**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking to
Enhance Demand Response in
California.

Rulemaking 25-09-004

**COMMENTS OF WEAVE GRID, INC. ON PROPOSED DECISION APPROVING
TWO-YEAR BRIDGE FUNDING FOR DEMAND RESPONSE PROGRAMS**

In accordance with the Rules of Practice and Procedure of the California Public Utilities Commission (“Commission”), Weave Grid, Inc. (“WeaveGrid”) hereby submits these comments on the proposed *Decision Approving Two-Year Bridge Funding for Demand Response Programs* (“Proposed Decision”), issued on September 25, 2026.

I. COMMENTS

WeaveGrid supports the proposed two-year bridge funding for demand response programs in 2028 and 2029 at levels consistent with the existing authorized 2027 portfolios. The bridge funding provides stability for ratepayers and program participants while the Commission contemplates changes to long term demand response policies.

WeaveGrid further supports the extension of the Emergency Load Reduction Program (“ELRP”) through the 2028-2029 bridge years, including continuation of subgroups A.4 and A.5. The extension preserves continuity for participants and the availability of emergency demand response resources to support the resilience of the grid and reduce the risk of costly outages while the Commission considers the program’s role and cost-effectiveness beyond 2029.

II. CONCLUSION

WeaveGrid appreciates the opportunity to provide input in response to the Proposed Decision. We thank the Commission for consideration of these comments and look forward to continued engagement.

Respectfully submitted,
/s/ Deborah Erwin
