MONTHLY REPORT OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M) ON LOW-INCOME ASSISTANCE PROGRAMS FOR AUGUST 2026

This is the August monthly report for program year (PY) 2026. The purpose of this report is to consolidate activity for the California Alternate Rates for Energy (CARE) Program, Family Electric Rate Assistance (FERA) Program, and Energy Savings Assistance (ESA) Program and provide the California Public Utilities Commission's Energy Division with information to assist in analyzing the low-income programs.[1]

This report presents year-to-date CARE, FERA, and ESA Program results and expenditures through August 31, 2026, for San Diego Gas & Electric Company (SDG&E).

Respectfully Submitted,

/s/ Cameron H. Biscay

California Alternate Rates for Energy (CARE) Program, and

Family Electric Rate Assistance (FERA) Program

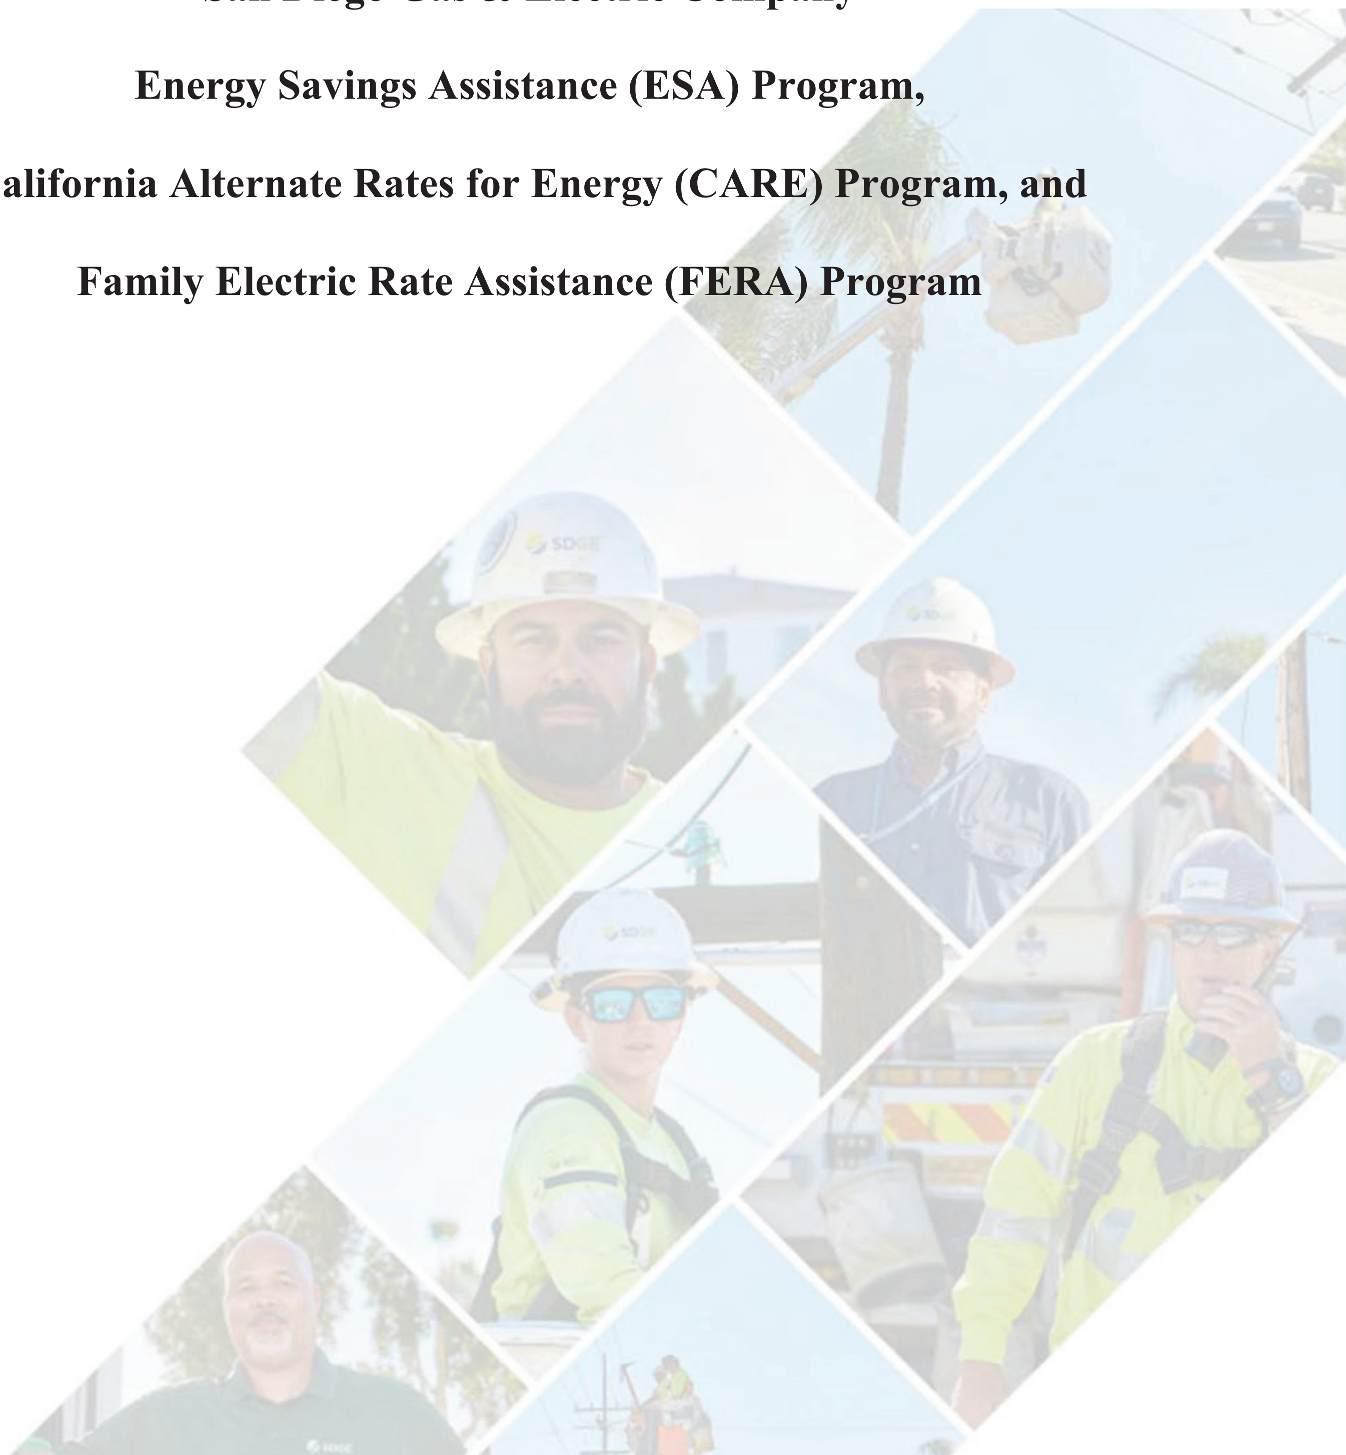

TABLE OF CONTENTS

LOW INCOME ASSISTANCE PROGRAM MONTHLY REPORT

In 2021, the California Public Utilities Commission (Commission) voted and unanimously approved, with modifications, the Decision on Large Investor-Owned Utilities' (IOUs) and Marin Clean Energy's California Alternate Rates for Energy (CARE), Energy Savings Assistance (ESA), and Family Electric Rates for Energy (FERA) Program Applications for Program Years 2021-2026, which authorized budgets and goals effective July 1, 2021.[1] The authorized program year budgets, savings goals, and homes treated targets in this monthly report reflect those authorized by the Commission in Decision (D.) 21-06-015 (Decision).[2] The Decision approved the IOUs to shift the ESA Program away from treating all eligible and willing households towards a customer-centered prioritization model based on household needs and customer profile.[3] Additionally, the Decision ordered the implementation of a new Multifamily Whole Building Program (MFWB), which includes all multifamily sectors, including in-unit, common areas, and the whole building,[4] and the implementation of the Pilot Plus and Pilot Deep Program that focuses on gathering the feasibility of a more strategic measure delivery approach.[5]

1. ESA PROGRAM EXECUTIVE SUMMARY

The ESA Program offers no-cost weatherization services, energy efficient lighting, energy efficient appliances, energy education, and other services to income-qualified customers to reduce energy consumption and costs, while improving health, comfort, and safety of customers. To qualify for the ESA Program, a residential customer's household income must be at, or below, 250% of Federal Poverty Guidelines (FPG).

The ESA Main program provides services to single family (SF) and mobile homeowners (MH), and renters. The program design is focused on achieving energy savings through targeted outreach efforts, while continuing to offer health, comfort, and safety to low-income customers. Resource Innovations (RI) is the SDG&E's primary implementer of ESA Main services including Outreach and Assessment, Weatherization, Appliance Installation, Natural Gas Appliance Testing (NGAT) and Inspections of gas appliance installation. The program currently has one direct contract that provides Heating Ventilation and Air Conditioning (HVAC) and Water Heater Repair and Replacement (R&R) Services.

SDG&E's Southern Multifamily Whole Building (MFWB) Program offers ESA Services for In-Unit, Common Area Measures (CAM), and Whole Building (WB) Measures under one Program to Deed Restricted and Non-Deed Restricted multifamily buildings. SDG&E is the lead utility on behalf of Southern California Edison Company (SCE) and Southern California Gas Company (SoCalGas) for the Southern Regional MFWB program.[6]

---

[6] *Id*. at OP 120.

