COMPLAINT

COMPLAINANT	DEFENDANT
Peter E. Martin 1872 Patrick's Point Drive Trinidad, CA 95570 Daytime phone: 707-496-4478 Email: pem6161@gmail.com (Self-represented; also President of co-complainant Savage Creek Water Association)	(Include Utility "U-Number," if known) Pacific Gas and Electric Company (U39E) Attn: Cliff Gleicher, Managing Counsel 300 Lakeside Drive Oakland, CA 94612 Telephone: 415-971-2678 Email 1: Cliff.Gleicher@pge.com Email 2: pgetariffs@pge.com

COMPLAINT**Additional complainant(s) (Provide name, address, phone number and email address for each complainant)**

Name of Complainant	Savage Creek Water Association (unincorporated association), acting through its President, Peter E. Martin
Address	1872 Patrick's Point Drive, Trinidad, CA 95570
Daytime Phone Number	707-496-4478
Email Address	pem6161@gmail.com

☒ One/sole complainant is representative listed in Box C-1 ☐ Additional complainants listed in attachment

Additional Defendant(s) (Provide name, address, phone number and email address for each defendant)

None. Pacific Gas and Electric Company, listed in Box D-1 on the cover page, is the sole defendant.

Have you tried to resolve this matter informally with the Commission's Consumer Affairs staff? CAB File No. 747155, acknowledged by CAB on Sept. 15, 2026 (Exhibit B).	☒ YES ☐ NO
Has staff responded to your complaint? CAB acknowledged the complaint on Sept. 15, 2026 and said its review would take at least 45 days; no determination has been issued.	☐ YES ☒ NO
Did you appeal to the Consumer Affairs Manager?	☐ YES ☒ NO
Do you have money on deposit with the Commission? Amount \$0.00	☐ YES ☒ NO
Is your service now disconnected? Not yet. PG&E's letter dated Oct. 2, 2026 threatens service interruption within 30 days (Exhibit A).	☐ YES ☒ NO

Explain fully and clearly the details of your complaint. (Attach additional pages if necessary and any supporting documentation)

PG&E installed, and for about 16 years read, the electric meter that powers the Savage Creek Water Association's well pump, which supplies water to nine homes near Trinidad, CA (PG&E account no. 4184106975-4, service agreement ID 4182762900, SmartMeter no. 1011889226, which replaced meter no. 1010613483 in about May 2026). PG&E chose the meter location, on land owned by a third party, about one-half mile north of Mr. Martin's residence. PG&E's records wrongly list the service address as 1778 Patrick's Point Drive, which belongs to an unrelated neighbor.

In about May 2026, PG&E replaced the analog meter with a SmartMeter that cannot communicate because there is no wireless coverage at the site, and PG&E has not read it manually since. Every bill from June 4 through October 2, 2026 is an estimate. Starting in February 2026, bills jumped from \$92.69 to between \$212 and \$601 a month, far more than the Association's 2 hp pump could use. The pump has been limited by timer to 30 minutes a day since about August 2026 (under 40 kWh a month), yet PG&E's August and September estimates assume about 600 kWh a month. In about July 2026, PG&E agreed by phone to remove the SmartMeter and install a readable meter. It has not done so.

While Complainants' informal complaint about this same meter was pending, PG&E sent a "Remediation 2nd Letter" dated October 2, 2026 stating that "the access to the meter is too steep" and demanding a correction within 30 days "to avoid service interruption" (Exhibit A). The meter and its location are PG&E's, not Complainants', and Complainants have no right to build access on the third party's land. Disconnection would leave all nine homes without water.

Complainants allege violations of Public Utilities Code §451 (adequate and reasonable service and facilities), PG&E Electric Rules 9 and 17.1 (billing on estimates; correction of billing errors), Schedule E-SOP (SmartMeter opt-out) and Electric Rule 11 (discontinuance of service). The full statement of facts and claims, with the bill summary table, is in **Attachment 1, Detailed Statement of Complaint (¶¶ 1-20)**. Supporting documents are attached as **Exhibits A-D**.

Scoping Memo Information (Rule 4.2[a])

(1) The proposed category for the Complaint is (check one):

- ☒ adjudicatory (most complaints are adjudicatory unless they challenge the reasonableness of rates)
☐ ratesetting (check this box if your complaint challenges the reasonableness of rates pursuant to Rule 4.1(b))

(2) Are hearings needed (are there facts in dispute)? ☒ YES ☐ NO

(3) ☒ Regular Complaint ☐ Expedited Complaint (Rule 4.6)

(4) The issues to be considered are

1. Whether PG&E should be barred from discontinuing or reducing electric service to the Association's water pump, and from collection or disconnection activity on the disputed estimated charges, while this complaint is pending.
2. Whether PG&E must relocate its meter, at its own expense, to a safe location that PG&E can lawfully access and read, and bear the cost of any work needed for safe access to its meter.

3. Whether PG&E must remove the non-communicating SmartMeter and install a non-communicating (analog) meter, as it agreed, without Schedule E-SOP fees.
4. Whether PG&E's bills from February 2 through October 2, 2026 (both meter-read and estimated) are accurate; whether PG&E must produce meter reads and interval data, test meter nos. 1010613483 and 1011889226 under Electric Rule 17, and inspect the service for any other connected load; and whether PG&E must re-bill on actual usage and refund or credit overcharges (at least \$2,735.37, with interest).
5. Whether PG&E must read the meter (or accept customer self-reads) and stop billing on estimates.
6. Whether PG&E must correct its records so the service location reflects the meter's actual location rather than 1778 Patrick's Point Drive.

