Subject: A.25-12-019 E-Mail Ruling Granting Mission:data Coalition Party Status

On August 25, 2026, Mission:data Coalition (Mission:data) filed a motion for party status. Rule 1.4 of the Commission's Rules of Practice and Procedure addresses participation in Commission proceedings. Pursuant to Rule 1.4(b), a person seeking party status by motion shall:

- a. Fully disclose the persons or entities in whose behalf the filing, appearance or motion is made, and the interest of such persons or entities in the proceeding; and
- b. State the factual and legal contentions that the person intends to make and show that the contentions will be reasonably pertinent to the issues already presented.

Rule 1.4(c) states that the assigned Administrative Law Judge may, where circumstances warrant, deny party status or limit the degree to which a party may participate in the proceeding.

With respect to Rule 1.4(b)(1), Mission:data states it is a not-for-profit social welfare organization with approximately twenty-five members that are primarily software and energy management companies.

With respect to Rule 1.4(b)(2), Mission:data states that it intends to present evidence and arguments addressing whether:

- Southern California Gas Company's (SoCalGas') Advanced Meter Infrastructure Replacement (AMIR) Project adequately preserves and improves customers' ability to access their usage and authorize third parties to receive that data;
- SoCalGas has specified sufficient interoperability, availability, latency, completeness, and continuity requirements for the data-sharing systems on which customers and authorized third parties rely;
- The proposed systems and standards will support customer-authorized third-party access without unreasonable technical or commercial barriers;
- SoCalGas' transition and continuity plans adequately protect customers and authorized third parties from data interruptions during meter replacement and backend-system migration;
- The claimed customer, affordability, and environmental benefits of the AMIR Project that depend on data-access capabilities have been adequately specified or supported in the Application; and
- The cost-effectiveness and public-interest showing is adequate in light of these data-access considerations.

Therefore, IT IS RULED, the motion is granted; Mission:data meets the requirements of Rule 1.4(b) and is granted party status.

THE DOCKET OFFICE SHALL FORMALLY FILE THIS RULING.

Ehren Seybert for Patrick Petersen