The ESA Pilot Plus and Pilot Deep (Pilot) Program, the Energy Division's Staff Proposal approved by the Commission in D.21-06-015, provides more advanced energy savings measures tailored to customer needs that complement and build upon the ESA Main Program measure packages. The Pilot Plus package will provide and/or replace certain equipment and appliances plus load shifting and electrification measures that should reduce annual energy usage by 5 to 15%. The Pilot Deep package will offer more advanced measures that should reduce annual energy usage by 15 to 50%.

SDG&E's total 2026 authorized ESA portfolio budget is $33.5 million. Through August 2026, SDG&E's total costs for the ESA portfolio were $18.6 million.

1.1. ESA Program Overview

1.1.1. Provide a summary of the ESA Program elements as approved in Decision (D.) 21-06-015.

ESA Main Program

In August, the system issues related to the RHA transition to RI, which were reported in July and impacted ESA Main service delivery, were largely resolved. ESA Main efforts during the month focused on increasing enrollments through the following: ESA Main Implementer participation in community events, tribal partnership events and activities, and targeted marketing campaigns. In August, the ESA program saw a 50% increase in online engagement over the previous year-to-date average, with 271 customers submitting their interest or pursuing online enrollment.

Customer Satisfaction results reported in August indicate that 84% of the 100 customers surveyed in the previous month rated their experience in the ESA Main Program as excellent, very good, or good.

Customers surveyed expressed appreciation for energy education and safety checks. Specific feedback provided by customers includes:

- *"The representative was very helpful and answered everything I asked."*
- *"It was good to have my house checked over, considering my age."*
- *"The demeaner of the workers was professional…They guided us on an issue we had with gas as well."*

ESA Table 1.1.1.1 reflects ESA Main Program Progress based on work performed and invoiced through the month of August.

ESA Table 1.1.1.1 ESA Main (SF, MH) Program Summary Expenses for 2026			
	2026 Authorized/ Planning Assumptions[7]	**Actual to Date**[8]	**%**
Budget[9]	$22,011,376	$9,074,916	41%
Homes Treated	5,910	2,696	46%
kWh Saved[10]	1,895,175	560,941	30%
kW Demand Reduced[11]	358	72	20%
Therms Saved[11]	56,541	49,662	88%
GHG Emissions Reduced (Metric Tons of CO2e)[11]	N/A	546	NA

[7] Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual ESA Main Program allocation of the overall Program Cycle Goals and Targets, Attachment 1, Tables 5 and 6.

[8] As shown in ESA Monthly Report Excel Tables 1 and 2.

[9] ESA Main Program budget includes measures and program administrative budget categories as shown on ESA Monthly Report Table 1.

[10] Pursuant to Table 5 of Attachment 1, D.21-06-015, the 2026 goals for kWh, kW, and therms include ESA Main, MF Common Area Measures (CAM) and Southern Multifamily Whole Building (MFWB), however, the table above reports results only from the ESA Main Program.

[11] Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

SDG&E's ESA Main Year-to-Date (YTD) administrative expenses were below the annual administrative cap of 10% of total program costs for the month of August. SDG&E will continue to closely monitor expenditure throughout the year and expects to remain compliant with the 10% cap by year end in the 2026 annual report.

ESA Table 1.1.1.2 ESA Program Administrative Expenses for 2026		
	August	**Year to Date**
Administrative Expenses	$88,742	$875,562
Total Program Costs	$635,370	$9,074,916
% of Administrative Spend	14%	9.6%

ESA Southern MFWB Program

In August 2026, the Southern MFWB Program continued to build on progress achieved in prior months, advancing in-unit production, property completions, and operational efficiencies across the SDG&E, SCE, and SoCalGas service territories. Within SDG&E's service territory, the program completed 3 CAM projects and 548 in-unit treatments in August, bringing year-to-date totals to 25 CAM projects and 2,669 in-unit treatments completed. These results reflect continued progress in converting enrolled properties into completed projects while sustaining production momentum across the portfolio.

Operationally, RI introduced subcontractor scorecards during August to strengthen performance oversight, improve accountability, and support more effective management of project progression and production activities. This enhancement is intended to promote continuous improvement and support timely advancement of projects through the pipeline.

SDG&E and RI continued to maintain regular invoicing activities throughout the month. During August, RI reported occasional system slowness and intermittent error messages within EECP that impacted invoice processing timelines. SDG&E is currently evaluating these issues and working collaboratively with RI to support resolution efforts and improve processing efficiency.

ESA Table 1.1.1.3 below summarizes PY 2026 spend to date for SDG&E's portion of the MFWB Program.

ESA Table 1.1.1.3 SDG&E MFWB (In-Unit, CAM/WB)[12] Summary of Expenses for 2026			
SDG&E	**2026 Authorized/ Planning Assumptions[13]**	**Actual to Date**	**%**
Budget	$9,307,996	$8,423,159	90%
SPOC Budget	$651,613	$201,411	31%
Properties Treated	54	25	46%
Homes Treated	10,155	2,669	26%
kWh Saved	1,273,901	708,529	56%
kW Demand Reduced	105	61	58%
Therms Saved	73,198	26,196	36%
GHG Emissions Reduced (Metric Tons of CO2e)[14]	N/A	496	N/A

[12] MFWB Program budget includes In-Unit, Whole Building (WB), Single Point Of Contact (SPOC), and implementer administrative budget categories for SDG&E as shown on SDG&E Advice Letter (AL) 4115-E/3144-G, Table 4 and on ESA Monthly Report Table 2A-2. Additionally, SDG&E updated the authorized budget to include SDG&E's administrative costs as outlined in AL 4482-E/3324-G, Table 1.

[13] Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual Southern MFWB Program allocation of the overall Program Cycle Goals as filed in AL 4115-E/3144-G.

[14] Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

As the lead IOU for the Southern MFWB Program, SDG&E provides unified, enterprise-level performance reporting on behalf of the Southern California IOUs. This leadership role includes consolidating and presenting monthly program costs and key performance metrics across the service territories of SDG&E, SCE, and SoCalGas. ESA Table 1.1.1.4 below offers a high-level summary of joint IOU activities within the Southern MFWB Program.

ESA Table 1.1.1.4 Southern MFWB (In-Unit, CAM/WB) Summary of Expenses for 2026			
SDG&E, SCE & SoCalGas	**2026 Authorized/ Planning Assumptions[15]**	**Actual to Date**	**%**
Budget[16]	$44,405,166	$29,264,995	66%
Properties Treated	260	69	27%
Homes Treated	46,783	10,391	22%
kWh Saved	11,834,944	1,859,681	16%
kW Demand Reduced	N/A	198	N/A
Therms Saved	723,721	346,003	48%
GHG Emissions Reduced (Metric Tons of CO2e)[17]	N/A	3,080	N/A

[15] Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual Southern MFWB Program allocation of the overall Program Cycle Goals as filed in AL 4115-E/3144-G.

[16] Southern MFWB Program budget includes In-Unit, WB, and implementer administrative budget categories for all three southern IOUs as shown on SDG&E AL 4115-E/3144-G, Table 4 and on ESA Monthly Report Table 2A-1. Additionally, SDG&E updated the authorized budget to include SDG&E's administrative costs as outlined in AL 4482-E/3324-G, Table 2.

[17] Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

<u>ESA Program Pilot Plus and Pilot Deep</u>

As of the end of August 2026, SDG&E's implementer, Maroma, reported that 72 projects were in the enrollment stage of the program. Fifty-five of those projects are eligible for deeper energy savings.

Maroma's invoice activity remained consistent with the prior month as program delivery efforts continued, supported by enhanced coordination and additional resource allocation for project implementation. As of August 2026, these ongoing efforts have resulted in the completion of 46 projects, including 39 Deep projects and 7 Plus projects.

SDG&E continues to collaborate closely with Maroma through weekly touchpoints to monitor Pilot progress, address emerging needs and invoicing challenges, and identify implementation strategies that drive increased enrollments and treatments. Additional information on marketing and outreach can be found in section 1.2.1.

ESA Table 1.1.1.5 below summarizes the activities invoiced for the Pilot through August.

ESA Table 1.1.1.5 Pilot Plus and Pilot Deep Summary Expenses for 2026			
	2026 Authorized / Planning Assumptions[18]	**Actual to Date**	**%**
Budget	$1,526,683	$ 904,026	59%
Homes Treated	50	46	92%
kWh Saved (Plus = 5-15 Percent)	N/A	4,019	N/A
kWh Saved (Deep = 15-50 Percent)	N/A	63,644	N/A
kW Demand Reduced	N/A	27	N/A
Therms Saved (Plus = 5-15 Percent)	N/A	314	N/A
Therms Saved (Deep = 15-50 Percent)	N/A	3,534	NA

[18] *See* SDG&E AL 4285-E (October 31, 2023), *available at* https://tariff.sdge.com/tm2/pdf/submittals/ELEC_4285-E.pdf.

1.1.2. Program Measure Changes

If applicable, discuss any measure changes that may have taken place in ESA (SF, MH), MFBW, ESA Pilot Plus and Pilot Deep, and/or ESA Building Electrification (BE) during this reporting month.

There were no measure changes implemented during this reporting period for the ESA programs.

1.2. ESA Program Customer Outreach and Enrollment Update

1.2.1. Provide a summary of the ESA Program outreach and enrollment strategies deployed this month.

ESA Main

RI staff participated in 12 outreach events, both in partnership with SDG&E or independently, directly engaging with more than 500 community members. These efforts resulted in over 50 leads for ESA Main.

SDG&E continued to send ESA kits to customers as part of its marketing efforts.[19] The kits include a call-to-action directing customers to contact RI to take advantage of ESA Main. In August, SDG&E mailed approximately 500 kits to targeted customers. In addition, SDG&E gave away over 30 kits in the August outreach events in exchange for customers submitting an ESA interest form.

