Subject: R.25-06-019: Ruling Modifying Comment Schedule for the Bundled Procurement Plans

To Parties of Rulemaking 25-06-019:

This ruling hereby modifies the schedule for the Bundled Procurement Plans:

Event	Current Deadline	New Filing Deadline
Opening Comments	November 13, 2026	December 13, 2026
Reply Comments	December 18, 2026	January 8, 2027

This is the final schedule of activities for the Bundled Procurement Plans. This schedule of activities shall not be modified any further.

It is so **RULED.**

The Docket Office Shall Formally File This Ruling.

Subject: [EXTERNAL] Re: R.25-06-019: Rule 11.6 Motion for Extension of Time to Submit Comments on BPPs

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Administrative Law Judges Rizzo and Fitch:

In accordance with Rule 11.1(f), CalCCA respectfully requests leave to provide this brief reply to clarify the discovery chronology addressed in SDG&E's response and update the status of its extension request.

- **October 15**: CalCCA served its second data request, including DR 2.05, requesting the documentation supporting SDG&E's QCRs associated with certain year-ahead RA solicitations.
- **October 29**: SDG&E requested clarification and, before CalCCA could respond to that request, served a response to DR 2.05 containing objections and a general description of information that QCR submissions may contain, but no responsive QCRs or attachments.
- **Between October 29 and November 2**: Because the request for QCR documentation had not resulted in production of the QCRs and relevant attachments, CalCCA's legal and technical teams conferred to develop a detailed list of the requested materials to facilitate production.
- **November 2**:
    - CalCCA provided that detailed clarification. In the same email, CalCCA also requested confirmation whether SDG&E would supplement its response and whether a meet and confer would be productive. CalCCA explained that if not, it would move to a motion

to compel. CalCCA provided this email over three hours before submitting its extension request.
    - SDG&E subsequently responded seeking further clarification as to the scope of the request. SDG&E did not confirm whether it would supplement its response, or whether a meet and confer would be productive.
    - CalCCA promptly provided that clarification, and again requested confirmation as to whether SDG&E would supplement its response.
    - SDG&E did not respond.
- **November 3**: SDG&E supplemented its response and produced the requested documents that afternoon. CalCCA appreciates that production and is reviewing the materials.

CalCCA's continued request for an extension of time to compile its BPP Comments is based on the following:

- **DR 2.05 Dispute and Eventual SDG&E Production:**
    - DR 2.05 seeks documents material to CalCCA's analysis and preparation of its BPP Ruling Comments, including information needed to address Energy Division's questions at the BPP Workshop regarding CalCCA's concerns about SDG&E's reported Unsold RA.
    - At the time CalCCA submitted its extension request and referred to the dispute over DR 2.05, its concern was the combination of SDG&E's objections, an answer that did not provide the requested documents, the absence of confirmation that SDG&E would supplement its response, and a failure to respond to CalCCA's offers to meet and confer.
    - At the time of CalCCA's extension request, SDG&E was on notice that CalCCA would pursue a motion to compel for DR 2.05.
    - SDG&E subsequently produced a fulsome response to DR 2.05 yesterday afternoon (November 3), after the extension request was submitted. While the production is a welcome development, it does not restore the time available for analysis for the BPP Comments due November 13.
- **DR 01 Discovery Delay:**
    - The discovery delay addressed in SDG&E's opposition concerns its responses to CalCCA's first data request, DR 01. That delay, which SDG&E stated was a result of the request "slipping through the cracks," had already compressed CalCCA's time to conduct its analysis and prepare comments. SDG&E's explanation for the DR 01 delay does not change its practical effect on CalCCA's work.

While CalCCA provides the above clarifications for the Commission's awareness, **CalCCA's request is directed to obtaining sufficient time to prepare informed comments, not attributing fault for the discovery timeline**. With the DR 2.05 production issue now resolved, CalCCA is open to a shorter extension, but needs at least two additional weeks after the initial deadlines for adequate analysis of the new substantial data. If the existing deadlines are retained, CalCCA requests leave to supplement its comments as necessary to address the recently produced materials.

