**JOINT MOTION OF INVENERGY GEOTHERMAL LLC AND MARAVILLOSA
SOLAR ENERGY LLC FOR PARTY STATUS**

In accordance with Rule 1.4 of the Commission’s Rules of Practice and Procedure, Invenergy Geothermal LLC and Maravillosa Solar Energy LLC (together, Invenergy) submit this motion for party status.¹

I. DESCRIPTION OF MOVING PARTIES

Invenergy Geothermal LLC and Maravillosa Solar Energy LLC are affiliates of Invenergy LLC, which is one of the largest privately owned clean energy developers. Invenergy LLC and its affiliated companies have successfully developed over 230 projects totaling more than 38 gigawatts and reliably operate over 26 gigawatts of large-scale power infrastructure projects across four continents.

Invenergy Geothermal LLC recently won the right to lease and develop approximately 8,000 of Bureau of Land Management land near the Salton Sea geothermal fields. Planning for geothermal resource surveying and exploration is underway, with the goal to develop multiple power generation projects. Maravillosa Solar Energy LLC is one of several solar and storage

¹ Invenergy notes that Invenergy LLC and Invenergy California Offshore LLC, both of which are affiliates of the moving parties, are already parties to this proceeding. Although Invenergy LLC and Invenergy California Offshore LLC are parties to this proceeding, the moving parties have distinct development interests that may be affected by decisions in this proceeding. Accordingly, the moving parties seek party status in their own right.

projects that Invenergy LLC is developing in California.

II. INTEREST IN THIS PROCEEDING

Invenergy has a distinct interest in the development of the Reliable and Clean Power Procurement Program (RCPPP) and related policy and procurement initiatives that will be established in this proceeding. The generation projects planned and operated by each Invenergy entity will be impacted by the decisions issued in this proceeding. Additionally, Invenergy has the ability to provide the Commission with valuable input regarding generation project cost estimates, timelines for commercial operation, load and transmission planning assumptions, and other aspects of the resource planning and procurement process. Invenergy's participation will not prejudice any party, will not delay the schedule, and will not broaden the scope of issues in this proceeding.