ESA Pilot Plus/Pilot Deep

In August, Maroma continued leveraging the optimized customer list developed by SDG&E in July to support customer engagement. The optimized list consists of 3,650 customers

[19] Kits consist of easy to install EE measures that are mailed to eligible participants. The kits include: lightbulbs (3); faucet aerators (2), low flow shower head, and a toilet bank.

identified for focused outreach and pilot participation. The list was used by SDG&E to launch a direct mail and email marketing campaign in August, expanding program awareness and participation opportunities among customers with the greatest potential to benefit from the pilot program.

ESA Southern MFWB Program

In August, the Southern MFWB Program continued PY 2026 outreach and enrollment activities with a sustained focus on strengthening the pipeline, advancing existing projects toward completion, and supporting future production opportunities. Outreach efforts remained centered on engaging affordable housing property owners and multi-property portfolios while increasing awareness of available program offerings and resources. Through coordinated efforts between RI and SDG&E, the program conducted targeted outreach and relationship-building activities with property owners and managers to promote participation, expand the pipeline of eligible projects, and support the continued advancement of enrolled properties toward treatment and completion. These efforts helped maintain a strong active pipeline and supported future production opportunities.

As a result of these efforts, the program enrolled 38 new properties, achieving the second highest monthly enrollment total of 2026, completed 16 property assessments, and secured approximately 1,724 in-unit enrollments during the month. These results reflect continued success in expanding program participation while creating additional opportunities for future treatment activity.

During August, RI increased support for subcontractors experiencing reduced production due to unresponsive properties following assessments. Account Managers worked closely with subcontractors and property contacts to reestablish communication, address project barriers, and improve coordination. These enhanced outreach efforts helped maintain program momentum despite a decline in monthly treatment activity and supported continued advancement of projects through the pipeline.

As the program prepares for the transition into the PY2027 Bridge Year, RI continued encouraging subcontractors to identify and submit larger unit-wide enrollment opportunities. This strategic focus on higher-volume in-unit opportunities is intended to sustain production levels, maximize participation among eligible customers, and ensure efficient use of available Bridge Year funding. By expanding the pipeline of unit-wide projects, the program can improve project delivery efficiency, support greater customer participation, and advance projects with the highest likelihood of completion within the remaining program cycle.

ESA Table 1.2.1.1 illustrates the implementer's program pipeline activity from previous years as well as PY 2026 year-to-date activity. These ongoing efforts to evaluate and actively manage the pipeline continue to support improved conversion of enrollments into completed treatments. As part of this process, properties that remain unresponsive after multiple outreach attempts may be temporarily placed on hold and removed from active pipeline metrics.

	ESA Table 1.2.1.1 ESA Southern MFWB Program Pipeline					
MFWB CAM	**2023 - 2025**	**Q1 2026**	**Q2 2026**	**July 2026**	**Aug 2026**	**Total**
Leads	2,652	70	84	15	30	2,851
Enrollment	778	67	88	15	38	986
Assessments	676	105	83	19	16	899
Project Completed	86	32	43	11	18	190
Treated	78	25	42	16	24	185
MFWB In-Units	**2023 - 2025**	**Q1 2026**	**Q2 2026**	**July 2026**	**Aug 2026**	**Total**
Enrolled	27,223	5,469	5,082	1,424	1,724	40,951
Treated	23,524	3,502	5,179	1,050	1,507	34,762

Note: Data in this table reflects treatments reported by RI as completed but may not yet be invoiced.

Single Point of Contact (SPOC)

In August 2026, SDG&E's multifamily (MF) SPOC conducted the following activities:

- Collaborated with San Diego Community Power (SDCP) through ongoing monthly coordination meetings to advance the San Diego Regional Energy Network (SDREN) and ESA program efforts on delivery alignment to avoid duplication of services. Following the launch of SDREN's Multifamily Energy Upgrade and Home Energy Savings program this month, SPOC initiated a customer referral process to maximize program leveraging opportunities and enhance customer access to additional energy-saving resources.
- Presented the MFWB program to San Diego County Building Trades Council Family Housing Corporation and National City Park Apartments, resulting in discussions to explore potential participation in the ESA program.
- Participated in a monthly program leveraging meeting with CHERP, EBD, SDCP, ESA, and Rock Rabbit for single family programs to strengthen cross-program

coordination and identify opportunities to maximize customer benefits through program layering. Key discussions focused on contractor outreach and promotion efforts, as well as development of the Direct Install Program Matrix to support program integration and customer referrals.

- Worked on finalizing the scope of work with Res-Intel for the upcoming refresh of the SDG&E Multifamily Residential (MFR) Market Characterization.

ESA Table 1.2.1.2 below illustrates the referral activity from SDG&E's SPOC to the various multifamily programs it leverages leads with and the month-over-month activity for PY 2026. As of April 2026, referrals to SDCWA have been paused due to SDCWA's direct install program being fully subscribed.

ESA Table 1.2.1.2 SDG&E SPOC MF Referrals					
Program	**Q1 2026**	**Q2 2026**	**Q3 2026**	**Q4 2026**	**YTD Total**

Tribal Outreach

There are 17 Federally recognized tribes and three non-Federally recognized tribes within the SDG&E service area, each with varying priorities and resources. SDG&E works in partnership with Tribal governments and tribal-run organizations to increase tribal customer program enrollment numbers. In August 2026, the Outreach team participated in five Tribal community events, engaging over 788 Tribal members. Across these five events, the Outreach team received 12 CARE/FERA applications and received seven ESA interest forms.

SDG&E in partnership with Inter Tribal Long Term Recovery Foundation provided one emergency preparedness workshop to the La Posta community, offering presentations and one-on-one program enrollment, including CARE, FERA, MBL and ESA. This year, SDG&E invited Grid Alternatives and San Diego County (CERT, SDREN and Cal Fire) to connect tribal members to resources, meaningful cultural messaging (traditional ecological knowledge), and the opportunity to provide feedback about resources and affordability concerns. Overall, the feedback continues to show many tribal members are unaware of low income and bill assistance programs. Tribal leaders continue to express the great value of bringing these workshops to their communities.

Tribal Relations conducted its annual Tribal Government Leaders and Staff Survey, achieving a 14% response rate, nearly double the previous year. Survey insights help SDG&E better understand community needs and expand outreach efforts that connect eligible tribal customers to assistance programs such as CARE, FERA, ESA, and MBL. As a result, SDG&E has increased the number of emergency preparedness workshops we offer to tribal communities and added a mobile Community Resource Center in tribal communities. Additionally, every year, tribes have indicated food spoilage / food insecurity is one of the greatest impacts of PSPS. As a result, SDG&E established a partnership with Red Earth Movement, a tribal-led organization focused on creating more resilient tribal communities through creation of growers and demonstration farms. SDG&E is exploring outreach efforts through food distributions to educate and connect tribal members to customer assistance programs.

Of the 17 Federally recognized tribes, eight have been identified as having a significant number of Tribal members who may be eligible for income-qualified programs. This qualifies them for the Tribal mini grant opportunity. In August 2026, SDG&E did not award any Tribal mini grants, however, year-to-date, six of the eight eligible tribes have received a mini grant. SDG&E will continue to promote this opportunity among the remaining eligible tribes, while also refining its outreach strategies to further enhance engagement and increase participation.

1.2.2. Customer Assistance Marketing, Education and Outreach (ME&O) for the ESA Programs.

General Awareness Marketing

In August following the completion of its performance and creative review, including the implementation of Assembly Bill (AB) 1167 requirements[20], SDG&E continued rolling out updated ESA marketing assets as they were finalized. Campaign deployment will continue to ramp up over the coming months, with ongoing monitoring of performance and optimization opportunities.

Direct Marketing

Email

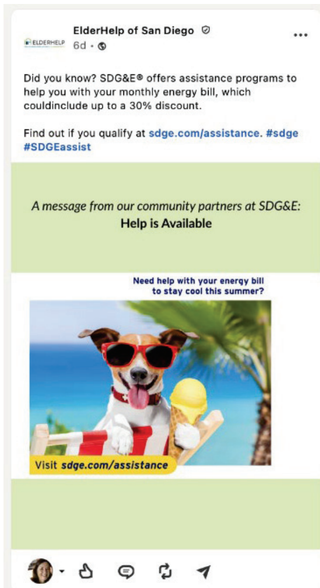
In August, SDG&E coordinated with RI to deliver targeted emails to neighborhoods scheduled for subsequent canvassing activities. Over 23,220 emails were sent, garnering a 49.2% open rate and a 4.3% click-through rate (CTR).

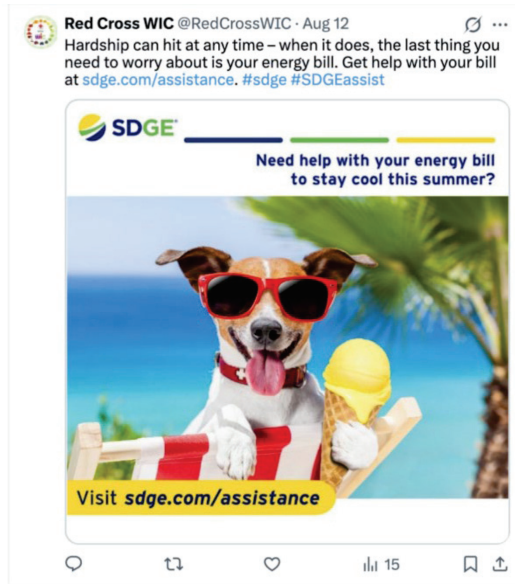
Social Media

SDG&E utilizes organic social media to promote ESA, CARE, and FERA and rotates messaging periodically. This month, the social media post promoted ESA and was posted on SDG&E's Facebook, Instagram and X (formally Twitter) channels directing customers to sdge.com/esa for more program information. Performance by social channel is included in the following table.

