### **Key Energy Agencies Release Aliso Canyon Action Plan on Natural Gas Reliability for Greater Los Angeles Area**

**Sacramento, Calif.** – Leaders from four key energy agencies will discuss today an action plan to address the reliability of natural gas supply in the greater Los Angeles area.

Staff from the California Energy Commission, the California Independent System Operator, the California Public Utilities Commission, and the Los Angeles Department of Water and Power worked together to assess how the Aliso Canyon natural gas storage facility would impact summer electricity supplies in portions of Los Angeles and Orange counties.

The draft plan identifies a range of recommended actions to take to minimize the risk of electrical disruptions this summer.

**WHAT:** Aliso Canyon Action Plan on Natural Gas Reliability in Los Angeles Basin

**WHEN:** Tuesday, April 5, 2016, 11:30 a.m. PST

**MEDIA CALL-IN NUMBER:** 888-790-3363

Password: 1286227

*Note: This teleconference is intended for media only*

**WHO:**

Robert Weisenmiller, chair, California Energy Commission

Michael Picker, president, California Public Utilities Commission

Marcie Edwards, general manager, Los Angeles Department of Water and Power

Mark Rothleder, vice president, California Independent System Operator

The action plan is scheduled to be posted [here](#). The plan will be discussed in-depth at an April 8 public workshop in the Grand Ballroom of the Warner Center Marriott Woodland Hills at 21850 Oxnard Street in Woodland Hills.
