BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA

Application of Pacific Gas and Electric Company for Compliance Review of Utility Owned Generation Operations, Portfolio Allocation Balancing Account Entries, Energy Resource Recovery Account Entries, Contract Administration, Economic Dispatch of Electric Resources, Utility Owned Generation Fuel Procurement, and Other Activities for the Record Period January 1 through December 31, 2025 U 39 E	Application No. 26-02-019 (Filed February 27, 2026)

PACIFIC GAS AND ELECTRIC COMPANY'S (U 39 E) MOTION TO SEAL THE EVIDENTIARY RECORD

In accordance with Rule 11.5(b) of the California Public Utilities Commission's ("Commission") Rules of Practice and Procedure, Pacific Gas and Electric Company ("PG&E") respectfully files this motion to seal portions of the evidentiary record offered into evidence as sought by the joint motion contemporaneously filed by PG&E and the Public Advocates Office of the Public Utilities Commission ("Cal Advocates") for entry of evidence into the record. The portions of the evidence sought to be admitted to the record and which PG&E seeks to protect as confidential are identified in Attachment A to this motion.

The exhibits identified in Attachment A contain confidential information pursuant to Public Utilities Code Section 454.5(g) and Decisions (D.) 06-06-066, D.08-04-023, D.14-10-033, and D.21-11-029. Portions of the exhibits submitted by each of the parties include confidential, market sensitive information based on PG&E's designation of this information as confidential and market sensitive.

Public Utilities Code Section 454.5(g) provides:

> The commission shall adopt appropriate procedures to ensure the confidentiality of any market sensitive information submitted in an electrical corporation's proposed procurement plan or resulting from or related to its

> approved procurement plan, including, but not limited to, proposed or executed power purchase agreements, data request responses, or consultant reports, or any combination, provided that the Office of Ratepayer Advocates and other consumer groups that are nonmarket participants shall be provided access to this information under confidentiality procedures authorized by the commission.

In D.06-06-066, the Commission adopted rules and procedures governing the submission of confidential energy procurement information to the Commission. Appendix 1 of D.06-06-066 provides the Commission's matrix governing the confidentiality of energy procurement data provided by Investor-Owned Utilities ("IOUs"). The Commission extended confidentiality protections to greenhouse gas ("GHG") related information in D.14-10-033.

In D.08-04-023, the Commission directed parties to make an oral or written motion for confidential treatment for material or testimony offered into evidence.[1] In a motion, a party must establish:

1. That the material it is submitting constitutes a particular type of data listed in the Matrix;
2. The category or categories in the Matrix to which the data correspond;
3. That it is complying with the limitations on confidentiality specified in the Matrix for that type of data;
4. That the information is not already public; and
5. That the data cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.[2]

The exhibits also contain other sensitive and confidential information subject to protection on other grounds as follows:

- California Government Code Section 7922.000 protects information from disclosure where the public interest in keeping such information confidential outweighs the public interest in their disclosure.[3]

[1] D.08-04-023, p. 21.
[2] D.06-06-066, Ordering Paragraph 2.
[3] *See* D.07-05-032 (modifying D.06-06-066) at 5, GO 66-D, Sec. 3.2.

- California Government Code Section 7927.705 protects from disclosure information which is exempted or prohibited to be disclosed pursuant to federal or state law, including, but not limited to, provisions of the Evidence Code relating to privilege.
- D.11-01-036 protects third party information that is subject to non-disclosure or confidentiality agreements or obligations.

Attached hereto as Attachment B is a table that: (1) describes the material for which PG&E seeks confidential treatment; (2) identifies the authority supporting confidentiality protection (D.06-06-066 and/or other authority); and (3) where PG&E seeks protection under D.06-06-066, the category or categories in the Matrix to which the data correspond. In the column labeled "Justification for Confidential Treatment," PG&E explains why the material should be protected. The information identified in the table is not already public and cannot be aggregated, redacted, summarized, masked or otherwise protected in a way that allows partial disclosure.

Pursuant to Rule 11.5(b), for the reasons identified above and in Attachment B, PG&E hereby moves that the Commission seal the portions of the evidentiary record included in Attachment A to this Motion.