Social Platform	Impressions	Engagements	Engagement Rate
Facebook	2,847	47	1.7%
Instagram	4,098	50	1.2%
X (formally Twitter)	1,178	6	0.5%

Additionally, the Energy Solutions Partner Network distributes messaging informing the public of Customer Assistance programs. In August 2026, the Energy Solutions Partner Network shared over 200 customer assistance messages to more than 730,000 customers through e-newsletters, website posts, and social media channels. Examples of the messages shared are shown as follows:





Live CARE Call Campaign

The Harris Group (THG) calls targeted customers to encourage enrollment in the CARE and FERA programs. The campaign provides SDG&E with a way to directly connect with customers in low income and hard-to-reach areas. Targeted customers also include those who are up for recertification for CARE and FERA. THG provides education about CARE, FERA, and ESA programs. If eligible, THG enrolls customers in the CARE and FERA programs over the phone. The table below shows the number of enrolled customers contacted in August.

The Harris Group	
ESA Leads	1,418
CARE Enrollments	297
CARE Recertifications	145
FERA Enrollments	1,027
FERA Recertifications	49

Community Outreach & Engagement

Energy Solutions Partner Network

SDG&E works closely with a network of approximately 160 community-based organizations (CBO) to connect customers with programs, resources and solutions related to Customer Assistance, bill debt relief, Public Safety Power Shutoff (PSPS) resiliency, wildfire preparedness, clean energy, and conservation. These organizations represent the diversity of SDG&E's customers within its service territory. Many of these CBOs are small, grassroots agencies serving individuals with access and functional needs (AFN), including those that are multicultural, multilingual, low income, seniors, and limited English proficient (LEP) audiences in communities of concern. These partners help educate and enroll customers in income qualifying programs using a variety of tactics, including messaging through email and social media channels such as Facebook, X, and Instagram, posting information on their websites, providing booth space at events and hosting enrollment fairs at their locations. SDG&E's partner outreach activities resulted in the following activities this month:

Energy Solutions Partner Network	
ESA Leads	4
CARE Enrollments	57
CARE Recertifications	2
FERA Enrollments	3
FERA Recertifications	0

Partner Spotlight

In August 2026, SDG&E's Outreach team participated in over 50 events, presentations, trainings, and workshops that featured information and enrollment in energy solutions programs, services, and tools. Many of these activities were hosted by SDG&E's community partner network and included food drives and community events. These outreach activities were focused on engaging customers with income-qualified programs such as CARE, FERA, and ESA, and reached approximately 5,800 customers. A few of the outreach events SDG&E participated in are highlighted below.

Special Education Resource Fair

On August 6, the South County SELPA (Special Education Local Plan Area) Special Education Resource Fair brought together families, educators, service providers, and community organizations that support individuals with intellectual and developmental disabilities. SELPAs coordinate special education services to help children and young adults with disabilities access the resources they need to succeed. Attendees explored services related to health, education, recreation, and independent living. The event also featured a variety of CBOs, including several

SDG&E community partners. SDG&E Outreach staff shared information on customer assistance programs, PSPS preparedness, emergency readiness resources, and other customer support services.

Wildfire Safety Fairs

This summer, SDG&E hosted four Wildfire Safety Fairs; Ramona on May 2, Alpine on June 27, Vista on July 18, and Valley Center on August 29. These events connected attendees with wildfire subject matter experts, first responders, and local organizations, providing direct access to critical safety, preparedness, and recovery resources. Community members also learned about available customer assistance programs, including CARE, FERA, ESA, and Medical Baseline, and received enrollment support when needed. Collectively, these events strengthened community resilience by expanding awareness, increasing access to resources, and empowering customers to take proactive steps toward wildfire readiness.

Multicultural Outreach

To continue efforts to reduce potential barriers, increase education, and increase program enrollments for customers in the rural, multicultural/multilingual, and AFN segments, SDG&E pairs multicultural contractors with employees who are fluent in various languages to help staff events and presentations. These contractors are fluent in Spanish, Chinese, Aramaic/Arabic, and other languages, as requested. SDG&E participated in two multicultural events in August.

Activity Date	Activity Title	Association/Partner	Location
8/1/2026	Back to School Bash	Southern Indian Health Council	Golden Acorn Casino 1800 Golden Acorn Wy Campo, 91906
8/13/2026	Healthy Families/Emergency Preparedness Workshop	La Posta Band of Mission Indians	La Posta Tribal Hall 8 Crestwood Rd Boulevard, 91905

Other Customer Engagement Efforts

Customer Care Center (CCC) Authorized Locations

In addition to SDG&E's ME&O efforts described above, SDG&E also employs customer engagement efforts to educate, enroll, and provide direct service to its low-income customers. These efforts include direct service from SDG&E's CCC and the distribution of materials through other SDG&E customer-facing groups/programs and field services teams. SDG&E's CCC promotes and offers the CARE, FERA and ESA programs to potentially eligible customers and enrolls them directly into the CARE Program over the telephone.[21] SDG&E notes that non-CARE customers contacting the CCC are helped in determining potential enrollment into programs. Customers are also provided with self-service options available through SDG&E's web application and the CARE/FERA automated enrollment phone line, resulting in lower numbers tracked through the CCC. SDG&E also promotes CARE and FERA at select Authorized Payment Locations (APLs). During this reporting month, SDG&E's CCC generated the following applications and leads over the telephone:

[21] In D.16-06-054, SDG&E received Commission authorization for its CCC Energy Service Specialists to enroll customers directly into the CARE Program over the telephone.

FERA Enrollments	0
FERA Recertifications	0

1.2.3. Managing Energy Use

Tier II power strips and smart thermostats are ESA Program offerings that help customers manage their energy use. If a customer qualifies for one of these measures, they are given information on how to use the technology to manage and reduce their electricity use. Invoiced installations of Tier II power strips and smart thermostats are reported in ESA Table 2 and ESA Table 2A MFWB.

1.2.4. Services to Reduce Energy Bill

ESA Main's In-Home Energy Education provides customized, in-person assistance to help customers better understand and utilize available resources to manage and make informed decisions about their energy use. As part of this effort, ESA Main Implementer RI Residential Outreach Specialists (ROS) offer tailored, in-home energy education and support, including assistance enrolling in SDG&E's My Energy Center, which provides an overview of tools and resources to help reduce energy bills. For customers without online access, an ESA Program Educational Booklet is provided. ESA Table 2 provides the number of ESA participants that benefited from In-Home Energy Education and the associated year-to-date costs.

1.2.5. Additional Activities

There are no additional activities to report for the month of August 2026.

1.3. Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)

1.3.1. Please provide a status on referrals, of the leveraging and coordination effort with CSD. Expand on activities and success rates across the list of programs from the Coordination Workshop, such as Affordable Broadband and Lifeline, as applicable to ESA, CARE and FERA. What new steps or programs have been implemented? What was the result in terms of new enrollments? Please also provide coordination efforts with the TECH program.

RI is subcontracting with San Diego Low Income Home Energy Assistance Program (LIHEAP) contractors, MAAC and Campesinos Unidos, Inc. (CUI), to continue coordination efforts for ESA Main. As reported in previous months, leveraging between ESA Main and LIHEAP is challenging due to conflicting program requirements. In August, there were no new coordination efforts reported by RI.

1.3.2. Please provide a status on coordination with the TECH Clean California.

There are no new coordination efforts to report for the month of August.

1.4. ESA Workforce Education & Training (WE&T)

1.4.1. Please summarize efforts to improve and expand ESA Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

RI takes a proactive approach to workforce education and training by facilitating regular on the job training via quarterly and monthly meetings, tailboards (meetings focused on safety and operations), and quality assurance ride-alongs. RI also maintains a subcontractor portal that provides access to available training and certification programs and promotes San Diego LEARN.[22]

For the ESA Main Program, the following training activities took place this month:

- Residential Outreach Specialist Monthly Training on Aug 6

In August, RI reported plans to increase the hourly wage for the Residential Outreach Specialists (ROS) position to attract more qualified candidates.

For the Southern MFWB Program, RI continues to hold regular meetings with leadership from key subcontractors to identify challenges within WE&T and collaboratively develop strategies to support a skilled and sustainable workforce. RI also maintains a proactive approach to workforce development by facilitating ongoing on-the-job training through quarterly and monthly meetings, safety-focused tailboards, and quality assurance ride-alongs.

1.5. ESA Studies and Pilots

1.5.1. ESA Program Studies

<u>2028 Low Income Needs Assessment (LINA) Study</u>

In August 2026, the study team members attended evaluator scoring training and began to review vendor proposals. The IOUs reviewed confidentiality requirements associated with the solicitation process to support upcoming evaluation activities. These efforts will help facilitate a consistent and well-coordinated proposal review process as the study moves into the next phase. Calibration is scheduled to be held in mid-September.

---

[22] See https://www.sandiegolearn.com/.

ESA Main Impact & Process Evaluation Study

In August 2026, the team reviewed a draft "program leveraging" questionnaire guide that utility members will use to provide input to the study vendor, DSA. The questionnaire is intended to help DSA identify key barriers within the ESA program, assess opportunities for enhanced coordination among stakeholders, and explore ways to improve program delivery and effectiveness. The team also continued refining the customer survey objectives. The survey is set to be distributed in January 2027.

Multifamily Impact & Process Evaluation Study

In August 2026, the study team presented the proposed evaluation scoping framework for the Multifamily Impact & Process Study to the ESA/CARE Study Working Group. The team will next finalize evaluation inputs and draft the evaluation scope in preparation for a solicitation expected to launch in Q4 2026.

ESA Pilot Plus/ Pilot Deep Impact & Process Evaluation Study

In August 2026, SDG&E presented the proposed evaluation scope of work of the Pilot Plus/ Pilot Deep Evaluation Study to the ESA/CARE Study Working Group. A follow-up meeting is scheduled in September to receive official approval to move forward with the solicitation of a study lead.

