section 399.13(a)(3), each retail seller must include the following narrative information in each Annual Compliance Report and in the Final Compliance Report for each compliance period:

1) The status of any necessary siting and permitting approvals from federal, state, and local agencies for those eligible renewable energy resources procured by the retail seller that have not yet attained their commercial online dates. If the retail seller is not awaiting siting or permitting approrvals [sic], please skip this question.

   At this time, POCE's has contracted with one renewable generating resource that has yet to achieve COD: Cape Generating Station 1, which is located in Beaver County, Utah. The Cape Generating Station 1 project's commercial operation date has been delayed and is now expected to occur on/about January 1, 2031. This project regularly provides project status updates to ensure that SBCE stays informed regarding ongoing development activities – the developer's most recent development progress report for Q4 2025 was provided on December 23, 2025. Regarding permitting activities, and considering the project's delayed commercial operation date, the developer noted that it continues to work through adapted permitting plans resulting from the new development and construction milestones, but it continues to indicate that substantial permitting will be completed by December 10, 2029.

   There are no further permitting updates at this time.

2) Recommendations to remove impediments to making progress toward achieving the renewable energy resources procurement requirements established by statute and implemented by Commission decision.

   POCE has no specific recommendations at this time.