(5) The proposed schedule for resolving the complaint within 12 months (if categorized as adjudicatory) or 18 months (if categorized as ratesetting) is as follows:

Prehearing Conference: Approximately 30 to 40 days from the date of filing of the Complaint.

Hearing: Approximately 50 to 70 days from the date of filing of the Complaint.

Prehearing Conference: approximately 30 to 40 days after the complaint is accepted for filing

Hearing: approximately 50 to 70 days after the complaint is accepted for filing

Explain here if you propose a schedule different from the above guidelines.

Complainants accept the standard schedule for the merits, with a decision within 12 months. Because PG&E's October 2, 2026 letter threatens service interruption about 30 days after that date (around November 1, 2026), Complainants ask that the request for interim relief barring disconnection (Wherefore items 1-2) be addressed as soon as possible after filing, before any prehearing conference.

Wherefore, complainant(s) request(s) an order: State clearly the exact relief desired. (Attach additional pages if necessary)

Interim relief (requested immediately):

1. PG&E shall not discontinue, disconnect or reduce electric service to Complainants' account or the Association's water pump while this complaint is pending, absent an immediate, documented hazard to life. If such a hazard exists, PG&E shall repair it at its own expense without interrupting service, or restore service within 24 hours.
2. PG&E shall not take any collection or disconnection action on the disputed estimated charges while this complaint is pending.

Final relief:

3. PG&E shall relocate the meter, at its sole expense, to a safe location that PG&E can lawfully access and read, on property Complainants control or at a point agreed with Complainants.
4. PG&E shall remove the SmartMeter and install a non-communicating (analog) meter, as PG&E agreed, and waive all Schedule E-SOP initial and monthly fees.
5. PG&E shall read the meter as required, or accept Complainants' self-reads, and stop billing on estimates.
6. PG&E shall re-bill all periods from February 2 through October 2, 2026 based on actual usage and refund or credit any overcharge with interest, of at least \$2,735.37 (the amount by which the nine statements, totaling \$3,569.58, exceed nine bills at the January 2, 2026 level of \$92.69); produce all meter reads and interval data for both meters; test meter nos. 1010613483 and 1011889226 under Electric Rule 17; and inspect the service for any load other than the Association's pump.
7. PG&E shall correct its records so the service location reflects the meter's actual location, not 1778 Patrick's Point Drive.
8. PG&E shall bear the cost of any work needed for safe access to its meter, or relocate it under item 3, and may not require Complainants to build access on land they do not own or control.
9. Such other relief as the Commission finds just.

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

See also Attachment 1, Section IV. Complainants understand the Commission does not award damages and reserve all rights to seek damages in a court of competent jurisdiction.

OPTIONAL (OPT OUT OF ELECTRONIC SERVICE): I/we would like to receive the answer and other filings of the defendant(s) and information and notices from the Commission by mail (paper only). My/our mailing address(es) is/are:

(Not selected - Complainants consent to electronic service at pem6161@gmail.com.)

Dated Trinidad, California, this 5th day of October, 2026

/s/ Peter E. Martin

Peter E. Martin, Complainant

Peter E. Martin, President, for Savage Creek Water
Association, Complainant

Signature of each complainant (MUST ALSO SIGN VERIFICATION AND PRIVACY NOTICE)

REPRESENTATIVE'S INFORMATION:

Provide name, address, telephone number, e-mail address (if consents to notifications by e-mail), and signature of representative, if any.

Name of Representative: None. Complainants are self-represented. Peter E. Martin (Box C-1) acts for himself and, as its President, for Savage Creek Water Association.

Address: N/A (see Box C-1)

Telephone Number: N/A (see Box C-1)

E-mail: N/A (see Box C-1)

Signature: N/A

VERIFICATION

(For Individual or Partnerships)

I am (one of) the complainant(s) in the above-entitled matter; the statements in the foregoing document are true of my knowledge, except as to matters which are therein stated on information and belief, and as to those matters, I believe them to be true.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on October 5, 2026, at Trinidad, California

NUMBER OF COPIES NEEDED FOR FILING:

If you are filing your formal complaint on paper, then submit one (1) original, six (6) copies, plus one (1) copy for each named defendant. For example, if your formal complaint has one (1) defendant, then you must submit a total of eight (8) copies.

If you are filing your formal complaint electronically (visit <http://www.cpuc.ca.gov/PUC/efiling> for additional details), then you are not required to mail paper copies.

Mail paper copies to: California Public Utilities Commission, Attn: Docket Office, 505 Van Ness Avenue, Room 2001, San Francisco, CA 94102

PRIVACY NOTICE

This message is to inform you that the Docket Office of the California Public Utilities Commission ("CPUC") intends to file the above-referenced Formal Complaint electronically instead of in paper form as it was submitted.

Please Note: Whether or not your Formal Complaint is filed in paper form or electronically, Formal Complaints filed with the CPUC become a public record and may be posted on the CPUC's website. Therefore, any information you provide in the Formal Complaint, including, but not limited to, your name, address, city, state, zip code, telephone number, E-mail address and the facts of your case may be available online for later public viewing.

Having been so advised, the Undersigned hereby consents to the filing of the referenced complaint.

DETAILED STATEMENT OF COMPLAINT

Peter E. Martin and Savage Creek Water Association v. Pacific Gas and Electric Company (U39E)
Related informal complaint: CPUC Consumer Affairs File No. 747155

Complainants Peter E. Martin and Savage Creek Water Association file this complaint under Public Utilities Code §1702 and Rule 4.1 of the Commission's Rules of Practice and Procedure against Pacific Gas and Electric Company (PG&E). This Attachment 1 is part of the Formal Complaint Form to which it is attached.