1.5.2. ESA Program Pilots

SDG&E is not currently conducting any ESA Program Pilots in addition to the Pilot covered in Section 1.1.1.

2. CALIFORNIA ALTERNATE RATES FOR ENERGY (CARE) EXECUTIVE SUMMARY

The CARE Program is statutorily mandated by California Public Utilities (P.U.) Code Sections 739.1 and 739.2 to assist income-eligible households with a monthly discount on their gas and electric bills.[23] The CARE Program currently provides a 20% discount on natural gas charges and a 35% line-item discount on electric rates to low income households with income below 200% of Federal Poverty Guidelines.[24] Pursuant to D.24-05-028, SDG&E increased the CARE line-item electric discount to 35%. Effective January 1, 2025, existing rate exemptions continue to apply, therefore SDG&E estimates total effective CARE electric discount to be approximately 38%.[25]

In September 2024, AB 2672 was approved, requiring that the CARE Program include public housing authority owned or administered Homekey facilities where the residents of the facility substantially meet the CARE program's income eligibility requirements, and the account is in the name of Homekey, a nonprofit funded by Homekey, or the public housing authority that owns or administers the facility.[26] On March 26, 2025, IOUs received Commission guidance to

---

[23] The CARE Program was later implemented by the Commission in D.89-07-062 and D.89-09-044.

[24] D.24-05-028, at Conclusions of Law (COL) 11, and Ordering Paragraph (OP) 4; SDG&E Advice Letter (AL) 4588-E-A, approved February 19, 2025 and effective February 1, 2025. As noted in AL 4572-E-A filed on January 24, 2025, when accounting for the benefits CARE customers receive from certain rate exemptions in addition to the fixed, line-item CARE discount of 35%, SDG&E estimates the total effective CARE discount to be approximately 38%.

[25] *Id*.

[26] P.U. Code Section 739.1(i) as amended by AB 2672.

use their existing CARE authorized budgets for 2025 and 2026 to implement AB 2672, which SDG&E completed by June 1, 2025.[27]

SDG&E's authorized 2026 CARE Program Administrative Budget of $7.4 million primarily supports targeted ME&O initiatives, CARE enrollment processing and verification, information technology, program administration and regulatory compliance to meet or exceed 90% CARE Enrollment Percentage Goals in D.21-06-015.[28]

Commission Resolution (Res.) E-3524, established an annual process for updating the income levels for the CARE and FERA programs, which are used for determining whether residential customers are eligible for a CARE and FERA discount on their energy bills. The Resolution requires the Director of the Energy Division to set new income levels by letter to the utilities no later than May 14 of each year, and the utilities are to file revised tariffs reflecting the new income levels to become effective by June 1 of each year through May 31 of the following year.[29] Pursuant to these directives and the April 2, 2026 letter received from the Director of Energy Division, SDG&E filed AL 4837-E / 3511-G on May 1, 2026 to reflect the new income-eligibility levels and updates. These eligibility guidelines and updated tariffs are effective June 1, 2026 to May 31, 2027.

[27] *See* 2025-2026 Annual Income Limits for the California Alternative Rates for Energy (CARE), Family Electric Rate Assistance (FERA), and Energy Savings Assistance (ESA) Programs and the Implementation of Assembly Bill (AB) 2672 and Senate Bill (SB) 1130 (March 26, 2025).

CHANGES Program	$265,000	$161,855	61%
Studies and Pilots	-	-	0%
Measurement and Evaluation	$21,538	$0	0%
Regulatory Compliance	$347,761	$171,078	49%
General Administration	$765,768	$365,775	48%
CPUC Energy Division Staff	$76,410	$2,882	4%
Total Expenses	**$7,401,649**	**$3,432,338**	**46%**
CARE Discount	$126,524,206	$154,244,894	122%
Total Program Costs and Discounts	**$133,925,855**	**$157,677,232**	**118%**

2.1.2. Please provide the CARE Program enrollment rate to date

SDG&E's CARE enrollment rate is currently at 98%.

CARE Table 2.1.2 CARE Program Enrollment		
Participants Enrolled	Eligible Participants[32]	Enrollment Rate
281,004	286,149	98%

[30] D.21-06-015 Attachment 1 Table 2 approved the CARE program budget for PY 2021-2026.

[31] If necessary, any CARE program fund shifting will be completed at year-end within the fund shifting rules laid out in Section 10.5.8.2 of D.21-06-015.

[32] On April 8, 2026, PG&E, on behalf of the IOUs, submitted the Annual CARE and FERA Eligibility Report in accordance with OP 189 of D.21-06-015. This number reflects estimates of SDG&E's CARE Estimated Eligible Participants for 2026.

2.2. CARE Marketing & Outreach

2.2.1. Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

Marketing and outreach efforts this month contributed to 8,023 completed CARE applications and 5,892 new enrollments for the program. This month, data sharing efforts between SoCalGas and SDG&E resulted in 14 CARE enrollments. No enrollments came through the Grid Alternatives DAC-SASH program this month. Below is a summary of CARE-specific marketing and outreach efforts for this month.

General Awareness Marketing

In August, SDG&E continued rolling out updated CARE marketing assets as they were finalized with AB 1167 requirements.

Direct Marketing

SDG&E continued the monthly CARE bill comparison letters, sending 945 direct mail letters to CARE-eligible customers without an email address on file.

Email

In August 2026, SDG&E added 3,990 unique income-qualified customers to the bill comparison nurture campaign. Customers who do not open the first email may receive up to two follow-up emails. SDG&E sent 7,275 emails garnering a 52.2% open rate and a 5% click through rate (CTR).

Community Outreach & Engagement

SDG&E's community outreach and engagement initiatives enable the company to educate, connect with, and directly interact with customers right in the neighborhoods where they live and work. These efforts have encompassed a broad range of activities, including events, presentations, workshops, training sessions, collaborations with CBOs, and tailored approaches.

Tribal Outreach

See Section 1.2.1 above for SDG&E's Tribal Outreach activity.

CARE Partners (Capitation Agencies)

SDG&E partners with 22 social service agencies such as 211 San Diego, Chaldean Community Council, refugee assimilation organizations, Women's Infant & Children Organization (WIC) programs, and others (collectively, Capitation Agencies) to help enroll its hardest-to-reach customers. These organizations serve high-risk, income-qualified individuals and families with enrollment in state and federally funded assistance programs, including Cal Fresh, LIHEAP, Covered California, and California Lifeline. The partnering organizations are in diverse low-income communities serving multicultural/multilingual, seniors, veterans, special needs, and LEP audiences and provide multilingual staffing. The following numbers were generated by the Capitation Agencies this month:

Capitation Agencies	
ESA Leads	140
CARE Enrollments	93
CARE Recertification	25
FERA Enrollments	2
FERA Recertifications	0

County Health and Human Service Agency Collaborative

SDG&E collaborates with the County of San Diego Health and Human Services Agency (HHSA) to connect customers to programs like CARE and FERA. All field HHSA offices include a source coded CARE application in their new client intake packets. The following applications were received this month:

HHSA-Tracked Application	Current Month	YTD
CARE Enrollment	0	6
CARE Recertification	1	33
FERA Enrollment	0	0
FERA Recertification	0	0

2.2.2. Describe the efforts taken to reach and coordinate the CARE Program with other related low-income programs to reach eligible customers.

Customers who are enrolled in ESA and LIHEAP that have provided income verification and qualify for CARE are also automatically enrolled in the CARE Program.

CARE Table 2.2.2 CARE Automatic Enrollment for 2026		
Source	**August 2026**	**YTD**
ESA	86	352
LIHEAP	2	156

2.3. CARE Recertification Complaints

2.3.1. Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

During this reporting month, SDG&E did not receive any customer complaints regarding CARE recertification.

2.4. CARE Pilots and Studies

2.4.1. CARE Program Studies

<u>2028 Low Income Needs Assessment (LINA) Study</u>

See section 1.5.1.

2.4.2. CARE Program Pilots

There are no CARE pilots to report.

2.5. Miscellaneous

2.5.1. CARE Program PEV Freezes[33]

There are no Post Enrollment Verification (PEV) freezes to report this reporting period.

2.5.2. CARE Fixed Income

CARE Fixed Income		
	August 2026	**YTD**
New CARE Fixed Income Households	382	2,754

[33] CPUC Res. M-4833 directed IOUs to freeze CARE program post-enrollment verification (PEV) in the counties impacted by the California wildfires. D.19-07-015 established a permanent set of emergency disaster customer protection measures that the utilities are mandated to implement in the event of a declared emergency. D.19-07-015 directed SDG&E's Emergency Consumer Protections Plan to include residential and non-residential customers in areas where a state of emergency proclamation is issued by the California Governor's Office or the President of the United States where the disaster has either resulted in the loss or disruption of the delivery or receipt of utility service, and/or resulted in the degradation of the quality of utility service.

3. FAMILY ELECTRIC RATE ASSISTANCE (FERA) EXECUTIVE SUMMARY

The FERA Program is statutorily mandated by California P.U. Code Sections 739.1 and 739.12 to assist low to middle-income-eligible households with a monthly average effective discount of 18% on their electric bills. In D.21-06-015, the Commission authorized the FERA Program to be consolidated with the low income proceeding and set the 2026 enrollment goal at 70%.[34] As such, all IOU FERA goals, budgets, and program design elements will be scoped into the IOUs income-qualified budget applications moving forward. The Decision also approved FERA program management and subsidy budgets separate from CARE budgets.[35]

In August 2026, SDG&E implemented the FERA High Usage Post-Enrollment Verification (PEV) process in accordance with Ordering Paragraphs 28 and 29 of D.21-06-015. Under this enhancement, FERA customers are subject to income verification after exceeding 400% of baseline usage three times within a rolling 12-month period.[36]

To qualify for the FERA Program, households must have a total annual gross income between 200% (plus $1) and 250% of the FPG. In September 2024, SB 1130 passed, introducing significant changes to the FERA Program, including modification of eligibility requirements.