Thank you again for your consideration.

Respectfully,
Alissa Greenwald
Counsel for CalCCA

On Wed, Nov 4, 2026 at 4:54 PM Merlo, Ashley (Law) <AHMW@pge.com> wrote:
Dear Administrative Law Judges Rizzo and Fitch,

Pursuant to Rule 11.1(e), PG&E joins in the respective oppositions of SDG&E and SCE to CalCCA's motion for an extension of time submitted on November 2, 2026. PG&E opposes the requested extension on the same grounds set forth in those oppositions. PG&E further states that it has timely and fully responded to all discovery served by CalCCA and has received no indication from CalCCA that any of its responses are inadequate.

Accordingly, PG&E respectfully requests that CalCCA's motion be denied for lack of just cause.
Respectfully,
Ashley E. Merlo | Senior Counsel, Law (Strategy & Policy)
Pacific Gas and Electric Company

Subject: RE: R.25-06-019: Rule 11.6 Motion for Extension of Time to Submit Comments on BPPs

!!! EXTERNAL SENDER !!!

This email came from outside PG&E. Think before you click. Be extra wary of links, attachments, providing sensitive information, and QR Codes. If this email seems suspicious, use the **REPORT PHISH BUTTON.**

Dear Administrative Law Judges Rizzo and Fitch:

As provided for in Rule 11.1(e), SCE writes to oppose CalCCA's motion for extension of time dated November 2, 2026 (Motion).

CalCCA seeks to extend deadlines for all parties to file opening and reply comments in this proceeding by four weeks. To justify its request, CalCCA offers one sentence in which it claims that discovery delays have hindered its ability to develop opening comments. CalCCA provides neither documentary support for, nor any further explanation of, the factual basis for its request. This proceeding is focused on updating the Investor Owned Utility (IOU) Bundled Procurement Plans (BPPs), which, as reflected in the ALJ Ruling dated August 17, 2026 (ALJ Ruling), are fundamentally about the interests and procurement needs of the IOUs' bundled service customers. Given CalCCA's relatively narrow interests in this proceeding as reflected in its presentation at the September 21, 2026 Energy Division Workshop, the justification provided in the Motion is extraordinarily thin, unsubstantiated, and does not rise to the level of good cause shown. San Diego Gas & Electric's response below raises the troubling prospect that CalCCA's additional reliance on an ongoing "discovery dispute" to justify its request bears only a loose relationship to the facts.

At this point, parties have had since mid-August to develop opening comments responsive to the ALJ Ruling and have had the IOUs' proposed BPP updates since June 1. With the opening-comment deadline now less than two weeks away, SCE has substantially completed its draft comments, which are being finalized and routed through internal review. A four-week extension at this late stage would prejudice SCE and other parties. It would principally benefit CalCCA, while requiring SCE and other parties that have planned around and substantially complied with the existing schedule to readjust their workloads. The proposed extension would push the BPP comment schedule into periods when many of the same SCE personnel will be supporting filing deadlines in other proceedings, including the 2027 ERRA Forecast and 2026 RPS Plan in early-to-mid December, and the 2026 RPS Plan and PCIA OIR Track 3a in mid-to-late January.

Under these circumstances, SCE submits that it is not reasonable to disrupt the existing schedule for all parties in this proceeding to accommodate CalCCA's continued development of its positions. SCE respectfully requests that CalCCA's Motion be denied.

SCE also respectfully requests that the ALJs deny CalCCA's preemptive request for leave to supplement its comments. Granting this request now would prejudge the equitable balance of interests the ALJs should consider for such a request when CalCCA has provided little factual justification and no indication of the timing of its prospective supplement. At this time, it is impossible for the ALJs or parties to assess the procedural impact of CalCCA's supplemental comments, which may warrant responsive party comments that could further disrupt the proceeding schedule.