The Savage Creek Water Association (the "Association") operates the shared water system and pump that serve nine homes in the Savage Creek area, including Mr. Martin's. In this complaint, "Complainant" refers to both Complainants unless the context refers to Mr. Martin individually.

PG&E installed a meter that serves the water pump for the Savage Creek Water Association, which supplies water to nine homes, including Complainant's. PG&E read that meter for years. It now says access to the meter is unsafe and threatens to cut power to the pump, which would leave all nine homes without water. PG&E made this threat while Complainant's informal complaint about the same meter is pending before the Commission. Complainant asks the Commission to (1) bar disconnection while this complaint is pending, (2) order PG&E to relocate the meter, at its own expense, to a location PG&E can lawfully access and read, (3) order PG&E to install a non-communicating meter as it agreed, without opt-out fees, and (4) order PG&E to re-bill estimated charges based on actual usage and refund any overcharge.

I. Parties and Jurisdiction

1. Complainant Peter E. Martin is a PG&E electric customer. His mailing address is 1872 Patrick's Point Drive, Trinidad, CA 95570, email pem6161@gmail.com. His PG&E account no. is 4184106975-4, and the electric service agreement ID is 4182762900. The meter is SmartMeter no. 1011889226, which replaced meter no. 1010613483 in about May 2026. The service supplies electricity to the water pump of the Savage Creek Water Association, which provides water to nine homes in the area, including Complainant's. The pump and meter are located about one-half mile north of Mr. Martin's residence on Patrick's Point Drive. Co-complainant Savage Creek Water Association is an unincorporated association. Its mailing address is 1872 Patrick's Point Drive, Trinidad, CA 95570, and it acts through its President, Peter E. Martin, who is authorized to sign this complaint on its behalf. The Association operates the pump powered by this service and pays the PG&E bills for this account, although the account is in Mr. Martin's name.
2. Defendant Pacific Gas and Electric Company (U39E) is a public utility subject to the Commission's jurisdiction. Its contact for this complaint is Cliff Gleicher, Managing Counsel, 300 Lakeside Drive, Oakland, CA 94612, telephone 415-971-2678, email Cliff.Gleicher@pge.com and pgetariffs@pge.com. The PG&E employee who sent the disconnection notice is Jonathan Finen, Field Metering Supervisor, Humboldt Division, 2475 Myrtle Avenue, Eureka, CA 95501.
3. Jurisdiction. The Commission has jurisdiction under Public Utilities Code §1702 over complaints that a public utility has acted in violation of law, Commission orders or its tariffs. That includes meter location and reading, billing, the SmartMeter opt-out program, and discontinuance of service.

4. Category and hearing. Complainant proposes that this proceeding be categorized as adjudicatory. A hearing is needed if PG&E disputes the meter's location, the phone agreement or the billing.
5. Issues and proposed schedule. The issues are listed in item (4) of the Scoping Memo Information on the Formal Complaint Form and in Section III below. Complainant asks for a ruling on interim relief as soon as possible, a prehearing conference within 30 days after PG&E answers, and a decision within the statutory 12 months for adjudicatory cases.

II. Statement of Facts

6. PG&E chose the meter location. PG&E installed the meter on empty land on Patrick's Point Drive, about one-half mile north of Complainant's residence. Neither the Association nor its members own or rent the land where the meter is located. The meter sits on land owned by a third party whom Complainant has not been able to identify. PG&E installed it, maintained it and read it there for years, from about 2010 until about 2026.
7. PG&E's records list the wrong address. PG&E identifies the service location as "1778 Patrick's Point Dr., Trinidad." That is not where the meter is. 1778 Patrick's Point Drive belongs to Jane Spini, and the meter is not on her property. Complainant's own address, where PG&E mails his bills, is 1872 Patrick's Point Drive.
8. PG&E replaced the analog meter with a SmartMeter that cannot communicate. There is no wireless or internet coverage at the meter's location. The SmartMeter has never transmitted readings to Complainant's knowledge, and PG&E has not sent anyone to read it manually.
9. Complainant's bills jumped and then became estimates. PG&E's January 2, 2026 statement, for Nov. 23 to Dec. 24, 2025, was \$92.69. It was based on an actual read of meter no. 1010613483 showing 233 kWh over 32 days, about 7.3 kWh per day. That reflects normal use: the Association's pump normally runs less than one hour a day. In about July 2026, the County damaged the Association's water line along the road, causing a leak. In about August 2026, the Association installed a timer that limits the pump to 30 minutes a day. Starting with the February 2, 2026 statement, monthly bills rose to between \$212 and \$601. Billed use rose as high as 1,467 kWh in a month (about 46 kWh per day), more than six times the January level. From about January 29 through May 2026, the old meter recorded about 50 kWh per day. The pump is a Goulds 25GS20 4-inch well pump, serial no. A2636572, rated 2 horsepower with a 1.25 service factor and 25 gallons per minute (Exhibit D). At its maximum rated load it draws roughly 2.5 kilowatts. From February through May, only the five full-time households, about 10 people, were using water. The four vacation homes are occupied only two to four weeks a year, usually in late summer. California's median indoor residential use is 48 gallons per person per day. Even allowing a generous 100 gallons per person, the system needed about 1,000 gallons a day, during the North Coast's rainy season when little irrigation is needed. At 25 gallons per minute, the pump delivers that in about 40 minutes, using under 2 kWh. To use the 50 kWh a day that was recorded, the pump would have had to run about 20 hours a day and deliver about 30,000 gallons a day. That is about 3,000 gallons per resident per day, 30 times the generous estimate. Even at only 10 gallons per minute, it would have moved about 12,000 gallons a day. No such volume was used, and the County-caused leak did not occur until about July 2026. The recorded usage also jumped about sevenfold around January 29, in the system's

