BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA

Application of San Diego Gas & Electric Company (U 902 M) for Authority, Among Other Things, to Update its Electric and Gas Revenue Requirement and Base Rates Effective on January 1, 2028.	Rulemaking 26-06-015 (Filed June 15, 2026)

MOTION FOR PARTY STATUS OF CITY OF SAN DIEGO

I. Introduction

City of San Diego ("CSD") respectfully moves for party status in this proceeding in accordance with Section 1.4 of the California Public Utilities Commission ("Commission") Rules of Practice and Procedure.

II. Compliance with Rule 1.4(B)

Rule 1.4(b) provides that a person seeking party status by filing a motion to become a party shall:

(1) fully disclose the persons or entities in whose behalf the filing, appearance or motion is made, and the interest of such persons or entities in the proceeding; and

(2) state the factual and legal contentions that the person intends to make and show that the contentions will be reasonably pertinent to the issues already presented.

CSD seeks Party status in R.26-06-015 to represent its interests as the largest user of electricity and distribution resources in San Diego Gas and Electric Company ("SDGE") territory. CSD has approximately 3,500 electric accounts and 340 gas accounts. These accounts

span every rate class and a comprehensibly wide variety of service schedules. Like many cities in California, CSD has adopted a Climate Action Plan (CAP) in order to address Greenhouse Gas ("GHG") emissions and mitigate the impacts of climate change on its residents and businesses. CSD first adopted its CAP in 2015 and was updated in 2023. CSD's CAP calls for eliminating half of all greenhouse gas emissions in the City and for all electricity to be from renewable sources by 2035. The shift to greater uses of electricity in facilities and operations heightens CSD's interest in rate design and the affordability issues that will be at issue in R.26-06-015.

CSD is also a founding member of San Diego Community Power ("SDCP"), a Community Choice Aggregator. As both the largest single customer of both SDGE and SDCP and representing the greatest number of residential and commercial customers in SDG&E territory, CSD has an interest in ensuring that all San Diego customers have revenue allocations and rates designs which are just, reasonable, and consistent with California policy.

III. Notice

Service of notices, orders, and other correspondence in this proceeding should be directed to the City of San Diego at the address set forth below:
