Joint Working Group Report

Report of Southern California Edison Company (SCE), Pacific Gas and Electric Company (PG&E), and San Diego Gas & Electric Company (SDG&E) Regarding October 22, 2026 Meeting of the Joint Utility Public Safety Power Shutoff Working Group, Pursuant to Ordering Paragraph (OP) 4 of Decision (D.) 21-06-014

Introduction

In D. 21-06-014, the California Public Utilities Commission (CPUC or Commission) created a collaborative effort among the three large California investor-owned electric utilities (the IOUs) to provide a forum to "share all lessons learned and best practices"[1] pertaining to a variety of topics.[2] This collaborative effort is known as the Joint Utility Public Safety Power Shutoff (PSPS) Working Group. D.21-06-014 requires the IOUs to serve and file a report within 14 days after each meeting that includes, at a minimum, the date/time, attendees, topics discussed, and action items for each utility.[3] This report provides the required data in compliance with D.21-06-014.

5. Roundtable
    a. SCE will send a 12 month schedule for next year's meetings so that the meetings do not have to be scheduled month-to-month.
    b. SCE observed that with the maturity of the Joint Utility PSPS Working Group, the three participant teams schedule meetings and discussions as needed, and the formal monthly review cadence for the Joint Utility Working Group meeting is less productive. The Regulatory subcommittee will review the requirement for Joint Utility PSPS Working Group meetings to see if the monthly cadence is required or whether these meetings could be moved to a less frequent and more responsive cadence.

6. Action items
    a. SDG&E to host next month’s working group meeting.
        i. Proposed date: November 19, 2026.