SB 1130 removes the previous three or more persons requirement, allowing households of any size to qualify, provided they meet income guidelines. Additionally, the bill requires that

---

[34] OP 26 of D.21-06-015 states, "The Family Electric Rate Assistance program proceeding will be consolidated with the California Alternate Rates for Energy and the Energy Savings program proceeding."

[35] OP 35 of D.21-06-015 states, "San Diego Gas & Electric Company must track all Family Electric Rate Assistance (FERA) related costs in a separate FERA balancing account."

[36] D.21-06-015, OP 28 at 477

by March 1, 2025, and annually thereafter, the IOUs must report their efforts to enroll customers in the FERA Program. The CPUC is required to review these reports by June 1 each year to ensure reasonable efforts were made to enroll eligible households commensurate with the proportion of eligible households within the IOU's territory.[37] SB 1130 allows for marketing enrollment for the FERA program separately from the CARE program and provide a separate FERA program-only application form. On March 26, 2025, SDG&E received Commission guidance on the implementation of SB 1130.[38] In June 2025, SDG&E implemented the SB 1130 requirements, as directed.

SDG&E's authorized 2026 FERA Program Administrative Budget of $1.05 million primarily supports targeted ME&O initiatives, information technology and programming, FERA enrollment processing and verification, program administration and regulatory compliance in pursuit of the 70% FERA Enrollment Percentage Goals set in D.21-06-015 and updated in Resolution E-5448.[39, 40]

SDG&E filed AL 4837-E / 3511-G on May 1, 2026 to reflect the new income-eligibility levels and updates. These eligibility guidelines and updated tariffs are effective June 1, 2026 to May 31, 2027.

---

[37] If the Commission determines that an IOU has not made reasonable efforts to enroll eligible households in the FERA program, the CPUC would require the IOU to develop a strategy and plan to sufficiently enroll eligible households within three years of the adoption of the strategy and plan.

[38] *See* 2025-2026 Annual Income Limits for the California Alternative Rates for Energy (CARE), Family Electric Rate Assistance (FERA), and Energy Savings Assistance (ESA) Programs and the Implementation of Assembly Bill (AB) 2672 and Senate Bill (SB) 1130 (March 26, 2025).

[39] D.21-06-015, Attachment 1, Table 3.

Total Program Expenses & Discounts	**$6,434,630**	**$5,731,034**	**89%**

[41] D.21-06-015 Attachment 1, Table 4 approved the FERA program budget for PYs 2021-2026.

[42] On February 26, 2026, the Commission approved Resolution E-5448 addressing SDG&E's Advice Letter 4646-E. It approves an incremental budget of $405,500 for 2026 only. The approved budget is intended to cover IT upgrades, targeted ME&O, additional FERA application processing and recertification, and PEV activities. SDG&E updated its 2026 FERA Administrative Budget beginning with the March 2026 Low Income Monthly Report.

[43] If necessary, any FERA program fund shifting will be completed at year-end within the fund shifting rules laid out in Section 10.5.8.2 of D.21-06-015.

3.1.2. Provide the FERA Program enrollment rate to date.

SDG&E's FERA enrollment rate is currently at 31%.

FERA Table 3.1.2 FERA Enrollment		
Participants Enrolled	**Eligible Participants[44]**	**Enrollment Rate**
25,281	80,558	31%

3.2. FERA Program Marketing & Outreach

3.2.1. Please discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

Marketing and outreach efforts this month contributed to 1,621 completed FERA applications and 1,506 new enrollments for the program. Leveraging efforts through the Grid Alternatives DAC-SASH program did not result in any FERA enrollments this month. There were 7 FERA enrollments from the ESA Main Program this month. Below is a summary of FERA-specific outreach efforts.

General Awareness

In August, SDG&E continued rolling out updated FERA marketing assets as they were finalized. Campaign deployment will continue to ramp up over the coming months, with ongoing monitoring of performance and optimization opportunities.

[44] On April 8, 2026, PG&E, on behalf of the IOUs, submitted the Annual CARE and FERA Eligibility Report in accordance with OP 189 of D.21-06-015. This number reflects estimates of SDG&E's FERA Estimated Eligible Participants for 2026.

Direct Marketing

Email

In August, SDG&E sent 24,110 bill comparison emails showing customers what their bill could have been if they enrolled in FERA. This email campaign had a 56.6% open rate and a 2.1% CTR.

Direct Mail

In August, SDG&E sent 1,432 bill comparison letters to customers who did not have email addresses on file.

Community Outreach & Engagement

SDG&E works closely with CBOs and other external groups to connect customers with programs and solutions related to company offerings. SDG&E works with a network of approximately 160 CBOs, collectively named the Energy Solutions Partner Network, as well as other external organizations on as needed or requested basis. SDG&E's Outreach utilizes these networks, including CARE Capitation agencies, to educate and enroll customers in eligible Customer Assistance programs. The FERA Program is promoted in all outreach activities including events, presentations, social media messaging and training. SDG&E is exploring additional opportunities to promote FERA solely through targeted social media campaigns utilizing its Energy Solutions Partner Network.

Tribal Outreach

See Section 1.2.1, which is also applicable to the FERA Program.

FERA Partners (Capitation Agencies)

See Section 2.2.1, which is also applicable to the FERA Program.

3.3. FERA Recertification Complaints

3.3.1. Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

During this reporting month, SDG&E did not receive any customer complaints regarding FERA recertification.

3.4. Pilots and Studies

3.4.1. FERA Program Studies

There are no studies for FERA to report.

3.4.2. FERA Program Pilot

There are no FERA pilots to report.

% of Administrative Spend						**14.0%**			**9.6%**			

[1] Authorized Budget: Approved for PY 2026 in D.21-06-015, Attachment 1, Table 11.
[2] If necessary, any ESA program fund shifting will be completed at year-end within the fund shifting rules laid out in Section 10.5.8.2 of D.21-06-015.
[3] Ordering Paragraph 112 of D.21-06-015 provides that, beginning in program year 2024, IOU ESA program administrative expenses are capped at 10 percent of total program costs. The definition and categorization of administrative costs for the ESA program shall be consistent with those used for the main energy efficiency program, as authorized in Section 6.15.7.7 of D.21-06-015.

Note: Any necessary corrections or adjustments are reported herein, superseding results reported in previous months and may include year-to-date adjustments.

Energy Savings Assistance Program Table 2 - Main (SF, MH) Summary
San Diego Gas & Electric Company
August 2026

				ESA Main Program (Summary)Total					
				Year-To-Date Completed & Expensed Installation					
Measures	Basic	Plus	Units	Quantity Installed	kWh [2,3] (Annual)	kW [2,3] (Annual)	Therms [2,3] (Annual)	Expenses ($)	% of Expenditure

# Eligible Households to be Treated for PY			Home	5,910					
% of Households Treated			%	45.62%					
- Master-Meter Households Treated			Home	244					

			Year to Date Expenses [6]			
ESA Program - Main			Electric	Gas	Total	
Administration [7]			$ 439,880	$ 435,682	$ 875,562	
Direct Implementation (Non-Incentive) [8]			$ 1,155,242	$ 949,864	$ 2,105,106	
Direct Implementation [9]			$ 3,547,959	$ 2,546,289	$ 6,094,248	*<<Includes measures costs*
TOTAL ESA Main Expenses			**$ 5,143,081**	**$ 3,931,835**	**$ 9,074,916**	

[1] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, and minor home repairs.
[2] All savings are calculated based on the following sources: DNV/GL Impact Evaluation Program Years 2015-2017 Impact II, or ESA workpapers.
[3] Savings values updated in 2024 based on workpaper updates.
[4] Air Sealing in Mobile Homes and Air Purifiers meet the definition of Health, Comfort, and Safety (HCS) measures, which are characterized by estimated energy savings of less than 1 therm or 1 kWh. Air Sealing in Mobile Homes values are combined with Air Sealing in Single Family Homes. Although currently designated as HCS measures, the majority of ESA measures also provide non-energy benefits (NEBs)—including HCS-related benefits—in addition to delivering energy savings.
[5] Values are reflective of installations occuring in 2026, irrespective of treatment date.
[6] ESA Main YTD expenses by cost category are reported in ESA Table 1.
[7] Ordering Paragraph 112 of D.21-06-015 provides that, beginning in program year 2024, IOU ESA program administrative expenses are capped at 10 percent of total program costs. The definition and categorization of administrative costs for the ESA program shall be consistent with those used for the main energy efficiency program, as authorized in Section 6.15.7.7 of D.21-06-015.
[8] Direct Implementation (Non-Incentive) includes expenses for Implementer Compensation.
[9] Direct Implementation includes expenses for energy efficiency measures from Appliances, Domestic Hot Water, Enclosure, HVAC, Lighting, Miscellaneous, Customer Enrollment, and In-Home Education Costs.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
Note: Any measures noted as 'New' have been added during the course of this program year.
Note: Any measures noted as 'Removed', are no longer offered by the program but have been kept for tracking purposes.

