**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking on California
Advanced Electric Rate Design

Rulemaking 26-04-009
(Filed April 9, 2026)

**MOTION FOR PARTY STATUS OF
NEXTERA ENERGY RESOURCES, LLC**

Pursuant to Rules 1.4(a)(4) and 11.1 of the Rules of Practice and Procedure of the California Public Utilities Commission (“Commission”), NextEra Energy Resources, LLC (“NextEra Energy Resources”) respectfully moves for party status in this proceeding.

I. DESCRIPTION OF NEXTERA ENERGY RESOURCES

Since 1989, NextEra Energy Resources has been helping fuel California’s economic growth as its largest independent clean energy developer. To date, NextEra Energy Resources subsidiaries have invested \$11.9billion in California, owning and operating wind, solar, energy storage, and transmission facilities in more than 20 counties across the state. NextEra Energy Resources subsidiaries have a significant number of projects submitted in the California Independent System Operator Corporation (“CAISO”) Clusters 13, 14, and 15 interconnection process.

II. INTEREST IN THE PROCEEDING

NextEra Energy Resources seeks party status to address the issues identified in this proceeding. In particular, NextEra Energy Resources seeks to participate in development of the Commission’s standards for electric rate design across customer classes, policy objectives, and statutory directives, including residential and non-residential rate design, marginal cost inputs, demand flexibility, electrification, and the treatment of large new loads such as data centers. This proceeding will also address new legislative mandates from Senate Bill (SB) 576 and Assembly

Bill (AB) 2109. As an owner and developer of generation resources within California through its subsidiaries, NextEra Energy Resources has a direct interest in the development and implementation of these rules. NextEra Energy Resources also intends to participate in the remainder of this proceeding. NextEra Energy Resources does not seek to change the scope of this proceeding or the existing schedule, and its participation in this proceeding will not prejudice any party or cause delay. Accordingly, NextEra Energy Resources requests party status in this proceeding.

III. NOTICES

Service of filings, rulings, and other documents and correspondence should be directed to the following representatives:

Simon Baker
NextEra Energy Resources, LLC
1 California Street, Suite 1600
San Francisco, CA 94111
Telephone:
Email: simon.baker@nexteraenergy.com

Tracy C. Davis
NextEra Energy Resources, LLC
5920 W. William Cannon Dr., Building 2
Austin, Texas 78749
Telephone: (512) 236-3141
Email: tracy.c.davis@nexteraenergy.com

IV. CONCLUSION

For the reasons stated above, NextEra Energy Resources respectfully requests party status in this proceeding.

Dated: September 1, 2026

Respectfully submitted,

Tracy C. Davis