lowest-occupancy months, with no change in the households served. That pattern points to a meter error or a load other than the Association's pump, not to water use. Since the timer was installed in about August 2026, the pump cannot run more than 30 minutes a day, which limits it to about 1.25 kWh a day, or under 40 kWh a month. Yet PG&E's estimated bills for August and September 2026 assume about 20 kWh a day (627 and 587 kWh), roughly 16 times the most the pump can now use. In about May 2026, PG&E replaced meter no. 1010613483 with SmartMeter no. 1011889226, which started at a reading of zero. The June 4, 2026 statement bills both meters for the same 32-day period (857 kWh plus 610 kWh, labeled "Total Usage (Est.) 1,467 kWh"). Every statement since then, from June 4 through October 2, 2026, says: "This is an estimated bill. We were not able to read the meter(s) due to insufficient billing information." The bills are summarized in the table below (Exhibit C).

Bill summary, account 4184106975-4. The Jan. 2, 2026 baseline is \$92.69.

Statement	Billing period	kWh billed	Read type	Current charges	Excess over \$92.69
Oct. 2, 2026	Aug. 25 – Sept. 23	587	Estimated	\$212.50	\$119.81
Sept. 2, 2026	July 24 – Aug. 24	627	Estimated	\$225.74	\$133.05
Aug. 3, 2026	June 24 – July 23	1,373	Estimated	\$564.90	\$472.21
July 2, 2026	May 27 – June 23	1,282	Estimated	\$527.06	\$434.37
June 4, 2026	Apr. 25 – May 26	1,467	Estimated (two meters)	\$600.97	\$508.28
Apr. 30, 2026	Mar. 27 – Apr. 24	1,257	Meter read	\$515.16	\$422.47
Apr. 2, 2026	Feb. 25 – Mar. 26	876	Meter read	\$364.51	\$271.82
Mar. 4, 2026	Jan. 27 – Feb. 24	758	Meter read	\$344.80	\$252.11
Feb. 2, 2026	Dec. 25, 2025 – Jan. 26	454	Meter read	\$213.94	\$121.25
Total				\$3,569.58	\$2,735.37

Current charges are PG&E delivery plus Redwood Coast Energy Authority generation, net of the California Climate Credit. They exclude prior balances.

10. PG&E agreed to remove the SmartMeter. In or about July 2026, Complainant spoke by phone with a PG&E representative. PG&E agreed to remove the SmartMeter and install a meter that can be read. PG&E has not done so.
11. Complainant filed an informal complaint. He filed it with the Commission's Consumer Affairs Branch about the meter and billing (File No. 747155). By letter dated September 15, 2026, CAB acknowledged the complaint and said it had asked PG&E for information about the account and Complainant's concerns. CAB also said its review would take at least 45 days (Exhibit B). That review is still pending.
12. PG&E now threatens disconnection. On October 5, 2026, Mr. Finen emailed Complainant a "Remediation 2nd Letter" for "1778 Patrick's Point Dr, Trinidad" (Exhibit A). The letter is dated October 2, 2026. It says PG&E first wrote about the issue on April 10, 2026, and states the problem as: "The access to the meter is too steep. Safe access should be provided according to Greenbook standards." It calls this an issue with "customer-owned electrical equipment on your property" and says: "Please correct this within 30 days to avoid service interruption." The meter and its location are PG&E's, not

Complainant's, and the meter is not on Complainant's property. Discontinuance would cut power to the Savage Creek Water Association pump and leave all nine homes it serves without water.

13. The condition PG&E complains of is its own. The meter, its location and its installation are PG&E's choices. PG&E read this meter at that location for years without raising any safety concern. Its letter calls the steep access a problem with "customer-owned electrical equipment," but the meter is PG&E's and sits where PG&E placed it, on land owned by a third party. Complainant has no right to build access on that land.
14. Timing. PG&E sent its October 2 letter, with a 30-day deadline to avoid service interruption, while Complainant's informal complaint about this same meter was pending before the Commission. CAB had already asked PG&E for information about the account (Exhibit B). PG&E pressed the cutoff anyway instead of waiting for the Commission's review.

III. Claims

15. Inadequate service and facilities (Pub. Util. Code §451). Every public utility must "furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities" as are necessary for its customers. PG&E chose a meter location it now calls unsafe and installed a meter that can't communicate there. It also stopped reading the meter. Its facilities and service at this account are not adequate.
16. Billing on estimates instead of actual use (PG&E Electric Rules 9 and 17.1). PG&E must bill on metered usage and must correct bills that are based on estimates or billing errors. PG&E has billed estimates for five straight months (June through October 2026) instead of reading its own meter or arranging a readable one. The estimates exceed actual use. For August and September 2026 they exceed the most the Association's 2 hp pump can draw under its 30-minute timer (§19).
17. Failure to perform its agreement and to provide the opt-out meter (Schedule E-SOP). PG&E offers customers a non-communicating meter under its SmartMeter opt-out program. PG&E agreed to remove the SmartMeter and has not. Because the SmartMeter can't communicate at this location, it gives PG&E no benefit there. Charging Complainant opt-out fees to fix PG&E's own non-functioning installation would be unjust and unreasonable under §451.
18. Improper threatened discontinuance (Electric Rule 11; §451). Any hazard here comes from PG&E's own meter and installation, which PG&E is responsible for correcting. The only problem PG&E identifies is steep access to its own meter, not any defect in Complainant's equipment. Discontinuing service to a water pump to resolve PG&E's own equipment problem, while a Commission complaint about that equipment is pending, is unjust and unreasonable.
19. Threatening to cut off a water supply while a Commission complaint is pending (§451). PG&E's October 2 letter threatens to interrupt service within 30 days over access to PG&E's own meter. It did so while informal complaint No. 747155 about that meter was pending and CAB had asked PG&E to respond. Cutting off power would leave nine homes without water. Pressing a cutoff of an essential water supply over a dispute already before the Commission bypasses the Commission's complaint process. It is not the just and reasonable service §451 requires, and it warrants an order barring disconnection while this proceeding is pending.