ESA Program - MFWB (SDG&E)	Year to Date Expenses [6] Electric	Gas	Total	
Administration [7]	$ 212,900	$ 174,191	$ 387,092	
Direct Implementation (Non-Incentive)	$ 1,507,547	$ 911,400	$ 2,418,946	
Direct Implementation	$ 3,951,927	$ 1,665,194	$ 5,617,121	<<Includes measures costs
SPOC	$ 110,776	$ 90,635	$ 201,411	
TOTAL MFWB & SPOC Expenses - SDG&E	$ 5,783,150	$ 2,841,420	$ 8,624,570	

[1] Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each IOU should fill out Table 2B as it pertains to their program. Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.
[2] Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.
[3] Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.
[4] Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.
[5] Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 200% of the Federal Poverty Guidelines).
[6] Table 2A-1 shows the total year-to-date (YTD) MFWB expenses for all three Southern California investor-owned utilities (IOUs), while Table 2A-2 presents only SDG&E's portion of those MFWB expenses.
[7] "Administration" expenses only include 'administrative costs' subject to the 10% cap. ESA MFWB program expenses subject to the 10% administrative cap follow the same definition and categorization of 'administrative costs' as the energy efficiency programs, as authorized in Section 6.15.7.7 of D.21-06-015
[8] Measure type column added to identify if a measure is for in-unit or common area/whole building because they use different workpaper savings.
[9] Number of multifamily units that received completed in-unit treatment.
[10] Number of multifamily properties with fully completed CAM/WB projects.
[11] Includes measures installed prior to the beginning of current month but expensed in current month due to data clean-up activities.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
Note: Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.

[1] "Completed and Expensed Installation" project savings and expenses will be reported when projects have been fully closed (i.e. inspected, issues resolved, permits closed as applicable) and reported by Pilot Implementer to SDG&E. All measures and savings from a project will be reported as either Pilot Plus or Pilot Deep. Savings from a single project will not span both tables.
[2] The measure list for SDG&E Pilot Plus and Deep is unique to the pilot and differs from Main ESA.
[3] Total ESA Pilot Plus and Pilot Deep YTD expenses may contain a combination of actual expenses and accrued expenses.
[4] "Administration" includes program 'administrative costs' subject to the 10% cap. Actual ESA program expenses subject to the 10% administrative cap follow the same definition and categorization of 'administrative costs' as the energy efficiency programs, as authorized in Section 6.15.7.7 of
[5] Direct Implementation (Non-Incentive) includes expenses for Implementer Administration.
[6] Direct Implementation includes expenses for measures delivery.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Energy Savings Assistance Program Tables 3A-3H - Energy Savings and Average Bill Savings per Treated Home/Common Area
San Diego Gas & Electric Company
August 2026

Table 3A, ESA Program (SF, MH) [1]	
Annual kWh Savings	560,941
Annual Therm Savings	49,662
Lifecycle kWh Savings	7,025,629
Lifecycle Therm Savings	772,122
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated households	$ 70.19
Average Lifecycle Bill Savings / Treated Household	$ 957.89

Table 3B, ESA Program - Multifamily Whole Building (MF In-Unit) [1], [4], [5]	
Annual kWh Savings	555,802
Annual Therm Savings	22,337
Lifecycle kWh Savings	5,185,777
Lifecycle Therm Savings	219,860
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated Property	$ 73.95
Average Lifecycle Bill Savings / Treated Property	$ 698.03

Table 3C, ESA Program - Multifamily Whole Building (MFWB) [1], [5]	
Annual kWh Savings	152,727
Annual Therm Savings	3,859
Lifecycle kWh Savings	1,786,460
Lifecycle Therm Savings	63,177
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated Property	$ 18.72
Average Lifecycle Bill Savings / Treated Property	$ 231.67

Table 3D, ESA Program - Pilot Plus [1], [2]	
Annual kWh Savings	4,019
Annual Therm Savings	314
Lifecycle kWh Savings	42,039
Lifecycle Therm Savings	3,690
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated Property	$ 33.69
Average Lifecycle Bill Savings / Treated Property	$ 367.24

Table 3E, ESA Program - Pilot Deep [1], [2]	
Annual kWh Savings	63,644
Annual Therm Savings	3,534
Lifecycle kWh Savings	798,096
Lifecycle Therm Savings	31,040
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated Property	$ 480.48
Average Lifecycle Bill Savings / Treated Property	$ 5,537.09

Table 3H, Summary - ESA Program (SF, MH), MFWB, CSD Leveraging, Pilot Plus and Pilot Deep [1], [3]	
Annual kWh Savings	1,337,133
Annual Therm Savings	79,705
Lifecycle kWh Savings	14,838,001
Lifecycle Therm Savings	1,089,890
Current kWh Rate	$ 0.25
Current Therm Rate	$ 1.69
Average 1st Year Bill Savings / Treated Households	$ 677.03
Average Lifecycle Bill Savings / Treated Households	$ 7,791.92

[1] Data reported in this table is cumulative since program inception.
[2] ESA Pilot Plus and Pilot Deep uses the same formulas to calculate values as Main ESA, but the variables such as measure savings and expected useful life may differ. The pilot will initially estimate energy savings with energy modeling software.
[3] Summary is the sum of ESA Main, MF CAM, MFWB, Pilot Plus Pilot Deep, BE, CSD Leveraging.
[4] Separating MFWB in-unit savings summary from the CAM and Whole Building meausures savings because they are calculated using different residential rates.
[5] Includes measures installed prior to the beginning of current month but expensed in current month due to data clean-up activities.

[1] SDG&E is treating dual-fuel (gas and electric) customers through ESA Pilot Plus and Deep.

[2] Pilot Plus/Deep energy savings are reported based on best available information at the time. Pre- and post-installation savings are derived from energy modeling software. The energy modeling software estimates savings within +/- 10% certainty. SDG&E intends to report the lower value in this range as interim savings until meter-based savings estimates are reportable (typically 12 months post installation).

[3] Pilot Plus/Deep project savings will be reported when projects have been fully closed (i.e. inspected, issues resolved, permits closed as applicable) and reported by Pilot Implementer to SDG&E.

[4] Includes measures installed prior to the beginning of current month but expensed in current month due to data clean-up activities.

Note: YTD Total Energy Impacts for all fuel types should equal YTD energy impacts that are reported every month Table 2B.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Authorized program cycle budget per D.21-06-015, unless otherwise specified. Funds for pilots and studies may be rolled over to the next program year or borrowed from a future program year within the cycle, to allow for flexibility in scheduling changes with these efforts. Funding amounts listed for "Studies" reflect SDG&E's 15% allocation among the IOUs.
[2] For each study, unspent funds from the program cycle remain committed until the study is completed.
[3] The 2022 Low Income Needs Assessment Study budget for program cycle 2021-2026 was as authorized in Advice Letter 3478-E and 2828-G.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Energy Savings Assistance Program Table 7 - Customer Segments/Needs State by Demographic, Financial, Location, and Health Conditions [*]
San Diego Gas & Electric Company
August 2026

ESA Main (SF, MH)

Customer Segments	# of Households Eligible [1]	# of Households Treated [2]	Enrollment Rate = (C/B)	# of Households Contacted [3]	Rate of Uptake = (C/E)	Avg. Energy Savings (kWh) Per Treated Households (Energy Saving and HCS Measures) [4]	Avg. Energy Savings (kWh) Per Treated Households (Energy Saving Measures only) [5]	Avg. [*] SDG&E is reporting on these customer segments at the direction of the ED with the caveat that estimates/numbers may be compiled from multiple sources, based on available estimates, and/or self-reported data. The numbers may not be additive.
[1] 2025 eligibility estimates provided by Athens Research, except as otherwise noted.
[2] Households treated data is not additive because customers may be represented in multiple categories. Data is compiled based on ESA measures received YTD, and may include enrollments from prior years.
[3] The number of household contacted includes YTD leads and enrollments.
[4] SDG&E has considered the energy savings associated with all ESA measures installed for this entry, regardless of whether the savings have a negative or positive value for kW, kWh, and/or Therms. Many measures offered in ESA provide Non-Energy Benefits (including Health, Comfort, and Safety (HCS)) in addition to energy savings, and some of these measures may be associated with a negative savings value.
[5] SDG&E has considered only the energy savings associated with the ESA measures installed for this entry that have a positive value for kWh and/or Therms. Installed ESA measures with a negative savings value for both kWh and Therms were excluded.
[6] This represents the number of households with at least one member who is at least 62 years old at the time of data collection.
[7] "Hard-to-reach" residential customers include "those customers who do not have easy access to program information or generally do not participate in energy efficiency programs due to a language, income, housing type, geographic, or home ownership (split incentives) barrier" (Advice Letter 4482-G/6314-E dated September 1, 2021). For the purpose of this reporting, SDG&E is defining 'hard-to-reach" as those residential customer self-identified as not preferring or speaking English as the primary language because income, housing type, geographic, and homeownership information is reported elsewhere on this table.
[8] Vulnerable refers to Disadvantaged Vulnerable Communities (DVC) which consist consists of communities in the 25% highest scoring census tracts according to the most current versions of the California Communities Environmental Health Screening Tool (CalEnviroScreen), as well as all California tribal lands, census tracts that score in the highest 5% of Pollution Burden within CalEnviroScreen, but do not receive an overall CalEnviroScreen score due to unreliable public health and socioeconomic data, and census tracts with median household incomes less than 60% of state median income.
[9] Includes Tier 2 and 3 of the CPUC Fire-Threat Map
[10] This reflects communities within SDG&E's service territory that are identified by the California Air Resources Board (CARB) Community Air Protection Program as communities continue to experience environmental and health inequities from air pollution.
[11] SDG&E resumed disconnections for residential customers in 2023 and resumed disconnecting CARE or FERA customers for non-payment in August, 2024.
[12] SDG&E defines arrearages as overdue balance greater than 30 days. Estimated eligibility is based on CARE/FERA households with arrearages in the prior year as reported in SDG&E's R.18-07-005 Monthly Disconnection Report through December 2024.
[13] SDG&E defines high usage as at least 400% of baseline at least three times in 12-month period.
[14] SDG&E utilizes the Low-Income Energy Affordability Data (LEAD) Tool developed by DOE's Office of Energy Efficiency & Renewable Energy to identify census tracts with high energy burden for households at below 200 % Federal Poverty Level (FPL) that are in SDG&E's service territory. The 2016 Needs Assessment for the Energy Savings Assistance and the California Alternate Rates for Energy Programs describes households that spent more 6.3% of their annual income on energy bills as having high energy burden (p.47).
[15] The Socioeconomic Vulnerability Index (SEVI) metric represents the relative socioeconomic standing of census tracts, referred to as communities, in terms of poverty, unemployment, educational attainment, linguistic isolation, and percentage of income spent on housing. SDG&E utilizes the SEVI data provided by the CPUC to map its service territory by SEVI scores (L: 0 to 33; M: >33 to 66; H: >66).
[16] The Affordability Ratio (AR) metric quantifies the percentage of a representative household's income that would be used to pay for an essential utility service after non-discretionary expenses such as housing and other essential utility service charges are deducted from the household's income. Using Gas AR20 and Electric AR20 data for 2023 (using 2019 base year) provided by the CPUC, SDG&E selects census tracts with Electric AR20 at above 15% or Gas AR20 above 10% to identify areas within its service territory as having high affordability ratio (CPUC 2019 Annual Affordability Report, pp 34, 44).
[17] SDG&E utilizes the 'Asthmas' indicator in CalEnviroScreen 4.0 (published by the California Office of Environmental Health Hazard Assessment) as a proxy to identify locations with varying levels of respiratory conditions within its service territory. L: 0-33 percentile; M: >33-66 percentile; L: >66-100 percentile.
[18] This data captures tribal households located on federally-recognized tribes whose trust lands are identified in the Bureau of Indian Affairs, and also includes ESA participants from non federally-recognized tribes or households that self-identified as Native American.
[19] YTD, cost and energy savings for this customer segment includes a significant portion of in-progress projects, as well as projects with higher cost measures, which may skew the average savings and cost (Columns G-L) higher than the averages for the reported completed projects in Column B.
[20] For the month of May, HTR system logic caused a discrepancy that will be resolved in future reports. Values will be N/A until this is resolved.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Energy Savings Assistance Program Table 8 - Clean Energy Referral, Leveraging, and Coordination
San Diego Gas & Electric Company
August 2026