Thank you,

Dan Culhane
Senior Attorney

Subject: (External):RE: [EXTERNAL] R.25-06-019: Rule 11.6 Motion for Extension of Time to Submit Comments on BPPs

Dear Administrative Law Judges Rizzo and Fitch:

In accordance with Rule 11.1(e), SDG&E provides this response to the motion for extension of time (Motion) submitted by CalCCA on November 2, 2026. For the reasons discussed below, the Motion should be denied.

In the Motion, CalCCA claims that "[d]elays in receiving responses to CalCCA's data requests have hindered CalCCA's ability to complete its analysis and prepare corresponding comments." It further alleges that "a discovery dispute concerning requested confidential QCR submissions and relevant attachments remains unresolved," and that "a motion to compel may become necessary." CalCCA suggests that a four-week extension of the deadline for opening comments on the IOU Bundled Procurement Plans (BPPs) is necessary to account for these circumstances, with a corresponding delay in the deadline for reply comments.

CalCCA has confirmed to SDG&E that the "dispute" it references in the Motion relates to SDG&E's response to the second of three data requests propounded by CalCCA. CalCCA's service of the Motion was the first that SDG&E was aware that it was involved in a "dispute" with CalCCA. In its response to CalCCA's second data request, SDG&E stated applicable objections to each question in order to preserve those objections, which is standard practice in discovery, and provided timely responses to each of the five questions included in the data request. One question included in the data request was vague and confusingly worded; SDG&E objected to the question on those grounds but provided an answer that it believed was responsive to the question, as SDG&E understood it. SDG&E timely submitted the data request response to CalCCA on October 29 and also sent an email to CalCCA requesting clarification of the data request question at issue. Taken together, SDG&E believes that the circumstances made

perfectly clear that SDG&E would supplement the data request as necessary if its answer to the data request did not include the information CalCCA was seeking.

Although CalCCA acknowledged receipt of SDG&E's email requesting clarification on October 29, it did not provide a response to SDG&E's email until November 2, approximately one hour before it served the Motion. Upon receipt of CalCCA's clarification, SDG&E acknowledged CalCCA's response and confirmed its understanding of the amended data request and the information CalCCA was requesting.

Shortly after this response from SDG&E, CalCCA served its request for extension, which represented to the Commission that a discovery "dispute" existed and that a motion to compel might be necessary, and cited this purported dispute as contributing to the need for a one-month extension of the comment filing deadline. SDG&E submits that this claim by CalCCA did not fairly or accurately represent the relevant circumstances at the time it was made to the Commission, and certainly does not now. SDG&E received CalCCA's clarification and amended data request on November 2 and supplemented the data request on November 3, providing the documents sought by CalCCA. As far as SDG&E is aware, there are currently no outstanding data requests or areas of "dispute" related to discovery propounded by CalCCA.

CalCCA's non-specific reference to "delays" in discovery is equally problematic. While there was a delay in SDG&E's response to CalCCA's first data request, SDG&E believes that this delay was reasonable given that CalCCA's first data request sought confidential data requests from past ERRA proceedings *during* the period when SDG&E's ERRA team was preparing the October Update to be filed in the current ERRA Forecast proceeding. Given resource constraints and the need for coordination between IRP and ERRA teams to search SDG&E's files for years-old data request responses and to prepare the confidential response, additional time was required. CalCCA is a party to the ERRA Forecast proceeding and is presumably well aware of the challenging timeline associated with the October Update. SDG&E provided responses to CalCCA's first data request well before the comment filing deadline; CalCCA's unsupported claim that the delay had a material impact on its ability to prepare its comments is unconvincing.

More broadly, SDG&E is concerned about potential misuse of the discovery process and CalCCA's reliance on unfounded discovery-related claims to justify its request for significant additional time to prepare its comments. It is worth noting that *no other party* deemed it necessary to propound even one data request on SDG&E to prepare their comments on the policy issues arising from SDG&E's draft BPP. CalCCA, by contrast, propounded three separate data requests. While discovery can be a useful tool for developing issues to be considered by the Commission, use of the discovery process to conduct "fishing expeditions" and application of hardball tactics to de-position other parties is not appropriate.

The significant delay sought in the Motion cannot be justified given the reasonable amount of time provided to all parties under the current procedural schedule to develop their comments on the IOUs' BPPs. Given the general lack of interest in CalCCA's proposed extension, with only one party affirmatively supporting, it is reasonable to assume that most parties are fairly far along with preparation of their opening comments. Extending the relevant comment filings deadlines to December and January will create conflicts with deadlines in other proceedings, including PCIA, ERRA Compliance, and RA, and will impact SDG&E's ability to respond to opening comments on its BPP since the preparation period for reply comments would fall over the holidays. Accordingly, SDG&E opposes the extension request set forth in the Motion and respectfully requests that it be denied.

Respectfully,

Aimee Smith

Subject: [EXTERNAL] R.25-06-019: Rule 11.6 Motion for Extension of Time to Submit Comments on BPPs

Dear Administrative Law Judges Rizzo and Fitch,

Pursuant to Rule 11.6 of the Commission's Rules of Practice and Procedure, the California Community Choice Association (CalCCA) respectfully requests a four-week extension of the deadlines for parties to file opening and reply comments on the investor-owned utilities' (IOUs) Bundled Procurement Plans (BPPs) and the BPP workshop, as follows:

Event	Current Deadline	CalCCA Proposed Deadline
Opening comments on BPPs and workshop	November 13, 2026	December 11, 2026
Reply comments on BPPs and workshop	December 18, 2026	January 15, 2027

Good cause supports this request. Delays in receiving responses to CalCCA's data requests have hindered CalCCA's ability to complete its analysis and prepare corresponding comments. In addition, a discovery dispute concerning requested confidential QCR submissions and relevant attachments remains unresolved. CalCCA is seeking to resolve that dispute without Commission intervention, but a motion to compel may become necessary. The requested four-week extension accounts for the discovery delays, the intervening holidays, and the time that may be needed to resolve the dispute and review any resulting production.

Consistent with Rule 11.6, CalCCA requested party input on the proposed extension on October 29, 2026. CalCCA received the following responses:

- Dr. L. Jan Reid supports the request.
- GreenGenStorage does not oppose the request.
- Environmental Defense Fund does not oppose the request.
- Pacific Gas and Electric Company opposes the request.
- Southern California Edison Company opposes the request.
- San Diego Gas & Electric Company opposes the request.

In providing their feedback on CalCCA's requested extension, the IOUs argued that the requested extension is unnecessary and raised concerns about conflicts with work in other proceedings. SDG&E further stated that, notwithstanding the discovery delays, it has provided responses with sufficient time for CalCCA to develop its positions. CalCCA respectfully disagrees. The delays compressed the time for CalCCA to review the requested information, evaluate its implications, pursue any necessary follow-up, and incorporate that analysis into its comments. Moreover, the unresolved dispute leaves material information outstanding.

CalCCA recognizes the IOUs' concerns that the proposed deadlines may conflict with work in other proceedings. Those competing demands, however, must be weighed against CalCCA's need for a meaningful opportunity to review material discovery and incorporate that analysis into its comments. The requested four-week extension accounts for the discovery delays, the unresolved dispute and potential need for Commission resolution, and the intervening holidays that affect the time available to complete this work. It moves both deadlines by the same period and preserves the existing interval between opening and reply comments. On balance, the opportunity to develop a more complete and

informed record warrants this limited adjustment, notwithstanding the competing workload identified by the IOUs.

For these reasons, CalCCA respectfully requests that the deadline for all parties' opening comments on the BPPs and workshop be extended from November 13, 2026, to December 11, 2026, and that the deadline for all parties' reply comments be extended from December 18, 2026, to January 15, 2027.

In the alternative, if the Commission denies the requested extension and retains the existing deadlines, CalCCA respectfully requests that the Commission grant CalCCA leave to supplement its comments following resolution of the pending discovery dispute and review of any resulting production.

Thank you for your consideration.

Respectfully,

--