20. Wrong service address. PG&E's records place the meter at 1778 Patrick's Point Drive, property of an unrelated person, where the meter is not located. PG&E's notices are misdirected as a result, and its records should be corrected.

IV. Relief Requested

The relief requested is stated in full in the "Wherefore" section of the Formal Complaint Form (items 1-9): interim relief barring disconnection and collection on disputed charges while this complaint is pending (items 1-2), and final relief ordering PG&E to relocate the meter at its expense, install a non-communicating meter without opt-out fees, read the meter, re-bill on actual usage with a refund or credit of at least \$2,735.37 plus interest, produce meter data and test both meters, correct the service address, bear the cost of safe access to its meter, and grant other just relief (items 3-9).

Reservation of rights. Complainant understands the Commission does not award damages. He reserves all rights to seek damages, including under Public Utilities Code §2106, in a court of competent jurisdiction. This includes damages arising from PG&E's threat to disconnect his water pump.

During an inspection of PG&E-owned equipment, we found an issue with the customer-owned electrical equipment on your property. Please correct this within 30 days to avoid service interruption.

Dear Mr. Martin:

On April 10, 2026, Pacific Gas and Electric Company (PG&E) mailed you a letter to let you know that a PG&E technician found a problem with the **electrical equipment at 1778 Patrick's Point Drive, Trinidad**. We want to remind you that the issue requires your immediate attention so we may continue to safely provide you with service. Please contact a licensed contractor to correct this issue as soon as possible to ensure your equipment is working safely and properly.

Here are the details about the problem we discovered. If you have any questions, please call me at [\(209\) 619-6560](tel:(209)619-6560)

- We are unable to work on your equipment due to the following problem identified by a PG&E Technician:

The access to the meter is too steep. Safe access should be provided according to Greenbook standards

Although a follow up visit within 30 days has already been scheduled, please let me know when the issue has been addressed so PG&E can provide service in a timelier manner.

Your safety is our top priority. We are proud to be your local energy provider, and we consider it a privilege to serve your needs.

Sincerely,

Jonathan Finen
Field Metering Supervisor
Pacific Gas and Electric Company

Dear Peter Martin:

The Consumer Affairs Branch (CAB) of the California Public Utilities Commission (CPUC) assists consumers with resolving regulated complaints against their utility providers. CAB is reviewing the complaint you have submitted against **Pacific Gas & Electric Company**.

As part of our review process, we asked that the utility provide CAB with information about your account and to specifically address your concerns. We will review the information provided by you and the utility and verify whether the utility has followed all the applicable CPUC Rules and Regulations.

After completing our review, we will contact you in writing to inform you of our conclusion. Generally, you should expect our review to take a *minimum* of at least forty-five calendar (45) days. If we find the process needs to take additional time due to the complexities of your case, we will notify you in writing. Please keep a record of the file number as shown above and have it available if you contact us regarding your case. We appreciate the opportunity to assist you.

Sincerely,

Written Operations Unit
Consumer Affairs Branch

Rules and rates

You may be eligible for a lower rate. To learn more about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

Tier 1/Baseline allowance: Some residential rates are given a Tier 1/Baseline allowance - a CPUC approved percentage of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00778 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to \$0.00778 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

Proposition 65 WARNING

The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the Governor to publish a list of chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. It also requires California businesses to warn the public quarterly of potential exposures to these chemicals that result from their operations.

Pacific Gas and Electric Company (PG&E) uses chemicals in our operations that are known to the State of California to cause cancer, birth defects or other reproductive harm.

For example, PG&E delivers natural gas to our customers and uses natural gas and petroleum products in our operations. Natural gas and petroleum products contain benzene, a known carcinogen. PG&E also uses lead-based paint on some of our towers or other facilities at locations throughout PG&E's service territory and uses wooden utility poles treated with wood preservatives. Lead-based paint and wood preservatives contain chemicals known to cause cancer, birth defects or other reproductive harm.

For more information, go to www.p65warnings.ca.gov.

Thank you for being a valued customer of the Redwood Coast Energy Authority (RCEA). Established in 2003, RCEA is a locally-governed public agency providing a wide range of energy services to the community. We procure electricity on behalf of Humboldt County residents and businesses to provide greater choice while increasing the use of renewable energy. Electricity from RCEA is delivered to you by PG&E, who remains an essential partner for power distribution, service, and billing. To learn more about RCEA's energy services, please visit RedwoodEnergy.org or call 1-707-269-1700. RCEA is committed to protecting customer privacy. Our customer confidentiality policy may be viewed at RedwoodEnergy.org/privacy/

Daily Usage Comparison

Important Messages

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

Rules and rates

You may be eligible for a lower rate. To learn more about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

The electricity portion of your bill contains a Base Services Charge that funds essential services and infrastructure. To learn more, visit pge.com/baseservicescharge.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00857 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to \$0.00857 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

Electric power line safety PG&E cares about your safety. Be aware of your surroundings and keep yourself, tools, equipment and antennas at least 10 feet away from overhead power lines. If you see an electric power line fall to the ground, keep yourself and others away. Call **9-1-1**.

