NOTICE OF APPEAL

Nicole Ryan on behalf of Winchester Civil, files this Notice of Appeal from Citation issued on 10/12/2026 with the amount of n/a. An extension was granted by CPED (if applicable) to N/A file this appeal.

The rationale for this appeal is as follows: The denial was made based on the fact that stock certificates showed improper ownership, while other documents showed 51% Nicole Ryan and 49% Leif Ryan. Upon further review by Nicole it was discovered that there was a clerical error during corporation set up. I (Nicole) reached out to the organization who put our documents together and asked if they could sign a letter stating the ownership on the stock certificates was a clerical error and it was intended to always be 51%/ 49% (510/ 490). This letter is included in attachments. The Supplier Clearinghouse stated my denial was based on the wrong stock certificates and I ask that with this Letter of Clerical Error, the decision to be reconsidered.