Partner	Brief Description of Effort	# of Referral [1]	# of Leveraging [2]	# of Coordination Efforts [3]	# of Leads [4]	# of Enrollments [5]
LIHEAP	LIHEAP agencies in SDG&E service territory leverage LIHEAP payment leads to provide ESA Program services to customers.	-	-	-	-	-
DAC-SASH	The DAC-SASH implementer provides SDG&E with potential ESA and CARE Program Leads. SDG&E provides and annual list of program leads to DAC-SASH implementer for marketing purposes.	-	-	-	11	3
SDCWA	SDG&E efforts to coordinate program information with SDCWA.	-	1	-	8	8
CARE High Usage	Leads generated through CARE HEU income verifications completed	-	-	-	497	217
Energy Solutions Partner Network	SDG&E works closely with a network of approximately 200 community-based organizations (CBOs) to connect customers with Customer Assistance programs.	-	27	219	-	-
CARE Capitation Agencies	SDG&E partners with 22 social service agencies to help enroll its hardest-to-reach customers in Customer Assistance programs.	-	5	32	924	30
SOMAH	The SOMAH implementer provides SDG&E with potential MFWB leads. SDG&E provides the SOMAH implementer with potential SOMAH leads.	24	1	-	27	-
MFWB [6]	Coordination with partners and SDG&E in their Administration of the Southern Section MFWB program	27	1	3	54	8

[1] Number of outbound referrals being given to the partner.

[2] Number of activities that involve the sharing resources to jointly support program delivery or administration. (Example: Sharing of Lead Lists, Cost Splitting, etc.).

[3] Number of activities related to program communication (marketing), collaboration of events, and alignment of activities to support program delivery.
[4] Number of inbound Leads or Referrals from the Partner
[5]Number of enrollments that results from the Leads or Referrals supplied by the Partner
[6] Number of referalls being supplied to SDG&E by SCE and SoCalGas, the number of Enrollments being completed on behalf of SDG&E for the MFWB.

N/A identifies areas where SDG&E is unable to track the data related with these efforts.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Energy Savings Assistance Program Table 9- Tribal Outreach
San Diego Gas & Electric Company
August 2026

OUTREACH STATUS	Quantity (Includes CARE, FERA, and ESA) [2]	List of Participating Tribes
Tribes completed ESA Meet & Confer [1]	15	Barona Band of Mission Indians, Pauma & Yuima Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Manzanita Band of Kumeyaay Nation, Campo Kumeyaay Nation, Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cuhuilla, Cupeno Indians, Inaja Cosmit Band of Indians [3], San Pasqual Band of Mission Indians, Viejas Band of Kumeyaay Indians, Pala Band of Mission Indians, Rincon Band of Luiseno Indians, and Jamul Indian Village
Tribes requested outreach materials or applications	9	Pauma Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Iipay Nation Santa Ysabel, Campo Kumyaay Nation, Manzanita Band of Kumeyaay Nation, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cuhuilla and Cupeno Indians, and Jamul Indian Village
Tribes who have not accepted offer to Meet and Confer	2	Sycuan Band of Kumeyaay Nation and Ewiiaapaayp
Non-Federally Recognized Tribes who participated in Meet & Confer	-	
Tribes and Housing Authority sites involved in Focused Project/ESA	N/A	N/A
Partnership offer on Tribal Lands	14	Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, La Posta Band of Mission Indians, Campo Kumeyaay Nation, Los Coyotes Band of Cuhuilla and Cupeno Indians, Manzanita Band of Kumeyaay Nation, Mesa Grande Band of Mission Indians, Pauma & Yuima Band of Mission Indians, Pala Band of Mission Indians, Rincon Band of Luiseno Indians, Jamul Indian Village, Viejas Band of Kumeyaay Indians, Southern Indian Health Council,Inter Tribal Long Term Recovery Foundation
Housing Authority and Tribal Temporary Assistance for Needy Families (TANF) office who received outreach (this includes email, U.S. mail, and/or phone calls)	2	Southern California American Indian Resource Center (SCAIR); Southern California Tribal Chairmen's Association (SCTCA) [4]
Housing Authority and TANF offices who participated in Meet and Confer	N/A	N/A

[1] SDG&E notes that it has held informational meetings with these tribes to provide information on low income programs and other customer programs. As such, the term Meet and Confer, used here, is unrelated to a Duty to Meet and Confer, pursuant to Rule 13.9. SDG&E invited all 17 tribes to meet and will continue to engage in 2026.
[2] Numbers are a rolling count of Tribal Outreach efforts
[3] SDG&E does not provide service to Inaja & Cosmit
[4] SDG&E provides TANF related messaging through periodic presentations to SCAIR and SCTCA

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

CARE Program Table 1 - Program Expenses
San Diego Gas & Electric Company
August 2026

	Authorized Budget [1]			Current Month Expenses			Year to Date Expenses			% of Budget Spent YTD [2]

[1] Authorized Budget approved for PY 2026 in D.21-06-015, Attachment 1, Table 2.
[2] If necessary, any CARE program fund shifting will be completed at year-end within the fund shifting rules laid out in Section 10.5.8.2 of D.21-06-015 and reflected in the annual report.
[3] Reflects the budget and expenses for Low Income Needs Assessment (LINA) study.
[4] PPP Exemption - CARE customers are exempt from paying CARE program costs including PPP costs for CARE admin and the CARE surcharge.
[5] Per AL 4791-E and AL 4791-E-A, pursuant to 2024 GRC Phase 2 Decision, SDG&E simplified the discount structure for Expanded Low Income (EL-I) customers by removing the embedded rate discount and increasing the line-item discount on their bill from 20% to 35%.

Note: Any necessary corrections or adjustments are reported herein, superseding results reported in previous months and may include year-to-date adjustments.

Notes:

[1] SDG&E resumed disconnections for residential customers in 2023 and resumed disconnecting CARE or FERA customers for non-payment in August, 2024.

[2] Includes zip codes with >25% of customers with incomes less than 100% FPG

[3] DACs are defined at the census tract level. Corresponding zip codes are provided for the purpose of this table; however, the entire zip code listed may not be considered a DAC.

Note: Some zip codes rolled up to the nearest zip code for privacy reasons due to the number of people residing in that zip code.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Authorized Budget: Approved for PY 2026 in D.21-06-015, Attachment 1, Table 4.
[2] On February 26, 2026, the Commission approved Resolution E-5448 addressing SDG&E's Advice Letter 4646-E. It approves an incremental budget of $405,500 for 2026 only. The approved budget is intended to cover IT upgrades, targeted ME&O, additional FERA application processing and recertification, and PEV activities. SDG&E updated its 2026 FERA Administrative Budget beginning with the March 2026 Low Income Monthly Report.
[3] If necessary, FERA program fund shifting will be completed at year-end within the fund shifting rules laid out in Section 10.5.8.2 of D.21-06-015.

Note: Any necessary corrections or adjustments are reported herein, superseding results reported in previous months and may include year-to-date adjustments.

[1] Enrollments via data sharing between the IOUs.

[2] Enrollments via data sharing between departments and/or programs within the utility.

[3] Enrollments via data sharing with programs outside the IOU that serve low-income customers.

[4] No response includes no response to both Recertification and Verification.

[5] On April 8, 2026, PG&E, on behalf of the IOUs, submitted the Annual CARE and FERA Eligibility Report in accordance with OP 189 of D.21-06-015. This number reflects estimates of SDG&E's FERA Estimated Eligible Participants for 2026.

Note: Any necessary corrections or adjustments are reported herein, superseding results reported in previous months and may include year-to-date adjustments.
