

NAMING CONVENTION FOR ELECTRONIC SUBMISSION OF SUPPORTING DOCUMENTS

When a party submits supporting documents in a proceeding, each electronic document will need a filename that identifies what that document is. The proposed naming convention is:

- proceeding number (without punctuation – A1311003)
- party (acronyms are acceptable – Southern California Edison = SCE)
- witness (last name – initial or full name if necessary)
- subject

An example of the name would be:

A1311003 – ORA – Laserson – Operational Services Expenses and Capital