Call 811 before you dig. A common cause of pipeline accidents is damage from digging. If you plan on doing any digging, such as planting a tree or installing a fence, please call **811** at least two working days before you dig. One free call will notify underground utilities to mark the location of underground lines, helping you to plan a safe project.

Rules and rates

You may be eligible for a lower rate. To learn more about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

The electricity portion of your bill contains a Base Services Charge that funds essential services and infrastructure. To learn more, visit pge.com/baseservicescharge.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00857 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to \$0.00857 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

Proposition 65 WARNING

The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the Governor to publish a list of chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. It also requires California businesses to warn the public quarterly of potential exposures to these chemicals that result from their operations.

Pacific Gas and Electric Company (PG&E) uses chemicals in our operations that are known to the State of California to cause cancer, birth defects or other reproductive harm.

For example, PG&E delivers natural gas to our customers and uses natural gas and petroleum products in our operations. Natural gas and petroleum products contain benzene, a known carcinogen. PG&E also uses lead-based paint on some of our towers or other facilities at locations throughout PG&E's service territory and uses wooden utility poles treated with wood preservatives. Lead-based paint and wood preservatives contain chemicals known to cause cancer, birth defects or other reproductive harm.

For more information, go to www.p65warnings.ca.gov.

Important Messages (continued from page 1)

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

The Family Electric Rate Assistance (FERA) Program provides a monthly discount on electric bills for income-qualified households of three or more persons. To see if you qualify, please call **1-800-PGE-5000** or apply online at www.pge.com/fera.

El Programa FERA ofrece ahorros mensuales sólo en las facturas de electricidad a hogares de ingresos económicos bajos y medianos con tres o más personas. Para determinar si califica, por favor llame al **1-800-PGE-5000** o puede aplicar a través de nuestra página web www.pge.com/fera.

Energy Savings Assistance Program: provides free home improvements to help keep your home more energy efficient, safe and comfortable. Apply by answering a few simple questions at www.pge.com/energysavings or call **1-800-933-9555**.

Programa Energy Savings Assistance: proporciona mejoras al hogar sin costo para ayudar a que este sea más eficiente en el consumo de energía, más seguro y más cómodo. Solicite respondiendo a unas pocas preguntas simples en www.pge.com/ahorreenergia o llamando al **1-800-933-9555**.

Electric Monthly Billing History

Daily Usage Comparison

Important Messages

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

Rules and rates

You may be eligible for a lower rate. To learn more about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

The electricity portion of your bill contains a Base Services Charge that funds essential services and infrastructure. To learn more, visit pge.com/baseservicescharge.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00857 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to \$0.00857 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

RATE PLAN COMPARISON

www.pge.com/MyEnergy

Account No: 4184106975-4

Service Agreement ID: 4182762900

Service For: 1778 PATRICKS POINT

You have electric rate plan options

PG&E and Redwood Coast Energy Authority have Time-of-Use rate plan options that encourage the use of cleaner, renewable energy when it is most available, and that encourage less energy use when demand is highest. Each of these rate plans give you the opportunity to control your costs by managing how much and when you use electricity. Go to pge.com/myrate to view your household's electricity usage and compare rate plan options. For assistance, visit pge.com/helpcenter.

Your Personalized Electric Rate Plan Comparison

Annual estimates below are based on your past 12 months of electricity usage and assumes no change to how you use energy. Visit pge.com/myrate to review your report online and to also change your rate plan.

Your Current Rate Plan	Optional Rate Plan	Optional Rate Plan	Optional Rate Plan
Tiered Rate Plan (E-1)	Home Charging (Non-tiered, Time-of-Use) (EV2-A)*	Electric Home Rate Plan (E-ELEC)*	Time-of-Use (Peak Pricing 5 - 8 p.m. Weekdays) (E-TOU-D)
Features multiple pricing levels, known as tiers. As you use up your electricity allowance for each tier during the billing period, you move to the next, higher-priced tier. Visit pge.com/rates .	For customers with Electric Vehicles (EV), battery storage, and/or electric heat pump. Price of electricity varies based on the time-of-use each day. Customers using over 800% of Baseline Allowance in the last 12 months are ineligible. Visit pge.com/evrates .	For customers with Electric Vehicles (EV), battery storage, and/or heat pump space conditioning/water heater. Prices vary based on when electricity is used each day. Visit pge.com/electrichome .	Prices vary based on when electricity is used each day. Reduce some usage during higher priced times between 5 - 8 p.m. on weekdays. This rate plan has no baseline allowance. Visit pge.com/rates .
\$2,740/annual	\$2,150/annual	\$2,305/annual	\$2,530/annual

*E-ELEC and EV2-A rate plans are only available for those customers who have one or more: electric vehicle(s), battery storage, electric heat pump water heater and/or electric heat pump space conditioner (HVAC).

Online rate plan comparisons are frequently updated to reflect your past usage. Annual bill estimates on this report may not exactly match annual estimates provided online. Current rates in effect at the time of the report.

This comparison looks back at your available historical interval usage over the past 12 months and uses that information to depict what you would have paid over that same period had you been on a different rate plan (without any change in usage patterns). Because your future usage may differ, your actual savings could differ from your historical results. Rate plan comparisons are provided for illustrative purposes only and do not constitute a representation or recommendation by PG&E. This comparison is based on current rates, which are subject to change, as approved by the CPUC. This comparison does not include other fees such as local utility user taxes, certain other taxes, surcharges, and fees. PG&E cannot guarantee the accuracy, completeness, or usefulness of rate plan information or the estimated cost information displayed. PG&E expressly disclaims any and all liability for any damages of any nature (including direct, indirect, incidental and consequential) arising in connection with the use of rate plan comparisons.

Additional Messages

As of March 2026, your electric bill separates some fixed service costs from the price per kWh. Most customers have a Base Services Charge of approximately \$24 per month and the cost of electricity is lowered. Visit pge.com/baseservicescharge.

Your energy use this month exceeded four times your Baseline Allowance (Tier 1). This is significantly above typical household usage. Visit www.pge.com/tips on ways to reduce your electric use.

This is an estimated bill We were not able to read the meter(s) due to insufficient billing information. As a result, we estimated your energy usage for this bill. We are currently reviewing your PG&E account to determine your correct energy usage. Please call **1-800-743-5000** if you would like more information, or have any questions.

Additional Messages

Thank you for being a valued customer of the Redwood Coast Energy Authority (RCEA). Established in 2003, RCEA is a locally-governed public agency providing a wide range of energy services to the community. We procure electricity on behalf of Humboldt County residents and businesses to provide greater choice while increasing the use of renewable energy. Electricity from RCEA is delivered to you by PG&E, who remains an essential partner for power distribution, service, and billing. To learn more about RCEA's energy services, please visit RedwoodEnergy.org or call 1-707-269-1700. RCEA is committed to protecting customer privacy. Our customer confidentiality policy may be viewed at RedwoodEnergy.org/privacy/

Proposition 65 WARNING

The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the Governor to publish a list of chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. It also requires California businesses to warn the public quarterly of potential exposures to these chemicals that result from their operations.

Pacific Gas and Electric Company (PG&E) uses chemicals in our operations that are known to the State of California to cause cancer, birth defects or other reproductive harm.

For example, PG&E delivers natural gas to our customers and uses natural gas and petroleum products in our operations. Natural gas and petroleum products contain benzene, a known carcinogen. PG&E also uses lead-based paint on some of our towers or other facilities at locations throughout PG&E's service territory and uses wooden utility poles treated with wood preservatives. Lead-based paint and wood preservatives contain chemicals known to cause cancer, birth defects or other reproductive harm.

For more information, go to www.p65warnings.ca.gov.

Heat Source B - Not Electric
Serial C
Rotating Outage Block 50

Additional Messages

As of March 2026, your electric bill separates some fixed service costs from the price per kWh. Most customers have a Base Services Charge of approximately \$24 per month and the cost of electricity is lowered. Visit pge.com/baseservicescharge.

Your energy use this month exceeded four times your Baseline Allowance (Tier 1). This is significantly above typical household usage. Visit www.pge.com/tips on ways to reduce your electric use.

This is an estimated bill We were not able to read the meter(s) due to insufficient billing information. As a result, we estimated your energy usage for this bill. We are currently reviewing your PG&E account to determine your correct energy usage. Please call **1-800-743-5000** if you would like more information, or have any questions.

Additional Messages

Thank you for being a valued customer of the Redwood Coast Energy Authority (RCEA). Established in 2003, RCEA is a locally-governed public agency providing a wide range of energy services to the community. We procure electricity on behalf of Humboldt County residents and businesses to provide greater choice while increasing the use of renewable energy. Electricity from RCEA is delivered to you by PG&E, who remains an essential partner for power distribution, service, and billing. To learn more about RCEA's energy services, please visit RedwoodEnergy.org or call 1-707-269-1700. RCEA is committed to protecting customer privacy. Our customer confidentiality policy may be viewed at RedwoodEnergy.org/privacy/

Important Messages (continued from page 1)

Don't miss important alerts - make sure your contact information and preferences are current to receive power outage, safety, and service appointment reminders. Log in at pge.com and go to **Settings** to review your contact information and notification preferences or call **1-800-743-5000** for assistance.

The Family Electric Rate Assistance (FERA) Program provides a monthly discount on electric bills for income-qualified households of three or more persons. To see if you qualify, please call **1-800-PGE-5000** or apply online at www.pge.com/fera.

El Programa FERA ofrece ahorros mensuales sólo en las facturas de electricidad a hogares de ingresos económicos bajos y medianos con tres o más personas. Para determinar si califica, por favor llame al **1-800-PGE-5000** o puede aplicar a través de nuestra página web www.pge.com/fera.

CARE Program You may qualify for a monthly discount with the California Alternate Rates for Energy (CARE) Program. To find out more and apply online, visit www.pge.com/care.

Usted podría reunir los requisitos de un descuento mensual con el California Alternate Rates for Energy Program (CARE). Para obtener más información y hacer su solicitud en Internet, visite www.pge.com/espanol/care.

Energy Savings Assistance Program: provides free home improvements to help keep your home more energy efficient, safe and comfortable. Apply by answering a few simple questions at www.pge.com/energysavings or call **1-800-933-9555**.

Programa Energy Savings Assistance: proporciona mejoras al hogar sin costo para ayudar a que este sea más eficiente en el consumo de energía, más seguro y más cómodo. Solicite respondiendo a unas pocas preguntas simples en www.pge.com/ahorreenergia o llamando al **1-800-933-9555**.

Electric power line safety PG&E cares about your safety. Be aware of your surroundings and keep yourself, tools, equipment and antennas at least 10 feet away from overhead power lines. If you see an electric power line fall to the ground, keep yourself and others away. Call **9-1-1**.

Call 811 before you dig. A common cause of pipeline accidents is damage from digging. If you plan on doing any digging, such as planting a tree or installing a fence, please call **811** at least two working days before you dig. One free call will notify underground utilities to mark the location of underground lines, helping you to plan a safe project.

Rules and rates

You may be eligible for a lower rate. To learn more about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, please call **1-800-743-5000** to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch (CAB), 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, 1-800-649-7570 or 7-1-1 (8:30 AM to 4:30 PM, Monday through Friday) or by visiting www.cpuc.ca.gov/complaints/.

To avoid having service turned off while you wait for the outcome of a complaint to the CPUC specifically regarding the accuracy of your bill, please contact CAB for assistance. If your case meets the eligibility criteria, CAB will provide you with instructions on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is under review to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Rotating outage blocks are subject to change without advance notice due to operational conditions.

The electricity portion of your bill contains a Base Services Charge that funds essential services and infrastructure. To learn more, visit pge.com/baseservicescharge.

Wildfire Fund Charge: Charge on behalf of the State of California Department of Water Resources (DWR) to fund the California Wildfire Fund. For usage prior to October 1, 2020, this charge included costs related to the 2001 California energy crisis, also collected on behalf of the DWR. These charges belong to DWR, not PG&E.

Power Charge Indifference Adjustment (PCIA): The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca.

Wildfire Hardening Charge: PG&E has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. Your bill for electric service includes a fixed recovery charge called the Wildfire Hardening Charge that has been approved by the CPUC to repay those bonds. The right to recover the Wildfire Hardening Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to PG&E. PG&E is collecting the Wildfire Hardening Charge on behalf of the Special Purpose Entity. For details visit: www.pge.com/tariffs/assets/pdf/tariffbook/ELEC_PRELIM_JF.pdf.

Recovery Bond Charge/Credit: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00857 per kWh. PG&E has also contributed certain amounts to a trust fund which is used to provide a customer credit equal to \$0.00857 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to one or more Special Purpose Entities that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entities.

Gas Public Purpose Program (PPP) Surcharge. Used to fund state-mandated gas assistance programs for low-income customers, energy efficiency programs, and public-interest research and development.

Visit www.pge.com/billexplanation for more definitions. To view most recent bill inserts including legal or mandated notices, visit www.pge.com/billinserts.

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

CARE Program You may qualify for a monthly discount with the California Alternate Rates for Energy (CARE) Program. To find out more and apply online, visit www.pge.com/care.

Additional Messages

As of March 2026, your electric bill separates some fixed service costs from the price per kWh. Most customers have a Base Services Charge of approximately \$24 per month and the cost of electricity is lowered. Visit pge.com/baseservicescharge.

You received a **California Climate Credit** on your electric bill. Learn how you can use these savings to further reduce your energy costs and help fight climate change at cpuc.ca.gov/climatecredit.

This is an estimated bill We were not able to read the meter(s) due to insufficient billing information. As a result, we estimated your energy usage for this bill. We are currently reviewing your PG&E account to determine your correct energy usage. Please call **1-800-743-5000** if you would like more information, or have any questions.

Additional Messages

Thank you for being a valued customer of the Redwood Coast Energy Authority (RCEA). Established in 2003, RCEA is a locally-governed public agency providing a wide range of energy services to the community. We procure electricity on behalf of Humboldt County residents and businesses to provide greater choice while increasing the use of renewable energy. Electricity from RCEA is delivered to you by PG&E, who remains an essential partner for power distribution, service, and billing. To learn more about RCEA's energy services, please visit RedwoodEnergy.org or call 1-707-269-1700. RCEA is committed to protecting customer privacy. Our customer confidentiality policy may be viewed at RedwoodEnergy.org/privacy/

Proposition 65 WARNING

The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the Governor to publish a list of chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. It also requires California businesses to warn the public quarterly of potential exposures to these chemicals that result from their operations.

Pacific Gas and Electric Company (PG&E) uses chemicals in our operations that are known to the State of California to cause cancer, birth defects or other reproductive harm.

For example, PG&E delivers natural gas to our customers and uses natural gas and petroleum products in our operations. Natural gas and petroleum products contain benzene, a known carcinogen. PG&E also uses lead-based paint on some of our towers or other facilities at locations throughout PG&E's service territory and uses wooden utility poles treated with wood preservatives. Lead-based paint and wood preservatives contain chemicals known to cause cancer, birth defects or other reproductive harm.

For more information, go to www.p65warnings.ca.gov.

Important Messages (continued from page 1)

Tier 1/Baseline allowance: Some residential rates are given a Tier 1 baseline allowance - a CPUC approved percent of average customer usage during summer and winter months. Your Tier 1/Baseline allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for usage. Any usage over your baseline allowance will be charged at a higher price.

Electric power line safety PG&E cares about your safety. Be aware of your surroundings and keep yourself, tools, equipment and antennas at least 10 feet away from overhead power lines. If you see an electric power line fall to the ground, keep yourself and others away. Call **9-1-1**.

Your Electric Charges Breakdown (from page 2)

Conservation Incentive	\$6.65
Transmission	29.97
Distribution	120.39
Electric Public Purpose Programs	12.92
Nuclear Decommissioning	-0.01
